### Drug Trial Starts With Jury Selection

Following pre-trial matters conducted Monday in a drug trial just getting underway in Bailey County, three pleas of guilty were received by District Judge Pat Boone Jr. Pleading guilty during

the day to a charge of being a 'combination to Manufacture, Deliver, Dispense and Distribute Methamphetamine, a Controlled Substance' were Hal Mark Tibbets, Patti Baumgart and Steve Painter.

Berlin Harvey, 58, was listed as being in very critical condition at Methodist Hospital in Lubbock. At presstime, Harvey was reported by family members to be in a coma. He received a bullet in his head in a shooting incident near Muleshoe on September 6.

Superintendent Neal B. Dillman reported that Muleshoe Schools will be released early on Monday, September 25, so students may attend the activities on Student's Day at the South Plains Fair in Lubbock.

He said the buses will leave the high school at 2:15 p.m. Complimentary tickets have been issued to each principal to be given the students.

Gil Lamb, who underwent open heart surgery in Lubbock recently, returned to his home in Muleshoe, Tuesday. Visitors are welcome, said family members, but they asked that visits please be limited.

Entering a guilty plea Tuesday morning was Billy Myers of Houston.

Charges were dismissed Monday against Michael Allen Tibbets for lack of evidence.

Scheduled to go on trial after a jury was chosen were James Cunningham and Wilford Fritz Gallegos, both of Muleshoe; Craig Chaney, Houston; and Gary Foster Levi, Jerry Rang Clayton, Dee Carter and Ron Shirey, all of Clovis, N.M.

In December, 1977, eight persons were apprehended at a remote farm house in western Bailey County and charged initially in the drug case. They were Wilford Gallegos, 27; Mark Allen Tibbets, 25; Hal Mark Tibbets, 22, all of Muleshoe; Gary Foster Levi, 22; Patti Baumgart, 22; Jerry Rang Clayton, 22; Deborah Jackson, 22 and Charles Jenkins, 22, all of Clovis.

Following a grand jury investigation in March of this year, an additional 18 persons were indicted on the charge.

One of the persons arrested and indicted along with them was Mike Rodgers, who was revealed two weeks ago as an undercover agent. Rodgers is scheduled to testify in the

### Marilyn Engelking Wins Weekly Contest

For shame, fellows! With the football season only two weeks old, and the second football contest for the year gone by, guess what?

This week the contest was won by a female again. Marilyn Engelking, who has been entering contests for a long, long time, won with only two wrong guesses and being a total of 22 points off on the double tie-breaker.

Not far behind was second place winner, Phil Brockman. He also missed two games, but was 23 points away, falling out of first place or at least a tie, by only one point.

Another familiar name to football contests was the third place winner. She is Ina Dennis, whose husband, Weldon, won at least one first place last year. She missed the Houston-Memphis State game and the Baylor-Georgia game, but was 25 points off on the tiebreaker scores.

Missing three games this week were Butch Vandiver and Hugh Young and all other contestants missed four or more games.

MARILYN ENGELKING

Many contestants were fooled by the Houston-Memphis State; Wake Forest-VPI and Wichita-New Mexico games, as well as the tiebreaker games.

But, the season is very young yet, and there is lots of time to win enough points to be the final grand prize winner at the end of the season.

When the contests end at the end of the regular season, the person with the most points will take home two tickets to the Cotton Bowl game on Jan. 1, as well as a \$50 expense check.

Last year's winner, Pat Young, graciously allowed her husband, Hugh, to share her grand prize, but this year, he is seriously giving her a run for her money. To date this year, although Hugh has not won one of the prizes as yet, he is running closer on his guesses than is his wife.

Be sure to get your entry in.

### P-TA Selling Pom-Poms For Mule Fans

Muleshoe Mule fans have the opportunity to purchase a black and white pom-pom on a stick, especially for a show of black and white power at football games this year.

The pom-poms are available at only \$1 each from the Muleshoe Parent-Teacher Association, who are selling them for a money making project. The PTA said all proceeds will be used in the school system.

The pom-poms are available at Johnnie's Safety Center, or from Mrs. Johnnie Estep, Mrs. Bob Palmer, Mrs. Lyndon Huckaby or Mrs. Gilbert Dale.

OPEN HOUSE AND DEDICATION PLANNED...On Sunday, September 24, from 2-5 p.m. area residents are invited to attend the open house and dedication of the new Bailey County Civic Center and Coliseum. The new facility is located at the West edge of Muleshoe on Highway 84. Coffee will be served and tours of the building conducted, as well as brief remarks during the dedication.

## Black, White Mules Face Maroon Hornet Invasion

Just in case you have a faint buzzing in your ears this week, and as the week draws to a close, it appears to get nearer and sound rather furious, it's probably a swarm of maroon and white hornets.

That's right, buzzing angrily after the Canyon Eagles soared over them last week 24-0, the Hornets plan to invade Muleshoe Friday night. They will be buzzing into town and attempt to do what they did to Friona in the first game of the season, when they stung the Chieftains, 26-6.

Athletic Director and Head Football Coach Mike Wartes and his staff, along with the varsity players, say, there is just no way. They will be riding high on the win from the traditional winning Floydada team last week, and plan to be prepared for the Tullia Hornets.

"Our boys put out an outstanding effort against Floydada," said Coach Wartes. "They really took it to the 'Mean Green' and we all consider the win against Floydada a milestone."

"We are hoping it is getting to where we can

### 3-Way School Employees Honor Board

Superintendent Bert Grimes acted as master of ceremonies Monday night during a banquet to honor the Three Way School Board. A dinner preceded other activities.

The dinner, served in the school cafeteria, was attended by the board members and their wives, faculty members and other guests.

Introduced were Doyle Davis, president; Jack Hodnett, vice president; Nelson Carlisle, Mr. and Mrs. Bobby Kindle and Jack Lane.

Also introduced were Adolph Wittner, county board member; Anita Chunn, tax collector; Joyce Risinger, Jackie Gaines, counselor; Bill Anders, elementary principal and Leonard Morgan, high school principal. Also introduced to the group was Clea Williams.

Each principal introduced their teachers in the respective schools, followed by a program of entertainment by "The Proclaimers" a gospel-singing group from Dora, N.M.

The coach said he thinks

### Optimists Host Guest Speaker Coach Wartes

If you want to go into the locker room at Muleshoe High School and see what goes on to cause the Muleshoe Mules to look as good on the football field as they do, Athletic Director and Head Football Coach Mike Wartes will help you out.

As guest speaker for the Optimist Club of Muleshoe Tuesday morning, Coach Wartes explained some of the methods used in training the players. He stressed motivation and incentive.

The coach explained the way the young men are motivated to do their best and commented on the most valuable player awards, as well as the locker awards.

"I feel motivation is the key to success," he commented. "If you don't motivate, regardless of what business you are in, you won't do a good job."

The coach said he and his staff are trying to build leaders for the future, who have a winning tradition.

He complimented athletes, who he said, pay the price to be the outstanding specimen they become. They don't have their degree from the nearest drive-in, according to the coach, but from hard, dedicated training.

Coach Wartes urged the fans to be a champion, along with the teams. "There is nothing worse," he said, "than looking up in the third quarter and seeing the fans leaving the stands."

At the end of his talk, he was commended by Optimist Roy Whitt, who said he appreciated Coach Wartes' philosophy of life, adding that motivation continues throughout life.

the Tullia game will be the hardest game for the Mules to date, because they will be coming into town ready to play, and will be here realizing that the Mules have won their

first two games of the year. From Tullia, first year Head Football Coach Bill Martin, who was an assistant coach there for five years before taking over the reins of the program was cautious about the trip to Muleshoe.

He told the Journal, Tuesday afternoon that he thought it was going to be a very tough game. However, he did say that Ronnie Fox, Tullia quarterback, who has not seen action so far this season, will be the starting QB when they hit Muleshoe Friday night.

"It's going to be tough, and we are going to have to play hard just to stay up," he said. "I just hope we don't get beat too bad."

However, in the next breath, Coach Martin said Cont. page 7, col. 1

### Officers Check VFW Burglary Over Weekend

Sunday, Mrs. H.E. Reed reported to the Bailey County Law Enforcement Center that the VFW, northeast of Muleshoe, had been burglarized.

Initially answering the call, Deputy Sheriff Monte Phipps found the intruder, or intruders, had taken a supply of liquor, including whiskey, vodka and tequila, as well as approximately two cases of beer.

He was assisted in the investigation by Deputy Sheriff James Williams.

### Light Rain At Midweek Helps Crops

Tuesday afternoon, light rains deposited varying amounts of moisture in Bailey County, ranging from very light to .6 in the West Camp area.

Reports indicate that Coyote Feedyard recorded light rain on Tuesday changing to heavier rains by Wednesday morning.

In Muleshoe, an unofficial .18 was recorded in east Muleshoe, with up to .3 in western Muleshoe on Tuesday afternoon, followed by .65 Wednesday morning.

Needmore Co-op Gin reported around .25 and Clauch Gin at Bula said one-half inch was received at the gin and up to .6 elsewhere in the community.

Rain was expected to continue intermittently throughout Wednesday, before clearing and colder temperatures toward the weekend.

This Sunday, September 24, from 2 - 5 p.m., local and area residents will be able to see the results of another phase of the continuing growth of Muleshoe.

Open house and dedication ceremonies are scheduled at the Bailey County Civic Center and Coliseum, and will be hosted by the officials of Bailey County and the Muleshoe Chamber of Commerce and Agriculture.

A ribbon cutting will be followed by brief dedicatory remarks by Bailey County Judge Glen Williams; Chamber of Commerce and Agriculture President Gene McGuire and Dr. Jerry Gleason, who served as chairman of the committee to obtain the coliseum.

Coffee will be served and tours conducted through the complex which culminates several years of planning.

Almost all of the work has been completed at the Coliseum, putting the 'frosting' on the cake of a project which took several years to research and complete.

After repeated requests for a facility, which started out as a large 'barn' to show animals during livestock and horse shows, a committee was appointed, to be headed by Dr. Jerry Gleason, to check into the

### DECA To Serve German Sausage Supper Friday

This Friday, prior to the Muleshoe-Tullia game, the Muleshoe Chapter of Distributive Education Clubs of America will host a German Sausage supper in the Muleshoe High School Cafeteria.

DECA will be serving from 6-8 p.m. For only \$3 adults and \$2 for children age 11 and under, you will be served German Sausage, potato salad, red beans, fresh garden vegetables, applesauce cake, tea or coffee.

The sausage is being prepared by Winkler Meat Company. Take out dinners will be available and will be delivered on request by calling 272-4360 between 5:30 and 8:00 p.m. Friday.

DECA Instructor Lola Pylant said, "The DECA students, parents and training sponsors would like to encourage you to support your local chapter by contacting them for tickets or purchasing them at the door." She added, "DECA--Developing Future Leaders in Marketing and Distribution."

possibility of such a building.

Plans were drawn and scrapped, and other community buildings checked in a wide area before preliminary plans were drawn up for a facility to be constructed in Muleshoe.

Then, the original 'show barn' concept began to be scrapped as requests started coming in for a larger building. When the final plans were approved and prior to letting bids for construction, added had been an arena, with a concrete floor; permanent bleachers; an animal washroom; storage facilities under the permanent bleachers which seat 650 persons; and two restrooms; with several outside doors, including three overhead doors. In the front are a large meeting room, carpeted; two offices which house the

### Jewelry Store Loses Windows From Rocks

Friday night, Muleshoe City Police officer Wayne Holmes was notified by the dispatcher to go to Lindsey Jewelry to check out the burglar alarm. Checking, he found the store apparently intact.

However, this had changed by Saturday morning. Arriving at work at approximately 8:55 a.m., Lois Davis found a window broken in the front of the store. The large display window had apparently been broken by a large rock which was found inside the store.

Again on Sunday night, officers were called to the store. Patrolman Hal Bynum found another large display window broken and a rock inside the store.

Then, on Monday night, officers found where some person or persons had poured some type of flammable liquid on the sidewalk near the store and ignited it.

The incidents prompted the Muleshoe Chamber of Commerce and Agriculture and the Muleshoe City Police Department to offer an award of \$250 for the apprehension and conviction of the person or persons involved in the incidents at the jewelry store.

Police Chief Johnny Richards said Tuesday morning that persons who have information should call the Bailey County Law Enforcement Center at 272-4268 and give the information only to him. He stressed that names will be held in confidence.

DIEZ Y SEIS de SEPTIEMBRE ROYALTY...Crowned as queen of the annual Diez Y Seis de Septiembre celebration in Muleshoe last weekend was Rosa Guillen, 18, a senior in Muleshoe High School and daughter of Mr. and Mrs. Gavito Guillen. Escorting the queen is Johnny Gonzalez.

**MJHS Coach Given Shower By Students**

On Tuesday, Sept. 12, the 8th grade girls gave Mrs. Sharyn Flowers a baby shower. It was held in the Library at M.J.H.S. The girls served cake, cookies and punch. She got some very nice gifts, the teachers gave her a high chair, the girls gave her baby blankets, bowl and spoons, baby clothes. Coach Flowers was very surprised and everyone enjoyed it. The Journalist Staff would like to congratulate Mrs. Flowers and hopes that all the gifts will come in handy and also hopes she liked the surprise shower.

**Denise Wilson Eighth Grade Best Player**

Coach Flowers selected for the first 8th grade player of the week, Denise Wilson. "She has been showing a lot of enthusiasm and hustle since school started. If she continues to put forth this kind of work, her efforts will pay off for us when the season starts. I am expecting a great deal from Denise and I'm sure she will not let the team down."

**Eighth Grade Beat Portales In First Game**

The 8th grade Mules won their opening game, 6-0, over Portales. Their defense played a great game and the boys showed a great deal of hustle. Alex Navejar blocked a Portales punt and ran it 30 yards into the end zone for the only score. Their next game will be against Tulia, here at 4:00.

### P.T.A. Held Get Acquainted Supper

A PTA Get Acquainted Supper was held Monday, September 11, in the Mary De Shazo Cafeteria. This was the club's first regular meeting.

Mrs. Gilbert Dale, president, welcomed the members and reminded them to sign their teacher's name card. At the end of the year the teacher with the best attendance receives an end of school coke party for her class.

Bill Taylor gave the blessing before the meal. After the supper, Mrs. Gilbert Dale called the meeting to order and read the Parent Teachers Association's Prayer. Mrs. Lionel Lane read the minutes. Mrs. Lindy Chancey introduced their budget for the year and it was accepted by majority vote. Third vice-president, Mrs. Johnnie Estep lead the discussion on the Halloween Carnival and the selling of black and white shakers during the football and basketball season. The PTA approved the projects. Mrs. Wayne Holmes reported that they had 37 members to join. She also reminded each member to pick up their yearbooks and to purchase a PTA bumper sticker for fifty cents. Since Mrs. Gary Burkhardt moved away from Muleshoe, Mrs. Robert Montgomery became the new third vice-president.

The deadline for the beautification project is October 15, therefore they decided to use bright paint to number places on the sidewalk to show the children where each bus would stop. Mrs. Gilbert Dale also reminded the parents that October 2 thru 6

would be "Treat Your Teacher Week".

After the officers and chairpersons were introduced, Bill Taylor recognized the new teachers. Miss Virginia Bowers introduced Dr. Gary Albertson as he presented a program on "First Aid". Afterwards, the audience asked questions. Some of the topics discussed were bleeding, poison, burns, broken bones and the Heimlich maneuver was demonstrated in the case of choking.

Tuesday, September 12, the Muleshoe PTA hosted a workshop on parliamentary procedure for surrounding Parent Teachers Associations. Littlefield, Muleshoe, Spade, Olton and Lubbock participated in this course. President of the South Plains Area Council, Mrs. James E. Smith presided over the meeting. Mrs. Lindy Chancey, gave the area PTA treasurer's report. October 13 the Fall Conference will be held in Slaton with the theme, "Rising to Challenges". The main speaker for this conference will be Wildering S. Edwards from Texas Tech. Her topic will be "Parent and Family Home Life". Their state convention will be at Waco, November 14-16.

The parliamentary workshop was taught by Mrs. Billie M. Hall. Those attending from Muleshoe were Mrs. Gilbert Dale, Mrs. Johnnie Estep, Mrs. Sandy Noble, Mrs. Lindy Chancey, Mrs. Tom Whalley, Mrs. Dan Noble, Mrs. Lyndon Huckaby and Mrs. Howard Watson.

### Mrs. Charles Saylor Named Texas State President Of W.I.F.E.

Mrs. June Saylor, member of the local Tri-County Chapter of Women Involved in Farm Economics (W.I.F.E.) was named Texas State President when the group held its Second Annual State Convention on September 8 and 9, at Lubbock's South Park Inn. The convention was attended by approximately 200 members representing 13 local chapters.

Mrs. Saylor is the wife of C.L. "Jake" Saylor and the mother of David, John and Scott, all of the West Camp Community, where they are engaged in farming. She is spokeswoman for the local group. She and her husband have made trips to Washington in support of agricultural legislation.

The gathering opened Friday morning with registration and tours of the Texas Tech Textile Research Center. The group was welcomed by Carolyn Jordan, Lubbock City Councilwoman. An address was given by national W.I.F.E. President,

Betty Majors of Osceola, Neb. At an evening banquet, State Senator, Kent Hance introduced Texas Commissioner of Agriculture, Reagan Brown, speaker for the event.

Saturday's agenda included a speech by Lon Mann, president of the National Cotton Council. U.S. Senator, John Tower was keynote speaker at the noon luncheon. During the afternoon session, new state officers for 1979 were elected.

Members attending from Muleshoe were Mrs. Charles Saylor, Mrs. Guy Austin, Mrs. Gene Hamilton, Mrs. Don McGuire, Mrs. Kenny Kittrell and Mrs. Terry Wheeler.

W.I.F.E. members are women interested in or involved in agriculture. Their aims include preserving the family farm as a way of life and lessening the serious problems facing the American farmer. They hope to do this through legislation and education. Anyone interested in joining the group can contact any member.

## BEAT LONELINESS WITH ACTION

When the black cloud of loneliness creeps in, get busy.

Since loneliness is a state of mental health that induces lethargy, blandness and isolation, the key to overcoming it is action.

All people are lonely at some time; otherwise, they really aren't in touch with themselves.

However, the degree or type of loneliness differs among individuals.

When someone is lonely, he doesn't know how to get in touch with another person for companionship. He has lost the key to group association.

But, remember, loneliness and being alone are not the same. Loneliness is a state of mind; alone-ness or privacy is a choice.

All age groups get lonely. Children, adolescents, singles, marrieds, divorced and aged at some time feel alienation or isolation from someone or some group they love.

Life styles, mobility, family separation and dual career families are primary causes of loneliness in children.

Adolescents get lonely when they feel left out-for instance, with no role model or adult to show him how to live, no close relationship with school, peers or teacher, or life

styles so casual that they don't provide sound skills or experiences to help him learn how to get along with others.

Singles get lonely -- they're not all swingers -- when they have no family available for socialization, or they get left out of married groups when they "threaten", the not so stable marriage.

Married couples find mobility as their chief cause of loneliness.

Many young couples get tired of each other's company, but mobility teaches them to protect themselves against close community ties.

Moving leaves behind friends and that hurts; therefore, mobile couples don't try again to make close friends.

Also, some marrieds are afraid they will lose their privacy if they are too spontaneous with friends or family.

In all age groups, loneliness is the state when a person feels nobody cares.

Loneliness can advance into depression that affects mental health and activities. Depression, though, is acceptable to the public and is reason to seek professional help.

However, it is unnecessary for loneliness to advance to the degree of depression.

Physical exhaustion -- a good workout -- is good medication for loneliness. But don't overdo the work. Don't trade a problem in mental fatigue for one in physical fatigue.

**QUEEN AND RUNNER UP...** Miss Rosa Guillen, center was crowned queen at the Mexican Independence Day celebration held Saturday night at the Catholic Center. Her runner up is Miss Christine Vela, right, and the out going queen is Miss Ninfa Castorena, left.

## Miss Rosa Guillen Crowned Queen Of Mexican Independence Day

Miss Rosa Guillen, 18 year old daughter of Mr. and Mrs. Gaviro Guillen was crowned queen at the Mexican Independence Day Celebration held Saturday night, September 16 at the Catholic Center.

The crowning was preceded by her court, who led a march with the Mexican and American flags. Members of her court were Hilda Ramos, Gracie Garcia, Mary Alice Orozco, Linda Castorena, Fernanda Orozco, Laura Leal, Yolanda Hernandez, Gloria Recio, Rosa Ann Toscano, Janie Ramos, Yolanda Orozco and Sally Castorena.

The out-going queen for 1977 was Ninfa Castorena. Miss Guillen's runner up is Christine Vela, 17 year old daughter of Mr. and Mrs. Joe Vela. Miss Guillen was escorted by Johnny Gonzales, Miss Vela was escorted by her brother, George Vela and

Miss Castorena was escorted by Antonio Yuregas. Father Tim Schwertner, priest of the Catholic Center crowned the girls and presented them with a bouquet of roses.

Before the queen coronation, music and dancing were provided by Los Chavos, from McAllen.

The fight for Mexico's Independence was started on September 16, 1810 by Miguel Hidalgo, a priest, when he rang a church bell in the town of Dolores and urged people to join him in a fight to free Mexico.

Mexico was ruled by Spain. Public office couldn't be held by anyone who was not Spanish born, nor could Mexicans carry on trade with anyone but Spain.

The war erupted when their Spanish King and his heir, Ferdinand, were imprisoned by Napoleon. Hidalgo led the march for his country and on March

21, 1811, he was captured at Acatita de Bajan, Coahuila. He was tried and shot on July 30, 1811 at Chiharahua.

Since Hidalgo's death, every September 16 is celebrated as Mexican Independence Day, in honor of Hidalgo, who is known as the father of Mexico.

The revolution was carried on by Jose Morelos and Vicente Guerrero. Morelos was shot in 1815. The country still honors him as a leader.

The fight for independence went on for 11 years. On September 21, 1821, Mexico defeated Spain.

In 1824, Mexico became a republic and has remained a republic.

**Energy Hope**

Those who seek hope, to counter gloomy energy prospects, can grasp a straw in the wind in the recent announcement from Princeton University--that scientists there have achieved a major breakthrough in nuclear fusion.

The breakthrough, it's said, could lead to a cheap, plentiful and safe source of energy in the next century. The fusion process utilizes sea water, of which there's plenty, and a high degree of heat in which two atomic particles are joined.

This is the energy process of the sun and in the power of the hydrogen bomb (where it's uncontrolled). Princeton scientists managed to create sun-like temperatures for a brief moment in a controlled atmosphere--something called a magnetic bottle--and for the first time in a 27-year-old fusion program produced controlled fusion.

If, as some say, our oil and natural gas resources are sufficient to last until well into the next century, controlled fusion, and other energy sources, such as solar power, may then be available to provide the world's needs. It just might be that the doom and gloom prospect (and U.S. dependence on Middle East oil) is not the end of the energy story, as civilization marches on.

**Balance The Budget!**

It's amusing how the White House, Congressmen and bureaucrats all agree the nation is now facing serious inflationary, trade and budget problems. Where were they before Proposition 13?

The President is finally saying spending must be curbed. It's now good politics. Proposals are heard in Congress for cutting taxes, selling gold, raising interest rates, stimulating business investment, etc.

There's only one answer, however, to solve the problem--balance the federal budget. If other countries (and bankers) of the world see the politicians of America finally face the issue squarely, and balance the federal budget--whatever the consequences--inflation would ease, the dollar would stabilize and the trade deficit would begin to decrease.

It's just that simple--as everyone who pays the bills for a family or business should know. Balance the budget, federal overspenders! Some receiving federal help may suffer (not necessarily, because fat and waste account for more than enough to balance the budget), but even that is better than everyone suffering.

**WOMEN TO GO TO SEA**

Coast Guard Commandant John B. Hayes said the service is removing restrictions based solely on sex in the training, assignment and career opportunities of its personnel. Under the policy, all women graduates of the Coast Guard Academy, like the men, will be assigned to sea duty.

**MAY SEEK PRESIDENCY**

Rep. John Anderson, a moderate Republican from Illi-

nois, said he has some pledges of money and enough political encouragement to explore the possibility of running for president in 1980. He said he would decide whether to announce formally early next year.

**CARTER ORDERS CUT**

President Carter has ordered the executive branch of the federal government to slash its \$3 billion travel budget by an estimated \$60 million to \$75 million next year.

**AUSTIN**--Since the adoption of the present Texas Constitution in 1876, proposed amendments to the document have been submitted to voters 358 times and 226 of these proposed amendments have been approved. On November 7, additional proposed amendments will be submitted for approval.

They also argue that the social and economic value of employing otherwise unemployable handicapped persons far outweighs any value of competitive bidding on products and services that can be supplied by them. Because the law requires that items be purchased at a fair market price, taxpayers would suffer no loss.

Amendment No. 1 proposes to amend Article XVI (15), Section 2, of the Texas Constitution, which requires that the purchase of stationery, paper, printing, binding, and fuel by the State be done by contracts awarded pursuant to competitive bidding.

**WASHINGTON NEWS REPORT**

**Change At Capitol? The Public's Role- Jarvis Agains-**

**Mr. Carter's Chance-**  
WASHINGTON, D. C. -- The biannual spectacle of Congress in an election year voting a tax reduction of insignificant proportions is again with us. But this year the mood of the public is different.

There are increasing signs taxpayers are now sufficiently disturbed to take matters into their own hands. Already a constitutional amendment to force Congress to live within its means has passed numerous state legislatures.

Howard Jarvis is campaigning in favor of another--to cut the federal budget by \$25 billions each year for four years. That may have good chances of success--for everyone knowledgeable knows there's more fat in each \$500 billion federal budget than that.

In all this agitation, a great opportunity is offered to President Jimmy Carter. In his first year and a half he turned out to be another typical Democratic big spender, with

new programs, more programs, pay raises and generosity for foreign countries.

Is the President waking up to the real mood of the country? If he reads the results of

public opinion polls, that should convince him the public is in no spendthrift mood.

If Mr. Carter were to come out in favor of any of the amendments to curb the annual over-spending of Congress and the White House, he could pick up a million votes overnight, perhaps more. He, and he alone, could do more in a short time to get an amendment on the books than any other American.

Mr. Carter would have to admit his earlier hopes can't all be realized. He would have to change his priorities, admit mistakes. But he can get the nation in the black and restore the dollar's stability, and curb inflation all in one swoop if successful in backing an amendment to get the nation's financial house in order.

Chances are, of course, against Mr. Carter's assuming a leadership role in the current people's struggle. He has already told us all his proposed spending is necessary--even deficit spending. But no one is too big to change his mind.

The hope of a few conservative Democrats on Capitol Hill is that Jimmy Carter is now in this process.

they are coming to Muleshoe to win a game. He added that in their win against Friona, he didn't think Friona played one of their better games, and the Canyon game was one of the poorer games for Tulia. He added that Canyon has a very powerful team, and cited the youth and inexperience of his team.

The coach said his team was in good shape, and that they are looking forward to the challenge of a game this year against Muleshoe.

Muleshoe Head Football Coach Wartes, his staff and the Mules said that if their total team effort holds up as has been evidenced by the first two games, the Mules will put on another outstanding show for the fans Friday night.

They continued to express their appreciation to the many fans who attend the games and show their support for the team.

price at this time, but cotton prices are rather good and the cotton marketing situation looks good right now.

He added that some farmers are beginning to defoliate a little cotton in the southern part of the county. The early defoliation is on some cotton which in some instances has only one boll to a plant. This cotton was in the dryland area that had heavy heat damage early in the summer, hampered also by a lack of adequate moisture to produce proper growing conditions.

Cotton is beginning to open not only on dryland crops, but on many irrigated fields at this time. "We still need moisture," said Tanksley. "The one inch of moisture received last Friday was localized right around the City of Muleshoe, and did not help the farmers all that much."

Tanksley warned producers who are considering defoliation to wait for the bolls to open on at least 80 to 85 percent of the cotton. Tanksley predicted that with slightly more than 100,000 acres of cotton planted, he expects some 60,000 bales to be harvested. Tanksley said he expects the average this year to be around a bale an acre, although some cotton will barely pay for the cost of stripping. There is some dryland cotton that received adequate moisture that will produce around a bale per acre, he added.

### Police Report

Monday morning, Joe Mack Wagon reported to the Bailey County Law Enforcement Center the loss of a pool table and green vanity from the old Green Hospital building on Avenue C and William P. Garrett reported a lost billfold recently.

Saturday night officers recovered an abandoned commercial-type vacuum machine. The owner of the machine has not been located.

Weekend arrests included three juveniles; one person charged with being an illegal alien and having no driver's license and two persons were charged with public intoxication.

### Trial...

case after jury selection is completed.

Texas and New Mexico State Narcotics officers, Bailey County Sheriff's office personnel and the federal Drug Enforcement Administration (DEA) personnel were involved in the drug investigation and subsequent arrests.

All the defendants were charged with being a part of a "combination to manufacture, deliver, dispense or distribute methamphetamines (speed), a controlled substance."

According to initial reports from law enforcement officers, the group had set up a laboratory to manufacture the drug in western Bailey County.

Under state statute, the charge, on conviction, carries a penalty as a first degree felony of five to 99 years or life, in prison.

By Tuesday afternoon when court was dismissed, the original 311 veniremen had been cut to just over 125.

It was explained that with seven defendants on trial, the defense is allowed six prospective jurors; the prosecution is allowed seven prospective jurors, plus the 12 jurors actually needed for a total in this case of 84.

As the prospective jurors are excused through questioning, the panel will finally be eliminated to the 12 jurors chosen to hear the case. It was expected to take most of this week to choose the jury panel to hear the case.

Because of the size of the case, it is being conducted at the Bailey County Civic Center and Coliseum.

**NEW EXTENSION FORESTRY SPECIALIST**  
Dr. Michael J. Walterscheidt has assumed the position of forestry specialist and forestry project leader for the Texas Agricultural Extension Service. He will be giving leadership to statewide educational programs in all phases of forestry, including timber production, wood products use and forest restoration. Special emphasis will be given to renewing forest resources.

**FIRST BALE OF COTTON...**As usual, D.J. Cox, who farms one mile east and one half mile north of Enochs reported the first bale of cotton produced in Bailey County. His 435 pound bale produced 860 pounds of seed and was GSQ 71 planted on May 10. The cotton was ginned at the Enochs Co-op Gin Monday. Pictured are R.T. Newton, gin manager, and Cox.

### Area Dog Tick Epidemic Not Found Here

Monday morning, Dr. Jerry Gleason, DVM, said that despite reports from the Littlefield area on a tick epidemic, no epidemic is evident in this area, although the veterinarian said he has treated a larger number of dogs for ticks this year than ever before.

Dr. Gleason said the dog tick problem is apparently growing some each year, and it is up to the individual pet owner to check their dog for the infestation.

Dogs found with ticks may be dipped and the dogs bedding area should be treated to remove the ticks and larvae.

He said he uses VIP dip as he has found it does more of the job that needs to be done. The veterinarian said one female tick can lay 8,000 to 10,000 eggs and, left untreated the ticks continue to grow in numbers, some of which may grow to the size of beans.

Ticks usually attack a dog's ears, head or shoulders, burrowing under the skin and feeding on the animal's blood, possibly causing anemia, paralysis or death. In extreme and rare cases, the ticks can transmit distemper, hepatitis or Rocky Mountain Spotted Fever, he cautioned.

Home remedies can be used, with care, added the veterinarian. Ticks can be covered with nail polish, then removed with tweezers, with care to be sure the head is released along with the body. A head left in the dog may cause a severe infection.

Bathing, dipping or powdering the pet will kill ticks, if the correct chemicals are used added Dr. Gleason.

### Farm Bureau Elects Four New Directors

Bailey County Farm Bureau held their annual meeting at 7 p.m. on Saturday, September 16, in the Muleshoe High School cafeteria.

FB President Carroll Kelton conducted the business meeting which included reports, 20 resolutions which were adopted to be introduced to the state, policy development for the year and the election of Morris McKillip, Marshal Head, Kenny Kittrell and Tommy Little, as new directors.

A fish and chicken supper started the 7 p.m. registration hour.

Kelton introduced special guests, State FB Director for District Two and Mrs. S.M. True, Jr.; Tammy Davis, Shannon Kennedy and Quentin Mimms, who gave a report on the citizenship seminar at Waco and Mrs. Janet Busk, who reported on the adult seminar she attended.

## Basin Water Research Released

Use of surface water in the Brazos I segment of the Brazos River Basin for other than domestic and livestock purposes has been documented in a report by the Texas Department of Water Resources.

The report consists of a 208-page book and a 32-page appendix of aerial photographic mosaics. It was prepared for publication following a field investigation of water usage in the watershed covering all or portions of Archer, Bailey, Baylor, Borden, Castro, Cochran, Crosby, Dawson, Dickens, Fisher, Floyd, Garza, Hale, Has-

### Moon Rainbow A Rare Sight For This Area

Around 10 p.m. Sunday, several calls were received at the Bailey County Law Enforcement Center about a sight which is rather a rarity in this area.

Prompting the calls to Ruth Briscoe, dispatcher, was a large rainbow completely circling the moon.

Mrs. Briscoe said the rainbow around the moon was the autumnal equinox. Webster's dictionary defines 'equinox' as follows:

"The time when the sun's center crosses the equator and day and night are everywhere of equal length, that is about March 21 (Vernal Equinox) or September 23 (Autumnal Equinox)."

The rainbow around the moon, or when the sun's center crossed the equator was Sunday, September 18, five days ahead of the approximated time.

kell, Hockley, Jack, Jones, Kent, King, Knox, Lamb, Lubbock, Lynn, Palo Pinto, Farmer, Scurry, Stephens, Stonewall, Swisher, Terry, Throckmorton and Young counties.

At a later date, all known users of surface water in the segment will receive, from the Texas Water Commission, a notice of adjudication and a claim form to be completed and filed as required by law. Each party will be notified of the date, time and place for a jurisdictional hearing and subsequent individual evidentiary hearings to determine the extent of the validity of each claim to use water in the watershed.

Publication of the report from information gathered during field investigations marks the beginning of the adjudication process in the Brazos I segment of the river basin. Several such operations have been undertaken since passage of the Water Rights Adjudication Act of 1967. Copies of the report are available for examination at TDWR offices in Austin or at the offices of county clerks of Castro, Hale, Lubbock, Dickens, Stonewall and Young counties.

Copies of the report, or

portions thereof, may be purchased for a nominal cost from the Permits Division, Texas Department of Water Resources, P. O. Box 13087, Austin, Tx. 78711.

# Projects Displayed During Field Day

A diverse array of research projects to benefit producers on the Texas High Plains were viewed by an estimated 1,000 visitors at the 69th annual field day of the Texas Agricultural Experiment Station facility here.

Tractor-drawn trailers shuttled the visitors around the 320 acre research farm here Tuesday, Sept. 12. More than a score of research projects were exhibited.

Five major presentations explained the latest research on weed control, labor management, corn irrigation, cotton variety and disease control and exhibited a new mobile trickle irrigation system.

Prior to the open house and tour, the board of directors of the High Plains Research Foundation met at the center. The foundation supports the research conducted at the facility.

At that meeting, the TAES presented a plaque to Jack Cloude, executive director of the foundation, in appreciation for his "dedication and contributions to agricultural achievement in Texas." The presentation was made by Dr. Robert G. Merrifield, associate director of TAES, College Station.

Among the throng touring the research facility were Dr. O.D. Butler, associate vice president for agriculture and renewable resources at Texas A&M University, College Station; Merrifield, and Dr. Dudley T. Smith, assistant director of TAES.

Trailers laden with visitors passed soybean research where advanced experimental lines in maturity groups IV, V and VI are being compared with proven varieties of similar maturity in field scale strip tests.

One of the varieties on display is the new Gail, developed at the Lubbock-Halfway center and released Sept. 1 especially for growers on the High and Rolling Plains.

Guides also pointed out the soybean breeding nursery, which includes early selections, lines with better resistance to seed shattering, and those more specifically adapted to this area.

Visitors saw a cotton research project involving recovery from simulated hail damage. This research is supported in part by the National Crop Insurance Association and the Crop Insurance Research Bureau.

The study is to determine the rate and amount of recovery by the cotton plant from varying degrees of damage inflicted by simulated hail (crushed ice propelled by air at a high velocity).

Information provided by this research, officials said, is used by the Crop Insurance Association in preparing charts which reflect estimates of actual losses inflicted by hail storms on the High Plains.

Also on the tours were tests where dryland and irrigated grain sorghum are studied to determine if surfactants sprayed on the

soil surface and in irrigation water before planting time have any influence on the rate of water intake and crop yield.

By exposing various corn lines to herbicides, researchers have gained information as to the degree of varietal response. In this test, 55 single and double crosses of corn containing the parentage of many area commercial lines have been evaluated against 20 herbicide treatments.

The study also includes the post-plant incorporated application of dinitro-aniline type herbicides on sorghum and corn.

These treatments have given excellent late season grass control.

Studies on the effects of

basin tillage, with dikes placed in every furrow and in alternate furrows, were shown. Conventional tilled furrows received the same irrigation treatment to determine the contribution the retained rainfall made on crop yield.

Visitors saw sorghum hybrids and lines being tested for resistance to the greenbug and corn leaf aphid.

Tour guides pointed to a study consisting of a grain sorghum-wheat-fallow-cotton rotation. The wheat is sown directly in the grain sorghum stubble with a summer fallow period following wheat harvest. Cotton then planted to following spring.

"The extent to which this rotation enhances water conservation and disease

reduction is being determined," officials explained.

Also, weed population and species changes are being observed in the long-term crop rotation study.

A test is being conducted to evaluate high sugar sorghums for sugar yield.

In a double cropping residue research project, wheat and triticale will be planted following the harvest of corn, grain sorghum, soybeans and cotton now on the land.

"The experimental design of this study is such that the effects of herbicide and crop residues on small grain seedlings can be evaluated," officials said.

Sunflowers can be a profitable crop in West Texas,

officials said, reporting on a breeding nursery with more than 500 selections for use in developing new higher yielding hybrids having greater tolerance to diseases and insect pests and a combined planting date-hybrid performance trial.

Twenty commercial hybrids and two open-pollinated sunflower varieties are being tested for seed yield, oil content, oleic and linoleic acid content and for insect tolerance.

The hybrids were planted April 19, May 23, June 16 and July 21. The effect of planting date on seed yield, oil percentage and fatty acid composition will be measured.

Visitors viewed tests to determine effects of limit-

ed irrigation on yields of seven corn hybrids, ensilage yields on 14 corn hybrids, grain production of 56 corn hybrids under optimum irrigation, a corn breeding program with over 500 plots of experimental hybrids.

Also viewed were grain production tests on 63 grain sorghum varieties planted in double rows, development of a head smut nursery to screen for resistance in corn and sorghum, and single row sorghum on 84 varieties.

Soil fertility studies to establish application rates related to yield potential, correlating field and soil tests, and to determine the rates of applied fertilizers and chemical change in the soil were shown.

THE PROCLAIMERS...Entertaining Monday night at a banquet at the Three Way School were The Proclaimers, a gospel-singing group from Dora, N.M. They are from left, V.L. Wall, John Nance, Butch Taylor and L.D. Hays.

## Butz To Address Ag Institute

Former Secretary of Agriculture Earl Butz will be the keynote speaker for the 26th annual West Texas Agricultural Chemicals Conference, Sept. 27-28 at the Memorial Civic Center in Lubbock.

Some 500 agribusiness leaders from western and midwestern states are expected for the conference. The theme of this year's meeting is "Better Business or Bust," said Harry L. Garretson of Hale Center, institute president.

Butz, known as an outspoken and sometimes controversial agriculturist, is dean emeritus of agriculture at Purdue University and served as Secretary of Agriculture from 1971-76. He will address the conference awards banquet at 8 p.m. Wed., Sept. 27, using as his topic: "Carter, Congress and Commodities."

Two awards for outstanding contributions to West Texas agriculture will be presented to an institutional representative and an agribusiness recipient. Conference registration begins at 8 a.m. Wed., Sept. 27, with the program opening at 1 p.m. The afternoon will be devoted to a seminar on business management as it relates to the chemical industry and the agricultural dealer. The seminar will be conducted by Robert Moorman Jr., of Elanco Products finance division, Indianapolis, Ind.

Thursday's sessions will open with a look at new products, equipment and label status. A discussion of soil amendments will be presented at 9:30 a.m. by Dr. Paul Christenson, Extension state coordinator of the Utah water quality program, Utah State University, Logan, Utah.

A report on Banks grass mites will be presented by Dr. John Owens, entomologist at New Mexico State University, Las Cruces, N.M.

## Prairie Party Offers Home Grown Talent

More than 1,000 persons will attend the Sept. 22 National Golden Spur Award and Prairie Party in the Lubbock Memorial Civic Center... a figure well over the original estimate of participants.

The first National Golden Spur Award, a gilded O K working spur encased in Steuben Glass designed with a reflection of trail dust, will be presented to Albert K. Mitchell, Albert, New Mexico, rancher. He was chosen by peers representing all major facets of the livestock and ranching industry.

The National Golden Spur is to be presented annually to an individual for outstanding contributions to the livestock and ranching industries, with special emphasis on humanistic contributions.

Jim Humphreys is manager of the Pitchford Ranch, chairperson of the Ranching Heritage Association Board of Overseers

and chairperson of the Judges Committee for the award. He commented that the great number of early ticket sales probably could be attributed, in part, to the fact that Albert K. Mitchell is the recipient and is expected to attend the function to receive the golden spur.

The Livestock and Money Symposium will be held from 10 a.m. to 2 p.m., Sept. 22, at The Museum of Texas Tech University. Moderator will be Charles Ball, executive vice president of the Texas Cattle Feeders Association. Speakers include Everette Harris, president emeritus of the Chicago Mercantile Exchange; Gene Edwards, board chairman, First National Bank, Amarillo; W.D. "Bill" Farr, Farr Feedlots, Greeley, Colo.; and Dr. Robert Jensen,

### HAY SITUATION BECOMING CRITICAL

With most of the state still dry, time is running short for hay making. Hay supplies will be extremely short this fall, with production down as much as 50 percent in some areas, notes a forage specialist with the Texas Agricultural Extension Service. Hay is available in other states but the cost is high. Grain supplies are good and the cost should be reasonable. Winter pastures can also help take the pressure off hay feeding. Producers will also want to cull their herds closely before winter sets in.

### GUL'E FOR MANURE APPLICATION

How much manure should be applied to provide desired amounts of nitrogen for cropland? An agricultural engineer with the Texas Agricultural Extension Service says that a "universal" guide for manure application rates is now available for reference at any county Extension office. The guide was developed by soil scientists at the USDA Southwestern Great Plains Research Center at Bushland and is based on the finding that the time-release rate, or decay constant, of available nitrogen is slower for manure low in nitrogen than for high-nitrogen manure.

Chappell-Spade Ranch, Tucumcari, guitar and singing; Patsy Holler, Paducah, singing; Danny Barnett, Lubbock, singer; James Jolley, Morton, narration and singing; the Maines Brothers band; the Music West barbershop quartet; and, from the Ft. Griffin Fandangle, a favorite number, "Drunk and Disorderly."

Two stages will form the background for entertainment, each with the facade of a Ranching Heritage Center Building. One is an adaptation of the Bairfield Schoolhouse and the other the Masterson JY Bunkhouse. New Mexico artist John Meigs designed the decorations.

Proceeds from the Prairie Party will benefit the Ranching Heritage Center, a 12 acre outdoor exhibit of authentic ranch structures at The Museum of Texas Tech University, depicting the history of ranching in the American West.

# Big Missouri Tigers To Beat Mississippi

If Missouri football fans didn't know differently, they'd think the schedule makers were out to really make life miserable for new coach Warren Powers. The season started with Notre Dame followed by Alabama... then comes a little "breather" this week against always tough Mississippi... finally, Oklahoma is game number four. It's difficult for things to get much tougher! The Rebels and Tigers have only met twice

in football, each winning once. Mississippi beat Memphis State, 14-7, in its opener, while Missouri upset Notre Dame and lost to Alabama. Between these teams, this could be the year of the Tiger. Mizou by eight points. The big scrap between Michigan and Notre Dame lost a lot of its gloss after the Irish were dropped by Missouri. However, the game still features last year's national champion vs the Big Ten co-cham-

pion of 1977. The Wolverines whipped Illinois 31-0 last Saturday in the first step toward their annual conference championship game with Ohio State. Michigan holds a commanding 9 to 2 lead over Notre Dame in their eleven meetings, and they will be the favorite in this one too. The Irish will lose their second game of the season, this one by two points. As usual there were many ups and downs in the forecasting department... more ups than downs happily. Through the first two weekends in September, we picked the results of some 240 games. 179 were right, 57 were wrong, and

there were four ties. Average...758. Clemson nipped Georgia last fall, 7-6, and went on to post one of its finest football records, 8-2-1. The Tigers finished in the runner-up spot in the Atlantic Coast Conference, and met Pittsburgh in the Gator Bowl. The Bulldogs of Georgia had one of their poorer seasons, winning five, losing six, and finish-

ing seventh in the South-East Conference. Clemson is one of the favorites in the ACC this year while Georgia's surprise win over Baylor last week added a lot of flavor to this one. We will still pick Clemson over Georgia by 19 points. Birmingham is the site of the clash between Alabama and Southern California where the Crimson

Tide is favored by 15 points. Penn State is the pick over S.M.U. by 19, and Oklahoma will eat Rice...the difference, 36 points.

**AVISO PUBLICO UN RESUMEN DE LAS ENMIENDAS PROPUESTAS A LA CONSTITUCION ELECCION GENERAL 7 DE NOVIEMBRE DE 1978**

**LA ENMIENDA PARA ALIVIO DE IMPUESTOS (H.J.R. 1)**

H.J.R. 1 propone una enmienda a la constitucion de Texas permitiendo a la legislatura que exente propiedad personal intangible; requeriendo que la legislatura exente ciertos articulos caseros y efectos particulares; y permitiendo a la legislatura que exente todo o parte de la propiedad personal del hogar seguro, de la imposicion de impuestos estatales y locales sobre propiedad.

La enmienda requiere a la legislatura que disponga la imposicion de impuestos sobre tierras agricolas y rancheras basada en su capacidad productiva en vez de su valor de mercado y permite a la legislatura que disponga la imposicion de impuestos a bosques de madera basada en su capacidad productiva.

La enmienda permite a los gobiernos locales que extiendan la exencion actual de no menos de \$3,000 del hogar seguro residencial para personas de 65 años o más de edad para incluir ciertas personas incapacitadas.

La enmienda concede una exencion de \$5,000 en el valor de mercado del hogar seguro residencial en los impuestos para escuelas públicas sobre propiedad. Autoriza a la legislatura que conceda una exencion adicional de los impuestos para escuelas públicas sobre propiedad de una cantidad que no exceda \$10,000 del valor de mercado de hogares seguros residenciales de personas 65 años o más de edad y ciertas personas incapacitadas. Si la persona de 65 años o más de edad es elegible para esta exencion la cantidad total de los impuestos para escuelas públicas sobre el hogar seguro de aquella persona no puede incrementarse.

La enmienda previene que gobiernos locales incrementen los impuestos sobre propiedad a menos que el cuerpo administrativo provea aviso público y lleve a cabo una audiencia pública. La enmienda requiere a la legislatura que disponga por ley que cada propietario reciba aviso de la revaluacion de su propiedad y la cantidad de incremento en sus impuestos.

La enmienda limita las apropiaciones de los ingresos de impuestos estatales en una cantidad que no exceda la tasa de crecimiento económico estatal que se anticipa con la legislatura autorizada para conceder exenciones de emergencia.

La enmienda prohíbe la valuación de propiedad inmueble a través del estado para los fines de impuestos sobre propiedad. Se requiere que la ejecución de

normas y procedimientos uniformes para la valuación de propiedad con el propósito de impuestos sobre propiedad, se origine con la autoridad que impone los impuestos sobre propiedad.

La terminología de la enmienda propuesta tal como aparecerá en la boleta es como sigue: "La enmienda constitucional disponiendo alivio de impuestos para hogares seguros residenciales, personas mayores de edad, personas incapacitadas, y tierras agrícolas, y extensiones de bienes muebles; la verdad en procedimientos tocante a la imposición de impuestos, incluyendo participación de ciudadanos; de nuevo definiendo la base de impuestos; limitando los gastos del estado; y la administración de impuestos sobre propiedad."

NO. 1 (S.J.R. 50)

S.J.R. 50 propone una enmienda a la constitución de Texas para eliminar la referencia arcaica al "Instituto de Sordos y Mudos." La enmienda permitiría al estado de Texas que compre productos y servicios de individuos incapacitados en facilidades de rehabilitación no lucrativas sin cumplir con los requisitos de oferta que se aplican a otros contratos estatales. La enmienda también eliminaría la formalidad de la aprobación de ciertos contratos estatales por el Gobernador, el Secretario de Estado, y el Contralor de Cuentas Públicas.

La terminología de la enmienda propuesta tal como aparecerá en la boleta es como sigue:

"La enmienda constitucional eliminando la referencia arcaica al "Instituto de Sordos y Mudos," permitiendo que ciertos productos y servicios de personas incapacitadas sean usados por agencias y departamentos del gobierno del estado, requiriendo que otros productos y servicios requeridos en la operación del gobierno del estado sean obtenidos por ofertas concedidas al postor responsable que ofrezca el precio más bajo, haciendo que todos los procesos de procuración sean sujetos a las leyes establecidas por la legislatura y eliminando el requisito que el Gobernador de Texas, el Secretario de Estado, y el Contralor de Cuentas Públicas de Texas participen personalmente en tales negociaciones."

NO. 2 (S.J.R. 55)

S.J.R. 55 propone una enmienda a la constitución de Texas para permitir que gobiernos locales emi-

tan bonos para la reconstrucción o adquisición de facilidades (terrenos, equipos y mejoras) con la intención de desarrollar oportunidades de empleo. Estos bonos se pagarían solamente de los ingresos de la venta o arriendo de estas facilidades. Gobierno local debe determinar que la construcción o adquisición de tales facilidades es necesaria para desarrollar oportunidades de empleo.

La terminología de la enmienda propuesta tal como aparecerá en la boleta es como sigue:

"La enmienda constitucional para autorizar que la legislatura emita bonos para financiar el desarrollo de áreas deterioradas. Solamente se pagarán los bonos de los ingresos de los incrementos en impuestos municipales. No pagos se pueden hacer de los ingresos de impuestos municipales, servicios públicos u otros servicios."

La terminología de la enmienda propuesta tal como aparecerá en la boleta es como sigue:

"La enmienda constitucional autorizando a la legislatura que emita bonos para financiar el desarrollo de áreas deterioradas. Solamente se pagarán los bonos de los ingresos de los incrementos en impuestos municipales. No pagos se pueden hacer de los ingresos de impuestos municipales, servicios públicos u otros servicios."

NO. 6 (S.J.R. 45)

S.J.R. 45 propone una enmienda a la constitución de Texas para permitir que la legislatura aumente el número de jueces en cualquier corte de apelaciones civiles. Al presente, cortes de apelaciones civiles están limitadas a un juez presidente y dos jueces asociados. La enmienda también permitiría a las cortes que sesionen por secciones, con la concurrencia de una mayoría de los jueces en la sección siendo necesaria para decidir una causa.

La terminología de la enmienda propuesta tal como aparecerá en la boleta es como sigue:

"La enmienda constitucional permitiendo que la legislatura aumente el número de jueces en cualquier Corte de Apelaciones Civiles, permitiendo que Cortes de Apelaciones Civiles sesionen por secciones, y requiriendo la concurrencia de una mayoría de jueces para decidir una causa."

NO. 7 (S.J.R. 48)

S.J.R. 48 propone una enmienda a la constitución de Texas eliminando la Comisión de Edificios del Estado y el Fondo de Edificios del Estado. La autoridad de la Comisión de Edificios del Estado ha sido trasladada por ley a la Junta de Control del Estado.

La terminología de la enmienda propuesta tal como aparecerá en la boleta es como sigue:

"La enmienda constitucional para abrogar la autoridad constitucional de la Comisión de Edificios del Estado y el Fondo de Edificios del Estado."

NO. 8 (H.J.R. 42)

H.J.R. 42 propone una enmienda a la constitución de Texas permitiendo que ciertas subdivisiones políticas o distritos del estado que al presente pueden emitir bonos u otros deudas o de otra manera prestar su crédito participen en actividades contra incendios y que emitan bonos o de otra manera prestar su crédito para sostener tales actividades.

La terminología de la enmienda propuesta tal como aparecerá en la boleta es como sigue:

"La enmienda constitucional autorizando que ciertos distritos participen en actividades contra incendios y emitan bonos o de otra manera presten crédito para tales propósitos."

## PUBLIC NOTICE SUMMARY OF PROPOSED CONSTITUTIONAL AMENDMENTS GENERAL ELECTION NOV. 7, 1978

**"The Tax Relief Amendment"** (H.J.R. 1)  
H.J.R. 1 proposes an amendment to the Texas Constitution allowing the legislature to exempt intangible personal property, requiring the legislature to exempt certain household goods and personal effects, and allowing the legislature to exempt all or part of the personal property homestead from state and local property taxation.

The amendment requires the legislature to provide for the taxation of farm and ranch land on the basis of its productive capacity instead of its market value and allows the legislature to provide for the taxation of timber land on its productive capacity.

The amendment permits local governments to extend the present exemption of not less than \$3,000 of the residence homestead of persons 65 and older to include certain disabled persons.

The amendment grants an exemption from public school property taxes of \$5,000 of the market value of the residence homestead. It authorizes the legislature to grant an additional exemption from public school property taxes of an amount not to exceed \$10,000 of the market value of the residence homesteads of persons 65 years of age or older and certain disabled persons. If a person 65 years of age or older qualifies for this exemption, the total amount of public school taxes imposed on that person's homestead may not be increased.

The amendment prevents local governments from increasing property taxes unless the governing public provides public notice and conducts a public hearing. The amendment requires the legislature to provide by law for each property owner to receive notice of the revaluation of his property and the amount taxes will be increased.

The amendment limits appropriations from state tax revenue to an amount not to exceed Texas' estimated economic growth rate, with the legislature authorized to make exceptions for emergencies.

The amendment prohibits the statewide appraisal of real property for property tax purposes. Enforcement of uniform standards and procedures for appraisal of property for appraisal tax purposes is required to originate in the taxing authority where the property tax is imposed.

The wording of the proposed amendment as it will appear on the ballot is as follows:  
"The constitutional amendment providing for tax relief for residential homesteads, elderly persons, disabled persons, and agricultural land; for personal property exemptions; for truth in taxation procedures, including citizen involvement; for a redefinition of the tax base; for limitations on state spending; and for property tax administration."

**NUMBER ONE (S.J.R. 50)**  
S.J.R. 50 proposes an amendment to the Texas Constitution to delete the "Deaf and Dumb Asylum." The amendment would allow the State of Texas to purchase products and services done by handicapped individuals in nonprofit rehabilitation facilities without complying with bid requirements applicable to other state contracts. The amendment also would eliminate the formality of the approval of certain state contracts by the Governor, the Secretary of State and the Comptroller of Public Accounts.

The wording of the proposed amendment as it will appear on the ballot is as follows:  
"The constitutional amendment deleting the archaic reference to the 'Deaf and Dumb Asylum,' allowing certain products and services of handicapped individuals to be used by agencies and departments of state government, requiring the procurement of other products and services required in the operation of state government to be made under bids awarded to the lowest responsible bidder, making all such procurement processes subject to laws enacted by the legislature, and eliminating the requirement that the Governor, the Secretary of State, and the Comptroller of Public Accounts of Texas be personally involved with such transactions."

**NUMBER TWO (S.J.R. 55)**  
S.J.R. 55 proposes an amendment to the Texas Constitution to permit local governments to issue bonds for the reconstruction or acquisition of facilities (land, equipment and improvements) designed to develop employment opportunities. These bonds would be payable solely from the revenue from the sale or lease of these facilities. The building or acquisition of such facilities must be determined by the local government to be necessary to develop employment opportunities.

The wording of the proposed amendment as it will appear on the ballot is as follows:  
"The constitutional amendment to extend the jurisdiction of justices of the peace in civil cases."

**NUMBER SIX (S.J.R. 45)**  
S.J.R. 45 proposes an amendment to the Texas Constitution to allow the legislature to expand the number of judges on any court of civil appeals. Presently courts of civil appeals are limited to a chief justice and two associate justices. The amendment also would allow the courts to sit in sections, with the concurrence of a majority of the judges sitting in the section necessary to decide a case.

The wording of the proposed amendment as it will appear on the ballot is as follows:  
"The constitutional amendment permitting the legislature to increase the number of justices on a court of civil appeals, permitting a court of civil appeals to sit in sections, and requiring a concurrence of a majority of justices to decide a case."

**NUMBER SEVEN (S.J.R. 48)**  
S.J.R. 48 proposes an amendment to the Texas Constitution eliminating the State Building Commission and the State Building Fund. The authority of the State Building Commission has been transferred by law to the State Board of Control.

The wording of the proposed amendment as it will appear on the ballot is as follows:  
"The constitutional authority for the State Building Commission and the State Building Fund."

**NUMBER EIGHT (H.J.R. 42)**  
H.J.R. 42 proposes an amendment to the Texas Constitution allowing certain political subdivisions or districts in the state that can presently issue bonds or otherwise lend their credit to engage in fire-fighting activities and to issue bonds or otherwise lend their credit for fire-fighting purposes.

The wording of the proposed amendment as it will appear on the ballot is as follows:  
"The constitutional amendments authorizing certain districts to engage in fire-fighting activities and to issue bonds or to issue indebtedness or to issue bonds or otherwise lend their credit for fire-fighting purposes."

bonds would be payable solely from the revenue from the sale or lease of these facilities. The building or acquisition of such facilities must be determined by the local government to be necessary to develop employment opportunities.

The wording of the proposed amendment as it will appear on the ballot is as follows:  
"The constitutional amendment to extend the jurisdiction of justices of the peace in civil cases."

**NUMBER THREE (S.J.R. 44)**  
S.J.R. 44 proposes an amendment to the Texas Constitution which would allow the legislature to authorize cities and towns to issue tax increment bonds to finance the redevelopment of blighted areas. The bonds are to be paid solely from revenue from municipal tax increments. Payment cannot be made from the revenue of municipal taxes, utilities, or other services.

The wording of the proposed amendment as it will appear on the ballot is as follows:  
"The constitutional amendment to give the legislature the power to authorize cities and towns to issue bonds to finance the redevelopment of blighted areas and prohibiting any city or town from granting its money or lending its credit for such purposes."

**NUMBER FOUR (S.J.R. 53)**  
S.J.R. 53 proposes an amendment to the Texas Constitution to allow the legislature to exempt from taxation solar or wind-powered energy devices.

The wording of the proposed amendment as it will appear on the ballot is as follows:  
"The constitutional amendment authorizing the legislature to exempt from taxation solar and wind-powered energy devices."

**NUMBER FIVE (H.J.R. 37)**  
H.J.R. 37 proposes an amendment to the Texas Constitution to grant exclusive jurisdiction to justices of the peace in civil cases where the amount in controversy does not exceed \$200, except where the legislature gives exclusive jurisdiction to another court.

The amendment grants justices of the peace concurrent jurisdiction with county courts where the amount in controversy is between \$200 and \$500, except where the legislature gives the county court exclusive jurisdiction.

The amendment also grants justices of the peace concurrent jurisdiction

25 YEARS IN TEXAS

Anthony's C. R. ANTHONY CO.

View From The Plains by J.D. Peer I&E Field Officer

YOU CAN HELP You as a concerned sportsman and citizen can help the enforcement of wildlife laws in Texas by reporting all game and fish violations to the nearest Texas game warden.

Even though the Texas Parks and Wildlife Department has 422 game wardens stationed at strategic cities and towns in Texas, the state is too large for these officers to observe and apprehend all game and fish violations. Recent hunter, angler and boater surveys completed by Texas game wardens indicate that nearly five percent of those contacted by the officers are in violation of one or more state regulations in the Lubbock region.

Many sportsmen participate in outdoor activities on private property or in areas not readily accessible to game wardens. If it were not for responsible landowners, law-abiding sportsmen and numerous citizens, hundreds of game, fish and water safety violations would go unreported each season.

To assist you in reporting game, fish and water safety violations in your presence, the P&WD has placed a standard Violation Report form on the back of each new 1978-79 Texas Hunting & Sport Fishing Guide.

If you witness a violation, do not attempt to apprehend the violator yourself. Simply fill in the blanks on the Violation Report and give it to a Texas game warden.

The new guide with the Violation Report form can be picked-up free of charge at license vendors, P&WD offices, or from the nearest Texas game warden.

Only with the participation of concerned citizens such as you or members of your family can Texas game wardens apprehend those who vandalize private property and steal our wildlife resources.

Smart Girl Chaplain Bruno said to little Alice? "Would you rather be beautiful or good?" She replied: "Beautiful, I can always repent."
