BREACH OF PROMISE SUIT. The New York San brings the following: Several months ago Rose Massey, the wellknown astress, sued Henry J. Mann for \$50,000 for breach of promise of marriage. Mr. Mann was arrested, and was admitted to bail in \$10,000, Mr. Theo. Moss being his bondsman. Miss Massey supported her complaint with numerous exceedingly affectionate letters written to her by Mann when he was the unsuccessful manager of a London theater and her accepted suitor. In them a day for the wedding was freqently set, but Mann's business as often arose to demand a postponement. Lately he has been acting in Wallack's under the name of Henry J. Montague, and has become a favorite with the public in certain paris. Soon after the answer of Mr. Mass was field, Mass Massey's lawyer, the Hon Edwin R. Monde, summoned him to a proliminary examination, and in totalisation his counsel, the Hon. A. Oakey Hall, summoned Miss Massey in a similar proceeding. The day for that examination has frequently been nonpound, yearerday being the last day appointed. The parties have not as 761 appeared parsonally in court, and yesterday, their lawyers adjourned indefinitely the time of the examination, each one reserving the right to paris. Soon after the abover of Mr. Mann was fied, Miss Massey's lawyer, the Hun. Edwig E. Masse, summoned him to a pro-liminary examination, and in redshinton

journed indefinitely the time of the examination, each one successing the right to select any day in the future upon giving five days' notice to the apposing source.

Both Miss Massey and Mr. Mann have been anxious for a compromise, and the case is probably amically settled, though it is not known whether the former relations of the parties have been renumed. Rumor him, however, announced Mr. Mann's engagement to several factionable indies.

Among the many stiring transactions yesterday which streeted the attention of the news gatherer, there was one which dire delibrorando and incident the distriction the romance always stanching itself to the name of Eugenie, the late Empress of the French, and it was exciting, because it involved the name of a reputable merchant pawnbroker of Washington.

It is recollected by all that after Sedan, the flight of the Imperial family from the Tuilleries and their escape into England, a page of her magnificent wardrobe and costly jewels were sold at auction. Among other articles of lace there was a lace shawl so rare and costly that it was veloed at \$20,000. Who the gurpheter was and which paid to it is not known at

present. These laces, including the shawl, were amaggled into this county sometime in 1873, by Joseph Hoorachin, and, after passing through the hands of two or three parties in New York, they were brought to this city, less than a month age, by one Dr. Leon De Larnois, and were deposited as security with Goldstein, the pawnbroker, for \$385. The officers of the customhouse in New York, detailed for the purpend, traced the goods to Goldstein's and yesterday afternoon Captain Brockett, of the custom house, made Mr. Goldstein acquainted with the facts.

Mr. Geldstein was at once thoroughly honest and straightforward in the matter, having innocestly come into possession of the goods of the long of every bouldy in his power to the officer. Of course the formal seizure could not be made here. and so Mr. Goldstein packed up the shaw! of the Empress, and last night accompani ed Cauti Brockett to New York. On arrival there this morning the seizure will be legally made, and the goods turned over to the custom-house officials, It is quite probable that arrests will be made in New York on this account. A PATAL GIFALLENGE.

Havana, June S .-- A duel took place ves terday between Dr. Algerson Sydney Curtie, of New York, and Salvador Cortereal, a tobacco merchant of Hayana and New York. Th combatants had been intimate friends for many years, and fived together in New York. Dr. Curtis arrived here two weeks ago, and was stopping at Cortereal's house. He states that yesfordly morning he was awakened by Cortereal shapping his face and accusing him of corrupting his wife. This Curtis denied, and het words corout which resulted is a shall lenge to fight and its acceptance. That afto Mariana without witnesses, and on ar riving there dismissed the sarriage. I went into that election with a deep conviction that it was neces sazy to bring about a rounion of the Liucoln party, the party of General Grant, and that of Mr. Greeley: The Greeley movement ought to have been prevented, and for failing to do that the Republican party is responsible. The World Renowed Elias Howe Sewing Machines are the oldest established of any in the world, they being the FIRST SEWING MACHINES ever made, and having been manufactured by the original inventor and under his own supervision, Elias Howe jr., since 1845.

The Howe Sewing Machine.

For some years I have been actively engaged in increasing the facilities for manufacturing my Sawing Machines, and have succeeded in organizing a most complete system, combining perfection of workmanship with the largest productions

LIFE, as a practical mechanic, have been freely contributed, and I believe, with success. Further to facilitate the manufacture and sale of my Machines, The Hows Machine Co. has been organized, and the business will be carried on in the name of that Company, under my supervision. The saviable reputation of my Machines has induced persons to use my name in connection with Machines of an inferior description—and I have, therefore, to protect myself and the public, adopted, as an especial Trade Mark, a Medallion, having in the centre the profile of the Inventor surrounded by the legend, "Ellas Howk, Ir., INVENTOR AND MAKER, New York, U. S. A." This medallion is embedded in each Machine, and none are h production of the Howk Machine Company unless they bear this distinguishir.

On Sundays there are generally fifteen or twenty men loafing about the place.

About noon three men rode up to the store dismounted and went into the store, where they sat down and called for crackers, sardines and drinks which they partook of and paid for. They said they were looking for horsethieves. Two other men then came up and joined the party in the store. Every year intreases the popularity of this valuable Hair Preparation; which is due to merit alone. We can assure our old patrons that it is kept fully up to its high standard; and it is the only reliable and perfected preparation for restering GRAY OR FADER HAIR to its youthful color, making it soft, lustrous, and silken. The scalp, by its use, becomes white and clean. It removes all eruptions and dandruff, and, by its tonic prop-erties, prevents the hair from falling out, as it stimulates and nourishes the hair-glands. By its use, the hair grows thicker and stronger. In baldness, it restores the capillary glands to their normal vigor, and will create a new growth, except in extreme old age. It is the most eco-nomical Ham Danssing ever used, as it requires fewer applications, and gives the hair a spienced glossy appearance. A. A. Hayes, M.D., State Assayer of Massachusetts, says, "The constituents are pure, and carefully selected for excellent quality;" and I consider it the BEST PREPARATION for its intended purposes." A Word of Advice to Travelers.

The Missouri, Kansas & Texas Railway has become so well known to the people of Texas, as one of the finest and most comfortable Reads on the continent to travel on, that it seems almost unnecessary that we should say sught in its staise. Yet we cannot ever get back from a trip over this line without saying something in praise of the management, where always seem to be striving to make their patrons comfortable, while traveling over their road. The track is always in the best possible condition and trains are at all times run at uniform speed. Pullman's finest Drawing Room Sleeping Cars accompany all through passenger trains, and if you are going north or east, by making your wants known, you can go either via Hannibal or St. Louis. And for Kansas City, Denver, California, or any of the Northwestern States or Territories, it is much the best route we have from Texas. Their Dining Stations and Hours for Mana are all that a treveler could wish for, and in fact there seems to be nothing left undone to render a trip over this line pleasant.

BREACH OF PROMISE SUIT.

The New York San brings the following: Several months ago Rose Massey, the wellknown actress, sued Henry Ja Mann for \$50,000 for breach of promise of marriage Mr. Mann was arrested, and was admitted to bail in \$10,000, Mr. Theo. Moss being his bondsman. Miss Massey supported her complaint with numerous exceedingly affectionate letters written to her by Mann when he was the unsuccessful manager of a Loudon theater and her accepted suitor. In them a day for the wedding was freqently set, but Mann's business as often arose to demand a postponement. Lately he has been acting in Wallack's under the name of Henry J. Montague, and has become a favorite with the public in certain parts. Soon after the answer of Mr. Mann was filed, Miss Massay's lawyer, the Hon. Edwin R. Meade, summoned him to a pre-liminary examination, and in retaliation his counsel, the Hon. A. Oakey Hall, summoned Mics Massey in a similar proceeding. The day for that examination has frequently been postponed, yesterday being the last day appointed. The parties have not as yet appeared personally in court, and yesterday their lawyers adjourned indefinitely the time of the examination, each one reserving the right to select any day in the future upon giving five days' notice to the opponing sounsel.

Among the many stiring transactions yesterday which arrested the attention of the news gatherer, there was one which combined the peculiar charmed suine With the romance siways attaching itself to the name of Eugenie, the late Empress of the volved the name of a reputable merchant pawnbroker of Washington.

It is recoffected by all that after Sedan, the flight of the Imperial family from the Tuilleries and their escape into Eugland, a part of her magnificent wardrobe and costly jewels were sold at auction. Among other articles of lace there was a lace shawl so rare and costly that it was valued at \$20,000. Who the purchaser was and what he paid for it is not known at present.

These laces, including the shawl, were smuggled into this county sometime in 1873, by Joseph Hoorachix, and, after passing through the bands of two or three parties in New York, they were brought to this city, less than a month age, by one Dr. Leon De Larnois, and were deposited as security with Goldstein, the pawubroker, for \$385. The officers of the customhouse in New York, detailed for the purpose, traced the goods to Goldstein's and erday afternoon Captain Brockett, of the custom house, made Mr. Goldstein acquainted with the facts.

Mr. Goldstein was at once thoroughly honest and straightforward in the matter, having innocently come into possession of the goods. He offered every facility in his power to the officer. Of course the formal seizure could not be made here, and so Mr. Goldstein packed up the shaw! of the Empress, and last night accompanied Capt. Brockett to New York. On arrival there this morning the seisure will be legally made, and the goods turned over to the custom-house officials. It is quite probable that arcests will be made in New York on this account, A FATAL CHALLENGE.

He states that yesterday morn ing he was awakened by Corteres slapping his face and accusing him of corrupt ing his wife. This Curtis denied, and hot words awayed which resulted in a challenge to fight and its acceptance. THE ORIGINAL HOWE!

The World-Renowned Elias Howe Sewing Machines are the oldest established of any in the world, they being the FIRST SEWING MACHINES ever made, and having been manufactured by the original inventor and under his own supervision, Elias Howe jr., since 1845.

The Howe Sewing Machine.

For some years I have been actively engaged in increasing the facilities for manufacturing my Sewing Machines, and have succeeded in organizing a most complete system, combining perfection of workmanship with the largest productions at the smallest cost.

In order to obtain these results, time, labor, money, and the EXPERIENCE OF MY LIFE, as a practical mechanic, have been freely contributed, and I believe, with success. Further to facilitate the manufacture and sale of my Machines, THE Howe Machines Co. has been organized, and the business will be carried on in the name of that Company, under my supervision. The envisable reputation of my name of that Company, under my supervision. The enviable reputation of my Machines has induced persons to use my name in connection with Machines of an inferior description—and I have, therefore, to protect myself and the public, adopted, as an especial Trade Mark, a Medallion, having in the centre the profile of the Inventor surrounded by the legend, "Elias Howk, Jr., Inventor and Maker, New York, U. S. A." This medallion is embedded in each Machine, andnone are in production of the Howk Machine Company unless they hear this distinguishing.

Ayer's Ague Cure,

For Fever and Agus, Intermittent Fever, Chill Fever, Remittent Fever, Dumb Agus, Periodical or Bilious Fever, &c., and indeed all the affections which arise

No one remedy is londer called for by the unocesities of the American people than a sure and safe care for Feyer and Ague. Such we are now enabled to offer, with a perfect certainty that it will eradicate the disease, and with assurface, founded on proof, that no harm can arise from its use in any quantity.

That which protects from or prevents this disorder must be of immense eavyice in the communities wherealt prevents. Freeenfor is better than cure, for the patient excapt the risk which he must rin in violent attacks of this baleful distemper. This "Curty" expert the unamantic poison of FEVER-AND AGUE from the system, and prevents the development of he disease, if takes on the first approach of he disease, if takes on the first approach of he disease, if takes on the first approach of he disease, if takes on the first prevents of he disease, if takes on the first prevents of he disease, if takes on the first prevents of he disease, if takes on the first prevents of he disease, if takes on the first prevents of he commine, but also the cheapsel, The large quantity we supply for a dollar brings it within the reach of a dollar brings it within the reach of all—the poor as well as the rich. A great superiority of this remardy over any other ever discovered for the speedy and certain curt of frierunitents is, that it contains no Quinism or other injurious effects wisalever upon the consideration. Those cured by it are left as healthy as if they had never had the disease. Fever and Ague is not alone the consequence of the miasmatic poison. A great variety of disorders arise from its left first too, among which are Nenralgi?
