PARTING.
Kiss me, darling! darling, kiss me!
Press your lips close, close to mine!
There's a mist before my vision,
And swift tears are blinding thine.
Press me tightly to your heart, love!
Dear, brave heart, so true and strong,
Striving ever for the right, love,
Battling ever 'gainst the wrong.
My breath comes slow and faintly,
And I hear the flowing tide,
And I see a spirit-boatman
Coming from the other side.
The mystic craft glides onward,
With a pale, unearthly gleam;
And it seems a heavenly vision
Coming to me in a dream.
Nearer, nearer it approaches;
Now the keel rests on the sand,
And the spirit-boatman beckons,
Beckons with his outstretched hand.
His face is brightly glowing
With a tender love divine,
Love for me who goeth with him—
Love for you we leave behind.
He is calling: Kiss me, darling!
Loose your clinging arms 'embrace!
I feel your falling eyes, love,
But I cannot see your face.
The water runs cold, love;
Yet for me there is no rest
For a loving voice is calling me
With accent sweet and clear.
We are drifting—slowly drifting—
And the tide is rising high;
The boatman holds me by the hand:
Good-bye, dear love! Good-bye!

Josh Billing's Experience With Lager Beer.
I have finally come to the conclusion that lager beer as a beverage is not intoxicating. I have been told so by a German, who said he had drunk it all night long, just to try the experiment, and was obliged to go home sober in the morning. I have seen this same man drink eighteen glasses, and if he was drunk he was drunk in German and nobody could understand it. It is proper enough to state that this man kept a lager beer saloon and could have no object in stating what was not strictly true. I believe him to the full extent of my ability. I never drank but three glasses of lager beer in my life, and that made my bed tonight as it was hung on the end of a string, but I was told that it was owing to my bile being out of place; and I guess that it was so, for I never bitched over was than I did when I got hum that night. My wife that I was going to die, and I was afraid that I shouldn't, for it seemed as though I should have ever eaten in my life was cummin to the surface, and believe that if she hadn't pulled off my boots just as she did, they would have cum thundering too. Oh, how sick I wuz! Fourteen years ago, and I can taste it now. I never had so much experience in so short a time. If any man should tell me that lager beer was not intoxicating, I should believe him; but if he should tell me that I wuz drunk and didn't have any hat, and tried to open the door by the bell-pull, and hiccupped awfully, and saw everything in the room trying to get around on the back side of me, and in sitting on a chair I did not wait long enough for it to get exactly under me when I wuz going round; and I set down a little too soon and missed the chair about 12 inches, and couldn't get up soon enough to take the next one that came along; and that ain't all; my wife said I wuz drunk as a bear, and, as I sed before, I began to spin up things freely. If lager beer is not intoxicating it used me most almighty mean, that I know. Still I hardly think that lager beer is intoxicating, for I have been told so; and I am probably the only man living who ever drunk enny when his liver was not plumb. I don't want to say anything against a harmless temperance beverage, but if I ever drink enny more it will be with my hands tied behind me and my mouth pried open. I don't think lager beer is intoxicating, but if I remember rite, I think it tastes to me like a glass of soap suds that a pickle had been put to soak in.

A VERY devout-looking Bible-peddler called upon a Detroit widow, and proposed to sell her one of his works of holy writ. She refused to buy, whereupon he proposed marriage. The vigorous widow has all her chairs at the factory being repaired, and Bible peddling in Detroit is at a discount.

A MEDICAL writer says the healthiest position to lay in is with the head to the north. People who own hens should bear this fact in mind.

A Quakeress, jealous of her husband, watched his movements, and one morning actually discovered the truant kissing and hugging the servant girl. Broad Brim was not long in discovering the face of his wife as she peeped through the half-open door, and rising with all the coolness of a general officer, he thus addressed her: "Betsy, thee had better quit peeping, or thee will cause a disturbance in the family."

Of all the birds that please us with their lays, the most popular is the hen.

Owing to the careless changing of two labels by a Peoria clerk, an old lady in that city has been swallowed a rheumatism-tincture three times a day, and an old gentleman has rubbed himself with blue pills until he can slide up and down the side of the house when the weather changes like a thermometer.

A reporter last week, in recounting a death, said, "the deceased lady died suddenly, without medical assistance, which came too late." To die without medical assistance is hardly complimentary.

Keep doing, always doing; and whatever you do, do it with all your heart, soul, and strength. Wishing, dreaming, intending, murmuring, talking, sighing, and repining, are all idle and profitless employments. The only manly occupation is to keep doing.

There is nothing purer than honesty; nothing warmer than love; nothing brighter than virtue; and nothing more steadfast than faith. These, united in one mind, form the purest, the sweetest, the richest, the brightest, and most steadfast happiness.

"I would advise you to put your head into a dye-tub, it's rather red, and a loker to a rather sandy-haired girl. "I would advise you to put yours into an oven, it's rather soft," said Nancy.

A Few Timely and Sound Suggestions.
As hydrophobia has again made its appearance in our city, it might be well enough to print the measures recommended by the Council of Hygiene, at Bardonia, for the better protection of people against the danger of hydrophobia. The instructions are as follows:
A short time, sometimes, two days, after madness has seized a dog, it creates symptoms in the animal which it is indispensable to recognize.
1. There is agitation and restlessness, and the dog turns himself continually in his kennel. If he be at liberty he goes and comes, and seems to be seeking something; then he remains motionless, as if waiting; then starts, bites the air, as if he would catch a fly, and dashes himself, howling and barking against the wall. The voice of his master dissipates these hallucinations. The dog obeys, but slowly, and with hesitation, as if with regret.
2. He does not try to bite, he is gentle, even affectionate, as he eats and drinks, but gnaws his litter; the ends of curtains, the padding of cushions, the coverlets of the beds, carpets, etc.
3. By the movements of his paws about the sides of his open mouth, one might think he was trying to free his throat of a bone.
4. His voice undergoes such a change that it is impossible not to be struck by it.
5. The dog begins to fight with other dogs. This is a decidedly characteristic sign, if the dog be generally peaceful.
The three symptoms last mentioned indicate an advanced period of the disease; and that the dog may become dangerous at any moment, if immediate measures are not taken. It is best to chain him up at once, or better still, to kill him.
The Boston Medical and Surgical Journal suggests that this advice be inserted at least once a year, in the public papers. It would seem particularly desirable and practicable that these rules should be printed on the back of the notices and receipts for dog taxes. These excellent measures ought to be generally adopted.

The Daily Express

JULIUS W. FAR SLYER, Editor & Proprietor. Official Journal of the United States. SATURDAY, JULY 12, 1873.

To the Republicans of Bexar County. As Chairman of the Republican Executive Committee of Bexar County...

Bledsoe and the International Bond.

During the past week the International Bond question came up for decision before the District Court of Travis county. All the points raised were decided in favor of the Company and against Comptroller Bledsoe.

The decision of the presiding Judge, was, however, to the effect that Hon. Alexander had no standing in the case and he was therefore not permitted to intervene.

We have previously published the decision of the Supreme Court of Texas and of the United States on the questions involved in this suit, and from them it is plain to any person of common intelligence that neither Bledsoe nor the Attorney General have any prospect whatever of success in the appeal they have seen fit to take.

And if he were even to succeed in proving that some of those who voted for the subsidy actually were bribed, it does not necessarily follow that the law is null and void. Has a court of justice jurisdiction to enquire how laws are passed, if the requirements of the constitution have been complied with?

With the citizens of Western Texas this International bond question is one of vital interest. The mulish obstinacy of the Comptroller is the principal cause of the failure of the International to complete the road to this point.

As a result of the failure of the International to complete the road to this point, the natural circulation of trade and commerce through the great State of Texas. All portions of the West suffer from it, two or three hundred thousand tax-payers are anxiously awaiting the final decision of the question, while one or two individuals are amusing themselves at our expense, causing much delay and incalculable expense by tedious and unnecessary litigation, the inevitable result of which must be as evident to them as it is to every body else.

We hope that the International will take Mr. Bledsoe by his capacious ear and make him sensible of his mulish propensity by compelling him through the courts of the country to make good the damage the Company has sustained.

Prickly Fevers.

APPLICATION.—Our brethren of the Texas press apply our teachings as it suits their notions. We have to reply that our cause is only intended for those whose heads they fit, and that if any one, to whom others apply them, is not guilty, then they are by no means intended for him.—Telegraph.

The Texas clippings of the Telegraph are very judiciously selected. A FRONTIER correspondent who saw Capt. Jack after his capture, remarks that his appearance would have been better if he had been washed before he was ironed.—Ex.

First of all, he should have been hung out on a limb to take the starch out of him.

WE DO NOT receive the Daily Gazette regularly, a circumstance we regret very much, particularly as the "Houston Mercury" never fails.

In reference to the "Mercury" we feel very much like the gentleman did toward his ancient sweetheart when he said: "Amelia dear, seeing you remind me of some ancient ruin hallowed by time and a thousand pleasing recollections."

Should the Democratic State Convention be held here I am authorized upon good authority to say that Dallas can accommodate fifteen hundred delegates. The press here.

WE had no idea that there were so many distilleries in that section of the State.

To Physicians!

ELIXIR IODO-BROMIDE OF CALCIUM, COMP. (For Internal Use.) Medically used in Scrofula, Scrofulous Abscesses and Swellings, and all diseases of the blood traceable to a scrofulous diathesis; in Cancer and Cancerous Tumors, Caries of diseased bone, Bronchial and Throat Affections; Pulmonary Degeneration, Erysipelas, Salt Rheum, Scald Head, and Cutaneous affections; in Neuralgia and Rheumatism, and particularly efficient as an anti-bilious remedy to combat what is commonly called "Liver Complaint."

Dr. L. Rogers states that in his practice he was called to see a patient who was afflicted with pain and swelling of the hip simulating acute rheumatism, which finally terminated in a large abscess, which required opening. Abscess after abscess appeared, five in all.—Suppuration profuse, and portions of the dead bone extracted from day to day—suffering intense. At this stage he commenced the use of the Elixir, and when fully under its influence patient made a rapid recovery. He says: "I gave him no other medicine, only as was necessary to correct the disturbed condition of the secretions; consequently the combatment of the disease must be attributed to the influence of the Iodo-Bromide."

"I have since used this new agent in a large number of cutaneous diseases, and an highly gratified with its effect. I consider it a reliable auxiliary to our therapeutic agents, and could not think of being without it."

In Rheumatism and Piles.—Dr. X. T. BAKER, in a communication to the "Journal of Materia Medica," says: "I have found the Elixir Iodo-Bromide Calcium, Compound, by far the most satisfactory alternative I ever used. In the treatment of Rheumatism and Piles it has proved itself a powerful and unobtrusively and a valuable auxiliary to the 'Materia Medica.'"

In Neuralgia and Ophthalmia.—S. E. NIELLY, M. D., Pemberton, Ohio, says: "I have recently used the Iodo-Bromide Calcium, Compound, and have been highly gratified with its action."

In Chronic Irritable Bowel.—Dr. S. H. POTTER, says: "It has proved itself in every case

BROMO-CHLORALUM.
THE NEW
ODORLESS, NON-POISONOUS
Deodorizer and Disinfectant.

The want of a certain and perfect deodorizer and disinfectant capable of destroying all noxious odors and gases, as well as germs of disease and septic particles in the air, has long been felt, and more particularly, one that was free from poisonous qualities, so that it could be safely used under all circumstances.

BROMO-CHLORALUM contains no poison, possesses no odor in itself, operates by destroying and not by creating an odor greater than the one to be removed.

INVALUABLE as a Gargle in Diphtheria, Sore Throat, Canker, Catarrh and Foul Breath.

INDISPENSIBLE IN SMALL POX, Yellow Typhoid and Scarlet Fever; Cancers, Foul Ulcers, Discharges of all kinds, and all contagious diseases, both as a disinfectant to neutralize fever poisons, and as a disinfectant.

TO REMOVE ALL BAD ODORS or gases and to DISINFECT SICK ROOMS, suspend cloths saturated with its diluted, and put it in all closets, attics, and before doors.

THIS ODORLESS DEODORIZER absorbs in an astonishing manner all odors in the Kitchen, in Store Rooms, Pantries, and Meat Safes, by simply suspending cloths saturated with a dilution of it, also by sprinkling Cellars, Sinks, Water Closets, Sewers, etc.

AS A HOUSEHOLD ARTICLE it has no equal for superficial articles, Scalds, Burns, Cuts, Bruises, Ulcers, Foul Feet and arm Pits, Erysipelas, Itching, and Cutaneous Affections. For purifying Barrels, Milk Cans, Bubbles, Feeding Bottles, and all dishes and vessels that have any bad odor.

USES FOR THE DEAD.—Injected into the orifices of the body full strength, and used externally, it has preserved bodies a long time, much better than any other.

MOSQUITO AND FLIES.—It has been discovered among other valuable properties to possess the merit of ridding premises of these household pests, which it is exposed in open air or upon sponges, by purifying the air of the odors and impurities upon which they live.

POISONS.—From poison ivy or other vegetables, from Mosquitoes or other insects, relieved at once by washing the part affected with it.

PUT UP IN PINT BOTTLES. Prepared only by

FLUID EXTRACT BUCHU,
With Peppine and Bismuth.

A REMEDY FOR DYSPEPSIA.

The stimulating influence of Buchu up on the mucus membrane of the stomach and bowels, has given it reputation in Dyspepsia. It augments the appetite and promotes digestion. In combination with Peppine and Bismuth when there is a derangement in gastric secretion, its beneficial effects are decided and really wonderful. In Atonic Dyspepsia complicated with urinary diseases, it tends to prevent the mal-assimilation of the food and consequent generation of the uric acid deposit in the urine, while the diuretic property holds the latter in solution and favors its discharge.
