From the New York World. The Military Situation in Cuba. The Cubans claim either to hold or to control from one half to two-thirds of their island.

The capture of the Virginias and the inhuman butchery of nearly all of her passengers and crew have caused another of those passionate demands which have so often brought ruin to governments and peoples.

Since the outbreak of the revolution, in 1868, up to the close of 1870 according to the official statement of Gen. Siskies, the United States Minister at Madrid, Spain, had put into the field in Cuba nearly 120,000 men.

The Cuban army is commanded by Gen. Calisto Garcia, and is divided into seventeen brigades, each under the command of a brigadier-general.

Either Spain itself must disband this organized mob, or the Government of the United States will become the executor of the united voice of civilized nations.

The field of wine in California this year will not be much over 4,000,000 gallons, against 4,000,000 in 1872.

Yesterday's Election.

We have passed the Rubicon. The great battle has been fought and the second day of December belongs to history. What the result of the election may be we can not tell at this early hour, but hope to be enabled to present to-day to our readers the figures of our own County at least.

We regret one thing. Some of our local Candidates as well as their friends, in the zeal for their own election, have paid no regard to the State and Legislative ticket, nay, not even to their fellow Candidates for local offices. They have worked for themselves and for nobody else. If the same game has been played in other Counties, and should the Democratic State and County ticket be elected, these gentlemen will reap the fruits of their doing. They ought to have considered that only by a Republican State Government they can be protected in the possession of their offices, that Democracy has always found means to remove obnoxious officials and that the proposed State Convention will make a clean sweep of officers and have entirely new offices established, such as County Clerk, District Clerk, Assessor, Collector, Chief Justice, etc., which will necessitate a new election.

All this ought to have been taken in consideration and our Candidates ought to have fought side by side and won with us or have suffered themselves to be beaten with us. The defeat of our State ticket is the defeat of the Republican party of this State and no insignificant local success can recompense us for the loss of the whole ship.

Yesterday's election has convinced us of one fact; this so called Republican stronghold can boast of only a few straight-forward Republicans, who believe in Republican principles and work for them.

The main body of those who were with us in this election, followed us for the purpose of electing their friends for local offices and we are compelled to state, and we do it with all proper indignation and contempt towards all concerned, that some self-styled Republicans went even so far as to scratch Republican Candidates from their ticket and place Democratic on it. If the State ticket is beaten in this County, it is done by mean trading of our own Candidates and some of their friends, and proves that our party needs a reconstruction badly and that we must purge ourselves from the treacherous enemies in our midst who turn their back on us in the hour of danger. If it should prove necessary to be more explicit, we shall give names and facts, and show how the State ticket happened to run behind our local ticket through the medium of men who we trusted as Republicans and who betrayed us.

War with Spain.

For a few days it appeared as if the Cuban war sensation had collapsed and a peaceable settlement had been arrived at. Our Government had made certain demands which Castellar seemed to agree to in the main. Popular excitement was on the decrease and our Colonials and Captains, who were willing to fight and die for their country, received the sad news in the most dignified manner.

All of a sudden the whole situation is turned upside down. Advice from Spain indicates an approaching revolution in that unhappy country in favor of the Carlists, which event would suppress all sympathy of America with Spain and make a war unavoidable. No Bourbon Government would listen to our complaints. In anticipation of coming events the Government in Washington is in full activity, as can be seen from dispatches, published in another column. Preparations for war are going on openly, and we expect a declaration of war at least an "Ultimatum" even in the course of this week.

Lonia Muhlbaeh left an unprinted novel. It is a pity that a great many more are not left unpublished and unpublished.

Referring to the communication of Mr. Converse in this issue, we shall say that we have not examined the article he refers to, not having had time, but do heartily agree with him and Mr. Pierce in any effort they may be able to make, to secure railroad communication to our city within a reasonable time, and have no desire to be unjust or unfair.

ENGINEERS OFFICE, G. H. & B. R. R. HOUSTON, TEX., Nov. 26, 1873.

Editor Express:

DEAR SIR:—In your issue of Nov. 26th, I find half a column devoted to the G. H. & B. R. R. Extension west of Columbus. Referring briefly to the unjust tenor of said article, I presume you are willing to furnish your patrons with information approximating the truth. In August I was requested by Mr. Pierce to close a contract for the masonry from the San Marcos river to San Antonio, providing the subsidy vote was carried. I therefore invited three of your citizens, stone masons, to meet me at the San Marcos river on the 26th, and spent ten days with them on the line of the road in examining the various crossings, assisting them in obtaining all desired information to enable them to submit intelligent proposals for said masonry. Immediately after the election, I advertised for proposals until the 15th. During the interim several of the masons of your city informed me that they desired bidding for the work "but were precluded" unless an extension of time was granted allowing them time to examine the crossings. In justice to those who were not personally invited to submit proposals, I extended the time to Oct. 1st, thus affording to all equal advantages in bidding for the work. On my return to Houston, I found the whole country involved in a financial storm, prostrating and paralyzing nearly every enterprise in the country. In consideration of the depressed condition of financial affairs, I deemed it prudent to postpone awarding any contracts until there was some apparent relief.

This delay therefore is not attributable to Mr. Pierce in reference to the construction of the road. Railway men of experience frankly admit that the grading has been well done, "equal to any" in the southern country, a fact which I am inclined to believe several of your citizens will testify to. Construction trains are now running 20 miles west of Columbus, and regular passenger trains will run to Schulenburg near High Hill, 24 miles west of Columbus early in December. About one hundred and twenty men are now engaged on the track and bridges, and will continue until the last bar on hand is laid. An additional lot of iron for 20 or 30 miles has been purchased, and is about, and when laid will reach to within 12 miles of the San Marcos, and 26 miles of your city.

Relative to the stock on the road, the mules and horses are owned by the contractors, and I am not aware of any sales being made (excepting 3 horses) which have not been delivered.

Now I believe, Mr. Editor, that all I have stated is true, and if you entertain any opinion to the contrary, I will with pleasure afford you any and all reasonable opportunities you may require to inform yourself correctly on the subject "I will give you a — if you desire it — 25 mile ride on the engine and a drive over the road to the end of the grade, 47 1/2 miles, and agree to deliver you safely in San Antonio.

You have been deceived respecting the work done west of Columbus, which you denounce as sham. If so, it is time Mr. Pierce, who has spent nearly a million of dollars since March last should investigate the character of his enterprise west of the Colorado river. In conclusion I will add that two more such shams as the one just perpetrated, will complete the road to your city and, as I trust very much to the delight of the citizens thereof. As at present advised, I see no reason to doubt the completion of the road within ten or twenty months as stated in the proposition.

Respectfully yours, JAMES CONVERSE, Chief Engineer.

FOREIGN INTELLIGENCE. MADRID, Nov. 29.—There was a bombardment of Carthagena on Wednesday. The arsenal and barracks were the chief marks for the besiegers' artillery, but the cathedral and hospital were also struck. On Friday, the theatre, the Protestant church and two entire streets were destroyed, and two hundred persons killed and wounded within the city. The insurgents had raised the black flag on the forts at last accounts. The fire within the bounds of the city was subsiding. The loss of the besiegers has been exceedingly small. Officers of the foreign squadrons succeeded in obtaining an armistice of four hours Friday night.

MADRID, Nov. 29.—The Spanish Cabinet has agreed to the delivery to the United States of the steamer Virginia and all remaining alive who were captured with her, leaving the question whether the seizure of vessel was legal to be settled hereafter by a mixed tribunal. The question whether damages shall be paid to families or relations of prisoners who were shot is also to be settled in a similar manner.

This decision was not arrived at by the government before it had confidentially consulted with the powers of Europe, and was informed by all of them that reputation was due for the capture of the steamer and execution of the captives. The decision is also in conformity with the opinion of leading Spanish statesmen of all parties to whom the question was submitted by the government.

Firing was renewed solemnly at Carthagena by both sides after the termination of the four hours armistice obtained by the officers of the foreign squadrons.

DOMESTIC NEWS. BUREAU, Nov. 29.—The volcano in Pico Mountains, ten miles hence, is erupting once more.

New York, Nov. 29.—A double headed editorial in the Times treats of peace as a foregone conclusion, and praises what it calls the good temper and tact of Admiral Palo and Secretary Fish, who effected it. There can be no propriety in mentioning that Admiral Palo has endeavored, by all honorable means to bring about a peaceable solution, without forgetting for a moment the claims of his country. The Herald's dispatch says Secretary Fish has no doubt that the Spanish government will be able to enforce its orders for restoring the Virginias to the United States.

Colonial Minister Salar, now in Havana, will personally see that the orders of the home government are carried out.

All the Washington specials in the morning journals unite in asserting that Spain has acceded to our demands, and peace is assured. The Tribune dispatch says a dispatch deciding the grave question of whether there shall be peace or war between the United States and Spain was received tonight and communicated to the President and Cabinet. It is of the most satisfactory character and concedes all demands made by the United States. These demands, as heretofore stated, were as follows: First, the release of the officers and crew of the Virginia yet living; second, the return of the Virginia; third, salute of flag; and fourth, provision for the families of the slain captives.

The only reservation on the part of Spain is with reference to firing the salute, but to enable future investigations to be made the date for this salute has been fixed for December 25. To provide for the contingency of Spain not being able to enforce the promised concessions; work in naval construction is not to be interrupted.

WASHINGTON, Nov. 29.—Senator Cassery, of California, has resigned. The negotiations between the United States and Spain with regard to the question growing out of the capture of the Virginias were brought to a close to-day, Secretary Fish and Admiral Palo having agreed on and signed a protocol, which the latter soon after telegraphed to his government. As conflicting statements have appeared in the newspapers regarding the intelligence received last night, also to-day, it can now be positively stated that the terms are substantially as follows: First—The immediate delivery to the United States of the ship Virginias, and all the surviving passengers, etc.

Second—A salute to our flag on the 25th of December next, unless, in the meantime, Spain shall satisfy the United States that the American flag was improperly borne on that vessel, and further, that she had no right to the American flag or papers. In this event the salute is to be spontaneously withdrawn, and Spain is to formally disclaim any intention of indignity to the flag in the acts committed by Spain against the Virginias. Third If it shall thus be shown that the Virginias had no right to carry the American flag and papers, and the United States will institute proceedings against the vessel and the surviving parties who have violated the laws of the United States; and Spain guarantees to institute proceedings against those of her authorities who may have violated the law or treaty stipulations. Fourth—The matter of reclamations for damages is reserved for future consideration.

In addition to the above, it can also be stated that within the next two days, Secretary Fish and the Spanish Minister will determine the port at which the Virginias and the surviving passengers and crew shall be delivered to the United States. The words "immediate release," as applicable to the delivery of the Virginias and the surviving passengers and crew, implies, of course, a reasonable time for its execution, as some days must elapse before Havana and Santiago de Cuba can be reached. The agreement is regarded in official quarters as covering all the points of our original demand, though in a modified form, while it is considered respectful and honorable to both countries.

BREKIN, Nov. 25.—Fresh sentence has been pronounced against Archbishop Le dochowski for continuing unlawfully to institute priests. He is condemned to two years imprisonment and an additional fine of 5,400 thalers.
