The shouts had ceased, and ten thousand upturned faces watched the diminishing object intently, when the basket was seen to sepa rate from the sack, which hung and wavered about in one spot for half a moment or so, while the backet and man were shooting downward with the velocity of a cannon shot. As the vast throng of witnesses comprehended the frightful tragic spectacle, a thrill of intense horror spread through them, as from among them issued one widespread sup pressed groan of agony, for all

eemed too terror stricken to shriek. Of course there was no such length lines describing it. From the in-stant of the disaster to the balloon till he struck the ground, the time was not probably more than 15 seconds, as measured off on the

watch dial by the second hand. At the hight of 500 or 600 feet from the earth, the unfortunate man got separated from the basket—in fact it appeared as if he leaped from it intentionally. This certainly made no difference as to the fatality of the fall. The concussion must have killed him just as quickquickly had he struck the earth with the basket beneath him. Won derful as it may seem, from the time he sprang from the basket his kind from that which transpired in position in the air remained erect, feet down, till he struck, notwithrible event, the like of which, in its standing the greater weight of the peculiar thrilling character, has head and body, which causes most never before occurred in any city in human bodies to turn and fall head our country on the 4th of July or first. This is owing to the report that madame was actuated not so much by her grievances as by her regard for another party. It is asserted that during the Franco-Prussian war, while nursing her husband back to life, she bestowed some care upon a brother officer, and in time, as it is alleged, became anxious to bestow her hand upon him. Hence, say the authors of the report, her hacte in securing an at solute divorce from the baron, with leave to marry again. Now another element is introduc

The referee is not willing to tell anything concerning pro ceedings which took place before him, but has no nesitation in saying that they were entirely regular, sa far as he known, and that the decree is, he believes, valid in every respect.
