The Howe Sewing Machine.

For some years I have been hetively engaged in increasing the facilities for manufacturing my Sewing Machines, and have succeeded in organizing a most complete system, combining perfection of workmanship with the largest productions at the smallest cost.

In order to obtain these results, time, labor, money, and the EXPERIENCE OF MY LIFE, as a practical mechanic, have been freely contributed, and I believe, with success. Further to facilitate the manufacture and sale of my Machines, The Howe Machine Co. has been organized, and the business will be carried on in the name of that Company, under my supervision. The enviable reputation of my Machines has induced persons to use my name in connection with Machines of an inferior description, and I have therefore transition of the laborated to the connection with Machines and the connection of the connection of the connection with Machines of an inferior description, and I have therefore transitions and the connection of the conne inferior description—and I have, therefore, to protect myself and the public, adopted, as an especial Trade Mark, a Medallion, having in the centre the profile of the Inventor surrounded by the legend, "Elias Howe, Jr., Inventor and Maker, New York, U. S. A." This medallion is embedded in each Machine, andhone are a production, of the Howe Machine Company noless they bear this distinguishes, Trade Mark.

MR, EDITOR;—
I notice a card in the Herald signed by 'Annie M. Bacon," which very properly rebukes all persons who have "alleged" that her colored school "is sectarian." It is a shame that so enterprising a lady should not receive encouragement in her laudable labors. Ne doubt, the charge of sectarianism arose from the fact that Mrs. Bacon received help from certain liberal Catholic gentlemen, and that from her school a large number of colored children graduated into the fold of Christ, and have been confirmed as good Catholics. This may have resulted more from admiration of Mrs. Bacon than from direct instruction

in the excellencies of the Roman faith. But, Mr. Editor, it is far better that the solored heathen be gathered into the fold of Christ than allowed to become the prey of a pack of howling heretics, and Mrs. Bacon deserves great credit for her mis-C. That there shall be shown ne preference for any person on account of religious belief, and that thorough competence be the test for all teachers who shall be under the complete control of the school authorities. That there shall be no such facilishness as encouraging private schools where seventy children are herded together under the management of any one person. The city schools should not be made a hespital or poor-house ar rangement'in any particular. We see no cause for Mrs. Bacon's card unless to awaken a controversy.

Every year increases the popularity of this valuable Hair Preparation; which is due to merit alone. We can assure our old patrons that it is kept fully up to its high standard; and it is the only reliable and perfect. ed preparation for restoring GRAY OR FADED HAIR to its youthful color, making it soft, lustrous, and silken.
The scalp, by its use, becomes white and clean. It removes all cruptions and dandruff, and, by its tonic properties, prevents the hair from falling out, as it stimulates and nourishes the hair-glands. By its use, the hair grows thicker and stronger. In baldness, it restores the capillary glands to their normal vigor, and will create a new growth, except in extreme old age. It is the most eco-nomical Ham. Dansaing ever used, as it requires fiver applications, and gives the hair a splendid, glossy appearance. A. A.
