In my former article I stated the evil of the things they know not.

kind of dog I wanted and what I They crowd themselves into places wanted him for; now I propose from which the law of fitness would showing how every farmer may forever har them. Ignorance sits have just such a dog. In the first in judgment over learning, folly place, procure you a shepherd puppy. The first thing you learn him is his wame. The next is, learn him who can work are hindered by men No flower so fair, though other flowers be to come to you whenever you tell who cannot, and men who are full of fair.

Hid in the valley, flaunting on the mead; him, by slupply calling his name, zeal, and love, and high resolve, and held "yome here." Be sure you are cramped, and choked, and held have him come right up to you. back by those who seek to hinder This is a very importent item in what the Lord never honored them training a dog, for various reasons. with ability to perform. If the dog goes wrong or don't un-derstand you, by having him taught this? Let the tools be given to those to come up to you at the word, you who can use them; and let mange can start him right. If you are dogs lie in mangers if they will, handling stock you can keep him and growl and starve over hay out of the way; or keep him from which they cannot eat, while others frightening the stock, which will save a great deat of fretting of the stock, dog and yourself. Also learn him to bark when you tell him to bark which they cannot eat, while others turn aside to paths which Gob appoints to find blessings abounding. speak," and by the motion of your

hand up and down, this is very Wind,
Held fast thy Summer," thus I make my moan,
"My only Summer is the long Winter's gloom,
Who found and lost, ah, foold that one fair bloom."

Who found and lost, ah, foold that one fair bloom." If you want to stop the noise, stop your hand. You can learn him this by holding up a piece of bread, and telling him to speak. At first give U. G. Baker, Commissioner of Immigration for Galveston, reports the arrival at that port, during the arrival at the arrival at that port, during the arrival at that port, during the arrival at the arrival that he stays behind. In talking to my dog I call all cattle, cows; horses. By this I don't have to teach him so many different words. cows: he wondered at this and wanted to know how I trained him to anderstand me. I, of course, told him that it was very easy and sim

my dog to drive up his cows in Of all kinds, in quantities to suit purchasers three days and stand right where I was then-on the opposite side of my house from his pasture. The dog learned it in just three lessons. All I changed the order from my but would have given me the choice of his cows for my dog, and he had other place; where rate and mice frequent, and you will not be bother ed with these pests very much , for a Shepherd-is, an excellent ratter.

with a little encouragement, at last I find them soulis L hope that what little I have said in my poor style, will induce some farmers, at least, to give this subject a little thought, and to try the experiment and see for themselves how valuable an animal a well trained, dog. is. By so doing that may be required for the traope and they may show others the value therein, during the year commencing July thereof, and thereby we may supe 14t, 1872, and ending June 30th, 1874. plant, at least some of those worth. SPECIAL NOTICES.

The N. T. Manufacturing Co., 21 Court land Street, New York, have established as Emporium of Novelties" and utilities for every day use. Agents, male and fem-ale, wanted everywhere, see their adver-tisement in another column.

When the comb acts as a rake, bringing away a roll at pasted libers every time it passes through the hair, baldness would some be inevitable. But even in this case, be arrested, the loss repaired. Lyon's Kathairon, aided by a brisk application of the brash to promote the absorption of the brash to promote the absorption of the brash to promote the absorption of the fluid by the scalp, will stop the thinning out process in forty-sight hours. The roots from which the dead filaments were shed will soon be according to the content of the scale o shed will soon be re-endowep with vitali-ty, and a new growth will speedily spring up on the denuded places. This work of reproduction will go on nutil the damage is completely repaired, and the luxuriant erop of hair thus produced will never wither or fall out as long as the vitalizing application is regularly continued.

But ahe does not preserve and purify them That must be done with fragrant: Sozo DONT. The debtat bone and its ename casing are made invulnerable to all destructive infinence by the daily use of this beneficent preparation.

Sensounble Suggestions.

The heavy mists and cold night dews which obstracterize the present season are very trying to delicate organizations, and in low-lying and swampy localities they produce an enermone crop of intermittent fevers of various types and degrees of inwill be after the usual warm spell of Jau- tonetry. At this very time there are probably half a million of people in the United States suffering from periodical fewers by missmatic fogs and exhalations. What makes the prevalence of this evil the more deplorable is the fact that it might in all cases bei dasily provented. Mainria and damy produce little or no effect open the system pro-fertified by a course of Hostet tor's Stomach Bitters. Every fall and spring hundreds of letters are received from persons residing in fever and some districts, who state that while their neighhere are incanitated for labor by that debilitating disease, they have been happily exempted from attack by the regular use of the great vegetable autidote to missus. As a chloiogopic or specific for intermittent and remittent fevers the Bitters may be finally accounted infallible. They eradinate the complaints in their most obstithe matter, nor that there is any sagacious looking forward to the next municipal election, so next at hand;—Oh no! not a preventive. The amount of productive availt one malaties is immense, and the pecuniary-losses to individuals, families, and the nation from the cause is incalculable. Bear immend that by toning and regulating the system with Heatetter's Bitters before the calamity comes, it may always be escaped; and let it also be remembered. ness, constipation, nervous complaints, and indeed almost all disturbances and derangements of the physical system are controlable by this general restorative. 46

of the purpose of raising an Endowment und for the Benefit of the Confede-ate Cemetery at Murfreesboro, RATE CEMETERY AT MURPHERSBORO, TENN, and the fund will be placed in the hands of the Memorial Association of Mur-freesboro, of which Mrs. 12 D. Wendel 18 President, and Mrs Gen. John H. Morgan President, and Mrs Gen. John H. Morgan is Treasurer, to be used in keeping in re-pair the Confederate Consetery near Mur-freesboro, Tenn.

The drawing will take place under the direction of a Committee selected by the

Shareholders and those present at the drawing, in full view of the audience, and will be by blind children, from 10 to 16 years of age, from two glass wheels, the contents of which can be seen by the audience, one of which will contain the gifts on printed slips in healed boxes, and the other leather tare with numbers on the Shareholders and those present at the nding to all H ter the contents of both wheels are thoroughly mixed by revolving the blind child at the first will draw a number therefrom, and then the child at the second wheel will draw a gift therefrom, and the gift thus drawn will belong to the number drawn immediately before it.

Thus this process will continue until the
651 gifts are drawn, and it is evident that by this mode of drawing, frand, favorition or a knowledge of what gift any number will draw it impossible.

All orders for tickets strictly confidential. Circulars containing full particulars for the order to the under-
