The World-Renowned Elize Howe Sewing Machines are the eldest established of any in the world, they being the FIRST SEWING MACHINES ever made, and having been manufactured by the original inventor and under his own supervision, Eliza Howe Jr., since 1845.

The Howe Sewing Machine.

For some years I have been actively engaged in increasing the facilities for manufacturing my Sewing Machines, and have succeeded in organizing a most complete system, combining perfection of workmanship with the largest productions at the smallest cost.

In order to obtain these results, time, labor, money, and the agranisacs or My In order to obtain these results, time, labor, money, and the EXPERIENCE OF MY LIFE, as a practical mechanic, have been freely contributed, and I believe, with success. Further to facilitate the manufacture and sale of my Machines, The Howe Machine Co. has been organized, and the business will be carried un in the name of that Company, under my supervision. The enviable reputation of my Machines has induced persons to use my name in connection with Machines of an inferior description—and I have, therefore, to protect myself and the public, adopted, as an espacial Trade Mark, a Medallon, having in the centre the profile of the Inventor surrounded by the legend, "Elias Howe, Jr., Inventor and Marks, a Medallon is embedded in each Machine, androne are a production of the Howe Machine Company emises they have Machine, and machine. The Mayor sent in the f-dlowing voto of the resolution concerning Mr. Freis'sban, which, in every particular, is correct, and

was austained by the equacil without dissenting voice: To the Hon. the Board of Aldermen of the City of San Antonio:

I berewith return the resolution passed at your last session, instructing the Mayor to arraign the City Engineer, G. Proisleben, before the Council and pass consure upon him for gross neglect of duty, &c., without my approval.

First, because the punishment is entirey unadequate for the offence, as charged in the report, I find no warrant in the charter, or ordinance for such a mode of punishment of any officer of the city. Section 24 of the charter authorizes the council to provide by ordinance for the suspension or removal of efficers elected by the people or appointed by the council, for certain causes therein mentioned. In Section 53, one of the enumerated powers of the council is 'To provide for removal

of officers of the city for misconduct." These two sections require the action of the council in the shape of an ordinance regulating the mode and manner of removing officers for misconduct, before suy punishment adequate to such offenses can be inflicted.

There is no remedy for the past, except by action in the courts, on the official bond of the party, but it is clearly the duty of the council to provide for such cases in the future.

I therefore recommend that the Committee on Petitions and Ordinances be instructed, to report at the next regular meeting an ordinance providing for the mode and manner of removing elected officers," for the consideration and adoption of the Council.

J. H. FRENCH, May or The veto was sustained and the message reterred to committee on ordinances t carry out suggestion of Mayor.

After this a resolution was offered by Mr. Degener, Chairman of the Finance Committee, to retain as security, some five hundred dollars unpaid on the Earhardt coutract, in case the work proved worthless. This was voted down, Alderman Habit, Degener, Muench, Kiolbassa dissenting, and Mr. Eschart's accounts atlowed. And the only reason for this agtion on part of a majority of the Board was a certificate of Mr. Freisleben that Have obtained the Highest Honors exer the work had been cope, although Alderman Degener americal that Mr. Preisleben atated particularly that he had not certified to the work being done according to contract, and the certificate hors him out in this assertion.

AMERICAN THE PLANT OF COME

A HALLS EGETABLE SICILIAN TE TI HAIR RENEWER

Every year increases the populari-ty of this valuable Hair Preparation; which is due to merit alone. We can assure our old patrons that it is kept fully up to its high standard and it is the only reliable and perfect ed preparation for restoring GRAY OR FADED HAIR to its youthful color, making it soft, fustrous, and silken.
The scale, by its use, becomes white and clean. It removes all eruptions and dandruff, and, by its tonic properties, prevents the hair from falling out as it stimulates and nourishe the hair glands. By its use, the hair grows thicker and stronger. In baldness, it restores the capillary glands to their normal vigor, and will create a new growth, except in extreme old age. It is the most eco-nomical Harr Dressing ever used, as it requires fewer applications, and gives the hair a splendid, glossy appearance. A. A. Hayes, M.D., State Assayer of Massachusetts, says, The constituents are pure, and carefully selected for excellent quality; and I consider it the BEST PREPA-BATION for its intended purposes." Sold by all Druggiets, and Dudlers in Medicines. Price One Dollar.

Buckingham's Dye. FOR THE WHISKERS.

As our Renewer in many eases requires too long a time, and too much care, to restore gray or fided Whiskers, we have prepared this dye, in one preparation; which will quickly and effectually accomplish this result. It is easily applied, and produces a color which will neither rub nor wash off. Sold by all Druggists. Price Fifty Cents. Manufactured by R. P. HALL, & CO.,

Ayer's Ague Cure,

For Pever and Anna Intermition Pever, Chill Pever, Remittent Pever, Dumb Ague, Periodical or Billous Pever, &c., and indeed all the inflictions which draw

No one remedy is louder called for by the uccessities of the American people than a super and age, ourse for Ferer and Agus. Nich we are now enabled to offer, with a perfect certainty that it will cracificate the disease, and with assurance, founded on proof, that no harm can arise from its use in any quantity.

That which protects from or prevents this disorder must be of immense service in the communities where it prayails. Prevention is better than cure, for the patient escapes the risk which he must run in violent attacks of this baleful distemper. This "CURE" expels the miasmatic poleon of FENER AND AGUS from the system, and prevents the development of the disease, it takes on the first approach of the disease, it takes on the first approach of the disease, it takes on the first approach of the disease, of everybody had in officer. The large quantity we surply for a delige brings it within the result, but the chemper. The large quantities where Feven And Agus prevails, everybody should have it, and use it reely, both for citie and protection. It is hoped this price will place it within the reach of all—the poor as well as the rich. A Word of Advice to Travelers.

The Missouri, Kansas & Toxas Railway has become so well known to the people of Texas, as one of the Briest and most comfortable Roads on the constinent to travel on that it seems almost unmossessity that we should say aught is its praise. Yet we cannot ever get back from a farp over this line without saying something in praise of the management, who is ways used to be striving twistic their patients comfortable, while traveling over their road. The track is always in the best possible condition and trains are at all things run at uniform speed. Pullminu's facet Deaving Boom Gleeping Cars accompany all through possenger Cars accompany all through meaning trains, and if you are going north or east, by making your wants known, you can go either via Hamilbal of St. Louis. And for Kansas City, Denver, Culifornia, or any of Kamas City, Denver, California, or any of the Northwestern States or Territories, it is much the best route we have from Texes. Their Dining Stations and Hours for Meals are all that a treveler could wish for, and in fact there seems to be nothing left un-done to render a trip over this line pleas-ant. 28 1-75 w ly L121

## Protest of Alderman Degener to Water Works Proposition.

To the Honorable, the Mayor and Alder men of the City of San Antonia : During a temporary absence from this city I was appointed chairman of a com-

mittee charged with the investigation of proposals made by a New York company to furnish this city with water works. The sommittee closed their labore and embedied their views in an ordinance

before my return. My appointment as chairman being on public record and nothing to show, that on account of my absence I would not participate in the deliberation of said committee, I deem it a duty towards myself

menth of Jao. C. Breckenridge. My objections against the ordinance, ow under discussion, are in no wise against the project in view, to wit, "To Erect Water Works ;" but directed entirely against the time chosen for entering into a contract with the Water Work

The finances of our corporation are detainly not in a condition to justify its chosen representatives to burden the 170 erty-holders with an additional tax.

The State Taxes amount to \$-75 The County Taxes
The City Tax

In the aggregate ..... \$ 2.45 on every \$100 of real estate and persons markable and brilliant career, he property, a tax which has every prospect was a man of real genius, -a brilli of being considerably increased for State cents for the city, if the \$7500-to be auunally expended for the use of 50 fire hydrants, are accepted as the outside limit of the expenditure to be incurred by the city, in case a contract is entered into with the water works company of Nov

It is, bowever, selferident that fifty hydrants are entirely inadequate even to the present limits of that portion of our eity, which is built so close together, that it can claim the advantages of costly modern luxuries, at the expense of such property holders, whose scattered lucation precludes the possibility of accommodating them with equal privileges.

Our city is six miles aquare, or thirty six square miles, a great portion of which though still primitive chaparal, is on ac count of its location valuable enough to contribute largely to our taxes. Another pertion cousists of isolated farm and gar den settlements, and only about one square mile can be considered as baying essumed the qualifications of s city, and it is this latter portion which has certainly equal claims to the advantages of such moders improvements as the income of the city would justify its representatives to put in to operation.

-A mile is equal to 1900 varran; a street block, including the street, avarages 140 varras : thus a square mile laid out in the regular manner, contains 28 miles of streets and 196 blocks.

It is this latter figure which has to be the protection against fire complete, not less than one hydrant per block is requisite. which would swell the estimated annual outlay of \$7500-to the enormous sum of \$30,000, and require a special tax of 50 cents on every \$100 of real octate and per sonal property, six millions being the on timated value of the real estate and personal property in our corporation.

water works would reduce the insurance premiums to such an extent, as to Jully compensate for the additional tax to be levied upon the real estate owners. The amount of property insured in this city avarages 14 millions, on which a pre-

It has been said that the erection of

If 100 hydrants are necessars the pre minus was be reduced one per cent. If, however, a full square mile is to be protected by 900 hydrants, the entire insurance premiume falls short by \$5000, against the special tax to be levied for the lease to be paid to the water works

the United States.

If we take into consideration that our city is situated on the banks of two runminent rebels to have imitated. He irrigation ditches representing a length of the best kind of well water can be found and refused to become a disturber at a depth of 14 to 25 feet; if we take further into consideration that bue-half of ing the bad old party that had ru- the city revenue from the real estate tax ined him and came near ruining the this year is spent directly, and indirectly, for watering purposes to wit: For new ditches, bridges made necessary thereby, Peace to the ashes of ex-Vice for cleaning streets, widening, repairing President Breckenridge, his memo- and cleaning old ditches, for salaries, and

of his countrymen with a tinge of ry to lavy a further special tax for addisadness and regret that there should have rested a single cloud over his fair fame.

It certainly seems as unwarrantable laxury to lavy a further special tax for additional water works; the more urgent nature, and as grading breeze, building a permanent poor house, a hospital and jail, would be rendered impossible for many

In view of all these conssioffer the following resolution :

Resolved. That the consideration of the Maner, providing for the crestion of the ordinance, providing for the crestion of Water Works be gostponed until the financial condition of our city allows an additional expenditure, without increasing the taxes on the real cetate situated with-

To the Hon, the Board of Aldermen of the sents the establishment of Kaufmann & Runge, Galveston, is in our city. This reliable house deals in Coffee as a special-I berewith return the resolution passed at your last asssion, instructing the Mayor ty, and Mr. M. is a worthy representative to arraign the City Engineer, G. Freisleand we bid him welcome and a pleasant ben, before the Council and pass consure upon him for gress neglect of duty, &c.,

without my approval. First, because the punishment is entirey unadequate for the offence, as charged in the report, I find no warrant in the chapter, or ordinance for such a mode of punishment of any officer of the city.

Section 24 of the charter authorizes the council to provide by ordinance for the suspension or removal of officers elected by the people or appointed by the council, for certain causes therein mentioned. In Section 53, one of the enumerated powers of the conneil is "To provide fo removal of officers of the city for misconduct."

These two sectious require the action of the council in the shape of an ordinance regulating the mode and mauner of recensuring the city engineer was read and moving officers for misconduct, before any punishment adequate to such offenses can The unfinished business was then taken

There is no remedy for the past, except by action in the courts, on the official the proposition which he offered to bebond of the party, but it is clearly the placed on file, but the council laid it on duty of the council to provide for such cases in the future.

I therefore recommend that the Committee on Petitions and Ordinances be instructed to report at the next regular meeting an ordinance providing for the mode and manner of removing elected A motion by Alderman Sweeney to authofficers," for the consideration and adapseize the Mayor to exchange a city lot for tion of the Council,

J. H. FRENCH, Mayor The veto was sustained and the measurge reterred to committee on ordinances to

carry out auggestion of Mayor. or of payment of the following accounts, After this a resolution was offered by Mr. Dogener, Chairman of the Finance Committee, to retain as security, some five hundred dollars unpaid on the Earhardt contract, in case the work proved Barburs, forgek og unper litter direles worthless. This was voted down, Alder man Hahn, Degener, Muench, Kiolbassa dissenting, and Mr. Earhart's accounts allowed. And the only reason for this action on part of a majority of the Board was a certificate of Mr. Freieleben that the work had been cone, although Alderman Degener asserted that Mr. Preislehou stated particularly that he had not pertified to the work being done according to contract, and the certificate bore him out in this aspertion

The scalp, by its use, becomes white and clean. It removes all eruptions and dandruff, and, by its tonic properties, prevents the hair from falling out, as it stimulates and nourishes the hair-glands. By its use; the hair grows thicker and stronger. In baldness, it restores the capillary glands to their normal vigor, and will create a new growth, except in extreme old age. It is the most eco-nomical Hair Dressing ever used, as it requires fewer applications, and gives the hair a splendid, glossy appearance. A. A. Hayes, M.D., State Assayer of Massachusetts, says,

I Word of Advice to Travelers. VEGETABLE SICILIAN HAIR

The Missouri, Kansas & Texas Railway has become so well known to the people of Texas, as one of the fluest and most comfortable Roads on the confinent to travel on, that it seems almost unnecessary that we should say aught in the paster. Fet we cannot ever get back from a trip over this line without saying semething in praise of the management, who always seem to be striving to make their patrons confortable, while traveling over their read. The track is always in the best possible condition and trains are at all times run at uniform speed. Pullman's Ruest Drawing Room Sleeping Cars accompany will through passanger trains, and if you are going borth or least, by making your wants known, you can go either via Hampileal or St. Louis. And for Raifma City, Denver, California, or any of the Northwestern States or Torritories, it either via Hannibal or St. Land, or any or the Northwestern States or Territories, it is much the best route we have from Trxis. Their Dining Stations and Hours for Meals are all that a frevelor could wish for and in fact there seems to be nothing left undone to render a trip over this line pleasant.
