Captures Two Notorious Kansas Criminals.

S. P. Wade, Sheriff of Shawnee county, Kansas, and C. L. Vanderpool, Deputy United States Marshal for the District of Kansas, arrived at Barnum's Hotel yesterday morning, from a professional trip to Kansas, connected with which is one of the most interesting stories ever told in connection with police an-

Over a year ago Samuel Ashmore, a physician doing business in Topeka, murdered his wife, and was incarcerated in the Shawnee County Jail, from which he escaped, only to be recaptured. Confined with him in the same institution was E. B. Place, who had been arrested by the United States authorities for passing counterfeit money, and in February last, they both managed to break jail, and proved successful in getting out of the country. During the latter part of May, informa tion was received that Ashmore and Place had beed arrested in Mexico by Kruz Carson, Chief of Police at Brownsville, Texas, who is evident. ly a sbrewd and cunning officer.

It appears that Chief Carson was working up a murder case that had been perpetrated in Cameron county, Texas, when be accidentally ran across three Americans in Matamoros whom he suspected of being the men for whom he was searching. The Americans in question were Ashmore, who was tollowing his profession as physician; Place, who was engaged in repairing sewing machines, and the perpetrator of the Cameron murder; whose name escaped Mr. Vanderpool's memory. Carson called upon Mr. Thomas F. Wilson, the American Consul, and represented to that gentleman that he had a description of some murderers which corresponded with the men in question, and asking for assistance to arrest them. The repre sentative of the Mexican government in Matamoros was applied to, and he detailed two Mexican officers to aid Carson in effecting the desired arrest. Accompanied by the Mexicans, Carson visited Ashmore's room and found him alone. He informed the American that he had been arrested by the Mexicans for stealing a sewing machine, an derstood that it was an instrument which at one time had been repaired by Ashmore's friend Place. Hav. ing purchased the machine, instead of stealing it, he desired his countrymen to help him out of the scrape by identifying it. Ashmore's reply was, "All right, as soon as they come in we will go with you. We don't like to see an American in the hands of the Mexican sons of Place and the third party shortly afterwards arrived, and as soon as the case was explained to them all hands started for police beadquar-

On arriving there Carson turned and said to Ashmore and Place, who were walking behind, "Murder will out, boys, won't it?" Ashmore appeared thunderstruck, and throwing up both hands ejaculated, "I know it," and ran off at the top of his speed. The other two men were retained. The Kansas murderer succeeded in escaping that night, and the next morning was found concealed in a saw mill. When brought before the United States Cousn' he stated that he had been going by the name of Henry Dewitt Anthony, but that instead of murdering anybody in Texas, he was wanted for the killing of his wife in Kausas. Place was known by the name of Jones in Matamoros, but' on being questioned acknowledged that his proper cognomen was E. B.

Ashmore stated that he was willing to return to the States without a requisition, but Place demurred, stating that, before deciding what course to pursue, he would like to see a friend. After a consultation with that individual, Place also con-cluded to return without a requisi-

A Texas Official Unknowingly took the steamer for Brazos Santiogo, and, from there, a steam for to Point Island, Texas, 6 miles mist ant. Thirty miles more by will brought them to Brownsville, where they found their men and at once started back.

Ashmore acknowledges having murdered his wife, and states that the least be expects is imprisonment in the Penitentiary. The case against him is said to be a very strong one.

WEDNESDAY, JULY 1, 1874.

AN INCIDENT occurred in the Dis trict Court this morning which is very significant and very instructive to all who are thoughtful enough to try to arrive at the philosophy of the present terrible state of immorality and crime now prevalent in Texas. Felipe Flores had been indicted for "keeping a disorderly house," that is a house of ill fame where low and bad characters con gregate. The defense offered to prove that the place had been visited by men of the first standing and respectability, mentioning particu larly the name of Judge, now Governor Richard Coke, The court ruled the evidence out. We had heard that during the canvass last fall, Judge Coke, when at San Autonio, had got so drunk that he pulled his coat off, and addressed the audience, including many ladies, in his shirt sleeves; but this midnight visit to a Mexican bagnio was new to us. This is the man who denounced all Republicans as scoundrels, who is defended by the pious Houston Teleg aph, and to whom the pions pastor of the Metho dist Church in Austin offered his house of worship last winter to hold his Legislature in,

The Treatment of Mr. Honey at Belton.

AUSTIN June 27, 1874. Hon, Richard Coke Governor, Austin, Texas:

Dear Sir-In response to your request through Col. J. W. Robertson of this city, I have the hosor to make the following statement of the facts bearing upon the indignities to which I was subjected while at Belton, Bell county, on Sanday night, the 14th instant.

As the presiding elder of what is known as the Wago District, West Texas Conference, Methodist Episco pal Church, a district comprising both white and colored churches, I visited Belton for the purpose of quarterly our colored church, Reaching Belton on Saturday, I put up at the hotel, and on Sunday morning held my meeting without any interfer

In the evening I visited and took tea with the family of the Pastor of the Methodist Episcopal Church South and accompanied the family at night to their church service, leaving my umbrella at the house by mistake. After service, I returned with the family to the parsonage after my umbrella, and, on my way from thence to the hotel, if was attacked by some ten men, armed and masked, who, against my ernest proestations and resistance, a dragged me about one half mile to the rear of the town, to a deep, hole in the creek, where they attempted to take my watch and other valuables, but which they desisted from on my resisting them.

They then took me up bodily and threw me into the creek twice, after which they ran away and left me

The outy reason assigned for this act was the remark dropped by one of the mob: "We'll teach you not to come to Belton to preach to nig-gers," and "If you come again we'll kill you."

I ask, not so much on my own beand the church I represent, that your Excellency take cognizance of this matter to the end that protection can be guaranteed to myselt and ethers, prosecuting my calling, and that punishment may be visited upon all such trangressors, of the

Very respectfully yours, etc., GEO. W. HONEY, Presiding Elder Waco District, West Texas Conference, M. E. C.

Now, we ask every honest and good man, of whatever party, who loves his State, and wishes to promote its prosperity, to consider the bearings of this outrage upon the reputation and welfare of the State and of the South. In the first place, the Bell county Democracy boast that theirs was "the banner county" for Coke. During the canvass and election a Republican could not show himself in that county without being insulted, and running the risk of being mobbed. During the canvass Coke delivered in Belton

the bitterest, most vindictive, and come was delivered by Col. Benjamin malignant speech we ever heard in the State, boiling over with the froth and fary of his batred to the United States Government and its friends, and endeavoring to inturiate the mob against the Republicans of the State. During the canvass, Coke exulted, in his speeches, over the murder of a lieutenant of the State Police in his own town of Waco. His supporters in the legslature, in the spirit of a furious vandalism, destroyed the measures and agencies adopted by the Republican administration for the suppression of violence and crime. "Let the people (that is, the Coke Dem ocracy,) get control of the government, and all will be right." That is what they said.

The result is what all far-seeing, wise and good men could easily foretell. The State is over run with violence, lawlessness, bloodshed, murder, assassination, and the kil ling of helpless prisoners by bloodyminded mobs. Bell. Coke's "bau ner county," leads in this "rule of the wealth, intelligence, and virtue of the State," that is the rule of the Coke mob, for every desperado voted for him. They break down the jail door in Belton, and shoot to death nine helpless prisoners confined in the dangeon. War between rival mobs is being waged in various counties, men without number are being murdered, and mobs murder as many more, under the pretence of preserving order.

mob in Belton way-lay on Sabbath night the Presiding Elder of the Methodist Episcopal Church, and seize and mob him. This is done immediately after he has taken tea with the pastor of the Methodist Episcopal Church, South, attended church with him, and returned home with him. They thus insult him, and intimate to him that he asso ciates with a man only fit to be mobbed and drowned like a dog. What can be said against the Ku-Klux law now? What will be the opinion of the North and of Europe mothers searching for their children, husof all the clamorous assertions of the Cokeites of Texas that they are ready to receive all immigrants be said about these troubles "fo mented by the Radicals?" What now injure the State abroad ?" What now can be said about the infamy of "Radical calls for military pro-

And last of all, what will be thought throughout the Christian world of the influence for good of the churches and clergy of the South !- A reign of terror has come in with Coke, and no man's life is safe, if he freely utters his opinions.

THE SYRACUSE HORROR.—The disaster at the Central Baptist Church festival, at Syracuse, N. Y., by which fourteen were killed outright, and one hundred wounded, is thus described: "The number in the upper room is variously estimated at from 250 to 500, mostly grown persons. At the time the floor gave way the children of the congregation were in one of the ante-rooms, being prepared for the 'Ancient Concert." But for this fact the list of dead must have been very much larger, as many of the helpless little ones would have been crushed to death in the mass of humanity, crowded into the Vshaped vortex, formed by the falling timbers. At the moment of the falling of the floor the scene within the parlor was one of happy enjoyment. While all were pleasantly engaged, without a single sign of warning, the floor suddenly sank beneath them, and in a moment all were burried into a struggling mass of humanity, intermixed with falling timber, furniture, etc., and in utter darkness. The gas having been extinguished by the crushing And now, to crown all, the Coke of the gas pipes. In an instant after the fearful descent had been made all was silent as a grave, but immediately after heart-rending appeals for help were to be heard from hundreds of these who were in agony. Immediately after persons were seen issuing from the doors and windows, which were smashed out by frightened people, and an alarm was sounded. The uninjured within the church who were able to free themselves from the mass, began at once to assist in rescning others. The firemen and police were quickly at hand, and labored nobly in the

COMMUNICATED

The adjourned meeting of the Agricultural, Stockraising and Industrial Association of Western Texas, held last Saturday night at Firemen's Hall, was well attended, and the proposed Fair very generally, and with much animation discussed. The following extract from the report of the Board of Trustees expressed the determination of the Association to hold a Fair next full, and to make it a grand success.

"We, as a Board, have fully considered the matter, and sounded public opinion, and find this community nearly unanimons in favor of a Fair, and we have determined to carry it through, and make it Fire Companies, Alamo Rifles, Irish A. merican, and the Anxiliary Agricultural Associations in the surrounding country, and with all these a failure is simply impossible. We have adopted the plan proposed by our warm friend, H. Grenet, Esq, which is, to hold the Fair on the grounds surrounding the Literary Hall, and to use the Hall for paintings, statuary, and other works of art, needle work, jewelry, and such other fair or fairey articles as require to be kept dry and per fectly seenre. We propose to build temporary sheds around the entire lot, divided into apartments and booth,s in which merchants may display their goods and sell them either on the spot, or by samples from their stores; saloons, eigar stands, photographing, restaurants, Mexican suppers, ice-cream, candy shops, acction stand, etc., etc., may be opened by all who choose to participate. The field, orchard and diary will be well represented; our merchants will also show their handy work. Many new mechanical and agricultural labour-saving machines will be here from abroad.

The plan proposes to hold exhibitions at night as we'll as day; the place will be lighted by gas, and the articles to be seen, and amusements offered, will be sufficient to draw a crowded lionee, every night.

The Fair will also be held at the San Pedro Springs, during the hours of day, where showing and testing horses and other stock, racing, trotting, hurdle races, best riding, and examining stock, etc., will make it very fixeresting.

We propose to give anticient premiums le naure a large attendance of the best stock in Western Texas.

We shall require about 30,000 feet of lumber, etc., and we ask the Association to make an appropriation of two thousand

Schenck's Palmonic Syrup is warranted not to contain a particle of opinm: It is composed of powerful but harmless herbs, which act on the lungs, liver, stomach, and blood, and thus correct all morbid secretions, and expel all the diseased matter from the body.
