### THE ORIGINAL HOWE!

The World-Renowned Elias Howe Sewing Machines are the oldest established of any in the world, they being the FIRST SEWING MACHINES ever made, and having been manufactured by the original inventor and under his own supervision, Elias Hewe jr., since 1845.

The Howe Sewing Machine.

For some years I have been actively engaged in increasing the facilities for manufacturing my Sewing Machines, and have succeeded in organizing a most complete system, combining perfection of workmanship with the largest productions at the smallest cost.

In order to obtain these results, time, labor, money, and the EXPERIENCE OF MY LIFE, as a practical mechanic, have been freely contributed, and I believe, with success. Further to facilitate the manufacture and sale of my Machines, THE HOWE MACHINE Co. has been organized, and the business will be carried on in the Howe Machine Co. has been organized, and the business will be carried on in the name of that Company, under my supervision. The enviable reputation of my Machines has induced persons to use my same in connection with Machines of an inferior description—and I have, therefore, to protect myself and the public, adopted, as an especial Trade Mark, a Medallion, having in the centre the profile of the Inventor surrounded by the legend, "Ellas Howe, Jr., Inventor and Marke, New York, U.S. A." This medaliton is embedded in each Machine, and none are the surrounded to the thought of the Markey Markey and some this distinguish. production of the Howe Machine Company unless they bear this distinguished Trade Mark.

UNITED FRIENDS OF TEMPERANCE. Nashville, May 20 .- The Supreme Coun cil of United Friends of Temperance is in session here. The order is established in ten States. A new ritual has been adopted. The order numbers 860 subordinate councils, with 40,000 to 50,000 members and is rapidly increasing.

In the case of a good man, like President Grant, the only objections to a third term is that it cuts so many of us out of the Presidency. There is always a possibility that a fellow may die before his turn comes. THE New York San counts Tilden, Plant man, Bayard, Hendricks, Allen, and pos sibly Pendleton among the prospective Democratic candidates for the Presidency, but it is of the opinion that the four West etu enudidates will prove inst about strong enough to defeat each other, and that the leading competitors will be Bayard and Tilden. It adds, however : Sena tor Bayard and Governor Tilden and their supporters must remember that another ring smasher is beginning to fill a large space in the public eye. We refer, of comme, to Gen Bristow, the new Secretary of the Treasury. The scalp, by its use, becomes white and clean. It removes all cruptions and dandruff, and, by its tonic properties, prevents the hair from falling out, as it stimulates and nourishes the hair-glands. By its use, the hair grows thicker and stronger. In baldness, it restores the capillary glands to their normal vigor, and will create a new growth, except in extreme old age. It is the most economical HAIR DRESSING ever used, as it requires fewer applications, and gives the hair a splendid, glossy appearance. A. A. Hayes, M.D., State Assayer of Massachusetts, says, "The constituents are pure, and carefully selected for excellent quality; and I consider it the BEST PREPA-BATION for its intended purposes." Ayer's Ague Cure,

For Poyer and Ague, Intermittent-Poyer, Chill Pever, Remittent Peyer, Dumb Ague, Periodical or Bilique Poyer, &c., and indeed all the affections which arise from malarious, march, or missmatic

No one remedy is louder called for by the necessities of the American people than a sure and safe cure for Fever smal, against the American people than a sure and safe cure for Fever smal, against the disease, and with a perfect certainty that 8 will readiests the disease, and with a seurance, founded on proof that me harm can arise from its mich protects from or prevents this disorder numb to of immunish service in the communities, where it prevails. Prevention is better than cure, for the patient escapes the rist which he must rim in violent attacks of this baleful discuper. This "CURE" expels the minamatic poison of FEVER AND AGUE from the system, and prevents the development of the issense, if taken on the first approach of its premonitory symptomis. It is not only the best remedy sever set alsocovered for this class, of complaints, but also the cheapest. The large quantity we supply for a dollar brings it within the reach of everybody; and in billioms dilatricia, where FEVER AND AGUE prevails, everybody should have it, and use it freely, both for cure and protection. It is hoped this price will place it within the reach of all—the poor as well as the rich. A great superiority of this, reinedy over any other ever discovered for the aposty and contain cure of Intermittents is, this it contains no Quinism on colorism one priority of this, reined over a mineral; consequently it produces no quinism one of the minimum time of the constitution. These circle by it are left as healthy as if they had rever that the disease.

Fever and Ague is not alone the consequence of the minsmatic poison. A great variety of disorders arise from its light affection of the Spiceon, Hysteriety of disorders arise from its lightation, among which are Neuraley Rheitmatism. Geut, Hondache, Riminess, Toothache, Raguelos, Coltarrh, Asthma, Palpitation, Faisful Affection of the Spiceon, are Neuralgy Bherimatiem, Geut, Headache, Bludnes, Toothache, Karshis, Cattarvh, Asthma, Palpitation, Painful Affecties of the Sficen, Hysteries, Fala in the Bowels, Colie, Paralysis, and derangement of the Sidmatch, all of which, when originating in this cause, but on the intermittent type, or become periodical. This "CURE" expela the poison from the blood, and consequently curse from all alike. It is an invaluable protection to immigrants and persons travelling or temporarily residing in the malarious districts. If taken occasionally or daily white exposed to the infection, that will be excepted from the system, and cansot accumulate in nefficient quantity to ripes into disease. Hence it has even more valuable for protection than care; and few will, even anger from Intermittent if they svall demactives of the protection this remedy affords.

A Ward of Advice to Travelors. The Minsouri, Kanana & Texas Railway has become as well known to the people of Texas, as one of the finest and most comfortable Rosds on the continent to travel on that it seems almost unnecessary that we should say anglet in its praise. For we cannot ever get back from a trip over this line without saying something in praise of the management, who always usem to be striving to sunke their patrons comfortable, while traveling over their road. The track is always in the best possible condition and trains are at all times run at uniform speed. Their Dining Stations and Hours for Meals are all that a treveler could wish for, and in fact there seems to be nothing left undone to render a trip over this line pleas-20 1-75-wly L121

THE ORIGINAL HOWE!

The World-Renowned Elias Howe Sewing Machines are the oldest established of any in the world, they being the FIRST SEWING MACHINES ever made, and having been manufactured by the original inventor and under his own supervision, Elias Howe jr., since 1845.

The Howe Sewing Machine.

For some years I have been actively engaged in increasing the facilities for manufacturing my Sewing Machines, and have succeeded in organizing a most complete system, combining perfection of workmanship with the largest productions at the smallest cost.

In order to obtain these results, time, labor, money, and the EXPERIENCE OF MY-LIFE, as a practical mechanic, have been freely contributed, and I believe, with success. Further re facilitate the manufacture and sale of my Machines, The Mowe Machines Co. has been organized, and the business will be carried on in the name of that Company, under my supervision. The enviable reputation of my Machines has induced persons to use my name in geomectica with Machines of an inferior description—and I have, therefore, to protect myself and the public, adopted, as an especial Thade Mark, a Medallion, having in the centre the profile of the inventor surrounded by the legend, "Elias Howe, Jr., Inventor and Maker, New Youg, U. S. A." This medallion is embedded in each Machine, andnone are a production of the Howe Machine Company unless they bear this distinguishing. Trade Mark.
