SIMMONS' LIVER REGULATOR

THE FAVORITE HOME REMEDY.
 This unrivaled Medicine is warranted
 not to contain a single particle of Mercury,
 or any injurious mineral substance,
 but is

PURELY VEGETABLE.
 containing those Southern Roots and
 Herbs, which an all-wise Providence has
 placed in countries where Liver Disease
 most prevail. It will cure all Diseases
 caused by Derangement of the Liver and Bowels,
Simmons' Liver Regulator, or Medicine,
 is eminently a Family Medicine, and by
 being kept ready for immediate resort
 will save many an hour of suffering and
 many a dollar in time and doctors' bills.

After over Forty Years' trial it is still
 receiving the most unqualified testimonial
 as to its virtues from persons of the high-
 est character and responsibility. Eminent
 physicians commend it as the most

EFFECTUAL SPECIFIC
For Dyspepsia or Indigestion.
 Armed with this ANTIDOTE, all climates
 and changes of water and food may be
 faced without fear. As a Remedy in
MALARIOUS FEVERS, BOWEL COMPLAINTS,
RESTLESSNESS, JAUNDICE,
NAUSEA,

IT HAS NO EQUAL.
 It is the Cheapest, Purest and Best Family
 Medicine in the World!

[COMMUNICATED.]
The Captain's Garden.

In the spring of the year 1857
 Capt. S. with his company was ordered
 to a Fort on the frontier of
 Texas. On arriving, the first thing
 done, was to make himself comfort-
 able in the dilapidated quarters.
 Among other improvements, it was
 thought necessary by the officers
 to have a company garden; and a
 place was selected on the bank of
 the river and fenced in for that pur-
 pose. Ferguson was appointed gar-
 dener. He understood his business
 and soon had the garden in a high
 state of cultivation. One morning
 the captain came to inspect the gar-
 den and the following dialogue oc-
 curred:

Capt. "Ferguson! Why don't you
 go to planting?"
 Fer. "I am waiting for rain, sir."
 Capt. "Don't you know that it
 hardly ever rains in this country?"
 Fer. "If that is the case, I cannot
 raise anything here."

Capt. "You have to raise vegeta-
 bles here by artificial means, with
 water from the river."
 Fer. "Under the circumstances,
 it is impossible to do this; because
 the garden is too sloping and too
 high from the water level."

Capt. "I will order a detail of men
 to bring all the water from the river
 you need."
 Fer. "I cannot raise anything
 here, if the whole company had to
 carry water; you had better try
 somebody else for a gardener."

By this time the captain's pa-
 tience was exhausted; he stamped
 the ground and shouted: "You shall
 raise vegetables; I will make you
 grow vegetables here."

He went away a few steps, then
 turned around and said: "Plant
 melon and pumpkin seed at proper
 distances, and have a trench dug
 around them about two feet in di-
 ameter and 6 inches deep." Fergu-
 son, although a recruit, knew enough
 of red tape to obey orders without
 any further argument, and soon
 had everything ready. In the eve-
 ning a detail of about 25 men with
 buckets came to the garden and fil-
 led those trenches with water from
 the river; and the next morning the
 earth was put back in the trenches.
 This was repeated every day, and
 in about a week the seeds sprouted
 finely. But the summer heat was
 so severe that the splashing of the
 water on the ground caused the
 surface of the garden to become very
 hard and cloddy. The Captain
 was proud over his success in getting
 the vines growing, when the grass
 in the prairie was parched. In a
 month the vines got to be about a
 foot long, the leaves about one
 fourth of their natural size, with
 blossoms and little melons on. Then
 the vines became infested with small
 vermin, which made those lilliputian
 productions look still smaller.

The Captain got disgusted at the
 sight of such a crop; he took all the
 men which could be spared from the
 post and went on a scout. I don't
 know if it was the climate, water,
 soil, or the curses of the soldiers,
 who had to water the garden, that
 caused nature to produce such a
 freak. The garden was considered
 a failure, the watering discontinued,
 and Ferguson could be seen busy
 breaking the clods, which the
 tramping on the wet ground had
 produced. One night in the month
 of July a refreshing rain soaked the
 earth; the crippled plants took a
 new start to grow, and in three
 weeks the garden was covered with
 luscious melon and pumpkin vines,
 which produced a heavy crop that
 season.

The attempt to force the growing
 of vegetables with water, was ex-
 perimental and harmless; but the
 attempt of an allopathic physician
 to force a cure of a case of prolapsus
 uteri with strong drugs, is worse
 than ridiculous.

There is a rumor that the Crown
 Prince of Holland will marry the
 Princess Thyra, a sister of the Prin-
 cess of Wales. This will in the course
 of nature, make the Princess Queen
 of Holland. The King of Denmark,
 her father, is one of the poorest mon-
 archs in Europe, and has, perhaps,
 the smallest kingdom. He has done
 remarkably well with his family.
 One daughter will probably be Em-
 press of Russia, the other Queen of
 England. One son is king of Greece,
 Denmark and Holland is a great
 achievement in the way of honors
 and power.

Texas News.

The anniversary of the Hebrew Sunday
 School at Galveston last Sunday is highly
 spoken of by the News.

The hide inspector and the butchers
 are having a grand fight at Houston be-
 fore the courts.

The splendid pompano fish are being
 caught at Galveston, and sharks ten feet
 long.

Most of Texas is suffering for rain, yet
 showers are daily falling in certain sec-
 tions.

J. T. INYING killed his cousin, W. F.
 Fisher, shooting him while asleep, in Lee
 county, near Ledbetter, a few days since.

BISHOP DURAND, of the Catholic Church,
 was severely injured by Lavaca county by
 the upsetting of the stage.

An unknown woman drowned herself in
 the Brazos at Waco recently.

THIRTY tons of copper from Mexico are
 to be shipped from Corpus Christi for
 New York.

CONGRESS has passed an amendment
 allowing the Texas Pacific railroad com-
 pany to raise money for conducting its
 work by mortgages on completed road.

SENATOR STEWART has offered a joint
 resolution for national free schools where
 State free schools are not maintained.
 This will apply to Texas if something is
 not done.

A GRAND reception will be given to Hen-
 ri Rochefort in New York on Friday by
 the French colesites.

PHILADELPHIA has resolved to go ahead
 with the Centennial buildings, to cost
 about \$5,025,000, and covering about 25
 acres of ground.

KEARNEY'S

The Daily Express

A. SIEMERING & CO., Proprietors.
Official Journal of the United States
OFFICIAL JOURNAL OF BEXAR COUNTY.
A. SIEMERING & CO., Publishers.
SATURDAY, MAY 30, 1874.

To the Business Men of San Antonio.

We are now prepared to do all kind of Job Printing as cheap and as neat as any firm in the United States can do it. If ordered in quantities, usually ordered by our merchants from New York or other cities we will accept prices noted on their New York bills and promise first rate work. We hope by this means to keep the thousands of dollars for Job Printing in San Antonio that annually find their way to the North.

A. SIEMERING & CO.,
JOB PRINTERS.
d&wtf

CAPT. KART CO. "C" Frontier Battalion, with six men, fought ten Indians in Clay county, killed one, captured another, and recaptured 150 head of stock. So says the Austin Statesman.

RAIN is now beginning to fall all over the country. We hear of it at Somerset, at San Marcos, at Austin, and at various other points, and it is now raining softly and beautifully at San Antonio. The insures fine crops, fine grass, and fine fat beef, cattle, sheep, and horses, especially in the beautiful and fertile West.

WHOLESALE MURDER.—Ex State Treasurer Geo. W. Honey publishes a letter in the Statesman, written at Georgetown, May 27, in which he says that over 100 men broke open the jail at Belton at 1.30 o'clock A. M. the morning before, and shot and killed nine prisoners viz: W. L. Coleman, Crow, Winfield Becknell, Marion McDonald, J. D. McDonald, W. T. Smith, Wm Cowen, Henry Gumbler, John Daily, (alias Alexander).

This is simply horrible. What is Gov. Coke going to do about the terrible murder mania that now prevails in this State? God knows we grieve to have to publish such things, but more good will be done by publishing the truth than by suppressing it. We had better be under military government, or have a hundred State police in each turbulent county, than suffer the like of this. What will Coke do with these 100 men? Nothing. Mack.

MILITARY TELEGRAPH.—A special from Washington to the Galveston News says that the bill for the construction of a military telegraph line along the Texas frontier, from Denison via Fort Sill, Fort Richardson, Fort Griffin, and Fort Concho to Pecos river; thence to Fort Clark, Fort Duncan, Fort McIntosh and Ringold Barracks to Brownsville, for protection against the Indians, was passed by the Senate, and it now only awaits the signature of the President to become a law. The sum appropriated is \$100,000. There is no doubt of the approval of the President. This telegraph line will not only be valuable in the matter of frontier defense, but it will help to bring the beautiful streams, rich valleys, inexhaustible pasturage, and salubrious climate of the western Texas to the notice of the world.

Our Mexican Troubles.

The Galveston News has a very vigorous letter from Corpus Christi in relation to the murder of four men at the Rancho by Mexicans, and the arrest of six men supposed to have been engaged in it. The correspondent favors vigilance committees and lynch law, and the News favors disregarding the laws of the Rio Grande and the neutrality laws in pursuing thieves and murderers. While we favor all measures necessary for the protection of our citizens on the Mexican frontier, we have great fears that our people will seek to avenge themselves indiscriminately upon Mexicans as a class, and that the innocent may be made to suffer with the guilty. There are good Mexicans as well as bad ones, and while some Mexicans have robbed and murdered Ameri-

cans, some Americans have robbed and murdered Mexicans—many of them. The News has no respect for Mexican nationality. But it must remember that the Mexican nation has improved wonderfully in the last ten years. And our vast and increasing Mexican trade calls for peace and friendship with Mexico. Let us be wise and just, and punish only the guilty.

False Alarm.

The Herald special of Thursday evening contained a circular from the Superintendent of State Education of Tennessee which our neighbor renders as follows:

Night (1) bill pending before the United States Congress in its provisions concerning public schools, is in direct conflict with the law of Tennessee under which the public school system of the State is organized and by which its officers are governed. It is furthermore in conflict with the twelfth section of article 11 of the constitution, which provides that no school established or aided under this section shall allow white and negro children to be received as scholars together in the same school.

Of course, the Civil Rights bill, and not the "night bill," is meant. This is Mr. Sumner's bill, which has passed the Senate, and now awaits the action of the House, and it is passed by the House, the action of the President. If the Herald will send its special round to the EXPRESS office, we shall take great pleasure in doing the neighborly act of deciphering them for the benefit of all concerned.

The circular, after the above introduction, orders that no more contracts be made with teachers by school directors "for the present." The Democracy always accept any excuse for closing public schools as a God send. In this case, they "kick before they are spurred." The bill has not yet passed the House. If it passes, the President may veto it, as he did the "inflation" bill. Should it even become a law, there will be no difficulty in providing separate schools for white and colored children. Equality is the privilege and facilities of public education is the essential point aimed at in the bill in relation to schools. The colored people are as much opposed to mixed schools as the whites. Wonder what our Hollingsworth will do!

The Methodist Question.

Thirty years ago, at the General Conference of the Methodist Episcopal Church of the United States, held in New York, May 1844, that body divided on the question of slavery. Since then the two branches have been known as the Methodist Episcopal Church, and the Methodist Episcopal Church, South. At the General Conference of the Southern Church held during the present month at Louisville, fraternal messengers from the Northern Church attended, and made powerful and touching speeches in favor of a renewal of fraternal relations, looking to ultimate organic reunion. The subject was referred to a committee. The following is the result:

LOUISVILLE, Ky., May 22.—In the Methodist General Conference this evening, the committee appointed to report a response to the fraternal greetings of the commissioners from the Methodist Episcopal Church, presented a lengthy report. The history of the disunion which led to the separation of the two branches of the church is elaborately reviewed by the committee, and while a fraternal spirit pervades the report, under the surface it is clearly manifest that the dead past is forgotten, is not forgotten. The committee refer with emphasis to what is claimed to be a grievance against the Northern Church in relation to the dispute in relation to the church property, and maintain that no cordial fraternity can exist until these questions of difference are settled. When the report was read, an extremely spirited discussion ensued. It was developed that while the Conference was nearly unanimously against organic union with the Northern branch, quite a respectable minority were for establishing at once the most cordial fraternal relations without conditions. Dr. Rogers of the Baltimore Conference, offered a substitute for the report of the committee, embodying this principle, and made a zealous argument for its acceptance. The report and substitute were referred back to the committee with instructions to report to-morrow.

LOUISVILLE, May 23.—At the General Conference this morning, the report of the committee on Fraternal Relations with the Northern Church was with a few unimportant changes from the text, as telegraphed yesterday, adopted by a large vote.

We cannot help believing that the Southern Church has made a mistake, and given the Northern Church the advantage of position and spirit before the country. The old disputes are forgotten by all but a few who were engaged in them, and the grievances of the Southern Church will never be examined or appreciated by the masses. The Northern Church has a million and a half of members, and is strong financially; the Southern Church has

seven hundred thousand members, and is comparatively poor. Two churches precisely alike is an absurd anomaly.

QUICKER TIME.—Within a short time, the railroad will reach the San Marcos, a little over forty miles from San Antonio. We learn that then a stage line will be put on the line between the city and the terminus of the railroad. This will greatly shorten the time of travel between Galveston and Houston and San Antonio. The time via Austin is now two nights and a day, with eighty miles of staging. By the new route the time will be a day and night, with only forty miles of staging, and the staging will be continually shortened. Austin will lose both trade and travel by this change.

Telegraphic.

HOUSTON, May 26.—Henry Connor shot and killed Henry Davis, both colored, at Spring Creek.

WASHINGTON, May 26.—Friends may decorate all graves at Arlington on Decoration Day, May 31st, Federal and Confederate.

The Judiciary Committee will investigate Arkansas affairs. Secretary Richardson will probably resign, to be succeeded by Delano.

The new postal bill allows newspapers to circulate in the county of publication free of charge, and magazines and newspapers as exchanges shall go free generally. Publishers and news agencies must pay 14 cents a pound on matter sent to subscribers. Not passed yet.

The President is authorized to invite foreign potentates to participate in the Centennial.

EVERY one knows that the business enterprises in which Gen. Fremont has been engaged of late years have been unsuccessful, and upon that basis of admitted fact a series of fantastic slanders have been constructed and set afloat, until many people believe that the General is now rolling in ill gotten wealth, and especially that he has allowed his brother in law, Baron Boileau, to suffer in his stead in Paris. We are assured, upon excellent authority, that there is no foundation of truth in these injurious slanders. The better opinion of those who are informed in regard to the affairs in question is that Gen. Fremont has incurred no stain to his honor in the unfortunate transactions where he has been the chief loser, and that in the painful disputes which have arisen between him and Baron Boileau, Gen. Fremont has been silent only through excess of generous magnanimity. The friends who admired and honored Gen. Fremont and his accomplished and estimable wife in the days of their conspicuous good fortune, can rest assured that they were never more worthy of the highest regard than now.—New York Tribune.

The American Sardine Co.'s Boneless Sardines are much better, and less than half the cost of imported Sardines.

DENNISO'S TAGS Patent Shipping Tags

Over Two Hundred Millions have been used within the past ten years, without complaint of loss by becoming detached. They are more reliable for marking Cotton Bales than any tag in use. All Express Companies use them. Sold by Printers and Stationers every where.

Seven Millions of Persons. All day and all night the exhausted particles of every human system are passing off through seven millions of quivering pores that being about the length of the straws connected with the pores. If these are obstructed, sickness ensues; if they were sealed up, the consequence would be death. It is one of the provinces of DENNISO'S STOMACH BREAD to keep the suppurating escape pipes open, as well as those larger excretory organs, the bowels, the stomach and the skin sympathetic, and it is through the stomach that the Sisters act upon the entire, keeping it moist, elastic and unobscured. The famous vegetable invigorant is a marvellous medicine; so other preparations contain such a variety of curative and nourishing elements, or mix, at the same time, in such a variety of beneficial ways. In dyspepsia it strengthens the stomach, improves the appetite, and controls the liver; in fever and ague, it breaks up the fever; in cases of physical prostration, it is literally a vital specific.

Wants to Buy Property.
The St. Jobnsburg Caledonian, of April 18th, says, "Last Friday, the Fairbanks Scale Company had an order from the Baltimore & Ohio Railroad Company for twenty-four five-hundred-pound hopper scales to be put into their new immense elevator building at Loudon Point. As these are five-hundred-pound scales, and are all set in a row, some idea of the size of the elevator may be gained. The production of such a scale was one thousand and seventy-eight scales, including six iron frame railroad track scales, of thirty to fifty tons capacity, and fifty-five bay scales; and these orders come, not only from all parts of the United States, but from every portion of the globe.

DR. W. BILLE, New Orleans,

A graduate from the University of Copenhagen, Denmark; Honorary M. D. from the University of Padua, Italy; for several years assistant Physician to the celebrated Prof. Ricord, Paris.

Having been for years a student at the large hospitals of Paris, London, Vienna and Copenhagen, and a thorough, large and varied practice during 15 years, has gained the most thorough knowledge of the nature of all chronic diseases, and the treatment thereof, and he has in his extensive practice had an unparalleled success, and very often effected a cure where every remedy had been tried and all hope of restoration of health had been despaired of.

Nobody who ever suffered of the tedious and life embittering disease—DYSPEPSIA—has ever in your case, Dr. Bille. In every case has he by his new method of treatment restored the functions of the stomach, and with it the health and vigor of the patient, and many a person does today, with gratitude, recall the moment he placed himself under Dr. Bille's care.

For his treatment of LADIES DISEASES, Dr. Bille is deservedly renowned, and no lady suffering from AMENORRHOEA, HYSTERIA, PRLAPSUS UTERI or any other disease peculiar to the female system, should fail to call on Dr. Bille, as they will quickly be relieved of their suffering and ultimately restored to perfect health.

Diseases of a Private Nature. Dr. Bille has made a specialty, and this course of humbly, unobtrusively treated, by most practitioners, is easy and quickly overcome by his new treatment. Being a pupil of the most renowned Physician for syphilitic diseases in the world, Prof. Ricord, in Paris, Dr. Bille will always guarantee a cure in any case of syphilitic disease which may come under his treatment; and hundreds in this city and vicinity can testify that in cases of syphilitic nature, where other physicians have failed, Dr. Bille has always been successful.

NERVOUS DEBILITY, SEMINAL WEAKNESS, IMPOTENCY, either caused by age or abuse, quickly and permanently relieved, and full power restored. No man is too old and no young man too debilitated that he can not be completely reinvigorated and rejuvenated by the treatment of Dr. W. Bille.

Dr. Bille wishes to call particular attention to his new discovery, by which he can, by the help of microscope and chemistry discover if there is any syphilitic poison in the blood, which is of the greatest importance, as persons having had venereal diseases often believe themselves cured, and the poison still remains in the blood to break out sooner or later. Dr. Bille has resided in New Orleans for years, and by his skill, knowledge and successful cures has obtained a great reputation as a specialist.

DR. BILLE
Will arrive in San Antonio on June 7th,
And will be located at the
MENGER HOTEL,

Where he will be pleased to see those needing his services at once, as his stay will only be short.

Consultation strictly confidential in English, German, French & Scandinavian.

LOCAL AFFAIRS.

NOTED ARRIVALS.—Among the arrivals at the Meinger Hotel we notice several gentlemen from St. Louis, several from Chicago, Col. J. T. Callahan, Postal Agent, Gen. McCulloch, and two gentlemen from New Orleans. We welcome them.

GENUINE India Pith Hat to be found at PANCOAST & SON, can be sold low

DR. WALDEMAR BELLE.—This celebrated physician, who is now making the tour of Texas, has his advertisement in this issue of the EXPRESS. All who need his services, in the lines of practice mentioned in the advertisement, will do well to note the time of his arrival, and promptly call upon him when he comes. He is now at Houston, but after the first of June he will be at Columbus.

READY made clothing in style and made not to be surpassed, always on hand at PANCOAST & SON. 14-3-11f

INTERNATIONAL RAILROAD.—From the decision of the Supreme Court in the case of Wright vs. Commissioner Kuechler, where Wright sued out a mandamus to compel the commissioner to issue a certain patent, in which the court disclaimed jurisdiction, it is believed the same decision will be given in the International Railroad land suit; in which case the compromise bill passed by the Legislature will stand as law. This is all the company wish, and they will then push the road to San Antonio, which is all we wish.

For all the styles of spring and summer hats go to PANCOAST & SON. 14-3-11f

MUD.—Just think of it! The streets of San Antonio are to-day disagreeably muddy, whereas, yesterday they were "as dry as a powderhorn," the dust intolerable, and the whole horizon gleaming with a fervid glory of flaming sunshine. To-day men are walking about with their boots outside of their pants, or their pants rolled up about six inches; while not a lady promenader is to be seen. But everybody seems to have an affection for the mud, because it is the off-spring of the delightful rain. Then our San Antonio mud is not the black, sticky, pitch-like stuff they have in Houston and other more easterly villages. It is grey and light, and very soon dries up in the sunshine.

GENTLEMEN'S furnishing goods of the very best quality always to be found at PANCOAST & SON. 14-3-11f

We learn from our friends, Messrs. Hugo & Schmeltzer, who are among the first of our substantial wholesale grocers, that a silver medal was awarded at the late Houston Fair to Jas. Uhrig for a really excellent quality of St. Louis Beer. Mr. Uhrig's brewery is an establishment which is an ornament to any city, being one of the largest and best managed breweries in St. Louis. The bottled beer which comes to us from him well deserves the fair reputation it has in this market, and for which the large demand for it is the best proof. This beer is kept constantly on hand by Messrs. Hugo & Schmeltzer, who have now again a large lot under way, which has been brewed and put up especially for this market. To our friends and merchants in the country, we can, without hesitation, recommend this beverage, which combines cheapness with good quality.

PANCOAST & SON are constantly receiving a good assortment of cloths, cassimeres and chevrons for custom trade. The New Dressfels cassimeres for sale.

THE BLESSED RAIN AT LAST.—Yesterday afternoon it rained in sight of the city, South, East, and North, and night closed in with steady East wind. At dawn this morning, nature seemed to be sprinkling this garden of the world with a fine but dense mist, which laid the dust, cleared the dust from grass, trees, and flowers, made everything look green and sweet, soften the parched earth, took the droop and the twist out of the corn, and made every human being look more joyful than numerous glasses of wine could have done. Since morning, several soft showers have fallen, and the prospect is promising of a plentiful rain. There must be some good among us, but, then, "He sendeth his rain upon the just and unjust;" so let no presumptuous sinner flatter himself too much on account of the rain. But let new crops and new garden work be laid out. We shall have several thousand more people here than usual this fall. The Fair and the railroad are both coming.

KARREN'S GARDEN is now open to the public as all times of the day, and will be illuminated every evening. Ladies and gentlemen will find all kinds of accommodations and good, cool beverages of every description.

Notice to the Public. If you want a No. 1 Mower or a Mower and Reaper combined, come and see us, we will sell you the Kirby, guaranteed to be the best in the State, and at ten per cent. less price than any other machines. Call and see them at our place 54 & 56 Commerce Street.

LEBOUX & COSGROVE.

Don't be discouraged. Suppose you have tried dry remedies and received no benefit, is there therefore "no pain in Gilead?" Verily there is! Your liver may be congested, your stomach half paralyzed, your nerves quivering, your bowels contracted, your lungs diseased, your blood full of impurities—yet in one week after commencing a course of Dr. WALKER'S YINERGA Bitters you will feel like a new creature.

WAGNER & RUMMEL, WHOLESALE GROCERS, PROPRIETORS OF THE Lone Star Vinegar and Black Horse Tobacco Factory.
