The President has not yet signed the tariff bill. A statement shows an increase of a million and one-third dollars in the Treasury...

The N. Y. Tribune and N. Y. Sun are doing their best to defeat the Southern Pacific subsidy bill. The Congressional Committee in New Orleans is said to endeavor to effect a compromise...

Another proposition was the recognition of Kellogg as Governor and Fern as Lieut. Governor. Alfonso's army in Spain is driving the Carlists before them. The relief of Pampeluna seems to be certain.

In the next Congress there will be 85 Senators and Representatives who have either served as soldiers of the Confederate army or who had a civil office under the Confederacy. A Newfoundland dog displayed unusual sagacity in the manner in which he swam into the river for a duck...

Not only the Mennonites, but also the factious inhabitants of the Russian Crimea are emigrating in large numbers. There is already a scarcity of young men to recruit the regiments...

Spain. If the new King of Spain is to be judged by his ministers and advisers, the people of Spain may prepare for unhappy days. Nearly all these men have served, together with Narvaez, the bloodiest reaction over inaugurated in Spain...

How is this possible in your position as participant in the most violent political struggles? "I have ordered all my enemies to be killed," said the dying Grand Duke...

Such is the stuff out of which Alfonso has carried his Cabinet. One Method of Macadamizing Streets. When the public improvement committee under the administration of Thielepape began to consider and investigate the question of improving our streets...

The limestone and gravel method was found to be a great improvement and several streets were improved after this fashion, and we find that it seems to be the only way our streets can be improved...

The present system, without having the streets and squares properly graded, is simply an outrage, and a permanent injury inflicted upon our city.

The new city administration has very properly made an exhibit of the city financial condition of the city, and the fearful manner in which the past city administration made debt...

According to the Statement before us, the city owes at this present moment \$64,376 in gold and \$10,000 in currency, and has other liabilities falling due each year, until 1904, amounting to \$92,431.18.

Forty thousand of these latter liabilities, in shape of bonds, were contracted for by the late administration almost with its expiring breath, and besides being a job, an outrageous job, it is money thrown away.

We are informed by a shrewd financier, and a man who knows what he is talking about, that the city actually pays \$2.50 for 37 1/2 cents worth of actual service, in all this contract work. This assertion may cause some virtuous indignation on the part of the contractors, but we intend to show up some of this jobbery.

The grading of Military Plaza is an outrage on civilization, in the name of common sense what do we want one at our feet square, gained by having two feet of limestone and angular cobbles piled upon it?

If it were properly paved for sixty or seventy feet on each side, and the center left free for ornamenting or even for public buildings there would be some sense in it. Let the present city administration stop this piece jobbery and pay off the contractors; or else an indignant populace may some day tear it up to stone the perpetrators of the outrage.

trust by the city, which seems to have dropped out of our municipal calculations; the city school fund,—what has become of that? The city is only the trustee of this magnificent trust created at the foundation of our city by the donation of several thousand acres of land lying within its limits.

This article whose want has long been felt by every gentleman of taste, will prevent the forming of knoses and wrinkles in pantaloons, it is convenient, neat, easily applied, packed in small space, and has given general satisfaction everywhere.

The next of this STRETCHER is particularly felt, when a new pair of Pantaloons have been exposed to the rain and are out of their shape and appearance.

It would not be amiss for the present city officers to read over a statement made of city affairs at the close of the first year of Thielepape's administration. It was a proud year's work for a set of city officers entirely new to the administration of public affairs, and if our present city officers can do as well they will be long remembered.

NEW ADVERTISEMENTS. ARRIVAL. sent to the NEW YORK & ORIENTAL TEA COMPANY will insure by return mail, one pound of excellent Oolong, Young Hyson, English Breakfast, Japan or Mixed Tea such as is usually retailed at \$1.20 to \$1.50 per pound.

WHOLESALE PRICES. REASONS WHY you should order your Tea from the New York and Oriental Tea Company. Because the Company deals only in PURE UNADULTERATED TEA. It is well known that immense quantities of so-called "Tea," adulterated with the leaves of the Willow, Hawthorn, and other trees, and even with stones, particles of lead and steel filings, besides coloring matter, are sent over the country and sold at enormous prices as "Tea."

Genuine Tea. Because our command of capital enables us to IMPORT LARGELY FOR CASH, and thus to sell cheap. We buy all of our Tea at the Ports of China and Japan, and thus save many intermediate profits and charges.
