OFFICIAL JOURNAL OF BEXAR COUNTY.
A. SIEMERING & CO., Publishers.
SATURDAY, JULY 18, 1874.

CHICAGO seems fated to suffer by fire.

THE Waco Advance calls for the publication of the laws of the last Legislature. Will Charlie Gray "rise to explain?"

WILL the coming Democratic Congressional convention swallow Coke's administration, or dodge the issue? We shall see.

THE attempt to assassinate Prince Bismarck, like the numerous attempts to assassinate various crowned rulers, is one of those terrible crimes known only to the old world.

PRESIDENT GRANT insists that the notorious Gov. Moses of South Carolina shall be convicted for his robberies by the courts, and says the Republican party will throw the so-called Republicans of South Carolina overboard.

IN view of some highly intelligent and interesting discussions occasioned by our recent article on Bismarck and the German churches, we shall, as soon as we can prepare it, publish a full and impartial review of the ecclesiastical laws, known as the Falk laws. It will derive special interest from the attempt to assassinate Bismarck.

JUDGES, Sheriffs, and Grand Jurors and District Attorneys are now the only hope of Texas for the preservation of order, the enforcement of the law, and the punishment of crime. An inefficient man in any one of these positions can do incalculable damage to the State. The loose notions, lax conduct, and unpunished license of sheriffs, have been a curse to Texas in all the past. Not one sheriff in fifty has been at all fit for the place. Instead of choosing the most substantial and reputable citizen of the county for the position of High Sheriff, as in England, we have generally chosen grog-shop good fellows, or noted bullies, or the more civil chiefs of desperadoes for this high office. And Judges and District Attorneys have not been half as strict with sheriffs as they should have been. Sheriffs are allowed their own way too much in the manipulation of juries, to the great obstruction of justice and protection of favorite criminals. Sheriffs have often been either in sympathy with noted criminals, or their friends, or have been too cowardly to arrest them. De Witt and other counties have been ruined by these things.

TEXAS is now the largest cotton producer of any State in the Union. In a few years, if the State is not divided, Texas will produce twice as much cotton as any other State; and in twenty years from this date, she will make as much cotton as is now made in all the cotton States combined.—California is the largest wheat producer of any State in the Union, the crop this year reaching 35,000,000 bushels, leaving 25,000,000 for export after supplying the home demand. And yet Texas in addition to her immense cotton-producing capacity, can raise more wheat than California, and five times as much corn. At the same time, she has the fortune of any ordinary State in her beef cattle and hides. Then she can beat any other State in raising sheep and growing wool. And Western Texas can raise more cotton, wheat, wool, beef, and hides combined than any other section of the State. What is more, the cotton raised in Western Texas is of finer quality, and will class higher than any other in Texas. And wheat raised here is heavier and finer than any brought here from Northern Texas.

ENGLISH CAPITALISTS have formed companies to develop the rice-fields of South Carolina, the lumber forests of Georgia and Florida, and to manufacture cotton in the South.

The principal inducement to this movement is that these States have exempted capital invested in internal improvement from taxation. We believe Texas has done the same thing. This is a fact to which all the papers of our State should continually call attention. In addition to this, the large landholders of Texas have it in their power to offer inducements which no other State can offer, by giving such companies all the land they need, which would make large fortunes by the enhancement of the value of their other lands. The City of San Antonio has it in her power to cause the establishment here of all the manufactures needed to make her a great manufacturing city. It is a matter that should engage the attention of the Fair Association. Immigration, as well as manufactures, can be attracted in the same way. Let us not be idle in these matters, while the flood of industrial development is thundering by us, to leave us in an impotent eddy.

THE WEST GONE UP. SHE GETS NO "INTERNATIONAL."

We learn from Mr. W. J. Fountain, who came in from San Antonio on Saturday morning, that a telegram had just been received there as he was leaving, announcing that the Supreme Court had made its decision in the International Bond case, and that the decision was against the Road! This does not surprise us in the least. Eastern Texas does not want the West to have any railroads. Coke does not want the West to have the International, or he would not have appointed an umpire in the case from Waxahatchie. The Railroads of Eastern Texas were built by the State. The West must do without Roads, or build them herself. There never was a case of greater outrage, but we presume there is no remedy.—Pleasanton Stock Journal.

We shall watch the San Antonio papers with no little interest to see what the people of our neighboring metropolis are going to do, about a Railroad now—after having gone up as we suppose on their last chance, the International? We, out here in the "cow region," acknowledge our perfect helplessness and dependence upon others, and lately that dependence has been upon the International. But San Antonio is rich—has her hundreds of men with very large capital. Are they going to continue to depend upon others? Are Kampman, and Grenet, the Mavericks, Bennett, Guilbeau, the Brackenridges, Menger, Dwyer, Elliot, Devine, and dozens upon dozens of others, going to do longer without a Railroad? We will not believe it.—Pleasanton Stock Journal.

DR. J. M. NEWELL, U.S.A. writes to the German Free Press of this city from the Indian Territory, where he is stationed, fully indorsing every thing that paper has said of the prospects of San Antonio for becoming a great and prosperous city. He thinks that when railroads penetrate the vast, beautiful, healthful, and fertile regions of Western Texas, that San Antonio bids fair to surpass any other city in the far South-west. The doctor thinks of settling in San Antonio after awhile, and we shall heartily bid him welcome when he does. He speaks appreciatively of the attitude and conduct of the Indians, and says they fire into camps and steal stock at night, and get across the river on to the reservation before they can be overtaken. He says the whole Comanche tribe say they are bound for Texas. We hope the U. S. troops, the rangers, and the frontier citizens will be on the alert, and prevent disasters.

Telegraphic.

The fire in Chicago burned an area of four blocks deep and half a mile wide. Loss, \$4,000,000 to \$6,000,000.
In a fight with Indians in Lost Valley, 15 miles from Jackboro, John Heath was killed, and several horses stolen. Fifty cavalrymen have gone in pursuit.
The District Court at Huntsville paid great honor to the memory of Judge Banton.
The "Fourth" was celebrated in the city of Mexico by a grand banquet. The volcano of Oplima is in full blast.
An attempt to assassinate the Emperor of Austria is reported.
The Bishop of Paderborne has been again fined 18,000 thalers, and sentenced to three months imprisonment, for repeated violation of the ecclesiastical laws of Germany.
Agnes Strickland, authoress, is dead.
The excitement in Berlin over the attempt to assassinate Bismarck is intense. Bullion in the Bank of England, £30,000.
President Grant is at Saratoga.
Government supplies render contributions unnecessary for Louisiana.
Gov. Baxter is gathering militia at Little Rock, at the assembly of the Convention.
The Bonapartists are uneasy at the approaching investigation. M. Rouher was hooted down by the Left when he attempted to speak.
A roll of \$500 counterfeit greenbacks sent for redemption has been discovered in the U. S. Treasury Department.

Texas News.

The Corpus Christi Valley has seen fine copper ore from near Laredo.
Brownsville charges Corpus Christi with encouraging the hide and cattle stealing business, and Corpus Christi denies the charge.
Maj. H. H. Boone, of Navasota, is a candidate for Congress in the Fifth (Galveston-Anatin) District.
A shooting scrape between Pearson and Page at Piedmont Springs, Grimes county is reported by the Journal—nobody killed.
A few cotton worms have appeared in Grimes county.
The Ranchero claims that the Rio Grande valley has all the requisites of a grand sugar plantation.
A man arrived in Houston a few days ago who rowed his way from Natchez, Miss., to that city.

THE PITALLA, pronounced *pe-tah ya*, which grows on a certain kind of cactus, in the chaparral, on some of the roads leading West and South from the city, was shown us last night at the Vance House. It is a fruit about the size of a half grown ordinary fig, and when ripe, is soft, and of a delicious taste. The sort of cactus it grows upon has the appearance of a large cucumber or gherkin, rigged like a large okra pod, and covered with prickles. The fruit is also covered with little short prickles until it ripens, when they all drop off, and it becomes perfectly smooth. The pitalla can be cultivated, and produced abundantly. It has the taste of a strawberry, a plum, and a fig combined. It can be made an excellent table fruit.

ARRIVALS.—By the Austin stage.—J. C. Ridd, W. H. Prime, Mr. Brown, (4 seats), Mrs. Clough, G. W. Chapman, Mrs. Whitmore, C. W. Handy.

DEPARTURES.—By the Austin stage.—Mrs. H. Dugan, J. F. Minter, Mrs. Sheehan, Mr. Fell, William Williams, Gen. Robertson.

PANCOAST & SON are constantly receiving a good assortment of cloths, cassimeres and chevots for custom trade. The New Braunfels cassimeres for sale.

SCHENCK'S SEA WEED TONIC.—In the atmosphere experienced here during the summer months, the lethargy produced by the heat takes away the frequent perspirations reduce bodily energy, particularly those suffering from the effects of debilitated vitality. In order to keep a natural healthful activity of the system, we must resort to artificial means. For this purpose Schenck's Sea Weed Tonic is very effective. A few doses will create an appetite and give fresh vigor to the enervated body. For dyspepsia, it is invaluable. Many eminent physicians have doubted whether dyspepsia can be permanently cured by the drugs which are generally employed for that purpose. The Sea Weed Tonic in its nature is totally different from such drugs. It contains no corrosive minerals or acids; in fact it assists the regular operations of nature, and supplies her deficiencies. The tonic in its nature so much resembles the gastric juice that it is almost identical with that fluid. The gastric juice is the natural solvent which, in a healthy condition of the body, causes the food to be digested; and when this juice is not excreted in sufficient quantities, indigestion, with all its distressing symptoms, follows. The Sea Weed Tonic performs the duty of the gastric juice when the latter is deficient. Schenck's Sea Weed Tonic sold by all Druggists.

Friend Loves a Shining Mark.

A great medicine is always a target for fraud. Shallow chests, without the talent to originate anything useful, or the decency to permit an article of superior excellence to perform its mission, without striving to turn a dishonest penny by attempting to substitute trash in its place, are now engaged in intimating and counterfeiting Hostetter's Stomach Bitters, the most popular tonic and restorative in the civilized world. A brood of local bitters, mixtures of damaged drugs with worthless liquor, has crept on all over the country. Although the sales of these pernicious slops are too insignificant to affect the interests of a staple remedy, it seems a duty to warn the public against them. The color of the true specific may be simulated, but its cures of dyspepsia, liver complaint, rheumatism, intermittent fever, constipation, nervous debility, &c., cannot be imitated.

NEW ADVERTISEMENTS.

ATTENTION!

At the regular meeting of the Agricultural, Stockraising and Industrial Association of Western Texas, to be held at the Firemen's Hall on Saturday evening next, at 9 o'clock, matters of great public interest will be discussed.
A full attendance is respectfully requested.
J. T. BRACKENRIDGE, President.
R. EGAN, Secretary.

DR. W. BILLE,

FROM
New Orleans,

A graduate from the University of Copenhagen, Denmark; Honorary M. D. from the University of Padova, Italy; for several years assistant Physician to the celebrated Prof. Ricord, Paris.

Having been for years a student at the large hospitals of Paris, London, Vienna and Copenhagen, and a thorough, large and varied practice during 15 years, has gained the most thorough knowledge of the nature of all chronic diseases and the treatment thereof, and he has in his extensive practice had an unparalleled success, and very often effected a cure where every remedy had been tried and all hope of restoration of health had been despaired of.
Nobody who ever suffered of the tedious and life debilitating disease—DYSPEPSIA—has ever in vain called on Dr. Bille. In every case he has by his new method of treatment restored the functions of the stomach, and with it the health and vigor of the patient, and many a person does today, with gratitude, recall the moment he placed himself under Dr. Bille's care.
For his treatment of LADIES' DISEASES, Dr. Bille is deservedly renowned, and no lady suffering from AMENORRHEA, HYPERTERIA, PLEURALGIA, UTERINE or any other disease peculiar to the female system, should fail to call on Dr. Bille, as they will quickly be relieved of their suffering and ultimately restored to perfect health.

Diseases of a Private Nature
Dr. Bille has made a speciality, and this scourge of humanity, successfully treated by most practitioners, is easily and quickly overcome by his new treatment. Being a pupil of the most renowned Physician for syphilitic diseases in the world, Prof. Ricord, in Paris, Dr. Bille will always guarantee a cure in any case of syphilitic disease which may come under his treatment; and hundreds in this city and vicinity testify that he cures of syphilitic nature, where other physicians have failed, Dr. Bille has always been successful.

NERVOUS DEBILITY, SEMINAL WEAKNESS, IMPOTENCY, either caused by age or abuse, quickly and permanently relieved, and full power restored.

Dr. Bille wishes to call particular attention to his new discovery, by which he can, by the help of microscope and chemistry, discover if there is any syphilitic poison in the blood, which is of the greatest importance, as persons having had venereal diseases often believe themselves cured, and the poison still remains in the blood to break out sooner or later. Dr. Bille has resided in New Orleans for years, and is endorsed by the best citizens there, and by his skill, knowledge and successful cures has obtained a great reputation as a specialist.

DR. BILLE
Has arrived in Waco, and is located at the

M'CLELLAND HOUSE

Where he will be pleased to see those needing his services at once, as his stay will only be short.

Consultation strictly confidential in English, German, French & Scandinavian. 30-5-74 d3m

LOCAL AFFAIRS.

BONNEY'S BUSINESS COLLEGE will reopen on September 1st, 1874, with great improvements. 18-7-dtd

THE WEATHER is hot and sultry, and the clouds threaten more rain.

LATER—A heavy rain fell this noon. The ground is now thoroughly wet.

For all the styles of spring and summer hats go to **PANCOAST & SON.** 14-3-dtd

THE STAGE from Austin came in this morning at 9:30 o'clock, instead of at midnight last night. The rain, though light here, must have been heavy on the road.

GENTLEMEN'S furnishing goods of the very best quality always to be found at **PANCOAST & SON.** 14-3-dtd

THE HALL of the Alamo Literary Society is a very handsome and spacious public building indeed. And the society should be fostered and encouraged by all our public spirited citizens. An art gallery might be connected with it.

THE ICE COMPANY'S ice is excellent, as this whole office can testify. We give our whole patronage to that company, and use all the ice we can get, because we wish to increase the custom of the concern. And we find that we have never lost anything by patronizing this company.

READY MADE clothing in style and make not to be surpassed, always on hand at **PANCOAST & SON.** 14-3-1st

BONNEY'S COMMERCIAL COLLEGE is one of the institutions of the city, and is fast growing in importance. A full commercial course is given boys and young men, fully fitting them for any business, together with instruction in commercial law, Spanish and German.

TAMALES, chile con-carni, and Mexican coffee, were the order of the day, or rather of the night, after the immigration meeting broke up last night. In company with Gen. Robertson, Maj. Brackenridge, Dr. Kingsbury, Col. Bradford, Dr. Graves and others, we had a regular feast. We confess to a great weakness for tamales and chile-con-carni, and better coffee is hard to find in this world than that made by Mexican cooks—that is, if you do not wish to sleep any that night. It is stronger than Creole coffee in New Orleans, and the flavor cannot be excelled.

We beg to inform our friends and customers that we have moved our large stock of Dry Goods, Notions, Boots, Shoes, Hats, Clothing &c., from 38 & 40 Commerce Street, to the spacious store fronting the San Antonio National Bank on Commerce and running back to Market Street.

We hope to see all our old friends and a great many new ones there, and shall take pleasure in showing them through our extensive and well assorted stock.

R. OPPENHEIMER & Co. 17-7-dim

IMMIGRATION MEETING.—Quite a respectable audience of the most substantial citizens of the city, and several ladies, made up the audience of Gen. J. B. Robertson, Commissioner of Immigration, at the Alamo Hall last night. The congregation would have been larger, especially of the ladies, had it not been for the rain in the forenoon, rendering the streets somewhat disagreeable. The Commissioner was introduced by Maj. J. T. Brackenridge, President of the Agricultural, Stockraising, and Industrial Association of Western Texas.

Gen. Robertson said he would not stultify himself, or insult the good sense of the audience, by arguing the importance of immigration to such a State as Texas. He then went into an explanation of the hampered condition of the Bureau owing to the meagre appropriations for its support by the last Legislature. At the same time he explained the difficulties in the way of the Legislature, in view of the straitened financial condition of the State. But he showed that he was making his Bureau an agency of great usefulness to the State anyhow.

He argued fully the importance of making Texas known to all parts of the Union, and to Europe—of making each section and each county known—by truthful and detailed printed descriptions. He said that he was receiving hundreds of letters almost daily, from most of the States and territories, and from Europe, and the questions asked showed great ignorance of our State, and proved that exact and full information was the great thing needed to increase immigration to Texas. He said that after a careful estimate, from the best data, his conclusion was that at least a million families in the Union sought new homes annually. We think his estimate under the mark. He showed that, while there was a great interest and tendency toward Texas all over the world, there was more ignorance in regard to Texas, and less being done to make her known, than any other of the new portions of this country. Agents for immigration to the North-western States and Territories were to be found in all parts of the Southern and Middle States, in all the railroads and public places.

He urged that each county should have an immigration society, and should draw up and publish a description of its own territory, to be circulated through the Bureau—a most valuable and important suggestion. This is the more important at the present time, for the reason that we now have growing in Texas the largest crops of corn, wheat and cotton that ever was grown on the soil of Texas, which fact would vastly increase the tide of immigration this fall and winter. He had already received reports from about 140

counties, and was receiving an immense number of letters daily. He had a pamphlet description of Texas for foreign circulation—40,000 in German, 30,000 in English, and 20,000 in Scandinavian. He is sending them out by every vessel leaving our ports, and would mail them to individual addresses when furnished him.

Gen. Robertson concluded with an encouraging exhortation upon our Fair Association, upon the preparations for the Fair this fall, and upon the magnificent agricultural capacities of Western Texas, where wheat and cotton grow to the greatest perfection on the same soil, side by side.

When he concluded, Maj. Brackenridge concluded with a pious exhortation to our city journals not to be quite so "previous" in telling the whole truth about such things as the civil war in DeWitt county, and the whipping of the school-master in Guadalupe county. The Herald and Express took the matter under advisement until the Governor's law and order proclamation should be suppressed.
