[WRITTEN FOR THE EXPRESS.] The Escaped Convict. CHAPTER I.

ADVERTISING or square of eight lines able notices 50 per cent

"Good evening, pretty Miss. "Good evening, sir," was the polite rep'y. The speaker was dressed in a curious garb, his head was closely shaven, i.is paste and coat were striped like a zebra. You may judge he was a penitentiary convict, a jail bird who had fled from the walls of his prison and sought the free breezes of the mountains of Tennessee, where, six years before, he was a youth of eighteen looking over into the field of manhood, and about proudly to enter that arens, and struggle bravely and energetically for honor and eminence. Bix years before, a painful thought, he had heard a verdict rendered against him which condemned him to the poultontiary for eight years. Bix years ago he had heard, standing up in a crowded court house, the judge pronounce the fatal sentence that branded him for life a felon, Bat, kind resiler, do not judge him tooharshly nuless some other act condemns No Se take the life of a tellow man, that he had fired a shot that was intended to be fatal. Still the causes of the trouble were never fully stated. He was poor, his opponent rich and influential, but his mother had been insulted and he resented the insult more strongly than if it had been given to himself. He was a felon however, and as

William Osborne The second person was a little girl. Not quite ten springs had showered their blossome over her hould, but the lines of beauty were drawn as gracufully on her face as ever Hogarth or Raphael had drawn on canvass their beau ideal. A mild expression was on her countenance, while her brown ayes were soft and mild, so liquid that one would call them tiny lakes that reflected in all its leveliness all the surrounding pictures of nature.

The place at which the two had mot was on the banks of a little stream that flowed into the Tenticosos sivet, twenty miles from Nashville. On one side was pu open space, on the other was a dense forest through which a meandering path led. This forest was at least five miles in dapth, and in its bosom could any crime be perpetrated unknown to any eye save the Creator above.

"Little da, where do you live !" continned O-borne.

So you know this place well " Oh, yes, I come here to gather wild nowers and the them together, and then

A selfish design was framing in Osborne's breast. These sweet brown ever troubled him. They belonged but to s girl, s child. Yet the little thing was so bright, so artloss, that one less experienced with the dark side of life than Oaborne, would be attracted by her. Still her being artless made him resolve to use her as aw instrument to assist him in his typubles. Was he right? There he stood in his prison garb, an advertisement of what he was. There she stood in her short dresses, slothed, it is true, in indifferent garments, but like the hily of the valley lovely still. There she stend in her brightness like a guardian angel sent from on high to help

And little to be trusted.

When solf the wavering bulsmos slinks,

"Last spring," she continued, "I came here and got the prettiest Howers I could find. I platted them in a ring and put them on my head. When I got home, mama kissed me twice and said, God bless you my child, you are so like my history There was much in this simple statement. Doubtless the little beauty shone more lovely than ever. The flawers enhancing her level neman they the at home where they are cherished, and her darling daughter reminded her of a beloved sister whom she had left in North Carolina some twem-

"Yes, and about very dear to me," "Now my presty little miss you must

do a favor for me," said Osborne.
"Well, what is it?" she replied in her obilitive simplifiedly!" 1-

"My father is not living."

"But you have brothers f" "Oh yes! brother John is gods to town, and brother William is at cousin Jane's;

and mother will not be home till late tomight."

"Now you get an old soat and pants in the house to night, and some bread, and bring it bere; but you must not say anything to any one. If you will some I will have some thing pretty for you. If you do not come, the ghosts will carry you uff.

She looked a little alarmed at first, when she saw a frown on Osborne's face, but the

she saw a frown on Osborne's face, but the frown soon passed away, when she said: "Will you harm me, if I come?" He saw the influence he had acquired over the child, and replied: "Nevet, little darling?" But the frown returned. "You dare not to come at sun down."

The little girl was completely charmed by the convict, as completely as a rattlemake charme a moking bird. She felt timid, uneasy, but his influence was irresistible. She left with a tear almost in her eye. The liquid depths of those brown eyes sparkled as the turned sway. As she started a new but darker design was formed by the convict.

THE ORIGINAL HOWE

The Werld-Renowned Elias Howe Sewing Machines are the oldest established of any in the world, they being the FIRST SEWING MACHINES ever made, and having been manufactured by the original inventor and under his own supervision, Elias Howe jr., since 1845.

The Howe Sewing Machine.

For some years I have been actively engaged in increasing the facilities for manufacturing my Sewing Machines, and have succeeded in organizing a most complete system, combining perfection of workmanship with the largest productions

LIFE, as a practical mechanic, have been freely contributed, and I believe, with success. Further to facilitate the manufacture and sale of my Machines, The Howe Machines Co. has been organized, and the business will be carried on in the name of that Company, under my supervision. The enviable reputation of my Machines has induced persons to use my name in connection with Machines of an inferior description—and I have, therefore, to protect myself and the public, adopted, as an especial Trade Mark, a Medicalion, having in the centre the profile of the Inventor surrounded by the legend, "Ellas Howe, Jr., Inventor and Maker, New York, U. S. A." This medicalion is embedded in each Machine, and none are a production of the Howe Machine Company onless they bear this distinguished. Trade Mark.

Every year increases the populariy of this valuable Hair Preparation; which is due to merit alone. We can assure our old patrons that it is kept fully up to its high standard; and it is the only reliable and perfect-ed preparation for restoring Gray OR FADED HAIR to its youthful color, making it soft, lustrous, and silken. The scalp, by its use, becomes white and clean. It removes all eruptions and dandruff, and, by its tonic properties, prevents the hair from falling out, as it stimulates and nourishes the hair-glands. By its use, the hair grows thicker and stronger. In baldness, it restores the capillary glands to their normal vigor, and will create a new growth, except in extreme old age. It is the most economical HAIR DRESSING ever used, as it requires fewer applications, and gives the hair a splendid, glossy appearance. A. A. Hayes, M.D., State Assayer of Massachusetts, says, "The constituents are pure, and carefully selected for excellent quality; and I consider it the BEST PREPA-BATION for its intended purposes." Sold by all Druppists, and Dealers in Medicines.
Price One Dollar.

Ayer's Ague Cure,

For Fever and Ague, Intermittent Fever, Chill Fever, Remittent Fever, Dumb Ague, Periodical or Bilious Fever, &c., and indeed all the affections which arise

No one remedy is louder called for by the moressities of the American people than a sure and safe cure for Fever and Ague. Such we are now enabled to offer, with a perfec-certainty that it will cradicate the disease, and with assur-

certainty that it will eradicate the discase, and with assurance, founded on pireof, that no harm can arise from its use in any quantity.

That which protects from or prevents this disorder must be of immense service in the communities where it prevails. Presenties is better than cure, for the patient escapes the risk which he must run in violent attacks of this baleful distemper. This "CURE" expels the missinatio poison of EXERA AND AGUE from the system, and prevents the development of the disease, if mken on the first approach of its premonitory symptoms. It is not only the boost resuctly everyet discovered for his class of complaints, but also the cheapest. The large quantity we supply for a dollar brings it within the reach of everybody; and in billious districts, where FEVER AND AGUE prevails, everybody should have it, and use it freely, both for cure and protection. It is hoped this price will place it within everybody; and in billous districts, where expressions are followed, or we will refund the money.

A Word of Advice to Travelers.

The Missouri, Kassas & Texas Railway has become se wall known for the people of Texas, as one of the finest and most comfortable Roads on the continent to travel on, that it seems, almost discounty that we should say angle in the people. Yet we cannot ever get back from a trip over this line without saying something in praise of the management, who always seem to be striving to make their patrons comfortable, while traveling over their road. The tracking always in the best possible condition and trains are at all times run at uniform speed. Pullman's finest Drawing Room Sleeping Care accompany all through passenger trains, and if you are going north or east, by making your wants known, you can go either via Hannibal or St. Louis. And for Kansas City, Denver, California, or say of the Northwestern States or Territories, it is much the best route we have from Texas. Their Dining Stations and Hours for Meals are all that a treveler could wish for, and are all that a treveler could wish for, and in fact there seems to be nothing left undone to render a trip over this line please 28 1-75-wly r.121

THE ORIGINAL HOWE!

The World-Benowned Eline Howe Sewing Machines are the oldest established of any in the world, they being the FIRST SEWING MACHINES ever made, and having been manufactured by the original inventor and under his own supervision, Elias Howe ir., since 1845

The Howe Sewing Machine.

For some years I have been actively engaged in increasing the facilities for manufacturing my Sewing Machines, and have succeeded in organizing a most complete system, combining perfection of workmanship with the largest productions at the smallest cost.

In order to obtain these results, time, labor, money, and the EXPERIENCE OF MY LIFE, as a practical mechanic, have been freely contributed, and I believe, with success. Further to facilitate the manufacture and sale of my Machines, The Howe Machines Co. has been organized, and the business will be carried on in the name of that Company, under my supervision. The enviable reputation of my Machines has induced persons to use my name in connection with Machines of an inferior description—and I have, therefore, to protect myself and the public, adopted, as an especial TRADE MARK, A MEDALLION, having in the centre the profile of the Inventor surrounded by the legend, "ELIAS HOWE, JR., INVENTOR AND MAKER, NEW YORK, U. S. A." This medallion is embedded in each Machine, and none are production of the Howe Machine Company unless they beer this distinguisher. Trade Mark.

Every year increases the popularity of this valuable Mair Preparation; which is due to merit alone. We can assure our old patrons that it is kept fully up to its high standard; and it is the only reliable and perfect-ed preparation for restoring Gray on Fader Ham to its youthful color, making it soft, lustrous, and silken. The scalp, by its use, becomes white and clean. It removes all erustions and dandruff, and, by its tonic properties, prevents the hair from falling out, as it stimulates and nourishes the hair-glands. By its use, the hair grows thicker and stronger. In baldness, it restores the capillary glands to their normal vigor, and will create a new growth, except in extreme old age. It is the most economical HAIR DRESSING ever used, as it requires fewer applications, and gives the hair a splendid, glossy appearance. A. A. Hayes, M.D., State Assayer of Massachusetts, says, "The constituents are pure, and care-"The constituents are pure, and constituents are pure, and I consider it the BEST PREPARATION for its intended purposes,"

A Word of Advice to Travelers.

The Missouri Rhiens & Texas Rallway has become so well known to the people of Texas, as one of the finest and most comfortable Rodds on the continent to travel on, that it meems almost dimensiony that we sticed may significate the practs. For we cannot were get back, from a trip never this line, without caying something in praise of the management, who always been to be atriving to make their patrons comfortable, while traveling over their road. The track is always in the heat-possible condition and trains are at all times run at uniform speed. Pullman's linest Drawing Room Speeping Care accompany all through passenger trains, and if you are going north or east, by making your wants known, you can go either via filamible or St. Louis. And for Kausas City, Denver, California, or any of the Northwestern States or Terribories, it is much the best route we have from Texas. Their Dining Stations and Hours for Boals are all that a traveler could wish for, and in fact there seems to be nothing left undone to render a trip over this line pickeant.
