The hundred days asked for by Gover Coke are passing away, and the prospect of paying off the in-debtedness of the State is as remote as ever. The cause of this clearly lies with the Legislatury. New York capitalists do not take any stock in our political disagree ments. Financially speaking, they would just as soon have Mr. Davis Governor of Texas as Colonel Coke. At that distance from Austin, they can draw no distinction between the Thirteenth and the Fourteenth Legislatures. Both bodies are to them alike. They judge them by Legislature passed a solemu resolution, the members pledging themselves not to adjourn until they had provided for the liquidation of the debt due to Williams & Guion and other creditors of the State. The Governor was instructed to impart this information. In face of this fact this body did adjourn, and Williams & Guion and other creditors still remain unpaid. By this breach of faith the State credit was materially injured abroad.

Another difficulty in the way of raising moncy is the unsatisfactory condition in which the International Railroad bond question stands. The capitalists of the North invested \$13,000,000 in Texas, and built this road, which will compare favorably with any now running in the North. The State agreed to aid in its construction, by giving certain subsidies. The road is built, the company having in good faith carried out its part of in default. Some members of the Legislature assert that the charter was passed by dishonorable means, and so innocent third parties whose money is snng in the enterprise are debarred from their rights, even though they agreed to an equitable compromise that would have satisfied any parties, except sticklers for a vindication of virtue at the expense of the commercial honor of the State.

The Fiscal Agent of the State, Mr. Moody, now in New York endeavering to negotiate the new issue of State bonds, though well known in commercial circles as a man of integrity and the head of a large and solvent commercial firm, can do nothing for the State with these unanswerable facts to con front and explain away. His mission is one purely of business. Sentiment is not allowed to play any part in it. It is a cold affair of dollars and cents, which appeals to the head of the shrewd money-lender and not to his heart. The agent is told that the State of Texas stands in the light of an individual owing a debt and acknowledging the obligation, who has on three separate occasions pledged his word that it would be paid, but on every occa-sion violated his promise, leaving the debt still unsettled .- Galveston Mercury.

### A Footish Dog.

In the lower part of the city the the other day, the humane proprietor of three or four newly born kittens, rather than plunge them into the Charybdis of the family wash. tub, quietly stole away with them to a vacant lot, and there abandon ed them in the hope that some kind persons might come along and take them home. Soon after their abandonment, a foolish be dog that was capering about in the vicinity, happened to spy them, and, after frisking about them for a few minutes, he caught one up in his mouth and carried it off to his kennel. He then returned and get another, and kept up his trips until he had got all of them to his quarters. Up to last accounts he was taking good care of them, and seemed quite fond of his extraordinary position. Some of the boys think he is only saving them until the become larger and fatter, so that he cen make a good meal of them, but his conduct indicates a genuine affection for the helpless little creatures, and he is such a tool of a dog that he may have decided to rear them .- Courier Journal.

In view of its supposed restriction to North America, much astonishment was excited some time since by

the discovery on the coast of Holland of specimens of the American horse foot or king crab. More recently, however, the problem has been solved by a communication in the Zoologist by Mr. W. A. Lloyd, who remarks that in 1860 numbers of these crabs were imported alive to Hamburg, and sold about the streets and that many were purchased and kept in aquaria and elsewhere. On one occasion, a few years later, a large number were shipped from New York to Hamburg, and the Market glutted thereby. With much tender heartedness, Mr. Lloyd, who was then Director of the great acquarium of Hamburg, in preference their acts, past and present, and to allowing this great number to die, will advance no money to the State took occasion to have them thrown took occasion to have them thrown on their promises. This is nothing into the sea off the island of Helgomore nor less than should have land, this taking place in August, been expected. The Thirteenth 1866. Whether the animals cap tured are those originally introdu ced in this summary manner, or their descendents, is not known, but their is no good reason why the species may not hold its own in these seas, and in time become as abundant as they are on the American coast.

South Carolina is not likely to have an exclusively white man's government very soon. The First Congressional District contains 54, 014 whites and 82,426 colored residents. In the Second; or Charleston District, there are 47,025 whites and 85,661 colored. In the Third, 66,-419 whites and 75,833 colored. In the Fourth, 75,373 whites and 78,-727 colored. In the Fifth, 44,836 whites are 93,105 colored. The total population of the State is 289,667 whites and 415,814 colored—the majority of the latter being 126,147. If the proportion of voters is one in five of the population, the colored the contract-but the State is again | majority at the polls must be about 25,000. The Charleston News, a "Conversative" paper, complains that the districts have been outrageonsly gerrymandered, geographical position being made wholly secon dary to the interests of the colored voters. However this may be, it would not be easy to secure a preponderance of whites in many dis tricts of a State where they are in a minority of over 125,000. If the "Conversatives" are unhappy, they should have thought twice before firing upon Fort Sumter.

Official Journal of the United States OFFICIAL JOURNAL OF BEXAR COUNTY.

A. SIEMERING & CO., Publishers.

THURSDAY, APRIL 9, 1874.

Mr. Coke.

We grant it to be the duty of the democratic press to applaud the actions of their elected head-centre whatever these actions may be. Impartial judgment amongst demcerats has long ago ceased to exist and is substituted by the regulations of party discipline. He who understands best to praise the infallible Coke, is sure to be rewarded in some shape or the other, and we are therefore not astonished to witness a perfect race of democratic enconiums bestowed upon the head of the great man that now stands at the helm of the State of Texas. Woe to the renegate, that dares to criticize the ability or doubt the wisdom of the Dalailama! The party whip will strike his head and back and make him succomb, or, if he refuses to submit, he will ignominiously be cast out from the party ranks and, if possible, ruined materially! Such is the policy of the great party of reform.

Not being subject to the disci pline of any party but always acting according to our understanding of right and wrong and according to our pleasure, we do not feel in duty bound to kneel before his democratic Intallibity and to kiss this shoes! We have no more respect for him than be deserves and shall not treat him like a sovereign seamonster, but like a simple citizen, whose actions are subject to criticism: like a servant of the people, who is sworn to do his duty imposed upon him by the constitution and who by impudent praise, such as we meet with in almost every democratic paper, will certainly be spoiled, if his present conditions admit of spoiling.

What has Mr. Coke done that, entitles him to the encomium of "eminent Statesman", "massive brain", that all his actions so far have been complete failures, that he inaugurated a dangerous policy which sooner or later will tell upon himself, that he has largely contributed to damage the reputation and prosperity of the State.

These are grave charges, but they can and will be substantiated.

We are perfectly satisfied with the action of the legislature concerning the constitutional convention. We have opposed the movement from the start and expressed our opinion as to the unconstitutionality of such a proceeding.

But what excuse has the legislature in defying the will of its contion-plank of the democratic platform !

And what doleful spectacle does Mr. Coke present with his sneaking Congress except five! These five were convention message, coming in after the whole matter was settled and attempting to sail safely between Scylla and Charybdis. Is such bill was cast by a Democrat. The reason cowardly position characteristic of Democratic doctrine of States Picture of Picture of States Picture of Pictur an eminent Statesman !

The hundred days of Mr. Coke which were to bring the millenium and settle all financial difficulties, are nearly gone, and there is no light to be seen yet on the dark horizon of our treasury. What induced Mr. Coke to go into the prophetizing business when there was massive brain?

Whoever knows anything about known so much that the repudiation act, proposed by Coke and passed by his legislature, was sufficient in itself to undermine the credit of the State and keep her ks to the refusal of the payment et debt in due course of busiplain repudiation, and so

of State-Warrants issued prior to solutions on the 24th of March, that they the 15th of January 1874 to invest their property in State bonds. Another repudiation is the refusal to issue the bonds due to the International Railroad, and the proposed legislation to rob the Company of what they are entitled to under the laws-and all this for the purpose of defranding Western Texas of her legitimate claim on the support of the State.

We pass over the manner Mr. Coke nsurped the executive power of the State, we pass for the present over the appointments he has made, we pass over his demaguogic interpretation of the meaning of the constitutional amendment concerning the Supreme Court-all these things are before Congress and will properly be investigated-we only in tended to touch such measures of Mr. Coke as are directly effecting the welfare of the State and her citizens, and we repeat that, in this matter as in all other respects he proved a total failure, the enconiums and impudent praises of the coart-organs notwithstanding.

#### An inch and a Half of Land.

The San Francisco Chronicle says that on a recent afternoon, a Judge, a Clerk of the court, a Sheriff, a short hand reporter, three lawyers, a plaintiff, two defendants, and six witnesses, assisted by an audience of outsiders, consumed some bours in the Fifteenth District Court, in that city, in determining who owned a piece of ground an inch and a half wide, and in thirty feet running down to nothing. The land was in the rear of a lot on detached. Tehama street, and worth at the utmost not to exceed \$5. The suit was an action in ejectment brought where by Daniel Russell against Fortman & Marz, the brewers. It appeared that the defendants bad a survey made, and more than five years before this suit was brought put their building on the line both parties had agreed to, and that the plaintiff had an inch of the detendant's lot in the front, which more than compensated for the loss in the rear. So the court told the defendants to go in peace, and made the plaintiff pay the cost.

## Democracy and the Granges.

Ever since the grange movement developed into a formidable combination, capable of influence in the politics of the country, the Democratic leaders have been equetting with it in a manner not at all "darling of the people" and similar reserved or delicate. There has been an attributes that are now showered ill concealed hope, not of honorable matupon his head. It appears to us rimony we fear, but of the baser purpose of simply using the grange organization to break down the Republican party and restore the twice and thrice condemned and rejected Democratic party to power. The success in hoodwinking the grangers has not been at all encouraging or commensurate with the efforts used, for in no State, so far, has the Democratic party evinced any willingness to withdraw its organization and merge its factious forces into the elementary masses of the people, to be moved and governed by the principles governing the grange organization. Here is the transportation bill, for instance, just passed by the Lower House of Congress. If there is any measure pending at Washington that is inspired and spst-ined by the granges, it is this bill in troduced and so eloquently and effectually championed by Mr. McCrary, of Iowa. It is a bill directly in the interest of the agricultural workers of the nation, who feel stituents ! What excuse is there for themselves overweighted and wrouged by wilfully breaking down the conven- the burdens put on them by railroad and trade combinations. But they have pulled this bill through the House only by the severest struggle, and against the opposing vote of every Democratic member of Holman and Wolf of Indiana, Robbins of North Carolina, Kendall of Nevada, and Luterell of North Carolina. West of the State of Ohio, every vote cast against the eratic doctrine of States Rights was violated by the provisions of the bill by which the Federal Government undertakes to control railroads within the State boundaries and jurisdiction. It does not seem to be possible for grangers and the Democrats ever to agree on this vital

THERE are rather doleful dispatches oming out from trades people in New York city at the present time. The second month of spring is slipping away, but the no plansible base for his prediction? hotels are empty, and the spring trade, Are such freaks the products of a that ought to have opened in February, has not yet begun. This is true not only of the dry goods trade, but of the hardware, grocery and liquor trades likewise. the financial world ought to have A gloomy foreboding rests on all the great mercantile interests of imperial New York. "What can the matter be ?" is the natural question of the forlorn merchants. Why, isn't it plain as a pike-staff'? Don't the New York papers, organs of the millionaires there resident, tell us daily ? It all conds out the market. Whatever comes of having "too much money in the country-"greenbacks," "bank notes," and and such like, "government lies," all of them. The New York merchants don't repudiation, and so want such worthless stuff for their goods.

mpt to force the holders They told as in their Cooper Institute re-

would feel obliged to exact "gold of the standard weight and fineness" in all future contracts, and that's just what western people and southern people who trade so much in New York have not got. How can the customers of New York buy, when the merchant princes spurn the currency of the country, of which their enstomers have so little, and demand a form of money of which they have none?

THE cause of the Cuban insurgents is reviving, or, possibly, their movements have become more noticeable by reasen of the new policy which they have adopted. They are burning the plantations and committing savage depredations. It is even said that they are so strong as to alictate terms of peace—the terms being the departure of all the Spaniards from the island. Their dictation is not likely to be obeyed. Spanish colonists, when they shake off their allegiance to the mother country, do not forget their old habit of bragging and "pronouncing."

MARY CLEMMER AMES thinks that Chief Justice Waite's face has an expression 'strangely like Lincoln's. You see it in the long upper lip and in the half sad, half smiling lines of the wide mouth."

LOCAL AFFAIRS. SINCE there are prospects of a railroad connection, landed property has considerably risen in price and the demand for city lots has increased.

A GOOD many strangers are in town, some for their health, some to make themselves acquainted with the country with a view for settlement.

FOR all the styles of spring and summer hats go to PANCOAST & SON. 14-3-dtf

An other norther, and quite a fierce one too. sprung up night before last and cooled the temperature quickly down. A good rain came down duting the night, and yesterday the sky was clear again and the clouds have disappeared.

PANCOAST & SON have now received a full assortment of cloths, cassimeres and linens to make up to order.

THE stage which left Tuesday morning for Austin, was attacked by desperadoes, the mails robbed and scattered and the passengers robbed of every thing of value they had in possession. Among the passengers were Mr. Nette and Mr. Brackenridge, the President of the National bank. Such occurrences are the ligitimate fruit Pepper, Allspice, Cloves, Cassia, of the present democratic rule. Lawlessness and crime are reigning sopreme in Texas since the meeting of the 13th Legislature and have increased from month to month; but in spite of the public clamor for protection, neither the Legislature nor Mr. Coke has taken any notice of it, and the official press calls upon the people to help themselves and form vigilance committees. Such a state of things calls loud for federal interferance.

The Pull Down Practice. Death laughs when he sees the weak and feeble bled, blistered, salivated, opiumized, or griped with violent purgatives. He knows that such treatment they can not long survive. In direct conflict with this pull down practice is the principle upon which Hostetter's Storach Bitters operate. The effect of this incomparable vegetable restorative is to build up the system and invigorate the constitution.
It imparts appetite and assists digestion, enriches and cleanse the blood, regulates and tones the liver and the bowels, and

establishes and perpetnates a healthy fra-bit of body. By a happy combination of vegetable extracts—tenic, aperient and vegetable extracts — tenic, aperient aud-ant-bilious—with a pure stimulant, these effects are stimulantaneously produced. There is no prescription of the pharmaco-poeia that has the same scope. You may find among its formulas scourges for the bowels, stimulants for the stomach, seda-tives for the nerves, but no grand combi-nation medicine that, like Hostetter s Stomach Bitters, is at once a tonic, an aperient, a corrective and an alterative. aperient, a corrective and an alterative.

Owing to the hard times and the inability of many of the suffering to visit the Sational Surgical Institute, at INDIA-NAPOLIS, Indiana, three of the Surgeons of the Institute have yielded to nament solicitations, and will visit Galveston, stopping at the Exchange Hotel April 2nd to 11th, Austin Fitzbugh House April 14th and 15th, and Dallas, Texas, Crutchfield House April 17th and 18th 1874, with all kinds of Surgical Apparatus and appliances, and fully prepared to treat such cases as may call upon them for relief, thus saving the patient a long journey to the Home Institution. They will come especially prepared to treat all surgical cases; Paralysis; all kinds of deformities of the face, Spine, and limbs; Diseased Joints; Diseased Eyes; Catarrh; Private Diseases; Piles; Fistula, &c. — No cases will be undertaken without a fair hope of relief Prices will be moderate. It is needless to say that this Institution is entirely responsible, and the largest and most popular of the kind in America, curing thousands of cases annually.
