wheat. The extraordinary increase in the consumption of lager beer and other malt liquors, has caused a corres ponding increase in the amount of barley needed by the brewer. Dur ing the past few years, the requirements of the beer trade in this city have drawn barley here, not only from most of the Northern States, Utali and California, but from the British Provinces. What is stranger still, burley-has-been brought here for malting purposes from re-mote portious of Continental Europe-to-As compared with wheat, and other grains suited to, like cli-mates and soils, it has been steadi-ly increasing in ralus. At present, the price of barley is almost as high as that of wheat, and but for the supplies that come from the distant

greater than that of wheat. Much the same state of things exists in England.—Chicago Prairie Farmer. It seems strange to us that with such a demand for barley as is made manifest in the above, no more of that grain is produced in Western Texas. We believe that it could be produced in the greatest abundance, and brought to the greatest perfection, in almost every part of Western Texas. By the time the next crop crop could be harvested, we shall have railroad transportation from San Antonio, and the

West, the price of barley would be

barley crop the coming season. Western Texas will also produce buck-wheat, we think. Of this crop, the Prairie Farmer says:

With a favorable season scarcely any crop pays as well as buck wheat. The cost of seed, only two or three pecks being required for an acre, is trifling. As it requires but 60 or 70 days in which to mature, it may be sown at a season of the year in which farm work is not driving. which farm work is not driving. frosts are not serious till the first of October, a crop of buckwheat may be harvested from land not yet plowed. The grain is of the best quality when it matures in the cool weather of the fall.

The demand for buck wheat increases every year, and it would seem that the amount produced decreases. The supply of what passes for buckwheat flour is kept up by the use of wheat and rye middlings. Pure buckwheat flour is unknown in the city market, and the report is that country millers never grind a grist of buckwheat in the presence of their customers. The temptation to adulterate the flour with wheat middlings is too great for even the houest millers in the country. Gen nuine buckwheat flour would sell at almost any price asked for it, and some of our associated farmers sould not do a better thing than to provide the market with a supply.

of the eminent committee. We have The Daily Express of the eminent committee. We have read pretty much the whole case. In private life, it would hardly be sufficient to create a week's sensation in a local circle of friends. Beecher's fame, and Tilton's newspaper power, have given it worldwide importance.

> THE BOY FIEND, Jesse Pomeroy, at eleven years old tortured and wounded children with knives, cut pieces out of their flesh, all without the least provocation. After a short time in the State Reform School, he was released, through the pleadings of his mother, the influence of friends, and his own youth and apparent retorm. At fourteen he began to commit murder, killing little Katie Curran, and, as in the case of his previous tortures, mutilating her body in the most horrible manner. Two murders he has confessed, and both without any provocation. The question now is, what is to be done with him? The St. Louis Republican

He will be tried for these two marders and convicted, and what then? A verdict of acquittal on the ground of insanity will send him to a lunatic asylum, from which, according to the laws of Massachusetts, nothing can set him free but the action of the Supreme Court. This is the extent of the severity of the law to which we can hopefully look for the solution of this youthtul miscreant's life problem. Eminent men have not hesitated to declare that such crimes, even though committed by criminals so young, are deserving of death.

THE Store Gazette complains that Republicans are retained in service in the Land Office. It says:

Nearly twenty clerks and draughts men have been retained in the office from the old force under the Davis regime. The majority, if not all, of these voted for Davis at the late election. In no other department has a man been retained who voted for Davis. Every employee of the Radical administration, who was known to have voted for Coke, was turned out of office immediately af ter the election.

We would inform the Gazette that after the election, and up to the time when Mr. Kuechler gave up the Land Office to his successor, the clerks were about equally divided between Democrats and Republicans; and when the new Commissioner went in the Republican clerks were dismissed in a body. Some of Dan irrepressible A. B. Sloanaker them may have been re-employed playing the part of mail agent that Germans are preferred over native-born citizens. Is this Know-Nothingism ?

· UB AUSTIN LETTER.

The Internation of Goes Into Liquidation — to be built to Austin—The Grand Jury Sys-

AUSTIN, July 29, 1874. Now comes a well defined rumor that the International Railroad Company will go into liquidation immediately, which means that all those stock-holders who have not taken second mortgage bonds and all email fry will be sold out. This will juclude several of the Central Railroad men against the State for subsidy bonds will also be sold, and the result will be that the large bond-holders and owners of stock, Moses Taylor, Dodge, Phelps et als will gebble up the read. It is thought that while this freeze-out game will prove disastrons to the small fry it will result in the road being completed to Austin and no further, for the present. Gen. Grow is reported back from New York, and there is no sound from Moody. If Coke meant what he said about the 100 days he is evidently at a loss to know what to say

The Grand Jury for Galveston county in their last report to Judge Dodge, indict the Grand Jury System in the following terse and truthful manner:

"The Grand Jury presents the whole Grand Jury System as a star chamber and an 'inquisition' repugnant to this civilization, and in itself an evil as great, if not greater than any one which it is obliged to examine."

This indictment will hold good against every Grand Jury in the State, and this frank accusation should be taken up and the people try the case, and condemn the system as a "star chamber" and "an inquisition." It is certain that the recent Grand Jury for this county was used as a star chamber and man-pulated for political purposes and for the gratification of private malice. The liberty and reputation of the citizen is completely at the mercy of the Grand Jury; what the "lions mouth" was to the people of Venice it is to the people of Texas. In it can be dropped the malignant and false accusations of the informer, while the victim is in perfect ignorance of his danger and unable to say a word in his defense. All charges should be made openly by presentment by the prosecuting atterney; then there would be responsibility and the star chamber business could not possibly happen. This menace to the liberty of the citizen should be abolished.

In order to keep a natural healthful activity of the system, we must resort to artificial means. For this perpose Scheuck's Sea Weed Tonic is very effectual. A few doses will create an appetite and give fresh vigor to the enertated body. For dyspepsia can be permanently cured by the drugs which are generally employed for that purpose. The Sea Weed Tonic in its nature is totally different from each drugs. It contains no corrosive remerals or actile; in fact it assists the regular operations of nature, and sugiles her deficiencies. The tonic in its nature so much resembles the gastric juice that it is almost identical with that fluid. The gastric juice is the natural solvent which, in a healthy condition of the body, causes the food to be digested; and when this juice is not excreted in sufficient quantities, indigestion, with all its distressing symptoms, follows. The Sea Weed Tonic performs the duty of the gastric juice when the latter is deficient. Scheuck's Sea Weed Tonic sold by all Druggists.

We learn that one of our city friends, while traveling around some years ago, stopped to spend the night in a small town, and, taking a walk, after a late supper, as he was passing by a long frame building, he heard some one cry out "All down but five." Being very foud of playing ten pins, he rushed in to take a hand, when, to his great astonishment, he found that a revival of religion was going on, and that the minister had called on all the sinners to kneel for prayer, and all were down but five.—Jefferson Democral.

THE health of the city is good, not withstanding the great heat and the abundance

THERE is one great blessing enjoyed in San Antonio, and that is the absence of accequitoes. We have a few stray ones, but they are too timid to bite.

WE have been waiting all day for a broeze, and now we feel very much like the fellow who waited for the river to ran down so that be might proceed on his journey. We must finish our day's work without a breeze; it will not come till wight, and then it is brisk enough to require covering on the bed.

Onors .- The Austin Statesman ways that Mayor Wheeler returned from San Autowie Monday evening, and we are glad to learn that his lady is rapidly being restored to good health under the skilled treatment of Dr. Herff. The Mayor reporta the crops in most excellent conditeen all along the road from Austin to the Alamo City, and he says that the farmers expect to make a hale of cotton to the

"THE HEATED TERM" Is upon us, and has been for two or three days past. With the thermometer up to 98° in the shade, and in some warm places up to 102, it is not to be expected that local editors can do a very thriving business in the search of "items of interest " The nights are cool and delightful, but that is the wrong time to hunt for items, at least the right sect of items, secording to the old maxim that 'nine o'clock is time for all honest people to be at home." The fact is, the

THE FREIGHT to Fan Antonio from New Orleans and New York is, we are informed, wortly landed at Indianols, and shipped by the Morgan railroad to Cuero, from which place it is hauled to this city. We are assured by experienced merchants that, of the Morgan railroad were finished to this place, and also the Pierce railroad, the Morgan road would get the most of the heavy freight. But we believe the If the Houston ship channel were finished, most of our freight, even by Morgan's steamers from New Orleans, would come via Houston. But if the Morgan road is bafft to Austin, and the Pierce road built to this city, we shall have three railroad

MRS. FAUST, so badly wounded by the same mae who murdered Miss Voelcker, at New Braunfels, is reported as improving somewhat. She is able to see a little out of one eye, though the other one is hopetossly gone, we understand. Her husband, who was arrested and examined, has been volozeed. Although a large number of persons have been arrested and examined, it comes that absolutely no sine has been found by which the murderer can be "graced. But "marder will out" some time or other, yet it may be a long time before the disclosure takes place. It was the work of either a madman or a most damwable fiend in human shape. The position of the innocent murdered girls is preferable to the hell which will ever surround this inhuman wretch.

MR ERASTUS REED complained to us this morning that we had not given any editorial notice of his splendid farniture catablishment, 93 & 95 Commerce street. We replied that according to our recollection, we not only noticed his advertisement at the same time it was inserted, about the second of July, but that we had, as a matter of local news, called attention to his preparation for removal long thefore. On consulting our files, we find that we were correct. So, Mr. Reed has that we were correct. So, Mr. Reed has that the fine notices, instead of none, as he is that and now he make the third by his inseated, and now he gets the third by his wristake. So he must stand the cigars, or clouble his advertisement.

His ane establishment is 160 feet long, 53 feet wide, eplendilly lighted, coel and airy, and has everything needed in house keeping. It is also worth visiting as a sample of our large mercantile establish-

Curing versus Cobbling.

There are many medicines that give transient relief in sickness without touching the source and seat of the complaint. Hostetters Stomach Bitters is not one of these. The great tonic and restorative does not cobble the diseased and enfeebled system. It is not a mere palliative, that only temporarily controls a few unpleasant symptoms. No; its invigorating, regulating, restorative principle ponetrates to the very source of the difficulty in the finide and solids of the body, and hence its cures are radical and thorough. In dyspepsia it strengthens the stomach, in liver complaint it regulates the flow of bile, in constipation it promotes a punctual habit constitute to gatates the now of the, in constitution it promotes a punctual habit of body, in nervous ailments it tones the sentients and motive fibres, in rheumatism it counteracts pain, and in cases of general debility rehability tes the emacrated frame.

THE "GENTLEMAN IN BLACK," who is the THE "GENTLEMAN IN BLACK," who is the tutelar demon of dram-shops, assumes his sourcest aspect when the rapid progress of Vinegar Bitters is reported "down below." The people's Vegetable Tonic is playing the mischief with his bitters fired with rum. All diseases with those demoniac nostrums aggravate, under pretense of relieving, such as indigestion, sick headache, constipation, rheamatism, gont, and intermittent fevers are cured by it,

DR. SCHENCK'S PULMONIC SYRUP, SEA WEED TONIC, AND MANDRAKE PILLS.-These medicines have undoubtedly performed more cures of Consumption than any other remedy known to the American public. They are compounded of vege-table ingredients, and coutain nothing which can be injurious to the human con stitution, Other remedies advertised as cures for Consumption, probably contain opinm, which is a somewhat dangerous drug in all cases, and if taken freely by consumptive patients, it must de great injury; for its tendency is to confine the morbid matter in the system, which, of course, must make a cure impossible. Schenck's Palmonic Syrup is warranted not to contain a particle of opium: It is composed of powerful but harmless herbs composed of powerful but harmless herbs, which act on the lungs, liver, stomach, and blood, and thus correct all morbid secretions, and expel all the diseased matter from the body. These are the only means by which Consumption can be cured, and as Schenck's Pulmonic Syrun, Sea Weed Tonic, and Mandrake Pills are the only medicine, and Mandrake Pills are the only medicines which operate in this way, it is obvious they are the only genu ine cure for Pulmonary Consumption. Each bottle of this invaluable medicine is accompanied by full directions. Dr. Schunck is professionally at his principal onne, corner Sixth and Arch Streets, Pulfadeiphia, every Monday, where all letters for advice must be addressed.
