Mr. Davis replied falteringly, for the tender chord in that old hero's heart was touched, and team came to the eyes of more than one as the lips of the boy of young ladies, who stood around him kissed those of their much leved Davis. WE are assured, by telegraph, that the Russian Czar leaves Berlin pleased with the prospect of European peace.

WE are more than thankful that Jeff. Davis kept away from our city, as we entertain the best opinion of our Democratic citizens, and never wish to see them the victims of such disgusting flunkylsm as was exhib ited in Houston.

#### Man Worship.

The visit of poor old played out Jeff Davis, to Texas, has been the occasion of a good deal of flunky. ism and the display of a Southern characteristic which made the Southern Confederacy a possibility, and if it had proved a success ,Jeff Davis would have been crowned king or Emperor. The spirit of liberty, the love of human freed ,m, true manly Republicanism was almost choked out by human slavery. Slavery degraded labor until all who labored were regarded as "madsilla" apon which the lordly slave owner stood. Man worship grew upon the Southern people antil it came near destroying them.

Jeff Davis, since the war, has tried to live abroad, in Canada, and in England, but he tailed to be put on the list of dethroned monarchs and sank into absenity so he came back to his native land; where no one molests him and a magnanimous government has forgiven his treason and he goes about over the land seeking tor consolation. Texas is the last green pasture, and the old man meets a welcome here Liberty, a most murderous and bloody which stirs up his old ambition;— rencounter took place at Mess Bluff, some he is again the hero of the lost account of which was given to the public course; and all the blood, all the at the time. In the fight which occurred faitbful subjects strew violets, a Napo-leonic emblem, in his pathway and leonic emblem, in his pathway and as he treads over them the crowd rush like mad Freachmen to the spot and treasure them up as trophies. Sweet girls shower kisses upon him and the Jenkinses boast of "taking him by the hand."

This is all very nice, and poor old Jeff is welcome to all the aduation he receives. Houston shed its tears strewed its violets and would have gloried in the priviedge of kissing Jeff's-big toe;-he was the main character in their agricultural show and brought them lots of money, Fire la hum-

I had another purpose in coming here. It was to meet your distinguished guest. I come here not representing myself, but the people of Texas, to see him, whose great name is enshrined deep down in the hearts of a brave and galiant people. (Cheers.) I come to tender him the hospitalities of Texas, in the name and in behalf of the people of Texas. Many of you have never seen him before. Regard him; he stands before you, and you can realize what kind of a man it was that rode upon the whirlwind and directed the storm. The entire flow of water of the Upper Labor Ditch was forced into the new ditch by means of flood gates, and it ran through the whole length in about six hours time.

The fact of the water running through this ditch is of little consequence; the question is, what benefit is it after it runs through, and is it a success even in the item of a water supply?

Observation shows that only by foreing the entire water of the Upper Labor ditch into the new ditch can a water flow be produced, and if parties entitled to water above the flood-gate are irrigating, no water can go into the Alexan Ditch. The Upper Labor Ditch will have to be widened and its capacity doubled. This will cost \$10,000.

Two men from the Indian Nation rode up to the house of Mrs. Radeliff Morrow, and called her to the door. As she stepped out they both fired and killed her instantly. Mrs. Morrow was said to be one of the finest looking women in Texas, She had considerable means, but was feared by every one. Her husband-was killed about a year ago in a similar manner. He was a noted horse thirf and Mrs. M harbornd a set of desperadoes around her, and made her house a rendezvous for horse thieves. She had spent considerable money in attempting to find the murderers of her humand, and had awern rengance, which was probable the cause of her own death. Two other brothers were killed in the Belton fail managers. After the marder of her husband, Mrs. M bad mov ed from her home to Burlington, on Red River, and had made a beautiful home, but was still harboring horse thieves. The murderers left the body lying in the yard and rode quietly back to the Nation. No

## THE ORIGINAL HOWE!

The World-Renowned Elias Howe Sewing Machines are the oldest established of any a the world, they being the FIRST SEWING MACHINES ever made, and having een manufactured by the original inventor and under his own supervision, Elias been manufactured Howe jr., since 1845.

### The Howe Sewing Machine.

For some years I have been actively engaged in increasing the facilities for manufacturing my Sewing Machines, and have succeeded in organizing a most complete system, combining perfection of workmanship with the largest productions at the smallest cost.

In order to obtain these results, time, labor, money, and the EXPERIENCE OF MY LIFE, as a practical mechanic, have been freely contributed, and I believe, with success. Further to facilitate the mapufacture and sale of my Machines, THE HOWE MACHINE Co. has been organized, and the business will be carried on in the name of that Company, under my supervision. The cuviable reputation of my Machines has induced persons to use my name in connection with Machines of an inferior description—and I have, therefore, to protect myself and the public, adopted, as an especial Thade Mark, a Madallion, having in the centre the profile of the Inventor surrounded by the legend, "Ellas Hows, Jr., Inventor and Maker, New York, U. S. A." This medallion is embedded in each Machine, andnone are the production of the Hown Machine Company unless they bear flits distinguishing ELIAS HOWN, Jr.,

We can assure our old patrous that it is kept fully up to its high standard; and it is the only reliable and perfected preparation for restoring GRAY OR FADED HARR to its youthful color, making it soft, lustrous, and silken. The scalp, by its use becomes white and clean. It removes all eruptions and dandruff, and, by its tonic properties, prevents the hair from falling out, as it stimulates and nourishes the hair glands. By its use, the hair grows thicker and stronger. In baldness, it restores the capillary glands to their normal vigor, and will create a new growth, except in extreme old age. It is the most eco-nomical Harr Drassing ever used, as it requires fewer applications, and gives the hair a splendid, glossy appearance. I-A. A.
