A correspondent of the Corpus Christi Times writing from Laredo, May 16 h describes a scene that occured on the public square in front of the church which fairly illustrates the condition of society in that

"The young lady, between two other ladies, had just entered the main plaza and was near the church door, when a yenng man by the name of Jose Madforeno an apanecessful suitor for the lady's handaprang from his horse and with bowie knife in his hand ran and overtook the tadies, calling this one by name. She turned to see who had hadled her and recognized the young man, called him by name, whereupon he told her to come with him, wherenpon he told her to come with him, as he wanted her at the same time seizing her by the wrists. The other ladies commenced screaming and several men rushed into the street and work witnesses of the attempted abdection but wene of them were men enough to interfere.
The young remen, soing people com-

moused crowding around, seized the young lady by the arm and tried to make her go with him. Finding his attempt futile, he seized her by her long hair, which in the souffle had fallen down, and commenced cutting it off to disfigure her, and would have succeeded in his design but fort the timely arrival of a son of Martin Ramires who seized him by the throat and shoked him loose from the lady.

This young ruffian was armed to the teeth, and onghi to have been arrested but lustend, ye young gentlemen (ff) stood laughing while this outrage was perpotrated, and than watched him mount his interested would write to the Banks, Mer-horse and ride away, yelling that he was that he was and Postmaster of this place, (where we have lived 15 years), for infor-"a braze lad and knew how to treat robel-

That's true, but before the summer is over, our old inhabitant will almost feel the earth tremble beneath the fread of the fron horse as be paws the earth on the banks of the Guadalupe at "Converse City," and in time the railroad will reach our city and be regarded with less surprise than is now occasioned by the building of the military depot or the erection

of the military telegraph. Bight years ago we were advocating and urging upon the government the necessity for the construction of a Military Telegraph around with headquarters. Gen. Griffin was favorable to the idea, Gen. Reynolds made a strong report endorsing it; Gen. Cauby had estimates made of the cost of construction and yet the Government de layed the work and it seemed that among our still born hopes.

Texas Drawing A form to every Ticket holder if the Drawing Inits to take place June 20th.

The unlimited confidence and liberal patronage bestowed on the Texas Real Estate and Gold Distribution, of which I am the Manager, is a subject of general remark. The post office records of this city show that we have received twenty five times as many P.O. orders, and registered letters with money then a similar enterprise of this City of larger pretensions. The Managament take great pleasure in sound eleging their gratitude to the public, with the amerimee that the Drawing will positively take place on the the public, with the smurance that the Drawing with positively take phase on the 30th day of June, 1975. Our October Drawing took place with but one post ponement, and so would take, but for circamstances were diversioned and circulars) utterly pravoidable. Our encouss is such that we tak dafely promise to refuse every cent of money and present every Ticket holder with a Taxas Farm If the Licawing does not take place on the 30th of June, 1875. We also offer a plan (see advertisement) whereby those huying Tickets can keep their money in a home bank till the Drawing takes plans. MA & CANTE

### THE ORIGINAL HOWE!

The World-Renowned Effas Howe Sewing Machines are the oldest established of any in the world, they being the FIRST SEWING MACHINES over-made, and having been manufactured by the original inventor and under his own supervision, Elias Howe jr., since 1845.

The Howe Sewing Machine.

For some years I have been actively engaged in increasing the facilities for manufacturing my Sewing Machines, and have succeeded in organizing a most complete system, combining perfection of workmanship with the largest productions at the smallest cost.

In order to obtain these results, time, labor money, and the EXPERIENCE OF MY LIFE, as a practical mechanic, have been freely contributed, and I believe, with success. Further to facilitate the manufacture and sale of my Machines, THE Howe Machine Co. has been organized, and the business will be carried on in the name of that Company, under my supervision. The enviable reputation of my Machines has induced persons to use my name in connection with Machines of an inferior description—and I have, therefore, to protect myself and the public, adopted, as an especial Trade Mark, a Medallion, having in the centre the profile of the Inventor surrounded by the legend, "Ellas Howe, Jr., Inventor and Maker, New York, U. S. A." This medallion is embedded in each Machine, androne are the profile of the surrounder of the control of the surrounder of the control of the surrounder of the surrounder of the control of the surrounder o production of the Howk Machine Company unless they bear this distinguisher.

Every year increases the popularity of this valuable Hair Preparation which is due to merit alone. We can assure our old patrons that it is kept fully up to its high standard; and it is the only reliable and perfected preparation for restoring GRAY OR FADED HATE to its youthful color, making it soft, lustrous, and silken. The scalp, by its use becomes white and clean. It removes all eruptions and dandruff, and, by its tonic properties, prevents the hair from falling out, as it stimulates and nourishes the hair-glands. By its use, the hair grows thicker and stronger. In baldness, it restores the capillary glands to their normal vigor, and will create a new growth, except in extreme old age. It is the most economical Harn Drussing ever used, as it requires fewer applications, and gives the hair a splendid glossy appearance; A. A. Hayes, M.D., State Assayer of Missachusetts, says, "The constituents are pure, and carefully selected for excellent quality; and I consider it the BEST PREPA-RATION for its intended purposes."

This "Curax" expels the poison from the blood, and consequently curses them all alike. It is an invaluable protection to immigrants and persons travelling of testiferarily residing in the malarious districts. If taken occasionally or daily while exposed to the infection, that will be excreted from the system, and camou accumulatin sufficient quantity to ripen into disease. Hence it is even more valuable for protection than oure, and few will ever suffer from Intermittents if they avail themselves of the protection this remody affords.

For Least Consultations, atjoing from templainty of the Laver, it is an excellent remody, alimulating the Laver into healthy notivity, and producing many truly remarkable cures, where other medicines falls.

A Word of Advice to Travelers.

The Missouri, Kanssa & Texas Railway has become so well known to the people of Texas, as one of the fluest and most confortable Hoads on the confinent to texts on, that it seems almost unnecessary that we should say angab, in its mains. Yet we cannot ever get back from a trip over this line without saying something in peales of the management, who always some to be striving to make their patrons comfartable, while traveling over their road. The track is always in the best possible condition and while traveling over their road. The frack is always in the best possible condition and trains are at all times run at written speed. Sulfman's facet Browing Room Sleeping Cars accompany all through passenger trains, and if you are going north or cast, by making your wants known, you can go either via Hamiballor St. Louis. And for Kamas City, Denver, California, et any of the North western States or Torritories. Emmae City, Denver, California, or any of the Northwestern States or Territories, it is much the best route we have from Texas. Their Dining Stations and Hours for Mean are all that a trevelor could wish for, and in fact there seems to be assuing laft and done to render a trip over this line pleab-apt. 28 1-75 wiy 1121

THE ORIGINAL HOWE

The World-Renowned Elias Howe Sewing Machines are the oldest established of any in the world, they being the FIRST SEWING MACHINES ever made, and having then manufactured by the original inventor and under his own supervision, Elias The Howe Sewing Machine.

For some years I have been actively engaged in increasing the facilities for manufacturing my Sewing Machines, and have encoused in organizing a most complete system, combining perfection of workmanship with the largest productions plate system, combining personnel at the smallest cost.

In order to obtain these results, time, labor, money, and the EXPERIENCE OF MY
LIFE, as a practical mechanic, have been freely contributed, and I believe, with

ancess. Further to facilitate the manufacture and sale of my Machines, The Howe Machines to has been organized, and the business will be carried on in the name of that Company, ander my esperission. The enviable reputation of my Machines has induced persons to use my name in connection with Machines of an inferior description—and I have, therefore, to protect myself and the public, adopted, as an especial Trade Mark, a Medallion, having in the centre the profile of the Inventor surfounded by the legend, "Elias Howe, Jr., Inventor and Marker, New York, U. S. A." This medallion is embedded in each Machine, andmone are a production of the Howe Machine Company unless they bear this distinguishin, Trade Mark.

RENEWER

Every year increases the popularity of this valuable Hair Preparations, which is due to merit alone. We can assure our old patrons that it is kept fully up to its high standard; and it is the only reliable and perfected preparation for restoring GRAY OR FARED HARE to its youthful color, making it soft, lustrous, and silken. The sculp, by its use, becomes white and clean. It removes all eruptions and dandruff, and, by its tonic properties, prevents the half from falling out, as it stimulates and nourishes the hair-glands. By its use, the hair grows thicker and stronger. In baldness, it restores the capillary glands to their normal vigor, and will create a new growth, except in extreme old age. It is the most eco-nomical Hara Dassaya ever used, as it requires fewer applications, and gives the hair a splendid, glossy appearance. A. A. Hayes, M.D. State Assever of Massachusetts, says, "The constituents are pure, and carefully selected for excellent quality; and I consider it the BEST PREPA-Sold by all Drugglis, and Dealers in Medicine Price One Dollar,
