SAN ANTONIO, TEXAS, SUNDAY, DECEMBER 28, 1873,

Bazaine's Life in Prison.

The Marshal rises at 6 o'clock every morning, takes a small cup of black coffee, and then, after half har hour's sharp walk in the garden, works with the rolls for nearly har hour. For this purpose a teneing master from one of the regiments in Versailles comes to him every moruing. He has never neglected this habit since he was first made a pris oner, or, rather, shine be first gave would have become very ith long age had it not been for this hour of fencing which he imposes on him self for six days in the week! When the fearing misster goes away he dresses for the day, and then works for an hour or so at the papers; con-nected with his case. His head has suffered a great deal from what be mentioned in court mamely, that all assistance in the way of door mentary evidence has boon retused him by the prosecution, and that he has to strain his memory greatly in order to try and recollect facts or dates. By 9 a. m. his advocate, Mattre Lachand, arrives from Paris and the Marshal works a couple of hours with him. At 11 he break fasts, Maitre Lachand, Col. Villette and sometimes his brother, Mon-

sieur Bazeine, a civil engineer, be ing his out Couponions at table. After breakfast he walks again in his gardeny and then prepares for the court. When the court is over be his hnother interview with his advocate, works for a time signe, and at 6 p. m. sits down to dimer tete-u-tite with Colonel Villette. Alter dinner be again takes exercise this time confining his walk to a long. the Triange aux Bois. He then prepares papers and documents for the morrow, writes out totte be wishes his advocate to give his opinion concerning, and at 10 p. m.

retires to rest. One inmate of his prison I have forgotten to mention -his effect child Achille, a very fine little fellow of five years old who will not leave bis father, and nho has, with the express permis sion of the authorities, shared the Marshal's captivity throughout. Like most children of his age, Achille bas a very great admiration for all that is military, and it is curious to see the Marshal's rooms in the Trianon littered with toy drams, hel-mets, chassepots and cannon. The little fellow sleeps in his father's on, is looked after by an old sof dier who has been thirty years in Bazaine's service, and is by his own particular desire drilled regularly every day, or rather three times a day, by w sergeant who comes there for that purpose. Mme. Bazaine,

with the younger children, lived for

some time at a convent close to

Versailles; but their rooms in the

building being ander repair, they

are now at their own house in the

LIGHT on the salary question comes from an unexpected quarter. Sen ator Wright, of the Committee on Civil service and Retrenchment, has reported back the House bill in relation to the compensation of Senators, Representatives and Dele gates, with an amendment, and recommended its passage. The bill. as reported from the Senate Committee, provides that the set of March 3, 1873, shall be repealed so far as it provides for the increase of compensation of members of Congress and the several officers and employes of either bouse of Con gress, or both, and that the salaries and compensation of all such persons shall be fixed by the laws in force at the time of the passage of said act. It also provides that the heads of departments shall each receive \$8,000 per aunum, and that all sums that may remain an drawn, or which have been received as increased compensation under the provisions of said act, approved March 3, 1873, and which shall have or may come into the possession of the Secretary of the Treastry by the return thereof, shall be paid into the Treasury. This bill Guns, Rifles, Pistols, Ammunition covers the whole question, and we are glad to see that the Senate Committee unanimously recommended its passage. The holiday recess will give Senators an opportunity

the consideration and enactment of such a faw. The sulary grabbers have been consoling themselves. have been consoling themselves with the hope that while a repeal ing measure might pass the House, the staid Senators would uphold the dignity of Congressional position by keeping the compensation up to its present high standard. We think they will be disappointed. If

on the reassembling of Cangress in

the law should pass the Senate as amended by its committee, and come to the House for finit action, the members of that body will not binself up us a prisoner; in May, dare to oppose it. There may be 1872. He says that, accustomed as some blovisting and dibustering, the has been all this life to take a bat the year and hays will be all right. The man who votes wrong or dedges the vote may as well retire velocearity to the shades of private lite.

RUBY AND PATTER

In the weekly Texas Post of Dece 18th, a German paper published in Galveston, we find a very serious charge against Ruby and Patten, which we hope these gentlemen will be able to refute. The Post states

as follows: assessed to the colored church, on church street, between the 14th and 15th. street, a meeting of the colored people was held on the evening he fore election day for the purpose of ascertaining the true policy for the election day. One-half of those present were willing to support the nomines (of the Republican party,) the other half opposing; they declared that they were compelled to stay away from the polls, because Ruby and Patten had advised them to We so. Patten was present and by his silence endersell the statement By this double dealing of Ruby and Patten, Sabin and Ogle have been beaten. At the same time it has come to light that the Clark Republicans have not yet abandoned their

game. Ruby, caring as much for the Republican party as for his own race, but exclusively for himself will exidently by his obligingness to Grant's cousin secure to himself the presidential tayor in the distri bution of federal offices. Patten's motives cannot yet be accounted for. But we are found to the conclusion that for purposes concerning the next national election an offer is to be made, by order from Washington to the southern Democracy and that Clark and Patten are selected to organize the colored men and to lead them at the command given over into the democratic campa-

Are they shaking him all day or do they lastst only apon waking their appearance when Rodriguez comes, tain gentleman was appointed to a promiin sight? Let us tell the Judge that his chilly explanations are bordering on the ridiculous. Here is a case of the greatest importance to Cooley of Fredericksburg, well known in the people of Texas; all telegraphic San Antonio, is stopping at Austin at this wires are operating to let the public know, at the earliest time, the dicision of the Supreme Coart in the Modrigues case; the future of the of the State depends upon it, -and flashing comes the news that Judge Walker has the chills. The spectacle of the sudden attack of a soldier with sickness immediately be fore the battle is no more sicknoing than this subterfuge of a Judge of the Supreme beach to evade the constitutional question; submitted to his dicision. We hope Judge Walker has earned enough democratic laurels in the Honey case!

LOCAL_AFFAIRS

THE peacefulness of our city during the Christmas holidays is astonishing. There was no case up before the Becorder worth mentioning; no drunkenness, so fighting, no smash up, nothing to fill the local colamn of our paper with. It there is any city in Texas that can best San Antonio in this respect, we would like to know it.

PANC ST & SON have received a splen did assortment of goods to make up to

DAY before yesterday a murder was committed in the Post Oaks in this county by a boy of ten years of age. The sictim was another boy of t velve years of age. It appears that both boys were playing marble, when the younger one, being the leser, got excited, ran into his father's house, and returning with a pis tol, shot the elder boy and killed him in stantly. Judge Klocke started immediately for the scene of the murder and elisited the fects above stated.

came off on Friday evening, at the Menger Hotel. The great ball was elegantly and suitably decorated with greens, flags and the emblems of the Masonic order. Dancing commenced at an early bear and lasted till late next morning. The attendance were exquisite. As usual a spleudid supper was served at about 1 o'clock, which did all boner to the hetel and which was done all honor to by the guests. We are personally indebted to the courtesy of Mr. B. Oppenheimer, which we desire to acknowledge.

PANCOST & SON have certainly the best assortment of scarfs and ties, the very host kid and dogskin gloves, and time white

AULTIN beasts of more Christman feetivities than there are days in the Christmas week. So the people of Austin take their choice between the entertainments offered and pay their money. We of the city of San Antonie are more easily satisfied. , We rejoice in the extraordinary pleasure of a theatrical performance in the Harmonia Hall, which performance is well received fashi by a select andience; we had a aplendid ball on Friday and shall have entertainments on Saturday, Monday and Thursday in the hall of the Alame Literary Society, and on Wednesday a grand ball in the Casigo Hall, This will do us for a 20-12/72 did

The Cookroom of the Body.

The food that has been cooked in the kitchen must be re-cooked in the stomach before it can be applied to the nourishment of the body. As a means of facilitating this second cooking, in cases where the process is slowly and imperfectly per-formed, Hostetter's Stomach Bitters is in-valuable. It promotes the generation of heat in the living laboratory in which the crude materials for building up and re-eruiting the human frame are turned into convertible aliment. But this is not all. It acts beneficially upon the cellular mem-brane which secretes the gastrie juice, apon the liver, which produces that matur-al laxative, the bile, upon the vessels al laxative, the bile, upon the vessels which recei's the digested food, and upon the absorbents, which connect the digest-ive organs with the channels of circula-tion. It any portion of this complex ma-chinery is out of order the Bitters will set it right, thus premoting vigorous diges-tion, healthy scretion, and the production of pure, rich, life-sustaining blood.

MESSES, MANDELBAUM & RILLING keep the largest stock of leather and find-ings in the State, they only keep such ands of French and German calf skin as brands of French and German call skin as have strendy gained a reputation; they also manufacture boot, gaiter & shoe-rappers of all kinds and styles Merchants, shoemakers and saddlers would do well to examine their stock before buying [25-9-d-w-3m.
