

Editorial Journal of the United States... OFFICIAL JOURNAL OF BEAR COUNTY... A. SIKKING & CO., Publishers.

TUESDAY, JAN. 21, 1873.

The Newly Elected City Council have started on in a manner which upon the whole will meet the approval of our citizens.

It is a matter of course that the selection of officers yesterday to secure good men. We think better selections might have been made in one or two instances, but we reserve criticism until these shall have had opportunity to exhibit their good and bottom.

CHARITY and amusement can be held in hand with those who purchase tickets for the concert to be given to-night at the Charity Hospital.

The State Constitution. The State Convention, which opposes the proposition made by certain Democratic newspapers to call another Constitutional Convention for the purpose of forming a new Constitution.

The bodies heretofore assembled for such purposes have scarcely reached the average wisdom and decorum of the Legislature, and that may be regarded as a fair estimate.

The Southern States. The Southern States are growing in population and character of that railway center suddenly grown to importance.

but that is no criterion of its influence abroad. The Bourbon newspapers are in fact doing us more damage than good, because their blood and thunder articles are the only ones ever re-published in the northern papers.

In short, if Galveston had one-half the enterprise and brain of Denison, proportioned to its population, it would be to-day the commanding commercial depot of the State.

Notes from Washington. Boutwell's Sensation—The Sandwich Island—A slippery Indian Agent—The Cuba Question—San Domingo—Cuba Notes.

Both Houses of Congress met to-day for the first time since the holidays, and proceeded with the business of the session.

On motion of Senator Scott the committee on Finance were instructed to inquire into the authority of the Secretary of the Treasury, to issue United States notes in lieu of forty-four millions cancelled and returned under act of Congress.

The Senate passed the bill for the relief of the public debt for December has not yet been passed. It was the topic of conversation among members of Congress this morning.

The immediate cause of the increase of the indebtedness on the present occasion arises from the fact that the drafts on the Treasury have been unusually heavy, while the receipts have been light during December.

Shirring and important news may be looked for from the Sandwich Islands. The death of their King without leaving a legal or appointed successor, throws the government into the hands of the people who are now at liberty to make their own choice of their future ruler.

On the death of the King, without a successor, the people are sovereign, and it is not a matter of surprise if they do not inaugurate a movement in the direction and spirit of their former efforts.

to receive and carry out sealed instructions for anybody. There will be no quarrel over this affair, and while the people will be allowed the full exercise of their own will as to their future, a vigilant watch will be maintained to prevent for signs of insubordination that might prove injurious to American interests.

John W. Wright, of Washington, D. C., is one of the most slippery defaulters the Government has ever attempted to bring to justice.

There is a growing determination in Congress to authorize the Government to extend belligerent rights to Cuba. The patriots have sustained themselves during the last four years, and are gaining strength, while the government is steadily growing weaker and more inefficient.

There is no longer any doubt that a portion, at least, of San Domingo has, by force, been brought under the control of American capitalists.

The past week has been unusually gay in society circles. The old Knickerbocker custom of making New Years calls upon the ladies, was carried out in Washington to its fullest extent.

THE Shareholders of the Company are requested to pay the assessment of 15 per cent on their shares at once, in order to pay freight and charges on material arrived in Victoria.
