He is sitting by your hearthstones, With his sly, bewitching glance, Whisp'ring of the coming morrow As the social hours advance: Leitering, mid our calm reflections, Hiding forms of beauty nigh; He's a smooth, deceitful fellow, This eachanter, By-and By.

You may know him by his winning, By his caraless, sportive air;
By his aly, obstantive presence.
That is straying everywhere;
By teophies that he gathers.

The Senate relieved the King of the necessity of taking any action in the matter by rejecting that clause of the bill. A number of petitions from the elergy had been sent to the Senate.

#### Mexicans Playing Indian

A private letter from Japt. Lincoln, dated Fort Concho May 25th, gives the particulars of an attempt on the part of a party of disguised Mexicans, to stampede a herd of the 10th Cavalry horses. This is one of the plans of the Mexican campaign, to send over parties of Mexicans to beset our frontier posts, and if possible dismount our cavalry by stealing the

### Texas Drawing A form to every Ticket holder if the Drawing fulls to take place June 30th.

The unlimited confidence and liberal patronage beatowed on the Texas Real Estate and Gold Distribution, of which I am the Manager, is a subject of general remark. The post office records of this city show that we have received twenty-five times as many F. O. orders, and regis-tered letters with money then a similar enterprise of this City of larger praten-sions. The Management take great pleasenterprise of this City of larger pretensions. The Management takes great pleasure in acknowledging their gratitude to the public, with the assurance that the Drawing will positicely take place on the 30th day of June, 1875. Our October Drawing took place with but one post penement, and so would this, but for circularic interfy anavoidable. Our success ig such that we can safely promise to refund every cest of money and present every Teket holder with a Texas Farm if the Drawing does not take place on the 30th of June, 1875. We also offer a plan (see advertisement) whereby those buying Tickets on the prawing takes place.

HALLS VEGETABLE SICILIAN HAIR RENEWER

Every year increases the popularity of this valuable Hair Preparation; which is due to merit alone. We can assure our old patrons that it is kept fully up to its high standard; and it is the only reliable and perfected preparation for restoring GRAY OR FADED HATE to its youthful color. making it soft, lustrous, and silken. The scalp, by its use, becomes white and clean. It removes all eraptions and dandruff, and, by its tonic properties, prevents the hair from falling out, as it stimulates and nourishes the hair glands. By its use, the hair grows thicker and stronger. In baldness, it restores the capillary glands to their normal vigor, and will create a new growth, except in extreme old age. It is the most eco-nomical HALE DEESSING ever used, as it requires fewer applications, and gives the hair a splendid, glossy appearance. A. A. Hayes, M.D., State Assayer of Massachusetts, says, "The constituents are pure, and carefully selected for excellent quality; and I consider it the BEST PREPA-RATION for its intended purposes." Ayer's Ague Cure,

For Fever and Ague, Intermittent Pever, Chill Fever, Remittent Pever, Dumb Ague, Periodical or Bilious Fever, &c., and indeed all the affections which arise from malarious, marsh, or missmatic

No one remedy is londer called for by the necessities of the American people than a sure and safe cure for Fever-and Ague. Such we are now combled to effer, with a perfect certainty that it will readion to the disease, and with assurance, founded on proof, that no harm can arise from its use in any quantity.

That which profects from or prevents this disorder minut be of thuseness sureties in the communities where it provides a few partition is better than ones, for the patight scales of this baleful distemper. This "CUES" expels, the missmatic remember. This "CUES" expels, the missmatic than care, for the patient eachper the rick which he must run in violent-attends of this tableful distemper. This "CURE" expels, the miasmatic poison of FEYRE AND ACCES from the system, and prevents the development of the risease, if taken on the first approach of its premountage year yet discovered for this class of complaints, but also the cheapest. The large-quasitity we supply for a dollar brings it within the reach of everybody; and in. bitions districts, where FEYER AND ACCE prevailt, everybody should have it, and use it frieely, both for grace and protection. Hile imped shis grice will place it within the reach of all—the poor as well as the rich. A great superiority of this remedy over any other ever discovered for the upendy and cartain cure of Intermittents is, that it contains no Quimine or mineral; concequently, it produces no quinism or mineral; concequently, it produces a healthy as if they had mover had the disease.

Fover and Ague is not alone the consequence of the miasunatic polson. A great variety of disorders arise from its irritation, among which are Neurals? Ensumenten, Gout, Headache, Hiladness, Toothache, Earache, Calarri, Ashma, Falpitation, Fainful Affection of the Spises, Hyderica, Fain is the Bowels, Calier, Parslysis, and derangement of the Stomach, all of which, when originating in this cause, put on the intermitted types, as become

This "Cyax" expels the poison from the Blood, and consequently cursus them: all aillie. It is an invaluable protection to immigrants and persons travelling or temporarily residing in the mainrious districts. If taken occasionally or daily while exposed to the infection, that, will be exceeded from the system, and cannot accumulate in sufficient quantity to ripen into disease. Hence it is even more valuable for protection than tome; and few will awar suffer from thermittens of the protection this remedy affords.

For Liver-Compilations, arising from torpidity of the Liver, it is an excellent removely, stimulating the Liver into beauthy activity, and producing many truly remarkable cures, where other medicines fall.

Much serious sickness and senform so unfering is prevented by their timely use; and every family should have them on hand for their pretection and relief; when, required, Long daperiemes has proved them, to be the safest, surest, and lest of all the Fifls with which the market abounds. By their occasional use, the blood is purified, the corruptions of the system expelled, obstructions removed, and the whole machinery of life restoyed to its healthy activity. Internal organs which become clogged and sluggish are cleanused by Ager's Fifls, and stimulated into action. Thus inciplent disease is changed into health, the value of which change, when reckoned on the vast multitudes who enjoy it, can hardly be computed. Their sugar conting makes them pleasant to take, and perfectly reliable. Although searching, they are mild, and aperate without disturbance to the constitution, or diet, or occupation.

A Word of Advice to Travelers.

The Missouri, Kaneas, & Texas Railway has become so well known to the people of Texas, as one of the finest and most comfortable Roads on the continent to travel on, that it seems almost unnecessary that we should say aught, in its praise. Yet we on, that it seems almost unnecessary that we should say aught, in its praise. But we cannot ever get back from a trip over this line without paying something in praise of the management, who always seem to be atriving to make their patrons comfortable, while traveling over their road. The track is always in the best-possible condition and trains are at all times run at uniform speed. A Brain-Bestroying Malady, That incomnia, or inability to sleep, has become very prevalent of late years, is sufficiently evidenced by the fact that numberless remedies have been introduced within the last dreads specially intended for its cure, and that new sedstives are for its cure, and that new sedatives are continually cropping up. But no medicinal agent has so widely and clearly established its claims as a genuine soporific as Hostotian's Stomach Bisters. That it removes this brain destroying inability far more effectually than the bromides, chlorals and valerianates in use, is not to be wondered at when we consider that anche there we valerianates in use, is not to be weddered at when we consider that such drugs not only on the brain, which is not the source of the evil, which he litters rectify the alimentary drafterbaness which originate it. It is admitted by physicians that dyspepsis and non-assimilation of the food produce slooplasmoss. The litters overcome these obstacles to repose as well as those trinsry troubles which are also said to interfere with it. ANOTHER MURDEROUS SHOT. - W. G Eadus, of the large saddlery store on Elm street, was shot in his own house about 12 o'clock on Wednesday night by his brothor-in-law, J. D. Padgett. Sheriff Barkley repaired to the spot, and after some time elicited the fact that the assassin was Padgett. The true cause of the difficulty is unknown. After the shooting Padgett went to the stable of Work & Son, got a horse and left. At this writing he has not been captured. Let the officers and citizens hunt till he has been found, and safely hold him till he answers to the law for the crime against society and God .-Dullas paper.

An unfortunate difficulty occurred on last Sunday near the farm of R. H. Parker. between a little orphan boy named Mc-Bride, an adopted son of Mr. Parker, and a negro boy about sixteen years of age, in which the latter lost his life by knife wounds. It seems from what we can learn that they, with other boys, went to the tank for the purpose of bathing when the difficulty arose, during which young McBride cut the negro in three places with a small posket knife, resulting in death next morning. No one but mere children were present, and they differ in their statements in regard to the origin of the difficulty. McBride is at this time out of reach of the officers, but we are told will be present and ready to answer at the next term of our Criminal Court. - McKianey Enquirer.

Transcell admitted Barrett into his house, and being assured by Barrett that he would be treated as a prisoner, he came to the door with a sixteen shooting Henry rifle in his hand. Constable Sharp attempted to disarm him, and, when he "Frank Liarr." took hold of the gun, Trammell wrested the gun, ran back into the house, closed the door and shot Clondennin through a grack in the house. The ball supered his side and passed through his body, sausing almost instant death. The crowd became panie stricken, and were thrown into some confusion, thus giving Trammell a little time.
