and Somey Motor. W. X. D. C. December 23rd, 1872. REPARATIONS FOR CHRISTMAS. There is something peculiar to the Christmas anniversary, from which spring those nobler senti ments of humanity that warm the heart and inspire the desire to make our friends and the rest of mankind happy. Gifts are tokens of love. This anniversary originated in the gift of a Saviour to the world. The heavenly strains of the angelic TOW is your time to build yourselves thouses. From and atter: this date of Judea, and echoed by the faithful, have been prolouged down to our own time. And how, one of the sweetest pleasures connected with

the commemoration of this Great Gift—the gift of a Redeemer to a lost world-is the presentation of gifts by parents and grand-parents to the little ones, and the bestowomee of love recognized and practised that there are few who do not on this anniversity participate in the two-fold pleasure of giving and receiving tokens of love and extern of the measure growing in both House. The services at this church on Ohristmas Mornfug, will be peculiar; and the fluest, it is intimated, that have taken place in the city for years. The House has passed and sent to the Senate the steam sloop of war Boston relief, Vienna exposition, and the soldiers land bounty bills. The House has also taken one test vote on univer-sal amnest, which fells 101 to 86, and passed a resolution indirectly opposing Mr. Sumper's resolution to remove the names of battles of the rebellion from the regular army flags and register. Both the latter are now pending in the Senate.
The House has also removed the

The Luberers in Sicily,

titute of furniture, their bed a litter of fewls, share their habitations with them, and hence their hovels bwarm with vermin, and the air is loaded with misems. Workmen in the mines, when a village is not within walking distance, some up sut of the dark pits only to pass the night fu holes dug in hill-sides seareely fit for the dens of wild beasts. The English agricultural laborer is but little better off than his Sicilian brother. The cottages providou the unfertunate eccupants' heads, and often centain but one eleeping-room, in which the whole family must herd premiscously. Some of the English journals are pleading for eanitary laws that shall do away with this state of things, which they consider a disgrace to their country. The voiceless has at last a voice to plead for thum. Thinkers all over the world are beginning to recognize that it is the duty of our century to see that poverty is no lenger coupled with degredation.

Greeley's Idea of Journalism. Many years since, Mr. Greeley thus declared his opinions of the province of a true American journal:

My leading idea was the establisment of journal removed alike from servile partisanship on the one hand, and from gagged, minoing neutrality on the other. I believed there was a happy medium between these extremes-s position from which a journalist might openly and heart ily advocate the principles and commend the measures of that party to which his convictions allied him, yet; frankly discent from its course on a particular question, and even denounce its candidates if they were shown to be deficient in espacity or that "the day is near at hand when grass (far worse)in integrity. I felt that a journwill grow in the principal etreets of San al thus loyal to its guiding convictions, Antonio," &c. ? We now witness the first yet ready to expess and condemn unndication of the possible fulfilment of worthy conduct or incidental error on the that prephesy. Within the past two part of men attached to its party, must be far more effective, even party-wise, then though it might always be counted on to appland or reprebate, bless, or curse. as

This advice, given by binff Captain Cut-tle to the fortern. Mr. Poets, is cordially tendered to all we are inhering under that cloud of depression and melancholy which usually accompanies chronic indigestion, bilingumen. Inbitual countination and ner-yous debility. "Cheer up." wee-begons in-valids. The causes of your gloomy feelings, though they may be chronic and of long standing, are not incurable. A course of Hostetters Stomaca Bitters, the purest and most genial of all vegetable stimulants and sorrectives, and uspecialy adapted to cases like yours, will relieve you of your bodily ailments and convequent mental misery, apeedily, certainly, and without pain. The shills and damps of the present season, in fact, all its atmospheric conditions, are unfavorable to dyspeptic, bilions and nervous sufferers. They need a stimulant, as well as a tonic and alterative. This wholesome vegetable preparation combines the three. While it increases the digestive capacity of the stomach, and changes and regulates the condition of the liver and the bowels, it gives an agreeable impulse to the mental falulties and steadies the nerves. Unmedicated stimulants are never advisable; they are too exciting, and often react dis-actrously. On the other hand the sham tonics which contain no diffusive stimulast, and are surcharged with drastic evacuaments that almost turn a man incide out, are dangerous. The system needs more vitality, and they prestgate itemtripy. Hostette's Bitters has no affinity either with the dangerous excitant or the still more dangerous depletent. It simply strength ens and regulates the body and clears the mind. This is the whole ascret of its ones.

Fer ourselves, without pretense to cultivated judgment, we were impressed more faverably than we ever were by the playing of "Ole Bull," whem we have heard several times. Delgade's touch is finer, more exquisite, and exhibits a higher culfivation in his art than "Ole Bull's. Their styles are entirely different. "Ole Bull's is the music of the terrent, the avalsamele, or "the clash of resounding arms."

Delgado's is the warbling of birds, the rippling of waters, the song of zephyre, or the sighing of winds in the pine forest. The one arouses, excites, astonishes: the other delights by calling into activity all soethe"-almost any kind of breast.

We daily hear of the most astenishing cures on animals by this excellent remedy, and hazard nothing in saying that there never has been its equal as a curative for horses. We assert positaxely that it will cure any case of aweeny in existence; also splint, galls, sprains or strains, bruises, scratches, wounds, big head, wind galls, sore eyes, swellings, &c.; and has never failed to cure fistula, poli-evil ring-bone and spavin. When used in the beginning, strictly according to directions, and given internally with the food, it is a harmless but certain remedy for worms. Do not fail to give it a trial: only

To Physicians! BLIXIR IODO-BROWIDE OF CALCIUM, COMP. (For Internal Use.)

Medically used in Scrofula, Scrot ulous Abcesses and Swellings, and all diseases of the blood true to a scrofulous diathesis; in Cancer and Cancerous Tumours, Caries or diseased bone; Bronchial and Throat Affections; Pulmonary Degeneration, Erysipelas, Salt Rheum, Scald Head, and Cutaneous affections; in Neuralgia and Rheumatism, and particularly efficient as an anti bilious remedy to combat what is commonly called "Liver Complaint."

Dr. L. Rogers states that in his practice he was called to see a patient who was attacked with pain and swelling of the hip, simulating acute rheumatism, which finally culminated in a large abscess which required opening. Abscess after abscess ap peared, five in all.—Suppuration profuse and portions of the dead bone extracted from day to day-suffering intense. from day to day—suffering intense. At this stage he commenced the use of the Elixir, and when fully under its influence patient made a rapid recovery. He says: "I gave him no other medicine, only as was necessary to correct the disturbed condition of the ascretious; consequently the combatment of the disease must be attributed to the influence of the 'lodo Brom-

"I have since used this new agent in large number of cutaneous diseases, and am highly gratified with its effect. I consider it a valuable acquisition to our thera-peutical agents, and could not think of be-

ing without it."
In Rheumatism and Piles .- Dr. X. T BATES, in a commination to the "Journal Materia Medica," says: "I have found the Elixir Iodo-Brounde Calcium, Compound, Elixir Iodo-Bromide Calcium, Compound, by far the most satisfactory alterative I over used. In the treatment of Rheumatism and Piles it has proved itself a powerful and useful remedy and a valuable acquisition to the 'Materia Medica.'"

Is Neuralga and Otorrhena.—8. R. Niss-LT, M. D., Pemberson, Ohio, says: "I have recently used the Iodo-Bromide of Calcium, Compound and have been lightly cratified.

Compound, and have been highly gratified with its action."

In Chronic Irritable Ulcer.—Dr. S. H.

POTTER, says:"It has proved itself in every case a very valuable and potent remedy.

I have been using it on a Chronic Irritable Ulcer on my own person, arising from a severe concusion five years since. Singular as it seems, nothing else promotes heal-thy granulations, nothing else can be tol-erated, and yet this acts like a charm.

"Both internally and externally, I found it more efficacious than any other nedicine that an experience of forty years

enables me to select."

In a Case of Scrolulous Abscess.—Dr. F. M.
HARVEY, Ontario, Canada writes: "The
Elixir of Indo-Bromide Calcium, Compound, is a magnificant remedy. I am using
it with marked success in a case of Scrolulous Abscess in the upper part of the femur. I think more of this remedy than of mur. I think more of this ramedy than of all the many alteratives I have noticed in medical journals for the last two years."

Is a Case of Cancer,—H. H. Pirrick, M. D., Ratland, Vt., writes: "I am asing the Iodo-Bromide of Calcium, Compound, as a lotion, and the Elixir of the same internal-

lotion, and the Edition of the same internative, with the happiest results. They have far exceeded my expectations. My patient is greatly improved, and able to walk about his room.
