----A Dangerous Atmosphere.

The great stmospheric wave which, the meteorologists tell us, sweeps over the whole United States from the Pacific coast at this season, is loaded with unwholesome vapers that chill the bedy and disturb all its functions. Perspiration to checked, the stomach is deranged, the bowels and the liver sympathise with that organ, the nerves and assesses are affect ed, pulmonary complaints are engendered, and the spirits are more or less depressed. These are the common effects produced by the moist, ungenial winds prevalent in the winter months. But if the system is toned and fertified in advance with Hostetter's Stomach Bitters, no danger sed be apprehended from any condit of the atmosphere.
