LAST Tuesday morning one of those dreadful occurrences that shock our better feelings took place about seven wiles from Coryell City. A daughter of Mrs. Carver, a widow lady, was atooning over the fire, when her dress ignited. Her mother went to her assistance, and in her frantio efforts to extinguish her daughter's clothing, had her own agnited! Panid witz ing the unfortunate momen, they amaked a neighbor's; house. The young ledy tell exhausted on the open prairie, and every article of clothing was consumed while on her person. The old lady (about fity years) sank on the neighbor's deor step, with her clothing entirely barned; off her. Death kindly came to the relief or both the sufferers about 4 p. m., the mother dying within fifteen minutes of her daughter. During the early part of the day they kept pretty straight, and it was not until evening that they began to manifest a disposition to create a disturbance and make threats of vengeance against several persons in fown, among them the sheriff. About 8 o'clock in the evening, when no one suspected a disturbance, five or six shots were fired through the windows of Mr. Ochs' building. in which were scated and standing quite a number of gentlemen; and how it is that no one was hert, seems almost a mystery. They shot at Mr. Stoffets' house and almost shot a little daughter of that gentlemen, the ball outting a look of hair from the back of her head. They fired several more shots along Main street as they went, at different houses and at a gentleman whom they met between town and Fort Martin Scott. About an hour and whalf after they left Deputy Sheriff Kleck, with a posse, went in paranit, but did not succeed in over-taking them, as the night was dark and the cownrilly thieves were mounted on

Both houses of the Alabama Legislature ses of the Alabama Legislature To pay eld Pensions have instructed their Senators and To remove Indians from from Representatives in Congress to support the Texas Pacific railroad bill. We believe that a majority of the State Legislatures of the Union have now lake a similar action. The National Grange of the Patrons of Husbandry, representing all parts. of the Union, have recommended National support to the road; and so also have many commercial and industriel opporations. We hope Congress, in this behalf, will succeed. This transcontinental railroad, when completed, will be worth more to the country than both the Union Pacific and the Northern Pacific combined; and yet the Texas Pacific asks nothing but a guarantee of interest on its bonds, while hundreds of millions have been lavished on the other roads, which are blocked with snew for much of the year. FLORESVILLE, TEX., Feb. 11. The cancus system honcetly mausged is mighty engine for the cohesion and preservation of great parties and the perpe tuation of pure principles of government; but in latter fears the system has become perverted to purposes of frand by monopolies, corporations and dishonest politinane, and in their hands it is likewise a machine of fearful and neferious import to the weal of the country. By the modern working of this system, the election of nearly all public functionaries is effected by a score or two of men in each county; the voice of the people being utterly ig-Now let us compare this with the pored or discounted by the adroitness appropriations made by the 13th fraud and impudence of demagagues and Jury ayetem which-worked admirably for reperations so long as it suited the exigencies of the times and people, but has now become little better than an inquisition in which to wreak petty spite and malice, and should be laid upon the shelf; so this caucus system has degenerated into a pelitical factory into which the commonest demagogues plunge and come out with the style, pomp and circumstance of firstclass Statesmen, to the exclussion of real, honest merit, and in contempt of the popular voice or will, which, now-a-days, is never consulted by the cross-roads politician in nominations for office any more than Queen Victoria consults a Comanche Indian tonehing the English exchequer.

The modern caucus is no more nor less than an assemblage of old stove-up party hacks, pot-house erators and cross-roads politicians. These, and the like of them, get themselves together on the eve of an election at the court-house in each county and hold a "Democratic mass-meeting" to elect delegates to a Convention. The way has been made smooth by the wise suggostions and irresistible appeals of that valuable county journal, the "Ring Vineriels. Right here, on passant, I assert that the chief responsibility of the elevation of the chief responsibility of the elevation of incompetent political mendicants and Eing stipendiaries to the high places of with which I remain, the country rests upon the venal press of the day. But when these mass-meetings come to songuine (we find that the sunbrowned farmer, stockman, and other industrious classes who own the capital and furnish the votes of the county, are not there in numbers sufficient to control the result; it is the office hunter, and the briefless lawyer who barangues the public on politics at atrest corners and in bar-rooms, and the seedy politician whose talents the of the State generally, to publish people don't appreciate, and all of that wort that we see there chiefly; in a word, the rag-tag and bob-tail of the population, with a few respectable exceptions.

Every year increases the popularity of this valuable Hair Preparation; which is due to merit alone. We can assure our old patrons that it is kept fully up to its high standard; and it is the only reliable and perfected preparation for restoring GRAY OR FADED HAIR to its youthful color, making it soft, lustrous, and silken. The scalp, by its use, becomes white and clean. It removes all eruptions and dandruff, and, by its tonic properties, preyents the hair from falling out, as it stimulates and nourishes the hair glands. By its use, the hair grows' thicker and stronger. In baldness, it restores the capillary glands to their normal vigor, and will create a new growth, except in extreme old age. It is the most economical HAIR DRESSING ever used, as it requires fewer applications, and gives the hair a splendid, glossy appearance. A. A. Hayes, M.D., State Assayer of Massachusetts, says, "The constituents are pure, and carefully selected for excellent quality; and I consider it the BEST PREPA-RATION for its intended purposes."

It is hoped this price will place it within the reach of all—the poor as well as the rich. A great superiority of this remedy over any other ever discovered for the speedy and certain cure of intermittents is, that it contains no Quinine or mineral; conséquiently it produces no quinism or other injurious effects whatever upon the constitution. Those cured by it are left as healthy as if they had never had the disease.

Fever and Ague is not alone the consequence of the missmatic polson. A great variety of disorders arise from its irvitation, smoong which are Neuraly? The Missouri, Kauses & Texas Railway has become so well known to the people of Texas, as one of the finest and meet comforts ble Roads on the continent to travel on, that it meme almost unnecessary that we should say anghtin its praise. Yet we cannot ever get back from a trip over this line without saying something in praise of the management, who always seem to be striving to make their patrons comfortable, while traveling over their road. The track is always in the best possible condition and trains are at all times run at uniform speed. Pullman's finest Drawing Roam Sleeping Cars accompany all through passenger trains, and if you are going north or east, by making your wants known, you can go either via Hannibal or St. Louis. And for Kansas City, Denver, Chiffernia, or any efthe Northwestern States or Territories, it is much the best route we have from Texas. Their Dining Stations and Heurs for Meals are all that a treveler could wish for, and in fact there seems to be nothing left undone to render a trip aver, this line pleasant.
