The proposition of the New York Witness, that the State should abandon the work of education to the churches, is so far from the American idea of national and universal education that we are surprised it should be put forth. It seems to be cannot be read or tought in the public schools, they are not worth maintaining. Voluntary schools, with religious, not see terian, teaching, would be well enough if all the children could be educated by such a system. The unsecterian public school is not our ideal, but, on the whole, its resalts will prove better than yoluntary schools for we do not believe that the for adamsion modoch. The denomination at schools would have no means of compelling attendance, and the crowd of children whe now fail to receive education would become larger each year. We must maintain the public schools, and their existence depends upon making them unseeterian .- Central Christian Advocate.

THE ORIGINAL HOWE!

The World Renowned Elias Howe Sewing Machines are the oldest established of any in the world, shey being the FIRST SEWING AACHINES ever made, and having been manufactured by the original inventor and under his own supervision, Elias Howe jr., since 1845.

The Howe Sewing Machine.

For some years I have been actively engaged in increasing the facilities for A. SIEMERING. [26 6-dtd manufacturing my Sawing Machines, and have succeeded in organizing a most complete system, combining perfection of workmanhip with the largest productions at the smallest cost.

In order to obtain these results, time, labor, noney, and the EXPERIENCE OF MY In order to obtain these results, time, labor, noney, and the experience of my LIFE, as a practical mechanic, have been freely contributed, and I believe, with success. Further to facilitate the manufacture and sale of my Machines, The Howe Machines Co. has been organized, and the business will be carried on in the name of that Company, under my supervision. The enviable reputation of my Machines has influeed persons to use my name it connection with Machines of an inferior description—and I have, therefore, to proteit myself and the public, adapted, as an especial Trade Mark, a Medallion, having in the centre the profile of the Inventor surrounded by the legend, "Elias Hows, Jr., inventor and Maker, New York, U. S. A." This medallion is embedded in each Machine, and none are h production, of the Liowe Machine Company unless they bear this distinguishin. To Butchers, Stockraisers, and Farmers: It has been the general complaint in past years by tanners who regularly work. Texas Hides, that a large part cured during the hot season, work badly, turning out a large proportion of badly damaged sides and only a small proportion of good leather. They assert that the hides, being exposed to the san, get

SUNBURNED. and that such bides, by bending them short, will break. From this fact, Texas Summer Hides cannot be sold to any advantage; tanners buying them hesitatingly only and generally low prices. To make the Summer Hides more desirable should therefore be the endsavour of all connect-ed with this branch of business.

HALES -EBETABLE SICILIAN HAIR RENEWER Byery year increases the popularity of this valuable Hair Preparation;

which is due to merit alone. can assure our old patrons that it is kept fully up to its high standard; and it is the only reliable and perfected preparation for restoring GRAY OR FADED HAIR to its youthful color, making it soft, lustrous, and silken, The scalp, by its use, becomes white and clean. It removes all eruptions and dandruff, and, by its tonic prop-erties, prevents the hair from falling out, as it stimulates and nonrish the hair glands. By its use, the hair grows thicker and stronger. In baldness, it restores the capillary glands to their normal vigor, and will create a new growth, except in extreme old age. It is the most eco-nomical Ham Danssing eyer used, as it requires fewer applications, and gives the hair a splendid, glossy appearance. A. A. Hayes, M.D., State Assayer of Massachusetts, says, "The constituents are pure, and carefully selected for excellent quality; and I consider it the BEST PREPA-RATION for its intended purposes." Sold by all Druggists, and Dealers in Medicine.

Buckingham's Dye. FOR THE WHISKERS.

As our Renewer in many cases requires too long a time, and too much care, to restore gray or faded Whiskers, we have prepared this dye, in one preparation; which will quickly and effectually accomplish this result. It is easily applied, and produces a color which will neither rub nor wash off. Sold by all Druggists. Price Fifty Cents. Manufactured by R. P. HALL, & CO., NASHUA, N.H.

Ayer's Cathartic Pills,

For the relief and cure of all derangements in the stomach, liver, and bowels. They are a mild aperiout, and an axcellent purgative. Being purely vegetable, they contain no mercury or mine-relief whether they contain the purchas whatever. Much serious sickness and affects in several.

antiering is preventus; and every family should have them on hand for their protection and relief, when required. Long experience has proyed them to be the safest, surest, and heet of all the PHIs with which the market abounds. By their occasional use, the blood is purified, the corruptions of the system expelled, obstructions removed, and the whole machinery of his restored to its healthy activity. Internal organs which become elegged and sluggish are cleansed by Ayer's Pills, and stimulated into action. Thus incipient disease is changed into health, the value of which change, when reckoned on the vast multitudes who elegy it, can hardly be computed. Their sugar costing makes them pleasant to take, and preserves their virtues unimpaired for any length of time, so that they are ever fresh, and perfectly reliable. Although searching, they are mild, and operate without disturbance to the constitution, ordict, or compation.

A Word of Advice to Travelers. A Word of Advice to Travelers.

The Missouri, Kansas & Texas Railway has become ac well known to the people of Texas, as one of the finest and most comfortable Roads on the continent to travel on, that it accus almost unnecessary that we should say hught, in its praise. Fet we cannot very get back from a trip over this line without saying something in praise of the management, who always seem to be striving to make their patrons countrisble, while traveling over their road. The track is always in the best possible condition and trains are at all times run at naiform speed. Pullman's finest Drawing Room Sleeping Care accompany all through passenger trains, and if you are going north or east, by making your wants known, you can go either via Hannibal or St. Louis. And for Kansas City, Denver, California, or any of the Northwestern States or Territorios, it is much the best route we have from Texas. Their Dining Stations and Hours for Meals are all that a trevelor could wish for, and in fact there seems to be nothing left undone to render a trip over this line pleasant.

What the Nervous Require.

What the nervous require more than anything else ii invigoration. Sedatives alone will not cure nervousness. The reason that the nerves are so susceptible is son that the nerves are so susceptible is that they are weak. Compensate for this deficiency of strength, and over-acute nervous sensibility disappears. The most rational, wholesome, and agree able tonic is Hostetter's Stemach Bitters. Medical men recommend its use for the cure of general debility, knowing it to possess strength-giving properties of the highest order, and at the same time to be a means of referring those hodily irregularities. order, and at the same time to be a means of reforming those bodily irregularities which induce nervousness and loss of vigor. It is the best known remedy for dyspepsia, whether pervens or bilious, and is powerfully conservative of a regular habit of body. As it is notorious that those who are afflicted with weak nerves, biliousness or continuation, are peculiarly liable to the influence of malaria, it is invaluable to such persons on account of its preventine efficacy. It endows the body with health, and the mind with observings. ness.

Ayer's Ague Cure,

For Fever and Ague, Intermittent Fever, Chill Fever, Remittent Fever, Dumb Ague, Periodical or Bilious Fever, &c., and indeed all the affections which arise from malarious, marsh, or miasm

No one remedy is louder called for by the necessities of the American people than a sure and safe cure for Fever and Ague. Such we are now enabled to offer, with a perfect certainty that it will eradicate the disease, and with assurance, founded on proof, that no harm can arise from its use in any quantity. That which protects from or prevents this disorder must be of immense service in the communities where it prevalls. Precention is better

from its use in any quantity.

That which protects from or prevents this disorder must be of immense service in the communities where it prevails. Prevention is better than cure, for the patient escapes the risk which he must run in violent attacks of this baleful distemper. This "CURE" expels the missmatic poison of FEVER AND AGUR from the system, and prevents the development of the disease, if taken on the first appreach of its premonitory symptoms. It is not only the best remedy every et discovered for this class of complaints, but also the cheapest. The large quantity we supply for a dollar brings it within the reach of everybody; and in billous districts, where FEVER AND AGUE prevails, everybody should have it, and use it freely, both for cure and protection. It is hoped this price will place it within the reach of all—the poor as well as the rich. A great superiority of this remedy over any other ever discovered for the speedy and certain cure of intermittents is, that it contains no Quinism or other injurious effects whatever upon the constitution. Those cured by it are left as healthy as if they had never had the disease.

Fever and Ague is not alone the consequence of the missmatic poison. A great variety of disorders arise from its irritation, among which are Neuralgy Rheumatism, Gout, Headache, Blindness, Toothache, Earache, Catarrh, Ashma, Palpitation, Painful Affection of the Spleen, Hysterics, Pain in the Bowels, Colic, Paralysis, and derangement of the Stomach, all of which, when originating in this cause, put on the intermittent type, or become periodical. This "CURE" expels the poison from the blood, and consequently cures them all alike. It is an invaluable protection to lumigrants and persons travelling or temporarily residing in the main-rious districts. If taken occasionally or daily valuable protection to immigrants and persons travelling or temporarily residing in the malarious districts. If taken occasionally or daily while exposed to the infection, that will be exceeded from the system, and cannot accumulate in sufficient quantity to ripen into disease. Hence it is even more valuable for protection than cure; and few will ever suffer from Intermittents if they axail themsetvies of the protection this remedy affords.

For Liver Complaints, arising from torpidity of the Liver, it is an excellent remedy, silmulating the Liver into healthy activity, and producing many truly remarkable cures, where other medicines fall.

Long experience has proved them to be the safest, surest, and best of all the Fills with which the market abounds. By their occasional use, the blood is purified, the corruptions of the system expelled, obstructions removed, and the whole machinery of life restored to its healthy activity. Internal organs which become clogged and sluggish are cleanased by Aper's Fills, and atimulated into action. Thus incipient disease is changed into health, the value of which change, when reckoned on the vast multitudes who enjoy it, can hardly be computed. Their sugar coating makes them pleasant to take, and preserves their virtues unimpaired for any-length of time, so that they are ever fresh, and perfectly reliable. Although searching, they are mild, and operate without disturbance to the constitution, or diet, or occupation.

Full directions are given on the wrapper to each box, how to use them as a Family Physic, and for the following complaints, which these Fills rapidly cure:— Fills rapidly cure:— Yer Byspepsia or Endigention, Listlean meas, Languer and Loss of Appetite, they should be taken moderately to stimulate the stonach, and restore its healthy tone and action.

For Liver Complaint and its various symptoms, Bilitous Eleudische, Sick Heads ache, Janusdice or Green Sickupsen, Bilitous Colle and Billous Fevers, they should be judiciously taken for each case, to correct the diseased action or remove the obstructions which cause it.

UNSECTERIAN SCHOOLS. The proposition of Min New Mork ness, that the State should abandon the work or education to the chaseles, is so far from the American idea of authoral and universal education that we are surprise universal education that we are surprised it should be put forth. It seems to be founded on the notion that, if the Bible cannot be read or tought in the public schools, they are not worth maintaining. Voluntary schools, with religious, not sectorian, tesching, would be well enough if all the children could be educated by such a system. The unsectorian position school is not our ideal, but, on the whole, its reis not our ideal, but, on the whole, its reis net our ideal, but, on the whole, its results will prove better than voluntary, schools, for we do not believe that the churching yould find the first the facilities for education needed. The denominational schools would have no maps of compelling attendance, and the grown of children who now fail to reactive education would become larger each year. THE editor of the San Autonio Herald is rampant upon the subject of division. The article on that subject in yesterday's issue of that paper is intemperate, and while many real grievances are correctly stated, the editor kicks the fat into the fire by making a false and malicious assertion to-wit: "they have got a heavy debt to pay, created by the rascally Radicals." The Reald editor knows or he ought to cook, that our State debt has been feabled under Coke, and increased so greatly that the increase under Democratic rule would more than pay the International subsidy.

THE ORIGINAL HOWE!

The World Renowned Elias Howe Sewing Machines are the oldest established of any in the world, they being the FIRST SEWING MACHINES ever made, and having been manufactured by the original inventor and under his awa supervision, Elias Howe jr., since 1845.

The Howe Sewing Machine.

For some years I have been actively engaged in increasing the facilities for manufacturing my Sewing Machines, and have succeeded in organizing a most complete system, combining perfection efworkmanship with the largest productions at the smallest cost.

In order to obtain these results, time, labor, money, and the experience of my Life, as a practical mechanic, have been freely contributed, and I believe, with success. Further to facilitate the manufacture and sale of my Machines, The Howe Machine Co. has been organized, and the business will be carried on in the name of that Company, under my supervision. The envisible reputation of my Machines has induced persons to use my name in connection with Machines of an inferior description—and I have, therefore, to protect myself and the public, adopted, as an especial Trade Mark, a Medallion, beying in the centre the profile of the Inventor suprounded by the legend, "Ellis Howe, Jr., Inventor and Maxim, New York, U. S. A." This medallion is embedded in each Machine, and none are: h production of the Howe Machine Co.

We can assure our old patrons that it is kept fully up to its high standard; and it is the only reliable and perfected preparation for restoring Gray on Fader Hare to its youthful color, on Faden Hair to its youthful color, making it soft, lustrous, and silken. The scalp, by its use, becomes white and clean. It removes all cruptions and dandruff, and, by its tonic properties, prevents the hair from falling out, as it stimulates and nourishes the hair-glands. By its use, the hair grows thicker and stronger. In baldness, it restores the capillary glands to their normal vigor, and will create a new growth, except in extreme old age. It is the most connomical Hair. Dightsing ever used, as it requires fewer applications, and gives the hair a splendid, glossy appearance. A. A.
