Old women tread the churchyard grass To see the bride and gridegroom pass:

And children play

'Round gravestones where their sisters aleep; And older children know and weep,

And torn away.
The gossips stand beneath the trees,
And watch and wait in two and threes.

The belfry shakes, the warm air swells With merry peal of bridal bella:
Alas, alas!
For time will teach the bride by stealth That love is richer for than wealth.

Alas, slas!

The bridegroom who can buy and sell shall meet the youth of Brinton Dell!

A New Notion About Billiard

A billiard player who is dissatisfled with ivory balls makes, in an English paper, a suggestion which may be worth the attention of inventors. He says: Everyone who plays at billiards

knows that occasionally the balls do not run true. They are made of ivory, and even when they are quite new the ivory is not of equal densi ty throughout; and when they are old the external portion is much more dry than the internal, consequently the difference of density is greater, and the balls, especially when going gently, swerve from a direct course, the specific gravity of the different parts of the mass being different. It has often occurred to me that much better and truer balls might be made either of glass or steel. The weight might be made the same as those of ivery by having a hollow in the middle of the ball. It is well known that a hollow sphere runs more truly and more evenly than a solid one. The specific gravity of ivory is to that of glass about as 3 to 4, to that of steel as 3 to 13. The bollow in —Journal. the steel ball would thus be greater than in a glass one, and it would, think that glass of the to ghest empted from service.—State Jour-kind would be more liable to chip nal. than ivory, and steel would be much less so. There is another SIDMETGE, FORCE and Cistern point to be considered—the expense and this, I am convinced, would be much less in either case. The cratic party : experiment is worth trying, as elephants are getting scarce, and may

The Coke partisans have long insisted upon precinct voting, and now they have got it. Their secret Cardis, except what we have stated design in getting this change is to and only meation the circumstance eve awe and bully the Republicans, to show what self abusement the and capecially the colored man, Democratic party is capable of.

It is plain that the partisens of Coke will be more violent, and will resort to more bullying and intimidation then has been witnessed at any previous election since the war. This is evident from Coke's character and utterances, and from the character of his principal support

The Daily Express ers. He has already countenanced and rejoiced over the assassination of Republicans.

Now, let a committee of Republicans at every precinct quietly take note of all intimidation and trauds, so as to be used as evidence, that the guilty may be prosecuted, and the unlawful votes thrown out in the count.

We have frequently contended that the Democracy bas as little use | wardrobes. for foaeign immigration as for poor men generally.

The Democracy is the party of the aristocrat, as is clearly shown by the character of legislation they perpetrate toward the laboring classes and the poor men of the coun- they rose up. try. #### DR. C. F. BRAWN'S Young American Liniment.

Tenng American Liniment.

Tells Liniment has gained a lasting reputation, where it has been used, in most cases which require an external remedy, such as rheumatism, soreness and swelling of the breast, pain and weaknes in the back and joints, sprains, bruise-oramps, numbness, frogen limbs, bitter insects, old sores, fever sores, goitre or swelled neck, parelysis, wounds, erysipe las, bites of respilles, headache, white awellings, mange, poison, burns, all swellings, east theirm leorns, warts, sore eyes, run-rounds, &cr. We daily hear of the most actoulabing cures on animals by this excellent remedy, and bazard nothing is saying that there never has been its equal as a curative for horses. We assert positively that it will cure any case of sweeny in existence; also splint, galls, sprains or strains, bruises, sorateless, wounds, big head, wind galls, sore eyes, swellings, ac, and has never failed to ours fistella, policivil, ring-hone and spavin. When used in the baginning, strictly according to direction, and given internally with the food, it is a harmless but certain remedy for worms. Be not fail to give it a trial; only the cents a hottle.

Here Epstel "saje.—This Linimant cured thousands by horses at the North during the prevalence of the horse distemper, there. To such cases rub the nock and throat well every evening, and give a table spoonful of it in the horse's food for two or three evenings.

If you value your eyesight use these Pertect Lenses. Ground from Minute Crystal Pebbles. Melted together, and derive their name "Diamond" on account of their Hardness and Brilliancy. They will last many years without change, and are warranted superior to all others in use.
