Cosmopolitanism is augnestionably an excellent thing in the abstruct, but somehow it does not often show itself in actual life. other people with whom it is brought in contact, and is not a bit delicate in giving expression to this detestation. The projound contempt with which a full blooded white re-gards a full blooded black has been national curse to us; most nativeborn Americans have, no matter bow much they may try to disguise it, a feeling of superiority over the Irish and German immigrants, which is considered by these in re-turn as an additional sign of weak-ness; and where is there a blueeyed man or woman who has not secretly a conviction that the blonde type of mankind it is angelic repre sentative f whereas the black and brown embodies the demoniac What a fuse the Tentonic races make about their superiority—which is all a humbug, seeing that elvilization has come unto them from the Latin race, and how proudly does the turkey cock of the Latin persuasion twirl his moustache in supreme disdain of his Teutonic neighbors, who have beaten him so thoroughly in the race of civiliz

ation! It is amusing to compare the difraces, nations and tribes of the human race give expression to this contempt of the rest of mankind. Says the Frenchman: "He is thiev ieli, like an American; drunk, like a Pole or a Swiss; jeulous, like a Spaniard; vevengeful, like a Coral can; quarrelsome, like a German; avaricious and impudent, like an Arab; conceited and treacherons, like a Scot; cold, like a Dutchman, and deceifful, like a Greek." The Germans, on the other hand say : "Light minded like a Frenchman; heavy, like a Russian; cold, like an Englishman; clumsy, like a Dutch-man; hotblooded, like an Italian, and proud, like a Spaniard," To return the compliment, the Spani garity in speech.—Richard Grant ard expresses himself: "He is as White, in the Galaxy for Decemperate a drunkard as an Englishman; ber. as great a loufer as a Frenchman the Dutchman is a peasant, and only the Saniard is a true cheval-

The Slavonic nations are probably he most conceited of all, and have a particular contempt for the Germuns. They tell a fautastic story, how, when God threw the devil down from heaven, it was done with such torce that the body of the devil Tartars relish nothing so much as murder; the Italians love treacher; the Spaniards are weefully con ceited; and with the Germans, their God is their belly and beer. And the gypsies say: "The Germans drive care away by drinking, the Frenchman by talking and dancing, the Spaniards by weeping, and the Italians by sleeping," Even the eating and drinking of the various Scotland, or Norway; your German is never without a beer belly; and it is only your sunny Southerner who enjoys the most delicious of all drinks, the nectar of the vineyards. The New Englander drinks eider and eats indigestible biscuts; the Southerner considers Bourbon, a

Still, instances have occurred, and occur still, in our newly settled regions, where the change of county seats, &c., from one small town to another has created.

> "Ninon de l'Enclos used to defare that a beefsteak intoxitated and perhaps it did; but it would not be fair on that account to charge drunkenness on every wo man who cherished a partiality for sirloins and porter bouses,"

There is a slight mistake here: it having been her soup, I believe, in this world, those of the heart in which Miss Longelothes found so another; but as most of our vices exhilarating. That, however, is of no importance. But would it not punishment, be fair to charge at least an inclination to drunkenness upon a woman who "exhibited a partiality for porter bouses ?" On the face of it who could say no? It is only those who know that in New York a certain out of beef is called a porter house steak, who would be able to unravel the confusion that follows the taking of the compound adjective and using it absolutely in the plural - porter-bouses something to eat. Think of eating porter houses-of a woman's eating them! Generally this use of adjectives is the result of mere shiftless nees and sloth, except when it is truly poetic. And the exception does not touch the point in question; for the dragging down of poetical expressions into the service of prossio, work a day needs is less excusable than laziness, and is one of the worst manifestations of vul-

Horse Courting. Mr. G. Gerard, now of Philadelphia, but formerly American consul at Cape Town, Cape of Good Hope, communicates to the press of the former city the following amusing reminiscence of his African consular experience: "There is a very such force that the body of the devil split into a number of pieces. His head went to Spain, his heart to Italy, his hands to Turkey and Tartary, his feet to France, and his intestines to Germany. Hence, so runs the moral, the French like to dance the can can; the Turks and dance the can can; the Turks and the batter can't the house at once. had better quit the house at once. The Election

Contrary to our expectation the Republican party in this County has suffered a defeat, notwithstanding the election of two of our local candidates. There is nothing to boast of in this local result.

As a general thing we always can best judge of the causes of a defeat after the election, although these causes have existed before the election and ought to have warned us of their probable censequences. We knew these causes, we have exposed the cancer eating our life-blood, we have predicted the result of its working, and we have it now before our eyes!

The Republican party has nothing to complain of. It was strong enough to carry this County in spite of the wholesale-registering of half of the Mexican population of this State and in spite of the squan dering of large sums of money on the Democratic side. The election of the first Justice of the Peace and the Sheriff are sufficient proof of the teachings of the past, we did not listen to the advice of men of experience, we blindly followed the "we" applies to that portion of the Republicans, who know no principles and solely act according to sort of politicians,

It is scarcely worth while to enter into the details of the causes of our defeat. Be it sufficient to state that the independent Candidacy of that has perfectly demoralized our party. This is a humuliating state over certain Republicans was not to be overcome by arguments, his intrigues could only be counteracted by men of his ilk ; be succeeded in convincing hundreds of Republiins that in order to secure the de ly indifferent to those, who comresult of this election, it is meet their deserved fate.

As an other cause of our defeat we point to the condemnable cry of tionality that was raised by some of our would-be Republicans immediately after the County Convention, when they stigmatized the Recan nominations as German know-nothingism, They did this not because they believed in it, but ple are likely to cease their hostility to scratching the Republican

A Good Prespect for Mexico.

The Hon. T. H. Nelson, our Minister to Mexico, speaks most encouragingly of the prospects of the country. Internally, she s now at peace, and under the wise administration of President Lerdo, the peothey wanted some excuse ward the United States and devote their attention to the internal improvements so greatly needed. The cutire separation of Church and State, which has recently been accomplished, and of which the details ation to either purge our local have the happiest effect in settling the tier, Mr. Nelson says:

"They have been greatly exaggerated and the best result of the Mexican Claims Commission, in my opinion, is, that the truth will now be reached under a crossexamination from both sides. We trust that Mr. Relion is not too can-guine, and that one Spanish American re-public may be able to show an example to her djatracted sisters of the enempatibility of free government, with social order. In the French comedy that has ust been brought to a close, on one plays so rediculons a figure as the Count de Paris, the head of the Or leans factioo: and the Parisian papers are unmercifully poking fun at him. OUR frontier counties, as expected, have covered themselves with glory .-

Mr. Thompson may publish that inang-nral address, but Kendall, Gillespie, Me dina and Kerr, will only admire it-over

WE were glad to meet yesterday, our old friends, Judge Gray of Blanco, and Mr. Lightner of Concho. As far as we can learn, Blanco County is as irretrievably Demogratic as ever.

Ir you want to buy cheap and best stothing and hand made shoes, boots, stylish flats. Go to MOKE & BRO., at the

As FAR as Kendall County is concerned, we have news from only one precinct, as yet, and therefore, cannot give any particulars.-There is, however, no doubt about ite large Republican majority,

YESTERDAY We again had the pleasure of meeting on the street Mr. Andrew Bonnet, whose general health appears to be outirely rectored, but who, we regret to far as our District is suncerned, the Domsay, believes that his arm will never again become entirely serviceable. - We hope friend Andrew is wrong this time.

PANCOST & SON have certainly the best assortment of scarls and too, the very best kid and dogskin gloves, and five white shirts to be found in the City. The stock inst received.

A PATING INVESTMENT,-The nomine tion of Mr. Lacosto by the Democrate. We should like to bet that the Democratic malority to this county is no greater than the number of Frenchmen (a majority of whom never east a vote before, and care not a cent whom they vote for besides Lacoste) who voted last Monday. We accuse the Democratic party of riding into power upon the broad shoulders of Mr. Lacoste.

WE are indebted to the courtesy of Mr. Thompson of the "Herald" for the following, rather discouraging election news: Harris County (Houston) 300 Democrat is amjority.

Galveston County (Galveston) 1400 Democratic majority, Travis County (Austin) 700 Democratic

Oh! How we apples swim.

Wn understand that Wilson County has failed in furnishing the Democratic party that 400 majority they were counting on. The is no doubt if the city of San Antonie had done its duty, as far as the straight Republican vote is concerned, that Sener Ditches and "Moneicur" notwithstanding, the entire County and Distriet ticket would have been elected and Gov. Davis received a respectable majorin a District which must be fair

classed as "Republican to the sere." WE are again indebted to Mr. Thompson for the following particulars-none having as yet been received at our officeregarding the election in Bexar County. except Precincts 8, 9, 13 and 15, as far as

CALL on PANCOST & SON to see the latest style of hats, just recieved.

WE are happy to receive information that Mr. Alex E. Sweet is getting along as well as could be expected, though hi complete recovery will, from the nature of the case, take time. He will not be permanently injured. Our friend, Andrew Bonnet was out on Tuesday for the first time, looking as well as could be expected. His injuries, we are sorry to state, are however apprehended to be of a more lasting nature.

WE understand that Col. S. G. Newton our brave old Bexar county champion of Republicanism and Capt. W. H. Hustontrue as steel-have been ancomsful. The news from the frontier are appalling to the unterrified. Kendall, Gillespie, and Kerr have spoken and given Bezar a lescon. However, the election may have gone in a general sense, we know that with Newton and Huston in our legisla tive counsels, there are brakes to put a stop to Democratic extravagance and as ocrats can't as yet brag so much - with Newton, Huston, Bonnet and Klocke, we can as yet say that we have "the best half of the turkey."

WE have no hesitation in pronouncing the result of the election in Bexas County positive disgrace.

The successes obtained by Mesers. Bonnet and Klocks-acceptable as they areare insufficient to compensate for the loss

Instead of being "head and front" of the Republican party in Texas, it has shown itself rather the "other extremity, and will seen stand worthily by the side of the modern "Krashwinkel" as a Demoeratic Banner county.

The citizens of Bexar county were, without a doubt, overslaughed by that satire on immigration, "importation." When will they "put a stop to it ?"

In other words, these media of communication between the animal kitchen and its dependents supply to each member and organ, near or remote, the quantity and kind of anatenance required to keep it going. When the stomacy is derelict in its duty, or the dumb waiters inert or obstracted, it is the pseuliar province of Heatester's Calebrated Stomach Bitters to atraugthen and regulate them. Hence its unarvelous curse of chronic indigestion, and the emacistion, debility and languor which are generally its concomitants. It is, moreover, a powerful alterative and corrective, and the rapidity with which it checks irragularities of the liver and bowels, and braces and invigorates the nervous system, is a marvel, vigorates the nerrous system, is a marvel, not only to the general public, but to pro-
