In our Sunday's issue we predicted that the removal of Chaseard, the alleged murder of Werner, to wille was an invitation to oh him. In another column it will be seen that the invitation has been accepted, that he has been taken from jail by a disguised mob and hung, and that his son, who ras also in jail, has been wounded.

We look in vain for extenuating comstances in this diagraceful affair. It is silly to say that the victim had a had reputation, or that it was ramored that he had killed his wife fifteen years ago &c. If there had been any proot of his having committed orime, it should rents and purposes he must be regarded as an innocent man, even of the murder of Werner, as his guilt has not been legally estab-

The lynhed man came to San Antonio for afety and justice, he enquired for Judge Koonan, was arrested, and by color of law was turned over to his murderers. The justice that

issued the warrant for his removal, and the Deputy Sheriff who execu-ted it, knew well that the object was not to aid the proper adminis-tration of the laws but to defeat it. The man may have been guilty of cold blooded murder, although the circumstances do not show it, but at any rate, it is now certain, that he was no worse than a large number the citizens of the town he lived

Bailroad Meeting.

There was a large and enthusias tic mans meeting last Saturday night in front of the Menger. Mr. F. Groos presided as chairman, while a number of our preminent citizeus acted as vice-presidenta. The speeches were in English, German and Spanish, and all of them excellent, but as the subject has been worn to shreds we shall not re-produce them, particularly as there seems to be no opposition, worthy of the name.

The first speech of the evening was that of Dr. Kingsbury. . It was replete with sound reasons why everybody should take an interest feet, but enough are in to show a great in voting for the subsidy.

Mr. Manuel Serna followed Spanish, in a most eloquent appeal to his countrymen to do their whole duty in the premises. He was

His speech was not so remarkable for deep thought and statistical deductions, as it was for brilliant flights of the imagination and startling comparisons.
