STEMERING & CO., Publis SULIUS W. PAR SLYCK, Editor & Propr ficial Journal of the United States

OFFICIAL JOURNAL OF BEXAR COUNTY. THURSDAY, NOV. 21, 1872.

Too harm! for late! The Herald has been pondering over editorials just come to hand advising everybody to vers for Greeley. The poor have no heart to read them now !" Probably not. But somebody onght to put a mustard plaster on the seat of understanding of the poor old worshipper of Chappaquack, in or-der to get up by irritation a little activity which no longer exists since the heart has been consumed. The socrow of this "organ," as the little an calls it, is something fearful to boutemplate.

Ballrond Redivious. The visit of Mr. Chas. A. Whitney, who represents the Mexican Gulf, San Mattonbo and Pacific Railed, whose report was made yester-day, but too late for this issue. We, however, obtained full information railway company above named soli death or life in this busy age. Are cited aid from this county by a sub- you not ready for the question? diption to its bonds of \$500,000; build the road to San Autonio withma wrecified time, and giving a bond for its completion within that time of \$100,000. The company now represent that railroad iron and material have advanced to price from 25 to 331 per cent, that since the bonds were not to be delivered until the completion of the road they were valueless for the purposes of raising money, and therefore, the company asks to be relieved from its former contract, The committee of terf, appointed by the meeting of Tuesday, we under stand, have agreed to report a pro-position in substance as follows: — The former contract to be annulled. Hexar county to contribute towards the building of the road \$600,000 in interest bearing bonds to be is suit pre-rate upon the completion of every ten interest to be realso the pro-rate for the last ten miles. The pro-rata will be about \$8000.00 per mile, so that the actual forfeit will be \$180,000, should the road not be completed to San Appuis within offers months from the star when by a vote of the citi-of his county, this proposition is accepted. Mr. Whitney has elegraphed to the officers of

the road to ascertain whether this proposition will be acceeded to by was expected last evening. An. but he "bosses the job." other condition made by this committee is, that the road shall be built disset from Quere to this city, instead of being diverted so as to pass through Gonzales, and through the rich agricultumi valley which such diversion would secure to the road, This feature in the proposition is made in order to meet the views of those timid men who imagine, that, should the road once get to Gonzales, it will be cortain to be built to Austin, without de-Antonio will come in on the home stretch for the western trade, military depots, co. In our opinion this is a blunder, based upon fears having no foundation in fact.

Austin can never rival this city as never deal the city as can never rival this city as a depot for western, frontier, or Mexican trade. All its efforts are sure to be spasmodic, temporary, and ultimately fruitless. We should prefer that the road should be built via Gonzales, and thence up the rich farming valley which trends towards this city. It can be deonstrated that such a line will be more benefit to San Antonio than the one which may be run direct,

creased fifteen miles and that is A good joke is told of a little for about the difference—the increased freight of the road will enable it to diminish the freight charges sufidently to mullify this additional distance. Moreover, it will secure the immediate completion of the Columbus road to Gonzales, thus giving us railway communication with Houston and Galveston, and all the northern through lines. The direct route from Quero is selected by the committee upon the supposition that the people who have to east the votes are afraid of Austin, and will vote against the donation, if the road is to run via Gonzales. With a proper understanding of the matter by the people there need be no fear of this. It is only neceskary that there should be a full explanation, and then trust to the common sense of the voters. Two miles of the road toward Gonzales have already been graded and furnished with ties, and no doubt the Rail-road Company would prefer to build upon that line. May not the Committee's proposition be re-considered before the vote is called

To the citizens of this city and county one word. If you are well informed it cannot be doubted that way, to our city, has revived among you have long since determined also that the New Orleans Republican, our citizens a railroad fever which that a rail-road—almost any rail has been intermittant here for road is a necessity to the future many years. Mr. Whitney came on growth and prosperity of this secpertion of our business men. Day the impression that you have ala committee of ten citizens appoint ey for that purpose, and that those sums have been wasted, you are mistaken. You have voted and talked a great deal but as yet your of what was coming, and we lay purses are almost intact. You can the whole matter before the readers not afford to let any opportunity of the Express. Everybody knows slip. It is a question of oxeu, carts that something over a year ago the or steam — which means simply

Great consternation was created the other day at a Church of England missionary meeting at Starcross, by the unexpected remarks made bp "Capt. Peacock, the principal inhabitant of the tewn, who has several times circumsavigated the globe." He knocked the meeting into a cocked hat by affirming, on his own knowledge, that "as a rule the missionaries were bad men, and that their juffuence was most misobjerous." He added that "unless the Bible ware revised, and many passages expunged, Bishop Coleuso's contretemps with the Zulu Kaffir would be often repeated, for the Bible, as it stood, was utterly unfit for circulation among the heathen, and did far more harm than good." After this and offers to enter into a new one. It is not surprising to learn that "the subexciptions were very small."

> A New COTTON GIN .-- In the report of the recent Georgia State Fair, published in the New York Times, we find the following:

served \$100,000 of the bonds in case laland cotton-gins, that is, by the use of rollers, not breaking or tearing the fibre to precisely on the principle. ed by hand, and the cotton gioned by it was pronounced worth one and a half to two couts per pound more for having besh so ginned.

Any one who supposes that "Old Prohabilities" is a griszly old wizzard, whose eyes are bleared by the lightnings and shoulders bent by the storms, is very much mistaken, "Old Prob.," alias Gen. Myer. is a fresh and vivacious youth of thirty, said to be mated with a charming wife, and has one of the most elegant private residences in Washington. Of course, the the company or mot, and a reply General does not regulate the weather alone

> The Houston Union of the 17th cays : We are informed by Mr. Luffler that 500 immigrants arrived in Houston yesterday, upwards of 460 of whom had come ever on the steamship Strasbourg, from Bremen. Some of them went out yesterday by rail, to settle in Colorade and Lavaes counties. Others have gone on to | al reasons for the remarkable improvement Washington, Austin, Payette, Travis and Gillespie, A body of Bohamians will join the Bohemian colony at Wesley, in Austin county.

The New Orleans Bank statement is unfavorable, but not so much so as was genscally anticipated. The present statement is undoubtedly based on declining avera, nine hundred and fifty dollars; and banks ty-five dellars above the 25 per cent, required by law.

Horace Greeley says " he is not in full accord with either of the great parties that have divided this country." The best thing the Greeley electors can do is to tell Mr. Greeley that they are as little in acsord with him as he with them, east their slectoral votes for General Grant and make his election unanimone.

but through a comparatively un-study increased length of the road off of course by so much increase the freights. Say the length is in-

old fellow who, having dischayed his father, was shoul to incur the penalty of a switching. The father deliberately pre-pared a red, while his son stood a sad and silent spectator. As the parent approached to the unpleasant duty, the boy started a brisk run towards a neighboring hill. The father pursued, and for a time the youngster increased the distance between hem; but gradually his strength began to fail, and when he reached the hill and began to ascend, he scon lost his vantage ground. Nearer and nearer the irate father approached, and just as the top of the bill was reached, and he came within arms length of the little fugitive, who was ready o fall from exhaustion, the boy quickly faced about, dropped upon the groudd, and with an indescribable cast of counts sauce exclaimed, "Papa that-makes a fellow-blow-don't it ?" This "changing of the subject" was so extremely ludicrous that the father laughed heartily over the strategy which his hopeful son exhibited. and the rod was not used.

NEW ORLEANS, Nov. 16 .- William P. Kelleg to-day made application to the United States Circuit Court for injunction estraining the State Election Returning Board, composed of H C Warmouth, Jack Wharton, Bank H Hatch, and Durant Duponte, from, in any matter, performing the duties of returning officers of the election of the State of Liouisiana; also that John McEnery be enjoined, restrained, and phited from in any manner acting or pretending to act as Governor of the State of Louisiana, and from making any claim to the office of Governor of said State, etc.; and restrained from in any manner publishing any official notice, document or statement relating to any canvas or state ment of votes made, or in any manner emenating from said protended board of returning officers of election. Judge Ewell ordered that defendants be cited to show canes, on the 19th, Why injunctions, penden te lite, should not issue as prayed for, and in the meantime and until further orders, this Court let restraining orders prayed for, issue against said defendants in form and to the affect prayed for.

Uncle L.—" Now, Sammy, tell me, have you read the beautiful story of Joseph ?" Sam.—"Oh, yes, uncle."

Uscle.—"Well, then. what wrong did
they do when they sold their brother ?"

Bam.—"They sold him tee cheap, uncle,
I think."

A New Chill Cure.

A local of the Terre Haute (fud.) Journal has discovered a new cure for ague. Here it is :

To those afflicted with ague we say emphatically, crawl down stairs head foremost. Laugh at the idea as and Texas Railway, and Atchison, Topeka and Sauta Fe Railway, as may be designated by the bidder, to Fort Sill, Interest Tarritory, and Forts Richardson and at the top of a long flight of stairs, and crawl down on your hands and feet, head foremost. You never did harder work in your life, and when you arrive at the bottom, instead of shaking you will find yourself puffing, red in the face, and prespiring freely, from the strong exertions made in the effert to support your-

nor need you care to know. Try it. It won't cost you near as much as quinine or patent medicines, and if The form of sontract, which can be ob-it fails it will only do what they do tained at this office upon application, every day. If it cures, as it surely will, lay the facts before our local scientists, and let them discover the hearts: "Crawling down stares head

The Key to Health. It is the encest "thing in the world to lose the blessing of health, but when lost in is not so easy to reguln it. The popular idea of fifty years ago that a tremendous scouring of the bowels was an casential al ement of cure in almost all diseases has for tenately for mankind been prettyleffectually exploded. The introduction of Hostatter's Stomach Bitters, nearly a quarter of a century ago, may be said to have given the coup de grace to drastic purgation. The world has learned from the beneficial offects produced by that admirable preperation, that one medicine may embrace the three properties of a tonic, a laxitive, and an alterative : that the three curative procourse of invigoration, purification and regulation may be compassed at the same time by the operation of a single agreable remedy. There are sound, philosophicwhich the Bitters occasion in the condition

which the Bitters occasion in the condition of a deranged and enfeabled system. This pure combination of vagetable juices not only strengthens the atomsch, stimulates the appetite and braces the nerves, butfalso imparts ions and vigor to the secretory organe—as the skin, the liver, and the kidneys;—and if the blood has become too thin and watery to nourish the lody properly, enriches and vitalizes that "raw material" of all the solid pertions of the frame. At this period of the year; when intermittent fevers, billious disorders, atomach complaints, and dysenteric and diarroic silments are always more or less rife, occomplaints, and dysenteric and diarroic silments are always mere or less rife, occasional doses of the Bitters will be found the best safeguard against the atmospheric conditions which generate them. An accession of general viger is secessary to enable the system to reast the morbid industrial the system to reast the morbid influence of the malarious vapors which rise from the earth at this meason, and of all known invigorants, Hostetter's Bitters is the safest and most potent.

DR. C. F. BRAV/N'S Young American Liniment.

HIS Liniment has got ned a lasting re-putation, where it has been used, in ost cases which require an external rem edy, such as rheu swelling of the breast, ', ain and weakness in the back and jointr, sprains, bruises eramps, numbness, few sen limbs, bites of insects, old sores, few sen limbs, bites of insects, old sores, few sen limbs, bites of swelled neck, parallysts, wounds, erysipelas, bites of repailes, headache, white swellings, mange, per ison, burne, all swellings, sait rheam, so cos, warts; sore eyes, run-rounds, due. We daily hear of the most astonishing or res on animals by this excellent remedy, and basard nothing in saying that there never has been its equal as a curative for b orses. We assert positively that it will cure any case of aware in existence: also splint, galls, spraine or strains, brusess, scratches, wounds, big bead, wind galls, sore eyes, swellings, ac.; and has never failed to cure fistula, po evil. ring-bosts and spavis. When used the beginning, strictly according to direc-tions, and given internally with the food, it is a harmless but certain remedy for worms. Do not fail to give it a trial: only

25 cents a bottle, Cuntion .—In order to protect the stamp engraved expressly for it, which stamp will be found on the wrapper over the cork of every battle. It reprehorse held by a groom, and is encircled by the words "Dr. C. F. Brown's Young Ame rican Liniment."

The Harvest of the Head. When the comb acts as a rake, bringing away a roll of parted fibers every time it sees through the hair, baldness would con be inevitable. But even in this case, be arrested, the loss repaired. Lyon's Ka-thairon, aided by a brisk application of the brush to promote the absorption of the fluid by the scalp, will stop the thinning-ent process in forty-eight hours. The roots from which the dead filaments were shed will soon be re-endowep with vitali-ty, and a new growth will speedily spring up on the denuded places. This work of reproduction will go on until the damage etop of thair, thus produced will never wither or fall out as long as the vitalizing

application is regularly continued The N. Y. Manufacturing Co., 21 Courtland Street, New York, have established an "Emporium of Novelties" and utilities for every-day use. Agents, male and fem-ale, wanted everywhere, see their advertieement in another column.

THE NEW ODORLESS, NON-POISONOUS Deodorizer and Disinfectant

The want of a certain and perfect deedorizer and disinfectant capable of destroying all noxious odors and gases, as well as germs of disease and sopile particles in the six has long been felt, and more particularly, one that was free from poissons qualities, so that it could be safely used under all circumstances. circumstances.

BROMO CHLORALUM contains no pol-son, possesses no oder in itself, operates by destroying and not by creating an oder greater than the one to be removed. INVALUABLE as a Gargle in Diphtheria, Sore Throat, Canker, Catarris and

INDISPENSABLE IN SMALL POX, Yelrespect to the second s fectant.

TO REMOVE ALL BAD ODORS of gases and to DISINFECT SICK ROOMS, snapend cloths saturated with its diluted, and put it in all chamber utepsils before use, THIS ODORLESS DEODORIZER ab-

sorbs in an astoristing manner all edors in the Kitchen, in Store Rooms, Pantries, and Meat Safes, by simply suspending cloths saturated with a dilution of it, also, by sprinkling Callars, Sinks, Waser Closers, Sewers, etc. AS A HOUSEHOLD ARTICLE II has no

equal for superficial injuries, Scalds. Burns, Mosquito Bites. Chillblains, Fastid Fees and arm Pite, Bryshpelas, Itolning, and Cataneous Affections. For parifying Barrels, Milk Cans, Babies' Feeding Bottles, and all dishes and utensils that have any bad

USES FOR THE DEAD .- Injected into the orfices of the body full strength, and used externally, it has preserved bodies a ong time, much better than ice.

MOSQUITOS AND FLIES .- It has been discovered among other valuable proper-ties to possess the merit of ridding prem-ises of these household pasts, where it is exposed in open saucers or upon spenges, by purifying the air of the odors and im-purities upon which they live.

POISONS.—From poison Ivy or other veg-etables, from Mosquitoes or other inacets, relieved at once by washing the parts afflicted with it. PUT UP IN PINT BOTTLES. Prepared

TILDEN & CO., 176 William St. New York.

FLUID EXTRACT BUCHU. With Pepsine and Bismath.

A REMEDY FOR DISPERSIA. The stimutating influence of Buchs upthe mucos membrane of the stomach and bowels, has given it reputation in Dys-pepsia. It augments the appetite and pro-motes digestion. In combination with Pepsine and Bismuth when there is a de ficiency in gastric secretion, its beneficial In Atonic Dyspepsis complicated with urin-ary discases, it tends to prevent the mal-assimilation of the food and consequent generation of the sedimentary deposits in the urine, while the diuretic property holds the latter in solution and favors its dis-
