late action of Mr. Morgan in the matter of the ship channel to Hous-ton is the existence of the Galveston Wharf monopoly. This aver-ment has already been stated in gen eral terms, but it is now a vouched for. A case may be given. Some two years ago the coming fall, a heavy consignment of flour was shipped through to Dallas from New Orleans by the Morgan line at one dollar a barrel. Out of this amount was to come the respective charges of the steamship line from New Orleans, the Galveston Wharf Company, the Houston Direct Naviga tion Company, and the Texas Company and the tral Bailroad. At the time spoken and jibally interred. It is haped that the others may be taken and dealt with in like manner. ic Plailroad, at fitty cents per hundred. By this route, and while high water prevailed in the Red River, the transportation could be made without loss, although there was no great profit in the business. How was it with Mr. Morgant He at tempted to compete with the Texas and Pacific road, via Red River, charging precisely their freight ta riffs, and the consequence has been that he has never repeated the experiment. He was money out by the operation, and his inability to transport freight at these figures is assured from the fact that such through rates have never since been

given. Mr. Morgan in self defense is compelled to do one of three thingseither to withdraw from the carrying trade via the Gulf to Galveston, to have reduced the whart charges at this place, or to find a landing point beyond which will not affect the success of his financial invest ments. He has now opposition in the rear both by rail and river, which do not permit bim to pay such exactions as are demanded by the Wharf Company; and if this city is not prepared to aid Morgan in keeping his steamships in the Galveston trade, the consequence will be fatal to the entire commerce of the port. There is no exaggeration in this-the facts are patent and known, or should be known, to every intelligent business man in the community. The carrying trade via the Gulf is seriously meusced by opposition lines of travel in the rear of Galveston, and if we would have Mr. Morgan continue the running of his steamships to this point there must be uo embargo placed upon the work in the shape of inordinate wharf charges. Mr. Morgan is now required to give through bills of lading to points in the interior at rates in accordance with those of competing lines, and if Gal-veston expects to handle this freight she must get rid of all monopolies. This is, no doubt, thoroughly under-stood, but action is the order of the present hour .- Galoeston News.

The Mail Robber Reed Identified and Buried.

McKinney, August 8, 1874 Last night, the remains of Jim Reed, the mail robber, arrived here from Paris, near which place he had been ap prehended and shot; and were buried to-day, after having been fully identified by those who knew him. He was a noted but desperate character, and the citizens are truly glad at the riddance. Many horses were stolen, and citizens killed and robbed, by the band to which he

belonged. Morris who captured, and then had to kill him, is, I learn, in hot pursuit after Cal. Carter and John Boswell, Reed's desperate companions in the robbery on April 7 last, of the San Autonio and Austin mail coach. It will be remembered that this party stopped the stage, robbags and took off the stage horses at the month of six shooters, in reg ular highwayman style. Since this occurred, they have been in this county, and in efforts to appre hend them at the time, one of the Deputy United States Marshals was killed by misapprehension. After this they fied to the Indian Nation, and then again were surgounded by a posse of United States deputies and sheriffs at the house of an In-dian named Starr, a short distance from Moscogee; but they managed

to again escape. While in the Indian Territory they robbed an old man named Gray son of \$7000 and another of \$1300. and it was feared at one time that would attack and rob the express and mail train on the Missouri,

Republican Convention 6th.

At the request of leading Republicans in this District, as Chairman of the Executive Committee of the old 4th Congressional Distrist, I hereby call a Republican Convention of the 6th Congressional District, to meet at San Antonio, Bex-ar Co., on Wednesday the 9th day of September next, at 10 o'clock A. M., for the purpose of nominating a candidate for Congress, or of tak ing such action with reference there-to as may be necessary. The basis of representation will be fixed by the Convention. All the counties in the District are requested to send as many delegates to the Convenas they deem proper.

THE Houston "elegraph still indal ges itself in its favorite luxury of calling its political opponents by contemptuous names, such as "rads," "black and tans," and the like. We give it a little further time to as sume decency. If incorrigible, we shall then puncture this bladder of liberality, and let the gas out.

ANOTHER SHERIFF will probably go to the Penitentiary for killing a prisoner, who attempted to escape, at Longview, as stated in the telegraphic news. If the sheriffs and constables are not stopped from killing prisoners, there will be some killing of sheriffs before long. Murder begets murder, and bloodshed breeds bloodshed.

They were noted as most eloquent preachers, but, inspired by the grand and fraterna! occasion, they electrified the Northern and Canadian people by the thrilling power of their oratory.

Northern and Southern Bishops joined hands in the presence of a vast audience, in token of the reunion of the long separated branches of the Church, and of the return of kindly feeling between the hitherto warring people of the two sections. An eminent Canadian diving acted as master of ceremonies, and placed the hand of Bishop Kavanaugh in that of Bishop Janes. Bishop Kav anaugh remarked to Bishop Janes, "I voted for you for Bishop"-that is, before the Church was divided; and Bishop Foster remarked that be would have voted for Bishop Kav anaugh for Bishop, if he had had the opportunity—the latter having been elected after the separation. MR. JOHN J. STEVENS, and not Mr. John Mr. John J. STEVENS, and not Mr. John Jenkins, was the geutleman we intended to notice in yesterday's Expans, as having arrived, in company with Mr. Haralson from Austin. We got the name 'muddled'—that's the word since "Cokery" "broke out"—somehow or other.

THE BULL FIGHTING, so-called, which i only a shame to the city, but it is also burlesque upon real bull fighting. It is a humbug of the first water. It is the play of Hamlet with the part of Hamlet left out. We oppose bull-fighting, as a relic of the days of savagery; but, if we must have anything of the kind, let it be a real bull-fight, with a savage bull, and skilled and courageous metadores. The thing we now have is contemptible.

BISHOP KAYANAUGH, who has been preaching with such eloquence and power to the Northern people, has relatives, and some warm friends, in this city. The lady of one of our bankers, Mr. J. T. Thounton, is his niece, we believe. The writer of this has long known the venerable Bishop, and has traveled with him for weeks in Texas, many years ago. Though over seventy years of age, he is still a bale and vigorous old man. Twenty or thirty years ago, he was a wonderful preacher. He has a brother, Rev. Dr. B. T. Kavan augh, living in Houston.

MR. PLUMMER, of New Brannfels, who is so much incensed at the criticisms of the San Antonio papers for shooting at an innocent colored man, will be listieted for assault with intent to murder, if the next grand jury of Comal county does its duty. The less he says about the matter, therefore, will be the better for him. The people of this country are determined to put down the prevalent lawlessness, violence, bloodshed and murder, and to insist on a strict observance of the law by all its officers; and the press will sustain them. Sheriffs and their departies must be held to a strict accountability for their conduct.

THE CONGRESSIONAL ELECTION in this District is beginning to give a little animation to the languid, yawning conversation which has been characteristic of this city ever since the "bested term" set in. But this new interest is principally con-fined to the candidates, and their immediate friends and strikers,—in short, to those who expect to be personally benefitted with the result. Those who have no prospect of making anything by the election do not seem in the least inclined to become very enthusiastic.

The opiniou seems to prevail about town that Brackenridge, Baylor, Ford, and Russell will nentralize such other, and that Stockdale will get as many votes in the Goliad Convention as all of them put together. It is believed, also, that in case, Stockdole fails to get a two-thirds vote/ a new man will come in, and that the new man will be John Ireland. It is also begipping to be understood that Eveland's influence will be given to Stockilale as against Baylor and Brackenridge, -in short, that there is, or will be a good anderstanding between Ireland and Stockdale Ireland will help Stockdale, and should Stockdale be nominated and elected, he will help Ireland for the United States

Senate, when the time comes, A cree It is beginning to be whispered that Gen, H. E. McCallech, and all athers opposed to Ireland, who have made haste to declare for Stockdale, will find out that they have simply fallen hito the trap fald for them by Ireland. It is said that the only way to beat the Ireland-Stockdale game is, for the friends of Brackenridge, Baylor, and Ford to compromise, and unite on one man. But it is also said that this has been rendered difficult by the anceremonious manner in which Baylor was treated in the Democratic Convention of the county list Saturday.
It is also said that the people of West-

ern Texas have great interests to be promoted in the next Congress, and thatthere is nothing of a partizan nature that seriously divides them, and that they should not support a nominee at all, but should support the best man in the field, regardless of party. This is the real feeling of the majority of our best people, but they are straid of the party lash, and of property of both property control in the Darriet, and control of the Course of the Cou

Many who are suffering from the effects of the warm weather and are debilitated, are advised by physicians to take moderate amounts of whisky two or three times during the day. In a little while those who adopt this advice frequently increase the nun-ber of "drinks," and in time be come confirmed inebriates. A beverage which will not create thirst for intoxicating liquors, and which is Intended especially for the benefit of debilitated persons, whether at home or abroad, is Dr. Schenck's Sea Weed Toule. Containing the joices of many medicinal herbs, this preparation does not create an appetite for the intox eating cap. The neurishing and the life-supporting properties of many valuable natural productions contained in it and well known to medical men have a most strengthening influence. A single bottle of the Toule will demonstrate its valuable qualities. For debility arising from sickness, over exertion or from any cause whatever, a wineglasfull of Sea Weed Toule taken after meals will strengthen the stomach and create an appetite for wholesome food. To all who are about leaving their homes, we desire to say that the excellent effects of Dr. Scheuck's seasonable remedies, Sea Weed touic, and Mandrake Pills, are particularly evident when taken by those who are injuriously affected by a change of water and diet. Ayer's Ague Cure,

For Fever and Ague, Intermittent Pever, Chill Pever, Remittent Fever, Dumb Ague, Periodical or Billious Fever, &c., and indeed all the affections which arise from malarious, marsh, or miasmatic possons,

No one remedy is londer

No one remody is louder called for by the necessities of the American people, than a sure and safe cure for Pertra and Ague. Such we are now enabled to offer, with a perfect certainty that it will eradicate the disease, and with assurance, issued on proof, that he harm can arise from its use in any quantity.

That which protects from or prevente this disease, is which protects from or prevente this disease, must be of imprene cervice in the communities where it prevails. Prevention is better than cure, for the putient excapes the risk which he must run in resent attacks of this heleful distemper. This "CURE" expells the inlastination poison of Fevera AND AGUE from the gystem, and prevents the development of the disease, if taken on the first approach of its premonitory symptoms. It is not only the best remedy even yet discovered for this class of complaints, but also the chectests and large quantity we amply for a dollar brings it within the reach of everybody; and in billious districts, where Fevera AND AGUE prevails, everybody should have it, and use it freely, both for cure and protection. It is hoped this price will place it within the reach of all—the power as well as the sich. A great superiority of this remedy even any other eyer discovered for the speedy and certain cure of informiticants is, that it contains no Quinine or mineral; some quently it produces no quintage or other inharious effects whatever upon the constitution. Those cured by it are left as healthy as if they had never had the disease. Fever and Ague is not show the consequence of the misspanic poison. A preatvariety of disorders arise from its irritation, shong which are Neurolated the missing in this cause, up to on the internitient type, or become periodical. This "CURE" expels the poison from the blood, find consequently cures them all alike, it is an invaluable protection to insurgraphs and persons travelling to temporarily residing in the male rions districts.
