THE ORIGINAL HOWE!

The World-Renowned Elias Howe Sewing Machines are the oldest established of any in the world, they being the FIRST SEWING MACHINES ever made, and having been manufactured by the original inventor and under his own supervision, Elias Howe jr., since 1845.

The Howe Sewing Machine.

For some years I have been actively engaged in increasing the facilities for manufacturing my. Sewing Machines, and have succeeded in organizing a most complete system, combining perfection of workmanship with the largest productions at the smallest cost.

plete system, combining perfection of workmanship with the largest productions at the smallest cost.

In order to obtain these results, time, labor, money, and the exyreneence of my Life, as a practical inechanic, have been freely contributed, and I believe, with steeses. Further to facilitate the manufacture and sale of my Machines, The Howe Machines Co. has been organized, and the business will be carried on in the name of that Company, under my supervision. The enviable reputation of my Machines has induced persons to use my name in connection with Machines of an inferior description—and I have, therefore, to protect myself and the public, adopted, as an especial Trade-Mark, a Michalalon, having in the centre the profile of the Inventor surrounded by the legend, "Ellas Howe, Jr., Inventor and Maker, New York, U. S. A." This medallion is embedded in each Machine, andnone are a production of the Howe Machine Company unless they bear this distinguishic.

MARRIAGE CUIDE

Every year increases the popular ty of this valuable Hair Preparation which is due to merit alone. W can assure our old patrous that it is kept fully up to its high standard; and it is the only reliable and perfected preparation for restoring GRAV on FADED HAIR to its youthful color, on Faden Hair to its youthful color, making it soft, lustrous, and silken. The scalp, by its use, becomes white and clean. It removes all eruptions and dandruff, and, by its tonic properties, prevents the hair from falling out, as it stimulates and nourishes the hair-glands. By its use, the hair grows 'thicker and stronger. In baldness, it restores the capillary glands to their normal vicor, and glands to their normal vigor, and will create a new growth, except in extreme old age. It is the most economical Ham Dussauxa ever fied, as it requires fewer applications, and gives the hair a splendid, glossy appearance. A. A. Hayes, M.D., State Assayer of Massachusetts, says, "The constituents are pure, and care fully selected for excellent quality; and I consider it the BEST PREPA-BATTON for its intended purposes." Sold by all Druggists, and Dealers in Medicines. Frice One Dollar.

PACENTARY BRISTOW. LOUISVILLE, June 1. Secretary Briston made a brief address to the merchants and citizens at the Board of Trade to-day, in the course of which be said : "In my judgment, there can be no return of real and solid prosperity until we build our financial system spon a sounder and seen rer basis. It must be based upon money, upon that which is recognized throughout the world, that which has an intrinsic value, and which may be used not only as a medium of exchange, but as a representative of values everywhere. We may have an apparent temporary prosperity, may inflate values and produce at abnormal activity; may make one man rich and many others poor, by resorting to semporary expedients, but I repeat, real, substantial, enduring prosperity is to be reached only on the basis of a solid foundation of actual money. The dedication of the new Masonic temple in New York city was the occasion of one of the most magnificent pageants ever witnessed. The procession was composed of twenty-five thousand Masons, thirty five bands, officers of the day, and police, more than five miles long, and as wide as one of the widest streets in the city, marched past the temple in two hours and was well treated and left behind a Mr Barnes, Mr Wilson (3 seats). ten minutes.

WHILE a strong effort is being made in this country by sectarians to demoralize the public schools, the purely seculiar system is meeting with the most unbounded favor in Japan, and even Chine is manifesting a desire to introduce a style of education that will release the limpire from the theldron of its priests. The Japanese have adopted the graded system of schools in vogue in the United States, and an immense number of schools have been established throughout the country ruled over by the Tycoon. The western plan of education is exceedingly popular with the masses in Japan, and one west of a straight line drawn from of the strongest arguments in its favor is the entire absence of occi- is subject to droughts. THE New York World of yester day remarks: It is a pity that the immediate object of the cuthusiasm of the Freemasons who are to make so imposing a demonstration to day in behalf of their order should not be more worthy of that enthusiasm. The Masonic Temple in Twenty-third street is unhappily cotified to no enthusiasm whatever as an architectural design. In the interior effects of sumptuousness are aimed at and no doubt gained, but sumpthousness is not beauty; and in the external architecture, that portion with which "masonry" is most concerned, the design is a mere platitude, neither better nor worse, only bigger than the ordinary shop front.

In this interview he says:

"I naw grasshoppers, sir, two
weeks ago along the Rio Grande River in Mexico and Texas."

The nearest Perkins came to secing a grasshopper "along the Rio J-A Guyun, Houston; Col C R Prouty, In-Grande in Mexico and Texas," was though a mint julip at Hoerner's dus and wife, Sas -, J W Wilson, bar room, or at the Mexican supper Mrs Fannie Wilson, Matt Goode, Hays Co. given in his honor.

Further along he says of drouths: "Well, sir, I've traveled over the times within the last four years, I've been over the Northern Pacific, Union Pacific, Kansas Pacific, down on the Santa Fe Road, over to Ft. Sill in the Indian Territory, and over to the Rio Grande into Mexico, and I have observed personally that the whole country Bismarck, Dakota, to Adstin, Texas,

"Can't they raise crops in Mexico without irrigation?" "Not in Northern Mexico. Around Durango, irrigation is as neces-

sary to secure a crop as it is around Santa Fe, Denver, Greeley and Cheyonue." "The fact is," said the old man, as he drew a map, and run his led pencil along a line from Bismarck, in Dakota, to Austin, in Texas, Recommended by the highest medical tiyou can't raise crops on this continent west of this line without ir. rigation. They don't have rains tream west of Bismarck and Austin once in three months. The farmers may try year after year, but the drought is sure to come in July and August and burn everything up. It has held June 5, 1875, the following resolution done it for I wenty years, and alwers adopted: This huge lie is asserted as if

drawn from personal observation, scientific research and practical test. Had the mendacious Perkins taken a conveyance and traveled west of Austin for 100 miles he would have met farms, and seen P tarmers who have, during ten years lished in both dally papers for information experience, averaged as good crops and guidance of those interested. Houston, June 4-The Grand Royal Arch Chapter of Masons met in Masonic as farmers in Iowa; and he would have found all along through the and best off farmers on the Conti-

portion of the interview:

"Thea there is no place where

tion?"

"No, sir. Iowa and Illinois are healthful. Cattle and hogs fatten better there than in Kansas and Texas. They have no drought or grasshoppers. Land is higher there because it is really worth more. It produces larger and surer crops. The only cheap lands I have seen on the continent which will compete with the high-priced black alluvial lands of Illinois and Iowa, are situated around Parsons and are si'nated around Parsons and Ft. Scott, in Kansas; around Ft. Sill, in the Indian Nation, and in Northern Texas, from Denison to Dallas. But here they are liable to the drought and grasshoppers. So the Illinois or Iowa farmer had better attay where he is, for he is

richer and healthier than any other armer on the continent. The extreme West will kill any man with its droughts, and the middle West will eat you up with its grassioppers and chinch bugs, if you come within 100 miles of the Iowa bound-

furnished throughout, has 7 rooms, also a good stable and out-houses and fine elutern on premises. The pleasantest summer residence in this vicinity. For some years I have been actively engaged in increasing the facilities for nanufacturing my Sewing Machines, and have succeeded in organizing a most complete system, combining perfection of workmanship with the largest productions

at the smallest cost.

In order to obtain these results, time; labor, money, and the EXPERIENCE OF MY LIFE, as a practical mechanic, have been freely contributed, and I believe, with success. Further to facilitate the manufacture and sale of my Machines, The Howe Machine Co. has been organized, and the business will be carried on in the name of that Company, under my supervision. The enviable reputation of my Machines has induced persons to use my name in connection with Machines of an inferior description—and I have, therefore, to protect myself and the public, adopted, as an especial Trade Mark, a Medallon, having in the centre the profile of the Inventor surrounded by the legend, "Ellas Howe, Jr., Inventor and Marker, New York, U. S. A." This medallion is embedded in each Machine, andnone are h production of the Howe Machine Company unless they bear this distinguisher.

Springfield, Mass., June 4.-The coroner's jury in the Holyoke disaster rendered verdict this evening. The jury find that no blame is to be attached to any person in immediate opninection with the fire, but they can not too strongly condemn the almost criminal carelossness shown in the construction of the galleries and means of ogress therefrom. The jury declare that the parties who built and suffered such a death-trap to stand should reseive the unasured consure of the community. The jury further find that the direct cause of the fire, with its terrible sacrifice of human life, is attributed to the use of trim mings of laces, paper, etc., about the altar, and to the fact that the building was sheathed with pine sheathing instead of being plastered. They strongly depresate the use of such adornment and the use of such finish in places of public resort.

vantage; teamers buying them healtatingly only and generally low prices. To make the Summer Hides more desirable should therefore be the endeavour of all connected with this branch of business.

The ensiest way to accomplish this object it, "to stratch the hide in the shade immediately effect its skinning without having it exposed to the sum for et least twenty four or thinks six hours, and where this cannot conveniently be done, to spread a few hundred led salt and ashes ever the freshly skinned hide, rolling, it up with hair unbelle and leaving usms in this condition for about twenty four hours. The great danger exists when the hide is green; the first thereon, which is meist, rouning in contact with the hot sun, will necessarily cook and scald it.

Every year increases the popularity of this valuable Hair Preparation; which is due to merit, alone. We can assure our old patrons that it is kept fully up to its high standard; and it is the only reliable and perfected preparation for restoring GRAY OR FADER HAIR to its youthful color, on Fader Hair to its youthful color, making it soft, lustrous, and silken. The scalp, by its use, becomes white and clean. It removes all eruptions and dandruff, and, by its tonic properties, prevents the hair from falling out, as it stimulates and nourishes the hair-glands. By its use, the hair grows' thicker and stronger. In baldness, it restores the capillary glands to their normal vigor, and will create a new growth, except in will create a new growth, except in extreme old age. It is the most eco-nomical HARE DRESSING ever used, nomical HARE DEBRAING ever used, as it requires fewer upplications, and gives the hair a splendid, glossy appearance. A. A. Hayes, M.D., State Assayer of Massachusetts, says, "The constituents are pure, and carefully selected for excellent quality; and I consider it the BEST PHEFA-BATION for its intended purposes." Ayer's Ague Cure, For Fever and Ague, Intermittent Fever, Chill Fever, Remittent Fever, Dunh Ague, Feriodical or Billious Fever, &c., and indeed all the affections which arise from malarious, march, or missmatts

No one remedy is londer called for by the mecessities of the American people than a cure and and cure for Freeze and Ague. Such we are now canaled to offer, with a perfect to discover, and with assurance, founded on proof, that it will cradicate the disease, and with assurance, founded on proof, that a no harm can arise from its use in any quantity.

That which protects from or prevents this disorder must be of immenses seculos in the committee when the provents from the training of the committee when the provents of the training discovery of the property of the minimate poises. The "CURE" expels the minimate poises of FEXEM ARM AGUE from the tay stem, said prevents the divelopment of the disease, of the training of the other property of the property of the property of the property of the class of compilating, that also the changes. The large quantity we supply for a dollar brings it within the reach of everyhody; and in bilious districts, when Fevers also the changes this price will place it within the reach in the large of the property of the comment of the class of the property of the comment of the class of the comment of the large of the price will place it within the reach of all—the poor as well as the rich. A great superferity of this remedy over any other ever discovered for the speedy and acertain cute of internitemate is, that it contains no quinten or other injurious effects with place it within the reach of all—the poor as well as the rich. A great superferity of this remedy over any other ever discovered for the speedy and acertain cute of internitemate is, that it contains no quinten or other injurious effects without any of the orders arise from its irritation, among which are Neuraley Rheemation, along, which are neural to the flowesties of the hybein decrease, and decrease them all alike. It is an invaluable protection to immigrants and persons travelling or temporarily receiving in the maken of the speedy and in this considered the flowest orders arise from its irritation, and the maken of th consequently cores them all allies. It is an in-valuable protection to immigrants and persons travelling or temporarily residing in the main-rions districts. If taken occasionally or daily while exposed to the indection, that,will be ar-creited from the system, and cannot secumilate in sufficient quantity to ripent into disease. Hence it is even more valuable for protection than care, and few will ever unfar from inter-mittenia if they avail themselves of the protec-tion this removly utilities.

The Missouri, Kassas & Texas Railway has become so well known to the gasple of Texas, as one of the finest and most cumpfortable Roads on the continent to travel on, that it seems almost unnecessary this we should say aught in its praise. For we cannot ever gut back from a krip over this line without saying something in praise of the management, who always seem to be striving to make their putreus comfortable, while traveling over their read. The track is always in the hest powelled. The track is always in the hest powelled condition and trains are at all times run at aniform speed. Pullman's linest Drawing Room Sleeping Cars accompany all through passenger tesins, and if you are going north or tast, by making your wants known, you can go either via Kannibal or St. Louis. And for Kansas City, Denver, California, or any of the Northwestern States or Territories, it is much the best routs we have from Texas. Their Dining Stations and Hours for Meals are all that a treveler, aguid wish for, and in fact there seems to be nothing left undone to render a trip over this line pleasant.
