The Future of St. Louis, Missouri. and Texas.

From the N. Y. Times.] The immense railroad movement which demanded and created the bridge over the Missisippi at St. Louis is producing results in the Southwest which are but little known or appreciated in our part of the country. The great States of Missouri, Texas and Arkansas, each containing all the elements of an empire, are receiving a develop ment which will soon be telt in the increased current of trade poaring castward and northward. Texas is now traversed by railroads in almost every direction, and even the poli-tical troubles in Arkausas have not been safficient to check the growth of one of the most important of the delphia. lines running through its territory. Both Texas and Missouri are receiving constant additions to their population from Germany, from the older Southern and from the far Northwestern States. Missouri bas thus far taken the lead in the South west in enterprise and growing power, but Texas is following hard upon her footsteps. A section of the country which, a quarter of a century ago was looked upon by Eastern people as a wilderness, and by no means a promising one, now boasts of one State which is out ranked in manutacturing and general mechanical progress only New York, Pensylvania and Massa chusetts, and whose progress in power is infinitely more rapid than that of any of those three. Texas has proved so attractive to thous ands who had settled in the Northwest, but were not exactly contended there, that they have established themselves within her boundaries, and under her genial skies are do ing tenteld more to enrich the country than they could have accomp

lished had they remained in less favored climates. There is much of vitality, of energy, of erpestness in the Southwest. The citizens have worthy ambitious and work steadily. They have already forgotten the war. Everything previous to 1860 belongs to another age. They communicate something of their electric force and inspiration to the irresolute immigrants from the worn-out cotton States, who come among them with all the hazy and shiftless habits contrin red during a life time of contact with negro slavery and careless cotton culture. We have had heroes from the South west, men willing and auxious to lay down their lives for crude and ill-considered ideas we shall now have a race of practica! men-from that region .-

Since 1870 the Southwest has been developing with astonising rapidity. The increase shown in population and wealth by St. Louis can only be described as phenomenal; the birth of a hundred towns along the great railroads, which, it was expected would be followed by but a mushroom existence, has resulted in the establishment of as many perminant trade centers. Hundreds of thousands of acres which, before the war, were lying idle, are now producing cotton of the finest quality. The number of small, independent, and industrious farmers is constantly increasing. Rough life is gradually receiving tone and pol-ish. Schools are now frequented by classes who never looked on them with favor until a few years ago.

The development went on so quitely and steadily that we take but little note of it now. In a few years, boxever, the world will be astonished at the vast new empire which has enddenly come to light within the boundaries of the United

Want Chiengo says of Galves-

The Prairie Farmer, published in the city of Chicago, and the leading agricultural journal of the Northwest, says:

Galveston, Texas, promises to become the great commercial emporithe North. No city in the Union exhibits in the last five or six years as rapid and healthy a growth. In 1865, at the close of the civil war, its total population was but 5,000 and its trade insignificant. In 1870 the Federal census gave Galveston a population of 14,000, and in 1873. a local census gave it 34,000. In 1869 it imports were but \$266,000; it exports \$9,000,000. In 1870 its imports had risen to half a million; its exports were \$14,000,000. Last year its imports were \$2,426,656; its

exports \$17,700,000. This oul! "co vers the imports from and experts to foreign countries. The coastwise trade of last year is estimated at e40,000,000. In 1871, Galveston ex-exported 133,000 bales of cotton to foreign, and 100,000 bales to domes tic ports. During the year ending September 30, 1872, the cotton ship ment aggregated 294,000 bales, and the next year that will end on the the next year that will end on the 30th of next September, the shipments were over 300,000 thates. They will probably reach 455,000 bales for the entire year. In the cash value of her foreign exports for the year 1873, Qalveston rated as the eighth city of the Union, coming next after Baltimore, and heing only \$7,500,000 tabling Physics. being only \$7,500,000 tehind Palla-

A. StEMERING & CO., Proprietors.

Official Journal of the United States OFFICIAL JOURNAL OF BEXAR COUNTY.

A. SJEMERING & CO., Publishers. SUNDAY, JULY 19, 1874.

WE feel thoroughly satisfied that the finest sort of tobacco can be grown upon the wheat lands of Western Texas mail plopala

A writer from the City of Mexico advises St. Lonis to reach for the trade of the Mexican ports through Galveston. The exports amount to \$22,500,000 and imports to \$23,992,

ALEXANDER DUMAS, JR., has dramatized the tragedy of the killing of his father by young Walworth ded neck. We've stood enough about a year ago in New York. He from you Yankee cusses, an' we attempts to vindicate the son. French, and Dumas French, at that.

THE cutire press of the State has been kind enough to Senator Ireland to not publish his insane tirade against the Fourth of July, and the Centennnial Anniversary of American Independence. Even the Republican papers took pity on him.

THE venerable and irrepressible H. S. Foote has published a book entitled "The Casket, of Reminins cences." His great age, long ex perience, varied observation, and retentive memory have doubtless made it interesting. The term "Casket," however, is rather fanciful.

THE Galveston News sees no way out of the financial "slough of des. pond" into which Coke has plunged the State. Certainly "the intelligence, virtue, and wealth of the State," having been elevated to power, can find some way to get out of the triffing difficulties of a State nearly out of debt, and with overwhelming resources, But God is just, and the curses heaped upon the honest administration of Gov. Davis have come home to Coke at

Small States have a great advant age over targe quee; They bave and approved by the State's legal repretheir proportionate representation sentatives. The teachers have acted upon in the House of Representatives and these contracts in good faith. They have the Electoral College, and in the tanght the schools, their vouchers have Senate have equal representation. For instance Texas is as large as New York, Ohio and the six New England States, but her territory has only two Senutors where they have sixteen .- Wood Advance.

Well, then, let us divide Texas by the line of the Brazos river, leaving Austin as the Capital of the Western State, and Texas-will then have four Senators, and the West will be tied to the East.

AN IMMIGRATION SOCIETY should be formed in Bexar county as soon as possible. Indeep, all the counties of Western Texas should form county societies, and the whole should be organized into the Immigration Society of Western Texas, with headquarters at San Antonio, just as in the case of the Agricul tural, Stock-raising, and Industrial Association of Western Texas. The crops are now laid by, the farmers and land-holders have a season of leasure, the hamigration movement is being pushed by the State Commissioner, and now is the time to act. Organize, and the officers can carry the work forward while the farmers are busy, until the regular meet-

THREE NEW BOOKS have been brought out by three traveling correspondents of the New York Her-ald. These are Mr. Stanley's accounts of the English expeditions in Abyssinia and Ashantee, Mr. McGahan's "Campaigning on the Oxas" in Central Asia with the Ressian army, and Mr. O'Kelley's "Mambie Land", being an account of his sojourn with the Cuban patriots in the interior of that Island. The Herald correspondents are doing more to bring the vast anknown than all other agencies combined. Indeed, one of them was necessary to make available the life-long la | grace the fair name of the State,

bors and travels of Livingstone in the vast and wonderful regions of interior Africa, Human curiosity and research, having explored the Western hemisphere, are now turned again to the Oriental birth place of history and civilization.

"SHUN GEORGIA" is the title of an editorial in the Washington Republican. The occasion of this remarkable warning to immigrants and capitalists is the treatment of Northern men by the ignorant masses of the Georgia Democracy. A Northern editor of a Democratic daily paper in Columbus happened to say on the 4th of July that "chivalry was balderdash, and his mail is now filled with abusive letters, of which the following is a sample:

"Sir-This morning you trip to answer a correspondent from Opelika, au in doing so you call Southern Chivalry balderdash and buncombe; now I want to tell you that you lie. an' the sooner you leave this town the better it will be for your G-d have showed patience, but we have got about the end."

This editor was no Republican, his paper is one of the best in the State, and he has labored hard for the development of Georgia. He says they also write shameful letters to his wife. Of course, the gentlemen of Geogia do no such things, but Democracy always gathers all the "roughs" into its fold, and they role in such things in spite of the good men. So it is in Texas. The State is now under the rule of Democratic "roughs" and desperadoes, in spite of Governor, Judges, and courts. The good men of Guadalupe county could not belp the whipping of the schoolmaster there the other day. Georgia is our native State, and Texas has been our home for nearly twenty years. We know the facts.

A Cry of Distress from the Pub-

If any man wants to realize the miserable condition of the State finances under the misrule of Coke ry, just let, him read the following from a teacher in the Galveston North !

For the last three years, their time their talents, and their best energies have been devoted to the educational interest of the State, under contracts made with been approved by the educational depart ment, thus acknowledging the validity and justice of the same and 10

Teachers are, generally, men who rely upon their earnings for the support of themselves and their families. They need their money and can not do without it-The State has persistently declined to pay them, and they have been compelled to realize upon their couchers at a rational sacrifice. Some teachers have been forced to lay their vouchers upon the broker's developed, as it never will be while desk of a sacrifice of fifty cents on the tied to the East. this have pawned their vouchers for saries for their families, implicitly relfing upon the fidelity of the State to em her pledges, which she failing to do, the vonchers have passed into other hands for a mere pittance. Others, deeming themselves wiser, have borrowed meney on the best terms they could, which was by per cent, a month, depositing roughers for double the amount as security. Time passed on, and interest accrued until the vouchers have been swallowed up by the maelstrem, and the teacher finds his note impaid his vouchers gone, and the interest still accomulating against

> This is a brief of a part of the workings of the free school system under Col. J. C. DeGrees/Tribular & TTake

Now, let us glance at the present system. The leachers, after becoming disgusted with the old system, many having retired from the profession, and the schools of the country closed, they were induced to resume again by the assurance that the old ship of the State had sailed out of the muddy pool of Radicalism into the deep blue sea of housest Democracy, and that now the teachers would be paid up promptly. But how is it. The schools have taught, the scholastic year is nearly out, and they are not yet paid, and the teachers are informed that there is only money enough or hand to pay them for one month's service that the balance will le paid by taxation. Ah! But when? Echo answers -when. Will it be before the teachers -when. Will it be before the teachers are forced to sacrifice their drafts? But why is not that one month's pay, now on hand, paid over to the teachers? They want their money—they need it, and they insis; that the State shall come up, like an honest party, and settle their claims, regions of the earth within the with interest, and in so doing cover as knowledge of the civilized world much as possible her past shortcomings, and remove that distrast and dissatisfaction hanging like a pall over the free school system; and also redeem from dis-

Let the State not be ignorant of the fact that some of the teachers are now paying two and a balf per cent. a month interest on their pro rata of the sixty thousand dollars of school fund that was appropriated by the Thirteenth Legislature, to pay their own per diem.

Mc Mahon's Message.

VERSAILLES, July 9 .- In the Assembly to-day the message of President McMahou, of which notice was given yesterday, was presented and read by Gen. De Cissey, Minister of War, as follows to 11744 1

When you, by the law of November 20 last, delivered the Executive power into my hands for seven years, you intended to afford to the public interests that security which precarious institutions are powerless to give. That vote conferred upon me great duties, for the fulfilment of which Lam accountable to France, and from which I can in no case be permitted to withdraw. It also conferred righis which I shall never exercise, except for the good of the country. Your confidence rendered my powers irrevocable for a fixed term in forestalling votes on constitutional bills. In according them you, your selves enchained your sovereignty. I shall employ means with which I am armed by the laws to defend my power. This course, I am convinced, is in accordance with the expectations and will of the Assembly, which, when it placed me at the head of the Government, intended to breate a strong, stable, and respected Power. But the law of November 20th most be com-

The Assembly cannot meditate the tearing of its engagements. Let it permit me to pressingly remind it of the claims for the fulfillment of that engagement. The country demands the organization of public powers, and questions which were reserved must be settled. Further delays. will depress trade, and hamper the prosperity of the country. I hope the Assembly will not fail to patriotically fulfill its obligations. I adjure it in the name of the highest interests of the country to deliberate without delay upon questions which must no longer remain in suspense. The Assembly and the Government are jointly responsible. I am desirous of accomplishing all my duties, and my most imperative duty is to manre to the country defined institutions, security, and calm. I have instructed the Minister to inform the Constitutional Committee coucerning the points upon which I believe it essential to iunist.

SCHENCK'S SEA WEED TONIC .- In the atmosphere experienced here during the summer months, the lethargy produced by the heat takes away the frequent perspirations reduce bedily energy, particularly those suffering from the ruletts of debilitating diseases. In order to keep a natural healthful activity of the system, we must resort to artificial means. For this purpose Schenek's Sea Weed Tonic is very effectual. A few doses will create an appetite and give fresh vigor to the ener-vited body. For dyspepsia, it is invalua-bles. Many eminent physicians have doubted whether dyspepsia can be perma-hently exceed by the drugs which are gene rally employed for that purpose. The Sea Weed Tonic in its nature is totally diffe rent from such drugs. It contains no corrosive minerals or acids; in fact it assists the regular operations of nature, and amplies her deficiencies. The tonic in its nature so much resembles the gastrie uice that it is almost identical with that fluid. The gastric juice is the natural solvent which, in a bealthy condition of the body, causes the food to be dr ested and when this juice is not excreted in sufficient quantities, indigestion, with all its distressing symptoms, follows. The Sea Weed Tonic performs the duty of the gastric juice when the latter is deficient. chenck's Sea Weed Tonic sold by all

THE American Sardina Co.'s Boneless Sardines are much better, and less than half the cost of imported Sardines.

Fraud Loves a Shining Mark

A great medicine is always a target for frund. Shallow cheats, without the talent to originate anything useful, or the decency to permit an article of superior excellence to perform its mission, without striving to turn a dishonest penny by attempting to substitute trash in its plan are now engaged in intimating and coun-terfeiting Hostetter's Stomach Bitters, the most popular tonic and restorative in the efficient world. A broad of local bitters, mixtures of damaged drugs with worse liquer, has cropped out all over the coun try. Although the sales of these pernicithe interests of a staple remedy, it seems a duty to warn the public against them. The color of the true specific may be stimulated, but its cores of dyspepsia, liver complaint, rheumatism, intermittent fever, constipation, nervous debility, &c., cannot be imitated.

W. BILLE New Orleans.

A graduate from the University of Coenhagen, Donmark; Honorary M. D. from the University of Padova, Italy; for sever al years assistant Physician to the celerated Prof. Ricord, Paris.

Baving been for years a student at the large hospitals of Paris, London, Vienna and Copenhagen, and a thorough, large and varied peactice during 15 years, has gain. nature of all chronic diseases and the treatment thereoff and he has in his exten-sive practice had an anparalleled success, and very often effected a cure where every had been tried and all bope restoration of health had been despaired

Nobady who ever suffered of the rediens and life impittering disease—DYSPEPSIA - has ever in vain called on Dr. Dille. In every case line he by his new method of trea ment restored the functions of the stomach, and with it the licalth and vigor of the patient, and many a person does to-day, with gratituds, recall the moment he placed himself under Dr. Bille's cure.

For his treatment of LADIES' DISEAS. Dr. Bille is deservedly renowned. and no lady suffering from AMENOR RHCEA, HYSTERIA, PRCLAPSUS UTERI or any other disease peculiar to the female Bille, as they will quickly be releived of their suffering and ultimately restored to perfect health.

Diseases of a Private Nature Dr. Bille has made a speciality, and this courge of humanity, unsuccessfully treated by most practitioners, is leasy and quickly overcome by his new treatment. Being a public the most renowned Physician for syphilitic diseases in the world, Prof. Ricord, in Paris, Dr. Bills will afways guarantee a cure in any case of syphilitic disease which may come under his treatment; and hundreds in this city and vicinity can testify that in cases of syphilitic nature, where other physician have failed, Dr. Bille has always been sue cessful.

cessful.

NERVOUS DEBILITY SEMINAL

WEAKNESS, IMPOTENCY, either caused
by age or abuse, quickly suff permanently
relieved, and full paster restored.

Dr. Bille wishes to call particular attention to his new discovery, by which he
can, by the help of microscope and chemistry, discover if there is any syphilitie
poison in the blood, which is of the greatest importance, as persons having had
venereal diseases often believe themselves
cure t, and the poison still remains in the
blood to break out scener or later. Dr.
Bille has resided in New Orleans for years,
is endorsed by the best citizens there, and
by his skill, knowledge and successful
cures has obtained a great reputation as a cures has obtained a great reputation as a

JIS

WESTERN TEXAS WHEAT .- We visited Look's Mills this morning, run by that enterprising firm, Alexander Saner & Co., to examine their Texas whent, and especially the wheat raised in Western Texas, We found a considerable supply on hard, some of it from the Cibolo, some of it from the region of Boerne, Kendall county, and some of it from every direction around San Antonio, ranging from 15 to 20 miles distant. The average yield this season has been about cleven bushe's to the sore, owing to the late freese and a bad season generally. The wheat comprises the products of both the fa'l and spring sowing, although both were barvested near about the same time. The weight of both fall and spring wheat is about the same, above sixty pounds to the bushel, but the fall wheat produces the most flour, reaching about forty-three pounds to the bushel, while the spring wheat does not reach over thirty six or thirty-seven pounds to the bushel.

From all appearances, there is a conpriorable quantity of wheat in this region of country, yet, from the desire to obtain a good price, the impression is sought to be made by the farmers flist there is but little of it. In fact, the crop did fail on many farms The German farmers are the principal producers of this wheat. It is an excellent article of wheat, fully equal, we see told, to the very best raised in North Texas, or in Ohio and Illinois. The price given for it at the mills here has tanged from \$1.50 to \$1.60 a bushel. North Texas wheat costs about \$1.80 a bushel to lay it down here. The mill men say that unless they can get wheat at better rates they will ship wheat in bulk Paints, from California, It is now shipped from California to Liverpool at 20 cents a hundred, and they say that if they can even get it laid down at Galveston at similar rates, they can get it here at lower prices than they now pay for Texas wheat.

It is a fact that Texas farmers raise too tittle wheat, and expect too high prices for it, as though there were no other wheat in the country. They must depend more on the quantity raised than exorbitant prices. Still, they must get the highest price the market allows.

Will Texas, Western Texas especially, be wise enough to put in an immeure acreage of wheat this fall ! The railroad will be here by the time it is barvested, and a variety of markets will be presented. We must have large flouring mills at San

THE CHICAGO FIRE.

The risks of Hartford insurance companies on property in the Chicago barns district amount tof \$178,000, as follows Æine, \$75,000 ; Hartford, \$47,000 ; National, \$25,000; Phoenix, \$17,000; Connecticut, \$5,000; Orient, \$25,000, and Atlas,

The hotels destroyed by the lire are the Atlantic House, Michigan Avenue House, St. James Hotel. Churches, Kehlath Bosi Sholm Synagogue, First Baptist Church, Kehlath Ausbe Wourale, Jewish Syna-gogue, and the Olivet Baptist Church, color-ed. Among the residences burned, were

ed. Among the residences burned, were those of Horace White, editor of the Tribune, Hon. J. Y. Scammon, J. K. Forrest, city clerk, E. J. Hall.

The estimated lose by the fire is not as great as was at first reported. Four and a half million dollars will cover all losses.

The following are the largest losses: Jewish Synagogue, \$30,000; Quius Chapel \$15,000; the Adelphi Theater, \$75,000; St James Hotel and furniture, \$150,000; the Postoffice, \$50,000; the Fire Baptist Church, \$150,000; Okivet Baptist Church, nolose ed, \$40,000.

ed, \$40,090. The following is a list of the losses of some among the local insurance companies : Home, \$150,000; Phonix, of Brooklyn, \$25,000 to \$30,000; German American do.; Underwriters' Agency, \$57,000;

Continuent | \$50,000 | Panover, 26,000 | Standard, \$10,000; North British and Mercantile 320,000

THE MICITARY AND THE INDIANS. General orders from the headquarters of the military division of Missouri, received at the War Department, announce that in consequence of the hostile attitude of the Comanches, K own and Cheyenne Indians, the existing orders fixing the limits of the department of Missonri are, subject to the approval of the President, so far modified as to extend the southern line of that department to the main Canadian river. In conducting operations against the Indians either for the purpose of punishing them or for the protection of persons and prop erty against their depredations, commanding officers of the departments of Missouri and Texas may disregard the lines sepa General Pope writes to General Sher man that, except to careless stragglers outside the military lines, and to a few remote settlers, he thinks we are fully able to give protection from Indian out-
