GEV. SHERIDAN'S PATE.

flow and When and Why it Happened-The Great Cavaley Leader Vanquinhed by a Blondo-Whatin going to Happen When the June Bones Unfold-A Feed Words About Her.

[Chiengo Correspondence N. Y. Herald. When that plucky little Lieutenant General Philip H. Sheridan, U. S. Army, was telegraphing from the capital of Louisiana to the Honorable, the Secretary of War, that the whole atmosphere was charged with assassination, that an armed | ring the wording of an occasional dispatch banditti waited but a favorable moment to break forth as revolution to, and that tion will gladly throw the legandary he was not afraid, how few of the people of the United States, who, with varyingcomment, were watching his course, knew that in that very hour be had met his fate; that for the first time he was vanquished, and that, too, by the all-powerful god of tiffs who have preseded the present inlove. Whatever recollection Louisiana may have of Sheridan, Sheridan's remem- ty tour year of ago, and although His Hobrance of Louisiana is so fraught with enthoughts of a political character must re- on to believe he will continue at the head City that the lieutenant general became the accepted lover of the fair young lady who is to become his wife in June next. THE STORY AND THE ROMANCE OR IT.

The President's instructions to General Sheridan anent the Louisiana matter were, among other things, to give his trip the appearance of a pleasure party, but to keep his eyes about him, and, if need be, assume the difficult reins of command, With this view, he invited his brother, Colouel Michael Sheridan, to accompany him and to bring his young wife, a nicce of Colone) MacFeely, who has just received his marited pramotion to the chieftamey of the Commissary Department, Tostill further increase the numerical strength of his party, he suggested that Miss Circue, the young daughter of his old army friend and valued staff officer, General Rucker, of the Quartermaster General's Department, be the guest of his sister-lu-law He knew the young lady as a bright, intelligent girl who had made many conquests among the susceptible young officers, but had no thought of personal danger. It had not occurred to him to be sfraid. The arrangement was agreeable to every one, and the party started. The political results of the trip are known the nation over. The personal results to Philip H. Sheridan will be known in June next, when the estimable young gnest of t'e journey will, by the license of the State. the word of the priest, and the consent of the parties most interested, be entitled to write, instead of Miss Rucker, Mrs. Philip H. Sheridan. A get

THE ENGAGEMENT is only whispered in the army circle here, which, as this is the headquarters of a military division, is large, elegant and select. While the General's obsice is applauded, the worldly-minded wonder that so gallant and distinguished an officer as the Lieutenant General, who had the entree of the most fashionable society in the land, and whose prestige as a soldier would confer distinction upon any lamily which he might honor with a marriage connection, had not long since made an alliance with ague wealthy lady of a family known by its elegause, hospitality, culture and fortune to the whole nation. But it is a warm and manly heart, that beats under Phil Sheridan's brass buttons. With him mercenary or merely social considerations could have no weight. it and Taylor has

The bravest are the tenderest. The loving are the daring.

So it is with Phil Sheridan. Such a mun must marry where his beart prompts, not his pocket. For that matter he is rich enough, and, as to social advantages, his rank will always procure him such as he may wish. All this seems to be dispuraging the young lady who is to be the Lieutenant-Generaless. But it is not. All she tacks in the eyes of those who would find a wife for Phil is wealth. She is young, beautiful, bright and accomplished. She is a blonde, with the vivacity usus ly characteristic of that type. Her father is an old and respected officer, not rich, for riches seldom come to: the man who devotes his life to the army. Like all the army people here, his social standing is of the first character, his wife and three daughters rendering his home peculiarly attractive to frieuds and callers. When the June roses are unfolding, Miss Rucker orange blossoms will be in their most fragrant bloom. Sheridan's campaigns are short and decisive. So with his courtship. The wedding will be one of the quietest character possible. This is consonant with the excellent taste of the Rucker family, and meets the wish of the General, who abbors wedding displays. Even the bridal tour will bashort, extending only from the Rucker house, which is on Michigan avenue, near 14th street, to the General's plain but ample brick, long the home of his bachelor days, a mile south on the same begutiful thoroughfare.

Although Gen. Rucker is not, his family are Catholics, and this circumstance is, it is said, highly gratifying to the gallant groom, who, though by no means a church partizan, hardly a member, yet has a warm regard for the old faith of his fath ers, to full communion with which, on the principle of once a Catholic always a Catholic, he will, sooner or later, feturn, It is probable that the Catholic Bishop will perform the ceremony, though, it it should involve the least display, it will be abandoned as a part of the programme, since the words uttered by an humble

priest are just as sacred, and often far more grateful. Society's great regret will be that there will be no wedding; the General's joy is that he and his wife are spared the glittering sham.

A word as to the General. It is supposed that he has turned the half century, and is descending the monurain of life in to the mysterious valley beyond. Not so. He entered the Military Academy in 1848, at the age of 18; consequently he is just 45. And a haler, heartier, gallanter, warmer hearted and more sensible man-bar--doesn't bid gray hairs defiance. The naslipper after him and his fair brids.

THE ORIGINAL HOWE!

The World-Renowned Elias Howe Sewing Machines are the oldest established of any in the world, they being the FIRST SEWING MACHINES ever made, and having been manufactured by the original inventor and under his own supervision, Elias Howe in the control of the c Howe jr., since 1845.

The Howe Sewing Machine.

For some years I have been notively engaged in increasing the facilities for manufacturing my Sewing Machines, and have succeeded in organizing a most complete system, combining perfection of workmanship with the largest productions In order to obtain these results, time, labor, money, and the EXPERIENCE OF MY

LIER, as a practical mechanic, have been freely contributed, and I believe, with success. Further to facilitate the manufacture and sale of my Machines, THE HOWE MACHINE Co. has been organized, and the business will be carried on in the name of that Company, under my supervision. The enviable reputation of my Machines has induced persons to use my name in connection with Machines of an inferior description—and I have, therefore, to protect myself and the public, adopted, as an especial TRADE MARK, A MEDALLION, having in the centre the profile of the Inventor surrounded by the legend, "ELIAS HOWE, JR., INVENTOR AND MAKER, NEW YORK, U. S. A." This medallion is embedded in each Machine, andnone are production of the Howk Machine Company coles they bear this distinguisher, frade Mark. ELIAS HOWE, Jr.,

HALLS WALES VEGETABLE SICILIAN HAIR RENEWER.

Every year increases the popularity of this valuable Hair Preparation; which is due to merit alone. We can assure our old patrons that it is kept fully up to its high standard; and it is the only reliable and perfected preparation for restoring GRAY OR FADED HAIR to its youthful color, making it soft; lustrous, and siiken. The scalp, by its use, becomes white and clean. It removes all eruptions and dandruff, and, by its tonic properties, prevents the hair from falling out, as it stimulates and nowishes the hair-glands. By its use, the hair grows thicker and stronger. In baldness, it restores the capillary glands to their normal vigor, and will create a new growth, except in extreme old age. It is the most economical HAIR DRESSING ever used, as it requires fewer applications, and gives the hair a splendid, glossy appearance. A. A. Hayes, M.D., State Assayer of Massachusetts, says, The constituents are pure, and carefully selected for excellent quality; and I consider it the BEST_PREPA-RATION for its intended purposes." Sold by all Druggists, and Dealers in Medicines. Price One Dollar.

FOR THE WHISKERS. As our Renewer in many cases requires too long a time, and too much care, to restore gray or faded Whiskers, we have prepared this dye, in one preparation; which will quickly and effectually accomplish this result. It is easily applied, and produces a color which will neither rub nor wash off. Sold by all Druggists. Price Fifty Cents. Manufactured by R. P. HALL, & CO., NASHUA, N.H.

A Word of Advice to Travelers. The Missouri, Kansas & Texas Railway

as become so well known to the people of fexas, as one of the finest and most comfortable Roads on the continent to travel on, that it seems almost unnecessary that we should say aught in its praise. Yet we cannot ever get back from a trip over this line without saying something in praise of the management, who always seem to be striving to make their patrons comfortable, while traveling over their road. The track is always in the best possible condition and trains are at all times run at uniform speed.
Pullman's timest Drawing Room Sleeping Cars accompany all through passenger trains, and if you are going north or east, by making your wants known, you can go either via Hannibal or St. Louis. And for Kansas City, Denver, California, or any of the Northwestern States or Territories, it s much the best route we have from Texas. Their Dining Stations and Hours for Meals are all that a troveler could wish for, and in fact there seems to be nothing left un-done to render a trip over this line pleas-ant. 28 1-75-wly 1.121

With this year, he invited his brother, Colonel Michael Sheridan, to accompany him and to bring his young wife, a nices of Colonel MacVeely, who has just received his merited promotion to the chieftginey of the Commissary Department. To still farther increase the properical strength of his party, he suggested that Mins Circue, the young daughter of his old army friend and valued staff officer, General Rucker, of the Questermaster General's Department, be the guest of his sister-in-law He knew the young lady sea bright, intolligent girl who had made many compressed among the susceptible young officers, but had no thought of personal danger. While the General's closes is no planded, the worldly minded wonder that to gallant and distinguished an officer as the Liegtenant General, who had the enland, and whose prestige as a soldier would confer distinction upon any family which he might honor with a marriage connection, had not long since made an alliance with some wealthy lady of a family known by its eleganes, herepitality, culture and tertune to the whole nation. But it is a marm and made heart that bests under Phil Sheriday's brass betteres. With him materiary or metaly away considerations could have no weight. B., and Taylor has

So it is with Phil Sheridan. Such a man must marry where his heart prempts, not his gorket. For that matter in is rich enough, and, so to social advantages, his rank will always procure him such as he may whele. All this seems to be dispuraging the joing lady who is to be the Lientenant Generaless. But it is not. All she lacks in the eyes of those who would and a wife for Phil is wealth. EXECUTIVE OFFICE. AUSTIN, TEXAS, May 18, 1875. JOHN D. BLLIOTT, Esq.,

SIR :- Your note of this date re ceived. I have to say that my letter to Hon. John Henry Brown, in reply to his on the subject of a Contitutional Convention, was not infore not given. Since, however, a coastruction not warranted by the text or spirit of that letter has been qualifiedly approve Judge Ireland's recommendation for the nomination of delegates to the Constitutional Convention in Democratic Convened a plain duty in making the recommendation. My opinion as a recommendation should be followed If Democratic principles ought to be maintained as I believe they ought, in the structure as well as the administration of the government, the organization of the party with the view to its highest efficiency in the approaching election should be preserved intact, and the mode pursued by Judge Ireland, for this purpose in the recommendation referred to, is in strict accordand indeed is the only one known to me that he could have adopted. Very Respectfully,

Every year increases the popularity of this valuable Hair Preparation; which is due to merit alone. We can assure our old patrons that it is kept fully up to its high standard; and it is the only reliable and perfected preparation for restoring GRAY OR FADED HAIR to its youthful color, making it soft, lustrous, and silken. The scalp, by its use, becomes white and clean. It removes all cruptions and dandruff, and, by its tonic properties, prevents the hair from falling out, as it stimulates and nourishes the hair-glands. By its use, the hair grows thicker and stronger. In baldness, it restores the capillary glands to their normal vigor, and will create a new growth, except in extreme old age. It is the most economical HAIR DRESSING ever used, as it requires fewer applications, and gives the hair a splendid, glossy appearance. A. A. Hayes, M.D., State Assayer of Massachusetts, says, "The constituents are pure, and carefully selected for excellent quality and I consider it the BEST PREPA-EATION for its intended purposes." Buckingham's Dye. FOR THE WHISKERS.

As our Renewer in many cases requires too long a time, and too uch care, to restore gray or faded Whiskers, we have prepared this dye, in one preparation; which will quickly and effectually accomplish this result. It is easily applied, and produces a color which will neither rub nor wash off. Sold by all Druggists: Price Fifty Cents. Manufactured by R. P. HALL, & CO., NASHUA, N.H.

Ayer's Ague Cure,

For Fever and Agus, Intermittent Fever, Chill Fever, Remittent Fever, Dumb Agus, Periodical or Bilious Fever, &c., and indeed all the affections which arise

No one remedy is londer called for by the necessities of the American people than a sura and safe cure for Ferer and Agne. Such we are now enabled to offer, with a perfect certainty that it will eradicate the disease, and with assurfrom its use in any quantity.

That which protects from or prevents this disorder must be of immense service in the communities where it prevails. Prevention is better than cure, for the patient escapes the risk which he must run in violent attacks of this baleful distemper. This "CUBL" explet the minamatic

other ever discovered for the speedy and certain cure of intermittents is, that it contains no Quinime or mineral; consequently it produces no quinism of other injurious effects whatever upon the conefficient. Those cured by if are left as beasing as if they had sever had the disease.

Fever and Ague is not alone the consequence of the minerantic poisson. A great variety of disorders arise from its irritation, among which are Neuralgh. Rheumatism, Gout, Headache, Bindiness, Toothacke, Karache, Catarrh, Asthma, Palpitation, Painful Affection of the spicen, Hy stevies, Pain in the Bowels, Colir, Paralysis, and derangement of the Mounach, all of which, when originating in this cause, put on the intermittent type, or become periodical. This "Carge" expels the poisson from the blood, and consequently cures them all alike, it is an invaluable protection to immigrantic and persons travelling or temporarily residing in the malarious dispirats. If taken occasionally or daily white exposed to the infection, that will be excepted from the system, and cannot accumulate in sufficient quantity to ripen into disease. Hence it is even more valuable for protection than curve; and few will ever suffer from Interminated if they wait fluoreadyen of the protection. in sufficient quantity to ripen into disease. Hence it is even more valuable for protection than cure; and few will ever suffer from Intermittents if they avail themselves of the protection this remedy affords.

The Missouri, Kansas & Texas Railway has become so well known to the people of Texas, as one of the finest and most com-fortable Roads on the continent to travel on, that it seems almost unnecessary that we should say aught in its praise. Yet we cannot ever get back from a trip over this line without saying something in praise of the management, who always, seem to be striving to make their patrons comfortable. while traveling over their road. The track is always in the best possible condition and trains are at all times run at uniform speed. Pullman's finest Drawing Room Sleeping Cars accompany all through passenger trains, and if you are going north or cast. by making your wants known, you can go either via Hannibal or St. Lonis. And for Kansas City, Denver, California, or sny-of the Northwestern States or Territories, it is much the best route we have from Texas. Their Dining Stations and Honrs for Mcals are all that a trevelar could wish for, and in fact there seems to be nothing left un-done to render a trip over this line pleas-
