Word of Advice to Travelors. The Missouri, Kanese & Texas Railway has become so well known to the people of Texas, as one of the finest and most compared to travel on that it seems almost unnecessary that we should say aught in its praise. Test we cannot ever get back from a trip over this line without saying something in praise of the management, who always seem to be striving to make their patrons comfortable, while traveling over their road. The track is always in the best possible condition and trains are at all times run at uniform speed. Pullman's fixest Drawing Room Sleeping Cars accompany all through passenger.

In order to obtain these results, time, labor, money, and the EXPERIENCE OF MY LIFE, as a practical mechanic, have been freely contributed, and I believe, with success. Further to facilitate the manufacture and sale of my Machines, The Howe Machines Co. has been organized, and the business will be carried on in the name of that Company, under my supervision. The enviable reputation of my Machines has induced persons to use my name in connection with Machines of an inferior description—and I have, therefore, to protect myself and the public, adopted, as an especial Trade Mark, a Medallion, having in the centre the profile of the Inventor surrounded by the legend, Elias Howe, Jr., Inventor and Maker, New York, U.
