Such a provision would form national currency adjusted to not necessarily conflict with the Constitution of the United States, and it would have the great advantage of being more in consonence with the actual condition of the relations between the State and the nation. ## THE ORIGINAL HOWE!

The World-Renowned Elias Howe Sewing Machines are the oldest established of any in the world, they being the FIRST SEWING MACHINES ever made, and having been manufactured by the original inventor and under his own supervision, Elias Howe jr., since 1845.

The Howe Sewing Machine.

For some years I have been actively engaged in increasing the facilities for manufacturing my Sewing Machines, and have succeeded in organizing a most complete system, combining perfection of workmanship with the largest productions at the smallest cost.

The order to obtain these results, time, labor, money, and I believe, with LIFE, as a practical mechanic, have been freely contributed, and I believe, with success. Further to facilitate the manufacture and sale of my Machines, THE Howe Machine Co. has been organized, and the business will be carried on in the name of that Company, under my supervision. The enviable reputation of my Machine shas induced persons to use my same in connection with Machines of an inferior description—and I have, therefore, to protect myself and the public, adopted, as an especial Trade Mark, a Medallon, having in the centre the profile of the Inventor surrounded by the legend, "Ellas Howe, Jr., Inventor and Maker, New "York, U. The Political Neglect.

It is the height of folly to neglect pre-cautionary measures for the preservation of health, when they become necessary in consequence of burtful influences. Among those influences are the unavoidable inhalation of malarious or fetid air, exposure in bad weather, unhealthy occupations and habitual late hours, all of which tend to produce disease. To guard against their effects a vigorous and regular discharge of the bodily functions abould be kept up Hosteller's Stomach Bitters is the tonic of all others, best calculated to perpetuate, bedily vigor and regularity. The experience of declarates of unbealthy lealities, out-door laborers, employees in manufactories, and late workers of all kinds, has tories, and late workers of all kinds, has shown that a wineglassful of this pleasant safeguard taken at regular intervals imparts an amount of stamina and power of resistance to disease sforded by no other protective and remedial agent. The nervous, the weak and the dispeptio, derive incalculable benefit from its use and pronounce it the best preparation of its class.

Texas Drawing form to every Ticket holder if the Drawing fails to take place June 30th.

The unlimited confidence and liberal patronage leatowed on the Texas Real Estate and Gold Distribution, of which I am the Manager, is a subject of general remark. The post office records of this city show that we have received twenty five times as many P. O. orders, and registered letters with money then a similar enterprise of this City of larger pretensions. The Management take great pleasure in acknowledging their gratitude to the public, with the assurance that the Drawing will positively take place on the 30th day of June, 1875. For Fever and Ague, Intermittent Fever, Chill Fever, Bemittent Fever, Dumb Ague, Periodical or Bilious Fever, &c., and indeed all the affections which arise from malarious, marsh, or miasmatic poisons.

No one remedy is louder called for by the necessities of the American people than a sure and safe cure for Feverand Ague. Such we are now enabled to offer, with a perfect certainty that it will eradicate the disease, and with assurance, founded on proof, that no barm can arise from its use in any quantity. ance, founded on proof, that no harm can arise from its use in any quantity.

That which protects from or prevents this disorder must be of immense service in the communities where it prevails. Prevention is better than cure, for the patient escapes the risk which he must run is violent attacks of this batteril distemper. This "CURE" expels the miasmatic poison of Fever and Agus from the system, and prevents the development of the disease, if be must run in violent attacks of this baleful distemper. This "CURE" expls the miasmatic poison of Fever and Agus from the system, and prevonts the development of the disease, if taken on the first approach of its premonitory symptoms. It is not only the best remedy ever yet discovered for this class of complaints, but also the cheapest. The large quantity we supply for a dollar brings it within the reach of everybody; and in bilious districts, where Fever and have it, and use if freely, both for care and protection. It is hoped this price will place it within the reach of all—the poor as well as the rich. A great superiority of this remedy over any other ever discovered for the speedy and eartain cure of intermittents is, that at contains no Quinism or mineral; consequently it produces no quinism of other injurious effects whatever upon the constitution. Those cured by it are left as healthy as if they had never had the disease.

Fever-and Ague is not alone the consequence of the miasmatic poison. A great variety of disorders arise from its irritation, among which are Neuralgir Rheumatism, Gout, Headache, Blindness, Toothache, Earache, Catarri, Asthma, Palpitation, Palinful Affection of the Spleen, Hysterics, Pain in the Bowels, Colle, Paralysis, and derangement of the Stomach, all of which, when originating in this cause, put on the internitient type, or become periodical. This "CURE" expels the poison from the blood, and consequently cures them all alike. It is an invaluable protection to immigrants and persons travelling or temporarily residing in the malarious districts. If taken occasionally or daily while exposed to the infection, that will be excreted from the system, and cannot accumulate in sufficient quantity to ripen into disease. Hence it is even more valuable for protection than cure; and few will ever suffer from Internitients of they avail themselves of the protection of the protection of the content of the content of the protection of the protection of the protection of the protection of the p

A Word of Advice to Travelers. The Missouri, Kansas & Texas Railway has become so well known to the people of Texas, as one of the finest and most comfortable Roads on the continent to travel on, that it seems almost unnecessary that we should say aught, in its praise. Yet we cannot ever get back from a trip over this line without saying something in praise of the management, who always seem to be striving to make their patrons comfortable while traveling over their road. The track is always in the best possible condition and trains are at all times run at uniform speed.
Pullman's finest Drawing Room Sleeping Cars accompany all through passenger trains, and if you are going north or east, by making your wants known, you can go either via Hamibal or St. Louis.
