And cities cluster round the loom.

The stomach is affected with loss of appetite and sickness; the bowels in general are costive, sometimes alternative with lax; the head is troubled with pain, accompanied with a dull, heavy sensation in the back part. There is generally a considerable loss of memory, accompanied with a printful sensation having left undone something which ought to have been done. A slight, dry cough is sometimes an attendant. The patient complains of weariness and debility; he is easily startled, his feet are cold or burning, and he complains of a prickly sensation of the skin; his spirits are low; and although he is satisfied that exercise would be beneficial to him, yet he can scarcely summon up fortitude enough to try it. In fact, he distrusts every remedy. Several of the above symptoms attend the disease, but cases have occurred where few of them existed, yet examination of the body, after death, has shown the LIVER to have been extensively de-

THE ORIGINAL HOWE!

The World-Renowned Elias Howe Sewing Machines are the oldest established of any in the world, they being the FIRST SEWING MACHINES ever made, and having been manufactured by the original inventor and under his own supervision; Elias Howe jr., since 1845.

The Howe Sewing Machine.

For some years I have been actively engaged in increasing the facilities for manufacturing my Sewing Machines, and have succeeded in organizing a most complete system, combining perfection of workmanship with the largest productions at the smallest cost.

In order to obtain these results, time, labor, money, and the EXPERIENCE OF MY
LIFE, as a practical mechanic, have been freely contributed, and I believe, with
success. Further to facilitate the manufacture and sale of my Machines, THE Howe Machine Co. has been organized, and the business will be carried on in the name of that Company, under my supervision. The envisible reputation of my HOWE MACHINE Co. has been organized, and the business will be carried but in the name of that Company, under my supervision. The envisible reputation of my Machines has induced persons to use my name in connection with Machines of an inferior description—and I have, therefore, to protect myself and the public, adopted, as an especial Trade Mark, a Medallion, having in the centre the profile of the Inventor antrounded by the legend, "Ellas Howe, Jr., Inventors and Marke, New York, U. S. A." This medallion is embedded in each Machine, andnone are the production of the Howe Machine Company unless they bear this distinguishing Trade Mark.

Every year increases the popularity of this valuable Hair Preparation; which is due to merit alone. We can assure our old patrons that it is kept fully up to its high standard; and it is the only reliable and perfected preparation for restoring Gray OR FADED HAIR to its youthful color, making it soft, lustrous, and silken. The scalp, by its use, becomes white and clean. It removes all eruptions and dandruff, and, by its tonic properties, prevents the hair from falling out, as it stimulates and nourishes the hair-glands. By its use, the hair grows thicker and stronger. In baldness, it restores the capillary glands to their normal vigor, and will create a new growth, except in extreme old age. It is the most eco-nomical HAIR DRESSING ever used, as it requires fewer applications, and gives the hair a splendid, glossy appearance. A. A. Hayes, M.D., State Assayer of Massachusetts, says, "The constituents are pure, and carefully selected for excellent quality; and I consider it the BEST PREPA-BATION for its intended purposes." No one remedy is louder called for by the necessities of the American people than a sure and sale cure for Fever and Ague. Such we are now enabled to offer, with a perfect certainty that it will readicate the disease, and with assurance, founded on proof, that ne harm can arise from its use in any quantity.

That which profects from or prevents this disorder must be of immense service in the communities where it prevails. Prevention is better than cure, for the patients escapes the risk which he must run, in violent sitacks of this haleful distemper. This "CURB" expels the missmatic poison of Feverg AD AGUE from the system, and prevents the development of the disease, if taken on the first approach of its premanitory yet discovered for this class of complaints, but also the cheapest. The large-quantity-mo, anapty for a dollar brings it within the reach of everybody; and in billous districts, where Fever AND AGUE prevails, everybody should have it, and use it freely, both for cure and protection. He hoped this price will place it within the reach of all—the poor us well as the rich. A great superiority of this remedy over any other ever discovered for the speedy and certain cure of Intermittents is, that it contains no Quinnine or mineral; consequently it preduces no quinism qr other injurious effects whatever upon the constitution. Those cured by it are left as healthy as if they had never had the disease.

Fever and Ague is not alone the consequence of the minematic poison. A great variety of disorders arise from its irritation, among which are Neurally? The trunching of the proposal to the consequence of the minematic poison. A great variety of disorders arise from its irritation, among which are Neurally? MONDAY, May 10, 1875, To the Republicans of Texas.

AUSTIN, TEXAS, April 3, 1875. I have to ask your attention to the call of a State Convention of the Republican party issued by Mr. Adolph Zadeck, Secretary of Ex. Committee, during my absense.

I now join Mr. Zadeck in that call and recommend the same for the purposes set forth therein by him. I request Republicans throughout

the State to respond to the call by sending up a full representation.

The matters to be considered by the convention are of vital importance to you not only as Republicans but as citizens.

Very respectfully. BOULDS BAKER, Ch'm'n of Ex. Committee.

To Texas Republicans.

At the request of many Republieans, and in the absence of the Chairman, I call a Republican State Convention, to be held at Hempstead on the 25th of May, being the fourth Tuesday.

This Convention to be for the pur pose of electing a Chairman, re organizing the State Executive Committee, consultation in regard to the State Constitutional Convention, and the proposed constitutional amendments, and transacting other business of great importance. The representation and organization to be the same as that held at Dallas in 1873.

A great superiority of this remedy over any other ever discovered for the speedy and certain cure of Intermittents is, that it contains no Quinine or mineral; consequently it produces no quinism or other injurious effects whatever upon the constitution. Those cured by it are left as healthy as if they had never had the disease. Fover and Ague is not alone the consequence of the minematic poison. A great variety of disorders arise from its irritation, among which are Neuralgy Rheumatism, Gout, Headache, Himiness, Toothache, Earneche, Catarth, Asthma, Palpitation, Painful Affection of the Spicen, and derangement of the Stomach, all of which, when originating in this cause, put on the intermittent type, or become periodical. A Word of Advice to Travelers. The Missouri, Kansaa & Texas Railway bas become so well known to the people of Texas, as one of the finest and most com-fortable Roads on the continent to travel

Yet we cannot ever get back from a trip ever this line without saying something in praise of the management, who always seem to be striving to make their patrons comfortable, while traveling over their road. The track is always in the best possible condition and trains are at all times ran at uniform speed.
