Official Journal of the United States

OFFICIAL JOURNAL OF BEXAR COUNTY.

A. SCHIRMER & CO., Publishers.

FRIDAY, AUGUST 1, 1873.

To the Republicans of Texas
County.

As Chairman of the Republican Executive Committee of Bexar County, I pur-sue to the call for the Republican State Convention, to be held at San Antonio, on Wednesday, the 1st day of August, 1873. I hereby call upon the Republicans of Bexar County to assemble in mass meeting at the Firemen's Hall, San Antonio, Texas, on Saturday, the 2nd day of August, 1873, at eight (8) o'clock P. M. for the purpose of electing nine (9) delegates to the State Convention.

A. J. LEWISWOOD,
Chairman Rep. Ex. Com. Bexar Co.

We are authorized to announce FRANK NEWTON as a candidate for the office of District Clerk of Bexar Co. at the next election.

We are authorized to announce SAM. S. SMITH as a candidate for District Clerk at the ensuing election.

We are authorized to announce JAS. R. SWETT as candidate for the office of Justice of the Peace, precinct No. 1, as soon as the same receives the approval of the Democratic Convention.

Lawlessness and Crime.

The civil results of the abolition of the State Police have become apparent to all. Nearly all the tax-paying citizens are of one mind on this subject. They wish to see human life more sacred than it is at present. They have got beyond that point in the history of Texas where the daily sacrifice of human life was passed over in silence.

They do not wish to see a return of the old days when the pistol and the bowie knife supplanted the action of the courts of the country. The people have suffered much, thought more, and learned still more.

They are beginning to believe that it is true that nothing good can come of the Democracy. They have seen the taxes increased by men elected by the clamor of reform and retrenchment. They know that under Republican management their children attended free schools and they are too intelligent not to understand that the system was good. They know too, that under Democratic rule there will be visibly no free schools.

All that was bad enough, but the ever-increasing tide of lawlessness is doing more than anything else to make the people of Texas cherish the Republican party. The State Police had some bad men in it, and they have nearly all been murdered, but the institution was an excellent one. It is difficult to find two or three hundred brave, honest men to risk their lives with the worst desperadoes in the world at a salary of sixty dollars a month.

The bad men among them were rare exceptions, while the benefit the force did the country is not to be calculated in dollars and cents.

The people are beginning to have this taught them by the best of teachers, viz., experience. We have but to point to the counties of DeWitt, Goliad, Karnes, Victoria and other places where the civil authorities are almost powerless to defy the heads of highway robbers that are a terror to the country.

The laws are powerless, the executive officers of the courts are unable to execute them, in some cases such complete anarchy exists that the citizens have to form vigilance committees.

What do we see in Kerr county?

The citizens are obliged in defense of their lives and property to abandon their pursuits and organize a campaign against these offspring of the destructive policy of the 13th Legislature.

These citizens pay taxes and comply with all the other duties of citizenship, but the State can give them no protection.

It is believed that not less than twelve or fourteen murderers and thieves have been shot and hung in that vicinity alone. We may all say "we deserved them right."

But what kind of a state of society is this? Does this encourage immigration? Is the law to remain beneath a dead letter? In this state of affairs not calculated to have a disastrous effect on the rising generation, when they see their fathers playing Jack Ketch every once in a while.

In other parts of the State we read of court-houses being burnt or prisoners taken from the custody of the Sheriff by armed bands of outlaws.

This is an evil that will not do-

crease with an extraordinary effort on the part of the officers whose duty it is to remedy it, and, as we have already said, they are helpless to do so.

The truth is we have too much liberty for the convenience and safety of the better part of the population. It is a matter of vital importance that we have a State Police, and in this view tens of thousands of Democrats will concur.

Texas affords greater opportunities for criminals to escape arrest than any other State in the Union. Our immense area, the scarcity of population, and the consequent absence of railroads and telegraphs, the number and desperate character of the enemies of society made the State Police or a similar organization a necessity. How a German can disapprove of a State Police is a mystery. In that country where the administration of justice is so perfect that a criminal hardly ever escapes arrest and conviction there is a regular mounted State Police.

We are authorized to announce SAM. S. SMITH as a candidate for District Clerk at the ensuing election.

We are authorized to announce JAS. R. SWETT as candidate for the office of Justice of the Peace, precinct No. 1, as soon as the same receives the approval of the Democratic Convention.

Texas News and Views.

BANQUO's ghost, or the repudiation of the International Bonds, will be at the Democratic Convention.

HON. JNO. W. FORNEY, of the Philadelphia Press, will deliver an address at the Marshall County fair.

THE Telegraph is in favor of a registration of all the births in the State.

A carefully kept register of all the murders and robberies would be more instructive.

"Hon General," who murdered Deputy Sheriff Blankenship at Waco, surrendered to his pursuers, but attempting subsequently to escape, was riddled. His real name is supposed to be "Lasson."

AN UNSUCCESSFUL attempt was made to burn the Court-house at Waco with kerosene.

The Grand Jury had recently found many true bills.

POLITICS and camp-meetings flourish in Panola County.

The Indianapolis Bulletin is offered for sale.

A MAN named Duckett was killed on Duck Creek. Bad day for ducks.

In Waller County the worm is destroying the cotton.

THE United Friends of Temperance held a State Council at Tyler on the 2nd of July. The number of working councils having nearly doubled. There are now 301 councils and near 40,000 and 20,000 youth attached to the Bands of Hope. No wonder the Germans organize.

IN Collin county Mr. Lillard shot and mortally wounded his father-in-law, Mr. Jack Tucker, an old pioneer of the county.

BRICK FOMBERG was in Sherman on the 24th.

THE Indians made a raid upon Flat Top Ranch, capturing twelve of Dick Roberts' horses and one hundred belonging to Mr. Christen, as we learn from the Grayson Vidette.

A GERMAN named Teuber, at LaGrange, committed suicide deliberately by shooting himself through the head at the grave of his wife, who died about one year ago, and whose loss he deeply mourned.

WE have never applied the epithets of "minnows and mew" to the managers and editors of the News, though it seems we might have done it with great propriety.—Statesman.

The foregoing is from the reply of the Statesman to the News. To be candid about it Josselyn holds his own very well in the fight.

JOHN DAVIS is expected home about Wednesday next.

Very heavy rains in Austin.

General News.

London, July 26.—In the House of Commons, Viscount Enfield, Under secretary of foreign department, states to answer to the question whether any possibility existed that the Carlists would be recognized as belligerents, that the Carlists were undoubtedly gaining ground, but not to entire belligerent rights.

MANN, July 26.—The government troops attacked Valencia yesterday after a desperate five hours fighting struggle, suspended and insurgents offered to capitulate, but the terms were refused, the Government demanding unconditional surrender. Heavy reinforcements have gone on, and the attack will be renewed and the town bombarded to-morrow if the insurgents don't yield. Seville also proposed to return to its loyalty to meet the Government on certain terms, but as in case of the Valencia Government they will not accept, nothing less than unconditional surrender. It is believed the insurgents will soon give up the city unless relieved.

SAN FERNANDO was attacked Friday by the insurgents from Cadiz. The royal garrison made brave and successful defense, and in the evening the insurgents withdrew.

HONG KONG.—A detestable typhoon visited Amoy July 31st. Great damage was done to foreign property and shipping harbor. The telegraph cable between Amoy and Shanghai is broken.

LONDON, July 26.—The Bishop of Peter-

borough is seriously ill.

The cholera has appeared at Helsingborg south of Sweden, opposite Elsinore.

Moscow, July 26.—Cortes has declared in favor of abolishing capital punishment. The Carlist forces which threatened Bilbao has retired.

—ALSO—

Large stock of Imported and Domestic Cigars, Virginia Smoking and Chewing Tobacco.

To be sold at small profit. (24-7-73)

Don Carlos is reported to be at Aneas, in the Province of Lagron.

The railroad from Madrid to Valencia is cut in several places.

A meeting of Intramontane at Alcañiz, in Aragon, was broken up, and twenty-four persons arrested.

PARIS, July 28.—At a fight near Pamplona, the Carlists captured two guns and three hundred prisoners.

MANITOBA, July 29.—The Court has refused bail to the Lord Gordon kidnapers.

MATAMOROS, July 28.—The Vice Publico of this city, states that a revolution is imminent. In the State of Nueva Leon there are three aspirants for Governor in that State, and there being no choice by the people, the election will devolve on the Legislature, which will meet in Monterrey in September next. So intense is party hatred, which originated in the revolution last year, and which has been revived again in the present political contest, that an outbreak is regarded as inevitable.

Private advice state that prominent residents of Monterrey are already preparing to leave that city to avoid being implicated in the threatened troubles.

—WHAT A FOOL HE IS.

The story copied below, from the St. Alans Messenger, comes from North Hero, Vt.:

"A hen belonging to Mrs. Mayo, of this place, hatched a brood of chickens. They took the chickens away, but the hen persisted in returning to her nest. Below the nest, in a grain house, a cat produced a litter of kittens. The cat leaving her charge a few minutes, tidy sat herself very componibly upon the kittens. Puss returned, a fight ensued, in which puss was victorious. Afraid of what might happen, puss remained in charge until compelled by hunger to go after food, whereupon tidy resumed the care of the kittens. Puss returning, and having a vivid remembrance of what she suffered at the first encounter, concluded to allow tidy to remain. This she did until it was discovered that she had smothered some of the kittens, when the latter were removed, and given to their rightful guardian."

—ANCIENT EGYPTIAN MINES.

Some of the iron mines anciently worked by the Egyptians have been recently discovered anew by English explorers, and search is to be instituted for other ancient mines of silver, gold and iron. As the processes followed in ancient times for the reduction of ores were very defective, it is expected that in the debris accumulated in the neighborhood of the mines an amount of useful and precious metals will be found sufficient to make the working it over again profitable.

At a recent meeting of the British Society of Antiquaries, mention was made of the discovery in the neighborhood of Mount Sinai of the tercian mines of the ancient Egyptians.—The discoverer, an Englishman, observed in water courses of that region, which in summer are dry, peculiar blue stones which he soon ascertained to be turquoise. This circumstance led to further research. We are now informed, that, aided by friendly tribes, he has taken into his pay, he has discovered the old turquoise mines of the ancient Egyptians—the rocks that they worked for the stones—the very tools they used, and their polishing and grinding planes."

The fortunate discoverer has already sent to England some of the finest turquoise ever seen. While searching for the turquoise mines, the same explorer discovered the ancient line of fortification surrounding the works, and came upon the remains of vast iron works, which must have employed many thousands of hands. Slag taken from the refuse heaps around these works contains as much as fifty three per cent. of iron. The whole surrounding district is well worthy of being thoroughly explored by the antiquary, as it contains many hieroglyphic inscriptions which would doubtless throw much light upon the early history of man.

LOCAL AFFAIRS.

ALEX. E. SWARTZ, Notary Public, Express Office.

YESTERDAY. Monier's train arrived in town from the coast, with 200 sacks of coffee, bagging &c., for F. Gross & Co., and other goods for different merchants.

ANOTHER flogging dog was shot over in the Alamo City, day before yesterday. He was running, but not for office, he had too much good sense.

We have been requested to notify the colored people that there will be a camp meeting on the Salado, five miles from town, which will last several days, to commence on the 2nd of August.

The only man who has succeeded in getting the better of the **Governor** is Revenue Catt or Smith, who rebukes the Governor for making bad appointments.

The Governor did appoint R. K. Addictor Attorney, and consequently knows what he is talking about.

Two Indians killed a herd of the stock of the Stage Company at the bridge on the Pecos, driving off 14 head of stock.

Another band attacked the station on Kickapoo Springs, but were driven off. Within a few weeks they have stolen 100 head of stock on Brady's Creek.

THE fact that the Democracy nominated Mr. Greeley for the Presidency, does not warrant the assumption that they intend to nominate Governor Davis as Governor. The persons who are suggesting that they intend to do so are merely poking fun at them—jokers.

As they say in the country, "that dog is cured of sucking eggs."

COMPLAINTS are rife about the mail delays and irregularities. Since the mail has been coming over the M. K. & T. R. R. this has been particularly noticeable. The mail facilities from the Rio Grande are still worse. Yesterday morning letters were received from Eagle Pass and points along the road dated on the 15th, 24th, 25th and 27th.

We neglected to mention the other day that we had inspected Barber's garden. It is something unique in San Antonio, combining a number of qualifications that we have not found elsewhere in the City. It is a quite large shady park, conveniently situated, abundantly provided with tables, benches, fresh air, cool liquid refreshments and above all respectable company. An institution of that character ought to be supported at all hazards, and it is.

TUESDAY is a seemingly halfwitted customer in town called Jeremiah. He has a mania for interviewing public officers, which he does with the candor of a police man on the witness stand and the vehemence of an auctioneer. He interviewed the Reformer once too often the other day, and on being removed he resisted so urgently that it took several policemen to lay him on his back and tie his hands. Then he called in stentorian tones for the Democracy to rally, and save him from the Radicals. This should be sufficient to consign him to the Lunatic Asylum.

On Saturday evening next a concert will be given at the Casino Hall for the benefit of Prof. G. Miller. Prof. Miller is well-known to our citizens as an excellent performer on the violin, and he will be assisted by the best vocal and instrumentalists which we have. The programme which will be published to-morrow is one of rare and beautiful selections, consisting of songs, duets, violin and piano solo, etc. The price of admission being only fifty cents, we are sure that Prof. Miller will not be deserted by his friends, and all who desire to spend an evening well, should attend this concert which will be a rare treat indeed.

A LETTER from Col. Atkinson, the Indian Commissioner, dated Saragossa, July 25th, has been received at Head Quarters. It contains the news of the arrival at that place of the advance guard of the Kickapoos with One-Queen-ka-ko.

The rest of the tribe are on the road to that place. They will repair in mass to San Simeon and from that point start for the Reservation.

Many of them are quite dissolute and on foot. The Mescaleros and Lipans did not exhibit the same willingness to come over in that way.

A letter from Gen. Mackenzie contains the information that in all probability, all the Indians who have been raiding in his vicinity were Mescaleros and Lipans, and only the last large band, Comanches.

When Capt. Wirt captured a number of horses from the Indians, a few weeks ago, a boy who had been captured by them in Atascosa county, managed to escape. This boy states that the band that captured him, was made up of Lipans and Mexicans and that they conversed in Spanish. While he was a captive they camped within 8 or 10 miles of San Antonio and waylaid some of their neighbors to town, where they committed cannibalism and profligacy.

The letter goes on to say that Capt. Wirt with his company is on the trail of the last large band and will follow them up and ascertain where they come from.

ARMY is a hard day's work no matter whether it has been manual or brain work, there is nothing so refreshing to body and mind as the enjoyment of pleasant society. Our friend Mr. Barber struck the nail right on the head, when he established and opened his gallery. This pleasant retreat is daily illuminated every night and while the scenes makes the stay there cool and comfortable, the foliage over your head makes you forget that you are in the midst of our rather dusty City.

Mr. Barber only keeps the best of liquors, wines, cigars and beers known in the market and his kind attention to his guests is well known.

Two American Misses.

Miss Isippi and Miss Ours, are disfigured good deal by the agnos in their mouths. In order that all other Misses might not like them, they have invented a tint, or unpleasant odor. The genuine W. A. Batchelor's Hair Dye produces IMMEDIATELY a soft, smooth, healthy hair, which stains the skin, but leaves the Hair Clean, Soft and Beautiful. The only safe and Perfect Dye, sold by all Druggists. Factory 16 Bond Street, New York.

(41-72dav)

ARMY NEWS.

At the request of First Lieutenant Gustav H. Radotzki, 9th Cavalry, a Court of Inquiry will assemble at Fort Concho, Texas, on Monday, the 4th prox., at 11 A. M., or as soon thereafter as practicable to investigate and report the facts connected with certain accusations preferred against Lieutenant Radotzki, by Captain Nathaniel S. Constable, Assistant Quartermaster U. S. Army. The Court will express an opinion on the merits of the case, and will recommend whether any further action be necessary.

DETAIL FOR THE COURT.

Lieutenant Colonel Alexander McD. McCook, 10th Infantry.

Captain Francis E. Lacey, 10th Infantry.

Captain Robert McClelland, 11th Infantry.

JUDGE ADVOCATE.

First Lieutenant George G. Lott, 11th Infantry.

First Lieutenant J. A. Augur, 5th Cavalry, Acting Assistant Inspector General of the Department, will inspect a quantity of clothing, camp and garrison equipage, issued by First Lieutenant H. B. Quincy, Regiments of Quartermaster 25th Infantry, to Lieutenant Colonel S. B. Holabird, Deputy Quartermaster General U. S. Army, and reported by a Board of Survey as unfit for issue.

POW WOW OF THE IDA GREENLEY CHURCH.—The young Democracy, including several lively young cubs of the 17th century, met at the Recorder's office yesterday. When the Republicans held ward meetings in those sacred precincts the Herald was shocked at the impropriety of it. But they have got bravely over that like they have got over several other things they imagined they could not swallow, much less digest.

Among the gentlemen present were Gen. Knox, Dr. Graves, Jose Penaloza, Tom Dwyer, and several others who ought to have known better. Judge Upson was there too, very much. The object of the meeting was to break down Radicalism by adopting a Constitution, the old one having become rather seedy. They had just passed two articles; we don't know what kind of articles they were; when Knox or Graves proposed a resolution pledging the boys to stand on their heads on the Dimintry platform even if they broke their necks by it, and that the Club binds itself to support the State, District and County nomination, no matter how big tools or rascals they might be. Now in this the fossils were perfectly correct and logical: If it is a Democratic Club it is expected to go blind. If they are not Democrats then they ought to take their sign down. The spring chickens allege they are willing, being true Democrats, to eat any amount of dirt, but the business of the evening was not of that character. This is, of course, a subterfuge and a plain-wink to the Radicals, who are, however, not fishing for suckers just now. One of the spring chickens with well developed spurs and fine tail hopped into the ring and crowed defiance at the old cocks of the walk who are almost incompetent to perform their functions from age and incapacity. A motion to table was carried by a majority of two. Knox and Graves tried to separate the sheep from the goats, and after making the feathers fly a little, withdrew in disgrace. Penaloza withdrew also, but he since, as we are informed, taken the matter under advisement.

We don't know, and haven't time to investigate whether the tail has been cut off the pig or the pig off the tail, but there is something in that vicinity of the animal. How it was that Dr. Graves and Gen. Knox over trusted themselves among those dangerous Ida Greenley boys without having the *pelote* to back them is incomprehensible. It won't happen again, and next time we may look for the scalps of McLaurin, Sullivan and Dwyer to daunt from their belts.

On Mac Dell, we have no prejudice, as the woman said when the bear and her husband were chewing each other up in the back yard.

Weakness of the Eye; 7. Optic Nerve; 8.
Ophthalmia, or Inflammation of the Eye
and its appendages; or imperfect vision
from the effects of Inflammation; 9. Photo-
phobia, or Intolerance of Light; 10. Over-
wrought Eyes; 11. Myopia, or Short-sighted-
ness; 12. Floating bodies before the eyes;
13. Anomotaxis, or Obscurity of Vision; 14.
Cataracts; Partial Blindness; 15. Loss of
Sight.

Any one can use the IVORY EYE CUPS
without the aid of the medicine, so as to
receive immediate beneficial results and
never wear spectacles; or, if using now,
to lay them aside forever. We guarantee
a cure in every case where the directions
are followed, or we will refund the money.

2,300 CERTIFICATES OF
CURE

from honest Farmers, Merchants—some of
them the most eminent leading professors
and business men, and women of education
and refinement, in our country—can
be seen at our office.

"I send you the name of the family and
friends. The act upon a dimmed liver, and
stimulate to such a degree their healthy action
as to give them a new lease of life. It is
most miraculously perfect. It is sup-
erseding every other stimulant. As a Spring
and Summer Tonic, they never equal it.
They are a great tonic. They purify the blood.
They purify the brain. They are a
special tonic. They are the weakest.
They purify and invigorate. They cure
any specific ailment. All species of disorders
which weaken the body, strength and break down
the system."

4 Dept., 55 Park Place, New York.

PLANTATION
BITTERS

one of the most desirable Tonics and
Cathartics in the world. They are intended
only to be used as a medicine, and indispens-
able during the winter.

The Tonic is the chief of the family and
decidedly the best. It acts upon a dimmed liver, and
stimulates to such a degree their healthy action
as to give them a new lease of life. It is
most miraculously perfect. It is sup-
erseding every other stimulant. As a Spring
and Summer Tonic, they never equal it.

They purify the blood. They are a
special tonic. They are the weakest.
They purify and invigorate. They cure
any specific ailment. All species of disorders
which weaken the body, strength and break down
the system."
