TUESDAY, JULY 14, 1874.

GEN. JOHN R. BAYLOR, we under stand, is undoubtedly in the field as an independent candidate for Congress for this District. As Gen. Baylor is a Democrat, we have no right to give him political advice, but we have a right to speak of him as a personal friend, a fellow townsman, a fellow soldier during the late war, and a public man generally. In all these respects he has the warmest friendship of all who know him well, especially in Western Texas, and more particularly on the frontier, where he has often been a daring soldier and commander.

THE upper counties of the Fifth Congressional District, which includes Galveston and Austin, and reaches to Red river, are sorely dis satisfied that the Democratic Convention to nominate a candidate for Congress is to meet at Hempstead. The upper counties will have no more showing in that convention than "a stump-tail bull in fly time." The gerrymandering Democracy have made the Districts so long in the body and so slimm round the waist, that they cannot stand straight.

THE silver mines of Western Tex os are beginning more and more to attract attention, and, in addition to the agricultural and hygienic attractions of the country, are about to prove another great stimulus to immigration. The silver region seems to include the counties of Gil lespie, Mason, Llano, San Saba, and Menard. The last issue of the Fred ricksburg Sentinel says that the editor has seen specimens of ore taken from a mine on Babyhead creek yielding at the rate of one thousand dollars silver per ton of the ore. They are located in a coun try where water is pleutiful, where timber is bountiful, and where roads can be built with comparatively little cost. The party who own the last named mines have negotiated in New York for a large amount of

One great benefit in these which cannot be found in other argentiferous ores is that their smeltable heat is extremely low when compared with other argentiferous ores, bismuth being a large component part. There is no reason to doubt that these mines will yield a handsome quantity of the precious metal, and when the day arrives for the development, which certainly is not far distant, these counties will be as populous and wealthy as the valley of the San Joaquin, Cal., is at pres-

Think, says the Sentinel, of ores yielding \$1000 per tonof pure silver not yet developed and only 100 miler from the State Capital. And it is a much shorter distance to San Antonio, where the railrand will soon extend, a simple if han

THE SUPREME COURT DECISION case is given in outline in a special to the Galveston News of hist Priday. We had purposed to give it entire in this issue of the Express, together with the dissenting opinion of Justices Reeves and Devine; but our space will not permit it. We give only the main points of both opinions. To night the opinion, complete and revised, will reach as.

The majority opinion says that a mandamus would lie only when the duty of the Comptroller is "ministerial," but in such a case as this the duty requires the joint action of the Governor, Treasurer, and Comptroller, involving the discretion of the Executive Department, and is an "official" act. The District Court cannot compel an officer of the Executive Department to do an official act. Case of Houston Tap and Brazoria Railpont referred to. Linother State constitutions, supreme execut- for speedier passage by the Assembly.

ive yower resides in the Governor; under our constitution, it resides in the entire magistracy composing the Executive Department, and the duties of each are separately defined. In the recent act of the Legis. lature in relation to this case, it provides that it shall not affect the litigation of it, and it does not recognize the State as a party in this suit. The court has no jurisdiction

Judges Reeves and Devine bold that the recent act of the Legislature make the decision of the Court a basis of settlement, and contemplates a decision of all the points involved on their merits. The case is properly before the Court. The larisdiction of the Court to inquire into the power of the Legislature and the constitutionality of the enact. ment, has never been donied, nor regarded as encroaching on the other branches of the government. The question is, had the Legislature the power under the constitution to pass the act? If so, it is binding on all departments of the govern ment, and the duty of the Comptroller is defined, enjoined, and "ministerial", and not discretionary His refusal is a case for mandamus.

OMAHA, July 9 .- Generals Sheridan and Ord returned from the West this evening, and telegraph advices from Ft. Laramier that reports received from the Spotted Tail agency say 75 lodges of Ogallahs, under Black Tom, are moving toward that place, and that the Unapapas and Minnicogies are moving across the Yellowstone river. The Arrapahoes and Cheyenes are camped on the head waters of the Big

Horn river, near Big Horn Mountain. LOVE TREE, NEB., July 9.-In consequence of many depredations by the Sionx in Wind River Valley on white settlers and Shoshone Indians, one of the latest being the murder and horrible mutilation of two white women, Dr. Jayne, agent for the Shoshones, has made a request that the bioux should be punished.

On the 2nd of July, while Gen. Ord and myself were at Camp Brown, Capt Forney was directed to send Capt. Bates and Lieut Robinson, with Company B, 2nd Cavalry, accompanied by 20 Indian acous, under I leut. Young, and about 150 Shoshone Indians, ander their chief, Wassokyto, to attack a Sioux camp, lately established about 90 miles from Camp Brown.

The attack was made at 3 o'clock Fridag. July 3, and resulted in 50 Sioux crushing machinery, which is being killed and wounded, and over 100 horses shipped directly to Austin for Liano captured. Our loss was two men killed, d Ligut. Young and three men wounded Lieut. Young dangerously.

In every case has he by his new method of trealment restored the functions of the of the patient, and many a person does to-day, with gratitude, recall the moment he placed his self under Dr. Bille's cure.
For his treatment of LADIES' DISEAS-

ES, Dr. Bille is deservedly renowned and no lady suffering from AMKNOR-RHEA HYSTERIA PROLAPSUSUTERI or any other disease peculiar to the female system, should fail to call on Dr. Bille, as they will quickly be releived of their suffering sight altimately restored to perfect health.

Diseases of a Private Nature Dr. Bille has made a speciality, and this scourge of humanity, unsuccessfully treated by most practitioners, is easy and quickly overcome by his new treatment. Being a pupil of the most renowned Phy sician for syphilitic diseases in the world Prof. Ricord, in Paris, Dr. Bille will al ways guarantee a cage in any case of symbilitic disease, which may come under his treatment; and hundreds in this city and vicinity can test by that in cases of syphilitic nature, where other physicians 46-74 dlm have failed, Dr. Bille has always been suc-

THERE will be a grand concert and tableaux entertainment given Karber's new summer garden next Tuesday nigut for the purpose of raising money to purchase musical instruments. Everybody knows that Mr. Karber has spared no expense to make his garden one of the most comfortable places of amusement in the city, and there is no doubt the public will do their share to support his enterprise by a crowded house. 12-7-d3t

CHARLIE PATTON, a well known and popular citizen, engaged in receiving and delivering cattle at this city, was indicted formerly under the allegation of receiving stolen cattle. He very readily gave bond, with some of the very best citizens of the country as sureties. To the surprise of all he forfeited his bail. Sheriff Stacodeback of Kendall county, being one of his bondsmen, procured the proper papers, and pursued him first to Kansas, then Nebrusha. and finally to Wyoming, where he overhauled him, and a few days since he ar rived in San Antonio with his prisoner, and Mr. Patton is now in jail. This sattle business is "playing the very" wild" with society out in this Western country, and there is no telling "whereanto this thing

In the District Court nothing of any great importance has transpired. A man named Allen was convicted of cattle stealing, and received two years in Hun sville, He is one of the De Witt county gang that were arrested here not long since. The eleader of the gang, Tennell, was killed near Gonzales, where the sheriff attempted to arrest him on writs from this county. On the approach of the sheriff and his party he fled from the house and hid himself behind a brush fence. He paid no attention to the orders to come out, and but for some defect in the metallic carttidge would have killed several of the attacking party.

Yesterday another of the gang, Harper, was on trial in the District Court, but we have not-yet learned the result.

The Grand Jury was still in session yesterday, but had nearly completed its labors. It has done a great deal of good in bringing home to a certain class of our population that the law is not to be trifled

Two Mexicans are also to be tried. Numerous witnesses are here from the lower counties. The jail is fall of prisoners. Let the sheriff look out, "A word to the wise" etc.

EARLY FRUITS FOR THE NORTH—We have heretofore noticed that watermeloas and similar traits are produced in Western Texas in great excellence. There is hardly any market for them here. They are now telling in San Antonic for five and ten cents spices. If we had the tall-road extended to this point we could ship 3-5-69d,

them by the car load to Kansas City, St. Louis, Chicago, New York, and all the Western, Northern, and Eastern cities, at great profit, and to the delight of those places. We find the following in the Gal-

veston News: Mr J. R. Johnson, of Honston, addressed the News p note under date of the ninth instant, to the effect that he would leave the same afternoon for Kansas City, with two cars loaded with melons, belonging to himself and Mr. Stringfellow. This is the proper course to take, and evinces the true spirit of enterprise. The trip is taken as an experiment, and if it succeeds it will lead to shipments of other produce from this section. from this section. There is no reason why the far West should not be supplied with early fruits and vegetables from this region of country, with profit to the pro-ducers here and satisfaction to the consamers at the other end of the line. This simple interchange is but the beginning of the end—the agitation of this direct trade movement between the West and the Gulf ports of Texas, is bound before long to astonish the natives with its
