A Bride that awoke in a Tomb.
[Paris Correspondence of the N. O. Picayune.]
Two years since a family in Mar-
seilles married their daughter, who
had just turned sixteen, to a young
man in Salon, a town not far from
their residence. After the wedding
festivities the bridal pair set out for
Salon, which they made their home.
In the usual course of time a child
made its appearance. The mother
seemed in a fair way of recovery,
when a violent hemorrhage superven-
ed. A physician could not immedi-
ately be procured. The loss of
blood had produced a swoon. When
the doctor did at last come he
could only declare that the patient
had passed a way beyond professional
skill. These incidents occurred in
August. The weather was unusually
sultry, even for that month and la-
titude. The medical man engaged the
family to have the body interred
as speedily as possible. Six
hours after her death the young
mother was laid in her grave.
Recently the widower acquainted
his mother-in-law and her family
that he proposed to marry again.
She insisted that her daughter's
body should be delivered to her, to
be buried at Marseilles. The mo-
ther-in-law came over to Salon to
superintend personally the exhumation.
When the door of the family
vault at Salon was opened a heart-
rending spectacle was seen. Her
daughter's corpse lay in the middle
of the vault. The coffin's top had
been wrenched off, top and coffin
lay on one side of the vault door.
The floor of the vault was strewn
with hair of the corpse, the grave
clothes were torn to shreds, the
hands half eaten. The unhappy
young mother had been buried alive,
had recovered consciousness in the
vault, had burst the coffin lid, and
made superhuman efforts to escape
from her fearful prison, or to attract
attention to her. All of them had
failed, and she had died of terror,
of starvation, of exhaustion, of des-
pair, a living death, whose seconds
seemed centuries. The mother has
been a raving maniac ever since.

UNIVERSITY RACE.
SARATOGA, July 18.—The Uni-
versity race came off to-day, the
boats starting at 10:45. The Col-
umbia won the race. Unofficial time
is given at 17 1/2 to 17 3/4.
About 15,000 people assembled at
the lake this morning to witness
the University boat race, set down
for 10 A. M. The lake was as smooth
as glass. At 9:45 the first gun was
fired; at 10:20 the second and start-
ing gun was fired, and at 10:47 all
the boats got off handsomely to-
gether, the Columbia at the half
mile taking the lead. Then the
Trinity made a spurt, overhauled
the Columbia at the half mile, tak-
ing the lead away from Yale, which
had shot ahead, but at that mo-
ment fouled and fell behind.
Twenty others were about even
with each other. At one mile and
a half Columbia came to the front
again, with Harvard struggling
sharply. The others kept their po-
sitions. At the two mile point Col-
umbia was still in advance, with
Cornell making a spurt to overtake
her. At the two-and-a-half mile
point Columbia was still ahead,
with Wesleyan, who showed now
great vigor, pressing her sharply
and steadily. The last half mile
was then one continuous, exciting
pull between Columbia, Wesleyan,
Harvard and Dartmouth. They
came in in that order, Columbia
ahead about two boat lengths, and
making the distance in 16:50. It
was greeted with tremendous cheer-
ing on reaching the shore.

First Texas Wheat.
The St. Louis Republican of Tues-
day says:
The first car load of new Texas
wheat, and, if we are not mistaken,
the first considerable lot to this
market at any time, was received
here yesterday by Messrs. Grant
& Houston, and was sold on 'Change
to Standard & Kaufman, Eagle
Mills, at \$1 02. The wheat came
from Bonham, Fannin county, via
the Transcontinental Railway.

We learn that, very recently, a
small Mexican boy was found by
the station guard at El Muerita,
near Fort Davis, who had been
abandoned by Indians near that
place. The boy stated that he was
captured several months ago, near
Chihuahua, Mexico.

WEDNESDAY, JULY 22, 1874.

EUROPEAN interference in the affairs of Spain is now discussed.

REV. DR. GOODRICH, grandson of Noah Webster, has just died in Switzerland.

THROCKMORTON seem to be the favorite for Congress in Third District.

GREAT BRITAIN is willing to accept the annexation of the Fiji Islands unconditionally, but the Fijians propose sixteen conditions.

FOURTH, Minister of the Interior of the French government, has resigned in consequence of disagreement with his colleagues, and Magne, Minister of Finance, has resigned on account of a defeat of his measures in the Assembly.

REPUBLICAN electioneering is called by the *Houston Age* "rascality," and the *Galveston Crescent* has the verdancy to follow suit. They both publish what purports to be an electioneering letter of some Republican in Milan county, and head it "Rascality Unwashed." What a precious pair of minnies these editors show themselves to be!

AN Indian war is now raging on our frontier, the Indians having all left the reservations, are now on the war path. These Indian reservations are a curse to Texas and a shame to the country. We hope this war will clean them every one up. As it has commenced, we hope the war may become general, and that all the wild Indians from Texas to the Black Hills may be engaged in it, and be finally and forever crushed. But Maj. Jones manages to get whipped at the start. Sorry.

THE *Austin Statesman*, *Austin Gazette*, *Waco Advertiser*, and *Belton Journal*, and perhaps some other Democratic journals, favor a constitutional convention. They say our present constitution is "outrageous," but forget to tell us in what respect; they say it will help us out of our financial troubles, but forget to tell us how; they say it will "reform our judiciary," but the worst part of our judiciary is the Supreme Court, which they do not intend to touch. The convention will cost the tax-payers a million of dollars, and may revolutionize the State.

GALVESTON and Houston continue in their laudable rivalry for the trade of the great "New West." Galveston is intent on the Gulf, Colorado, and Pacific railroad, and Houston has revived the Ship Channel and the Western Narrow Gauge railroad. The programme of both cities is perfectly practicable, and we hope they will succeed. San Antonio has a special interest in the Narrow Gauge railroad. It would give us a fourth railroad outlet East and North. But the "Sunset Route" is our special pet.

THE BEECHER TILTON CASE is being steadily and thoroughly investigated by the most notably reliable men in New York, and we shall soon hear the result. In the meantime Mrs. Tilton most emphatically denies that Mr. Beecher ever said an improper word to her. She says that when Tilton, a few years ago, became the unguarded associate and the infatuated defender of the notorious Woodhull Claflin women, she was distressed, and asked Mr. Beecher's advice, and that he counseled to abandon Tilton. This she says, is the offense which has so irritated Mr. Tilton. Mrs. Tilton is a charming and excellent woman, and has always been a most devoted wife. But she has strenuously opposed Tilton's recent course in creating this scandal, and bringing her name before the public, and it is said, has left his house since he published his recent letter.

THE MILITARY TELEGRAPH in Texas seems to be a certainty. The press dispatches from Washington of last Saturday state that the Secretary of War has already taken steps toward the construction of a telegraph line in Texas, for which the sum of \$100,000 was appropriated during the last session of Congress. This line is to begin at or near the city of Denison, in Grayson county, Texas, and run from there to Fort Sill, Indian Territory; thence to Fort Richardson; thence along the northern frontier line of settlements to Fort Griffin and Concho; thence to the Pecos river, at or near the mouth of Toyah creek; thence to Fort Clark, on the Los Moras creek; thence to Fort Duncan, on the Rio Grande; thence down the Rio Grande, via Fort McIntosh and Ringgold Barracks to Brownsville, so as to connect the military posts which are now or may hereafter be established on said line, with the military headquarters of said district.

This line, it is believed, will help greatly the final adjustment of our Indian troubles. It would be of great benefit at the present time, when Indian hostilities are raging along our whole frontier, and other bandits and murderers are disturbing the peace and destroying life and property in nearly all the Western counties. It will fill the papers with news from the far South-west, and promote its settlement and civilization.

The comet.

The comet is evidently developing a double tail, as is shown by the streak of greater brightness which lies a little within the boundary of the appendage. This extraordinary luminosity proves that the tail is shaped like a hollow cone, and is not solid.

Our calculations show that the spheroidal mass, thus indicated, is about 20,000 miles in diameter, and its volume about sixteen times that of the earth. The envelop streams away from it to a distance of fully 1,000,000 miles, forming the tail, which is projected from the comet in a direction opposite to that of the sun.

On Tuesday evening the comet's distance from the sun was 68,000,000 miles, and from the earth 53,000,000 miles.

Gen. Beauregard declined the position of Chief Engineer of the Argentine Republic at a salary of \$20,000 a year. The salary was raised to \$25,000 and the offer renewed, when he accepted. So says the *New York Tribune*.

Gen. Banks is to become a professional lecturer. He is preparing new lectures on "American Volunteer Soldiers," "Blue Stockings," "What a Man Owes to the Town he Lives in," and "The Principles of Diplomacy."—Cavour, Gortschakoff, Castelar and Thiers.

Telegraphic.

Killed by a Train.

A negro man and two boys were asleep on the railroad, thirteen miles north of Hempstead, when the midnight freight train ran over them. The man was killed outright, being literally torn to pieces. One boy had his left leg broken below the knee, and was otherwise injured. The other boy was thrown into a ditch and bruised, but not hurt much. The negroes are alone to blame.

Throckmorton.

MCKINNEY, July 18.—The mass convention instructed for Throckmorton without a dissenting vote.

Dispatches from Dallas and Grayson indicate that those counties have also instructed for him for Congress.

DALLAS, July 18.—An immense Democratic precinct meeting was held here today. The delegates were instructed to vote for Gov. Throckmorton first, last and all the time. Judge Goode withdraws from the race.

Narrow Gauge Railroad.

HOUSTON, July 18.—The meeting of the Kansas City delegation to the Board of Trade was largely attended in Perkins's Theater.

After the regular adjournment of the Board of Trade the meeting of citizens was called to order by Hon. J. T. D. Wilson, Mayor. The meeting was addressed at length, by Hon. John T. Brady and Col. W. C. Wagley upon the subject of the Houston and Western Narrow Gauge Railway. Both speakers highly indorsed that enterprise, and spoke in favor of narrow gauge railways in general.

Col. Brady favored the proposition of Houston and Harris county giving \$75,000 in aid of the enterprise, and said if they could not raise that amount they might as well throw up their hands and let Galveston win at once.

St. Louis, July 18.—The *Republican* publishes a special dispatch from Kansas City, giving an extract from a telegram from Caddo, Indian Territory, to the effect that a fight occurred between a company of the Tenth Cavalry, under Colonel Carpenter, and a large body of Comanches, thirty miles west of Fort Sill. Carpenter was badly wounded, and six of his men were killed. The Indian loss is unknown.

After the fight the Indians came upon a stage-keeper and his wife, killing, scalping, shooting and shockingly mutilating the keeper in the presence of his wife, whom they carried off.

Accounts of the Indians show that they attacked a party of wood-choppers, and, it is feared, killed them.

The Indian Fight in Lost Valley.

DALLAS, July 17.—On the 15th inst. Maj. Jones, with 34 men, fought a large war party of Kiowas, Comanches and Apaches in Lost Valley, Jack county, killing three and wounding three, that were seen, several more are supposed to have been killed and wounded among the rocks in the mountains. Major Jones lost two men killed and two wounded, and 15 horses killed and wounded. The fight lasted three hours.

The number of Indians is estimated at 125, all armed with improved breech-loading guns, and well mounted; they used no arrows. They retreated in a northwesterly direction, the way they came in. Major Jones had not a sufficient force to pursue them.

AUSTIN, July 18.—Official intelligence is to the effect that there has been a fight that occurred on the 12th inst. between the Indians and the frontier command of Major Jones, at a point about 15 miles from Jackboro, in which our troops lost two killed; two wounded and ten missing. The number engaged is not stated.

All the Indians have left the reservation, and the excitement on the frontier is intense. The Indians in great numbers are on the war path.

Fraud Leaves a Whiting Mark.

A great medicine is always a target for fraud. Shallow cheats, without the talent to originate anything useful, or the decency to permit an article of superior excellence to perform its mission, without striving to turn a dishonest penny by attempting to substitute trash in its place, are now engaged in imitating and counterfeiting Hostetter's Stomach Bitters, the most popular tonic and restorative in the civilized world. A load of local bitters, mixtures of diluted drugs with worse liquor, has cropped out all over the country. Although the sales of these pernicious imitations are too insignificant to affect the interests of a staple remedy, it seems a duty to warn the public against them. The color of the true specific may be stimulated, but its cures of dyspepsia, liver complaint, rheumatism, intermittent fever, constipation, nervous debility, &c. cannot be imitated.

SCHENCK'S SEA WEED TONIC.—In the atmosphere experienced here during the summer months, the lethargy produced by the heat takes away the frequent perspirations reduce bodily vigor, particularly those suffering from the effects of debilitating diseases. In order to keep a natural healthful activity of the system, we must resort to artificial means. For this purpose Schenck's Sea Weed Tonic is very effectual. A few doses will create an appetite and give fresh vigor to the enervated body. For dyspepsia, it is invaluable. Many eminent physicians have doubted whether dyspepsia could be permanently cured by the drugs which are generally employed for that purpose. The Sea Weed Tonic in its nature is totally different from such drugs. It contains no corrosive minerals or acids; in fact it assists the regular operations of nature, and supplies her deficiencies. The tonic in its nature so much resembles the gastric juice that it is almost identical with that fluid. The gastric juice is the natural solvent which, in a healthy condition of the body, causes the food to be digested; and when this juice is not exerted in sufficient quantities, indigestion, with all its distressing symptoms, follows. The Sea Weed Tonic performs the duty of the gastric juice when the latter is deficient. Schenck's Sea Weed Tonic sold by all Druggists.

LOCAL AFFAIRS.

CLEAR WEATHER has come at last, and the prospect is good that it will continue for a considerable time. We have had rain enough for all our farms and gardens. Dry, hot weather from this time will mature the bolling cotton, and bring it to perfection, and prevent the appearance of the cotton worm.

BONNEY'S BUSINESS COLLEGE will reopen on September 1st, 1874, with great improvements. 12-7-dtd

ANOTHER CONCERT.—We wish to call the attention of the public to a grand vocal and instrumental concert, which will be given at the Hall of the Harmonia Association in a few days, by Professor Isidor Bachman, a noted and accomplished violinist. The programme will be of the choicest character, and there is no doubt it will not only entertain the public, but stand the test of musical critics.

THIS FALL ought to be improved by all our citizens around San Antonio, and in Western Texas, to the utmost extent. Plenty of rain has fallen, the grass is fine, the ground is in good condition, and the season is propitious for fall gardening, for fall crops, and for fall work. Immense crops of turnips may be raised, not only for table use, but also for the feeding of milk cows, and for the production of plenty of milk and butter. Fine, fat, juicy hogs can be obtained from the prairie in a fine condition for pickling, and nothing is better than such beef during the winter and spring, while fresh beef is poor. It will also bear a good price in the market. The ground will also be in fine condition for putting in a large area of wheat, so that next spring we may have an abundance of home made flour, for home use, and for the market. Farmers should also look well to their hogs, and raise an abundance of well cured bacon, and of well prepared lard; for this region is a great hog country. It will also be an excellent time for planting out plenty of fruit, shade, and ornamental trees, both in the city and country. And last, though not least, this fall will be the time, if Texas farmers can ever be made to do so, to break up the soil for the next year's crop, that it may be softened and pulverized by the rain and cold of winter. This is done in all other countries but Texas. It prepares the ground also for either too much or too little rain. A busy fall will make a prosperous spring.

DR. W. G. KINGSBURY, as has been heretofore stated, has been appointed Agent of the Immigration Bureau of Texas, by the State Superintendent, Gen. J. B. Robertson. We understand that he is to leave for St. Louis in the morning, where he will make his headquarters. Dr. Kingsbury has long been prominently connected with the agricultural and immigration interests of Western Texas, having been one of the leading men of the Agricultural Stockraising and Industrial Association of Western Texas. We trust he may be able to send 500,000 immigrants to the West within the coming year.

And here we repeat our previous suggestion of the importance of immediately forming an Immigration Association of Western Texas, to co-operate with Dr. Kingsbury, and, through him, with the State Bureau. Let each of the Western counties form an immigration society, and let the whole of them unite to form a parent society, with headquarters at San Antonio. Hundreds of thousands of people can be brought here, if we thus organize, and bring this beautiful, rich, and healthful country to the attention of the world. "Why stand ye here all the day idle." The harvest is plenteous, but the laborers are few.

THE HIGHWAYMEN.—We have received information which is entirely reliable that the highwaymen, Reed, Carter, and Boswell, who robbed the stage between this city and Austin early last spring, have returned to Missouri, and have joined themselves to the Younger and James brothers. They are now in the mountains in St. Clair county. Having been run out of Vernon county by the citizens, on account of their depredations, Reed, Carter and Boswell made the visit to Texas, in which the stage was robbed. They have been engaged in robbery and murder in Arkansas, Kansas, and Missouri, ever since the close of the war, but we believe this is the first time this party has committed any noted robbery in Texas.

We have been shown the daguerrotype likeness of Reed and of the girl he seduced about Dallas, and brought to San Antonio with him. He left her at San Marcos about the time of the stage robbery, and we learn that she has made her way back to Dallas. He lived with her here in San Antonio for several weeks, and the others were with him, immediately preceding the stage robbery. He has a wife and children, who, we believe, are somewhere about Dallas.

It seems that nearly all the citizens who live in the vicinity of these brigands in Missouri are their friends, and instead of being in their capture, will give them warning. Brigandage, indeed, is becoming as much of an institution in the Southwest as in Italy, Greece, or Mexico, and demoralizing the people wherever it concentrates. A fearful uprising must come some day, and the sooner the better. Texas needs it woefully.

We beg to inform our friends and customers that we have moved our large stock of Dry Goods, Notions, Boots, Shoes, Hats, Clothing &c., from 31 & 40 Commerce Street, to the spacious store fronting the San Antonio National Bank on Commerce and running back to Market Street.

We hope to see all our old friends and a great many new ones there, and shall take pleasure in showing them through our extensive and well assorted stock. **B. OPPENHEIMER & Co.** 17-7-dlm

LAW OF THE UNITED STATES, PASSED AT THE FIRST SESSION OF THE THIRTY-THIRD CONGRESS.

[GENERAL NATURE - No. 43.] AN ACT making appropriations for the ordinary and extraordinary expenses of the Government for the year ending June thirtieth, eighteen hundred and seventy-five, and for other purposes.

[Conclusion.] For payment of consular officers not citizens of the United States, ten thousand dollars.

For salaries and expenses of the United States and Spanish Claims Commission, namely: For Commissioner, five thousand dollars.

For counsel, five thousand dollars; for secretary, nine hundred and twelve dollars and fifty cents; for messenger, three hundred dollars and for rent, fuel, and ice, three thousand seven hundred and eighty-seven dollars and fifty cents; making in all the sum of fifteen thousand dollars.

For salaries and expenses of United States and Mexican Claims Commission: For Commissioner, four thousand five hundred dollars; for agent, four thousand dollars; for secretary, two thousand five hundred dollars; for umpire, three thousand dollars; for stenographer, three thousand dollars; for translator, at one thousand five hundred dollars each; two clerks at one thousand four hundred dollars each; for messenger, three hundred dollars; one assistant messenger, three hundred dollars; and for contingent expenses, five thousand dollars; making in all the sum of twenty-eight thousand seven hundred dollars.

Survey of boundary between the United States and British possessions: For expenses of the commission appointed and approved March nineteenth eighteen hundred and seventy-two, for the purpose of surveying and marking the boundary between the territory of the United States and the possessions of Great Britain from the Lake of the Woods to the summit of the Rocky Mountains, to be available immediately on the passage of this act, one hundred and fifty thousand dollars.

For the purpose of American consuls in Siam and Luzon, and for wages of crews of the American flag as by exchange, four hundred dollars.

For rent of premises for American consuls in China, one thousand five hundred dollars.

For wages of keepers, care of offenders, and expenses, ten thousand dollars.

For rent of prison for American convicts in Japan, seven hundred and fifty dollars.

For expenses of keeping care of offenders, and expenses, five thousand dollars.

For printing, postage, and other expenses incurred in the execution of the act, including loss by exchange, one thousand dollars.

For salaries and expenses of American consuls in foreign countries, one hundred thousand dollars.

For expenses of procuring the services of masters and crews of foreign vessels in receiving and conveying citizens from ships wrecked, five thousand dollars.

To meet the necessary expenses attendant upon the execution of the neutrality act, as amended, and the direction of the President pursuant to the third section of the act of Congress of May first, eighteen hundred and forty-eight, entitled "An act to amend the compensation of ministers and consuls residing in the Kingdom of Sardinia, and for other purposes," twenty thousand dollars.

For annual proportion of the expenses of Cape Serrat light, on the coast of Morocco, two hundred and eighty-five dollars.

For allowance to widows or heirs of deceased employees and clerks of the post office for the time that would be necessarily occupied in making the transit from the post office to the residence of the employee in the United States, five thousand dollars.

For rent of courts, jails, and jails, with grounds appurtenant, in Yeddo, or such other place as the United States minister in Japan may designate, five thousand dollars.

To pay the sums awarded to British subjects for such claims as are enumerated in article twelve of the treaty of May eighth, eighteen hundred and seventy-one, which have been allowed by the commission appointed under that article in the manner prescribed by the following articles to the extent of one million nine hundred and seventy-five thousand eight hundred and thirty-five dollars.

Approved June 11, 1874.

[GENERAL NATURE - No. 44.] AN ACT making appropriations for the support of the Army for the fiscal year ending June thirtieth, eighteen hundred and seventy-five, and for other purposes.

Enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That the following sums be, and the same are hereby, appropriated out of any money in the Treasury not otherwise appropriated, for the support of the Army for the year ending June thirtieth, eighteen hundred and seventy-five, as follows:

For expenses of the Commanding General's Office, five thousand dollars.

For expenses of recruiting and transportation of recruits, five hundred and five thousand dollars. And no money appropriated by this act shall be paid for recruiting the Army beyond the number of twenty-five thousand enlisted men, including Indian scouts. Nothing, however, in this act shall be construed to diminish the Signal Service, which shall be maintained as now organized under the authority of the Secretary of War.

For contingent expenses of the Adjutant General's Department at the headquarters of military divisions and departments, three thousand dollars.

For expenses of the Signal Service of the Army, purchase, equipment, and repair of electric field telegraphs and signal equipments, twelve thousand five hundred dollars.
