A. Siemering, Chairman. A. Dittmar, B. Degener, W. H. Huston, J. Biggar and F. Gross.

JOHN DOBBIN is a candidate before the people of Bexar County, for the office of Sheriff, of the next election.

We are authorized to announce the name of LOUIS DUVAL as a candidate for the office of District Clerk at the next election.

TO THE VOTERS OF BEXAR CO.

Having been solicited by a large number of voters, irrespective of party, to assume myself as a candidate for the office of Clerk of the District Court at the ensuing election, subject only to the will of the people, as the same may be expressed on the day of election at the ballot box.

JNO. ROSENHEIMER.

SAN ANTONIO, August 9th, 1873.

A People's Ticket.

It is with the most pleasantable sensations that we look forward towards the promulgation of a complete people's ticket. It will be very nice captures of opportunity at once.

But, to start with a clear conscience, we might as well consider right here, that it is not altogether pure benevolence that actuated us in taking up this interesting subject. There is a lurking desire in the most good-natured among us all.

There are more and who is not swayed by a variety of other considerations that dispose us to snap at a ticket that happens to cross our path.

Having took up the tender merely on his guard—and we know an unprecedented candor will be up-erected—we may proceed to business.

Our keen anticipation of benefits to accrue to us—the Republicans from the promulgation of a people's ticket have a very substantial foundation.

Such a ticket, so amount to anything, ought to be in the field, before any other. It would then at least be probable that it really was the creation of the people. Such a ticket would place it at once beyond the reach of caviling and competition. There is nothing higher than the people; it is the radically and legally infallible. Such a ticket, if genuine, would at once secure our heartfelt support; it would further, call forth our sincere gratitude. For, what would be the significance of its mere existence? Death to the power of demagogues, annihilation to the impudent meddlesomeness of caudillos. But—though such a millennium may be ever present to our longing imaginations—it has not come anywhere, and above all, it has not come to the good citizens of old Mexico.

We, therefore, resolutely turn our back upon things so unreal and airy, preferring like common-sense people, to take the world as we find it.

If, then, the pleasures of idealism

tie patriotism be denied us, the less elevated delights at the mishaps of our political antagonists offer themselves the more readily and abundantly.

What kind of a people's ticket are we likely to have?

Let us see!

In the first place it must be of democratic origin, and stand almost exclusively upon democratic ground; and this simple but fatal fact, presents a down-right contradiction in terms. It is a well-known fact, that great numbers of honest, fair-minded democrats have felt restive for some time, under the patriarchal guardianship of Judge Devine and others of his ilk. These local leaders have been led to look upon the handling of the democratic party machinery, in this city and county, as an unassailable inheritance, hallored by time. They clutch power with desperation, and attempt to enforce discipline without much discretion. Who does not remember the tremendous philippine the astute Judge hurled at the venerable head of Col. Logan? Sam Smith had to be the man. Devine had to have his way and maintain his supremacy in the party! Does any one doubt that human nature a mong Democrats differs from human nature among Republicans? They believe as earnestly in the correctness of their opinions, than we believe in ours; their hearts turn as promptly to what is just and fair, than ours; they are just as little inclined to submit to unreasonable party-dictation, than we are. Dissatisfaction among Democrats will have to afford the substance for the formation of a so called people's ticket.

Where are the candidates to come from? They certainly must be Democrats, and as far as we can see, mostly sore-heads. There is no lack of men that—like Bottom of old—easily offer their valuable services to be “translated” from common citizenship into candidates, and into people's candidates, at that.

They lurk around street-corners, softly gloating high, and by ways ready to pounce upon vacant offices. This is the way, the real favorites of the “people” usually step into the political arena; they have an unmitigable way of being lifted into power by spontaneous popular acclamation!

The fact is, candidates will have to be selected from among sore-heads, and that alone must prove fatal to the whole enterprise.

Will the “people's men” be able to allure many Republicans?

Not many, we opine! Why?

Simply because, there is such a force as cohesion in our party i.e. positive principles, while the democrats have nothing but chilling negations.

Everybody knows that the Germans are almost a unit in their repudiation, and as for the Negroes, they are still more so.

Not even the German cast of our county ticket will shake the party allegiance; they simply say, that a republican ticket with exclusively German names on it, is infinitely preferable to any democratic ticket;

and mark it well, over the People's ticket would be essentially a democratic ticket.

But it—contrary to all probabilities—the people's men should in spire more confidence, than either the Democratic candidates or ours, we for one, would feel well contented.

Telegraphic DOMESTIC NEWS.

HOUSTON, Oct. 22.—A dispatch from Columbus reports 23 deaths there since Sunday.

BOSTON, Oct. 23.—The Howard Association publishes a circular that the fever is abating. Numerous new cases appear daily, and over one thousand are sick. Their funds will not last six days. The circular concludes, “from the sick and dying a cry of anguish and distress comes great and loud; for their sake, send money and relief to procure nurses, stimulants and nourishment. We urge to aid more than ever. Send donations to A. D. Langstaff, President of the Howard Association.”

MARSHAL, Oct. 23.—The weather is cold, but of an even temperature.

There were seventy-four yellow fever deaths yesterday.

The scarcity of funds compelled the Howard Association to reduce nurses pay to three dollars per day. Three hundred and twenty-five nurses in the Association employ struck for five dollars.

NEW YORK, Oct. 23.—A report last evening asserted from Mr. Williams, president of the Metropolitan National Bank, that the President in his letter to Williams merely acknowledged the receipt of one from that gentleman, and expressed an anxious desire to do all he could to relieve the monetary panic. He then added

a question: “Why cannot the banks come together and make some arrangement for the relief of merchants, and also for public relief?” adding that he will do all in his power to assist them. This is said to be the whole substance of the letter.

NEW YORK, Oct. 23.—At a meeting the bank presidents to day, Mr. Williams, president of the Metropolitan National Bank, submitted a letter received from President Grant in reply to one which he, at the request of friends, had written President Grant. The reply of the latter was very brief, and simply stated, that for three or four weeks the President would feel disposed, in case of urgent need, to issue weekly three or four million dollars out of the legal reserve.

The following resolutions were passed as the result of the meeting:

Resolved, That the message of the President of the United States to the banks of New York be respectfully and gratefully acknowledged, and we cordially reciprocate his kind wishes, and will set in the spirit which he recommends.

Resolved, That from and after the first of November next, the equalization of legal tenders by banks of this association be discontinued.

The proposition came up to use the National Bank currency notes in clearing house settlements. The proposition was not carried.

The Tribune, in an article on the imprisonment of Mr. Shanks, one of its editors, for contempt of court, in Brooklyn, says: “Once for all, the Tribune holds itself responsible. We believe in the truth of what we see in our way, and are willing to fight it out to the bitter end when we are right; but we give fair notice to the beaten, disgraced and angered ring of Brooklyn, that we never restore its damaged and ruined prospects by a malicious prosecution of newspaper employees, and that in an instant upon the independence of the press, it can only cover itself with new disaster.”

The sanitary inspector and assistants to day received strict orders to look very carefully for any cases of yellow fever or anything like it. The health authorities believe many citizens of Memphis are in this city.

WASH. OCTOBER, Oct. 13.—The President having nearly recovered from his sickness, which kept him from his office yesterday, received to day a large number of visitors.

On being asked by a friend as to the contents of his recent letter to Mr. Williams, he said he therein repeated a former remark, namely: “In addition to what had already been done by the government, the only way of relief was for the government to buy exchange; but exchange could not be purchased, as the government has no use for it, having already purchased enough on London, for the Navy and State Department's, to answer all present purposes.” There is an infection,” he further remarked, “to draw on \$44,000,000 reserve, except for the current expenses of the government. The money will be used for no other purpose.”

It would seem, from further conversation with the President, that the letter in question was merely suggestive, without suggesting any intention of positive official action.

Ex-President Johnson was serenaded to night at the Metropolitan Hotel, the front of which was decorated with flags and Chinese lanterns. An immense crowd of persons was present. After music by the band, calls were made for Johnson, who appeared and was received with cheers. His spoke of having made his first appearance in Washington 20 years ago; he also alluded to the various political positions held by him during that time, and expressed his cordial thanks for warm welcome from those who were either witnesses of his acts or had heard of them through their relatives and friends. He wished to simply express the emotions of a heart that was never false to a friend or to the country.

The crowd exclaimed, “Andy! you are still alive!” to which Johnson replied, “Yes, thank God, I am still alive, and not only alive physically, but am alive to the preservation of our institutions and the best interests of the country.” (Applause.)

NEW ORLEANS, Oct. 23.—A. H. (Dolly) Daveport, a well-known actor, died today, aged forty-four years.

Deaths from Malaria and Yellow fever report heavy rains. Red and Quarantine rivers are rising.

FOREIGN NEWS.

NEW YORK, Oct. 22.—Several vessels have put ashore on account of bad weather. Two lives lost.

LISBON, Oct. 22.—The police of the city have seized a quantity of arms destined for the Carlists, and arrested the persons who had them in charge.

**DR. TUTT'S
VEGETABLE
LIVER PILLS.**

The startling drawback on nearly all
medicinal preparations is that they are
either too strong, or too weak, or too
their process of purgation and purification
they have also disturbed the system. To
obviate this difficulty physicians have long
sought for an agent that would.

PURGE, PURIFY AND STRENGTHEN

At one and the same time;

This research has at last been revealed

by those who fully realize the

greatest deserts of the medical family, and

which is justly regarded as the most im-

portant triumph that **Pharmacopeia** has ever
achieved. This important desideratum is

Dr. Tutti's Vegetable Liver Pill.

Which purify the blood and removes all
corrupt humors and undigested accumula-
tions from the body, and yet previous no
weakness or assistance whatever, but on
the contrary tones the stomach and invig-
orates the body during the progress of
their operation. They unite the hereto-
fore irreconcileable qualities of a **PURGATIVE**,
PURIFYING and a **PURIFYING** and a **PURIFY-
ING TONIC**.

Dr. Tutti's Pill are the most native
and searching medicine in existence. They
cure almost the very root of disease, and their action is so prompt that in an
hour or two after they are taken the pat-
ient is aware of their good effects. They
may be taken always without restraint
and are of course safe, and no one need
worrying or doubt, as they have a fam-
ily medicine they have no rivals.

Price 25 cents a box. Sold by all drug-
ists. Principal office, 16th and 20th Sts., New
