In spite of treaties with England, guaranteed by the most solemn pledges, this miserable little power has made its African possessions the field of terrible raids for the capture of human beings. When the ocean traffic had been suppressed on the west coast, the eastern provinces continued to be desolated by the kidnapers.

Dr. Livingstone in his Zambesi expedition was continually thwarted in his attempts at establishing legitimate commerce by the slavetraders. His description of the condition of affairs on the Zambesi and its tributary, the Shire, are appalling, and he shows that nearly every official, from the Governor-General at Mozambique down, was more or less openly connected with the iniquitous business. It is probable that his revelations aroused the government at Lisbon from its torpor and shamed it into doing something. On Feb. 23, 1869, the slave-trade was abolished by royal decree in all the Portuguese dominions, including the coolie traffic from Macao. THE ORIGINAL HOWE!

The World-Renowned Elias Howe Sewing Machines are the oldest established of any in the world, they being the FIRST SEWING MACHINES ever made, and having been manufactured by the original inventor and under his own supervision, Elias Howe jr., since 1845.

The Howe Sewing Machine.

For some years I have been actively engaged in increasing the facilities for manufacturing my Sewing Machines, and have succeeded in organizing a most complete system, combining perfection of workmanship with the largest productions at the smallest cost. In order to obtain these results, time, labor, money, and the EXPERIENCE OF MY

LIFE, as a practical mechanic, have been freely contributed, and I believe, with success. Further to facilitate the manufacture and sale of my Machines, THE Howe MACHINE Co. has been organized, and the business will be carried on in the name of that Company, under my supervision. The envisible reputation of my Machines has induced persons to use my name in connection with Machines of an machines has induced persons to use my name in connection with Machines of an inferior description—and I have, therefore, to protect myself and she public, adopted, as an especial Trade Mark, a Medallion, having in the centre the profile of the Inventor surrounded by the legend, "Elias Howe, Jr., Inventor and Maker, New York, U. S. A." This medallion is embedded in each Machine, andnone are h production of the Howe Machine Company unless they bear this distinguishing Trade Mark.

Word of Advice to Travelers.

The Missouri, Kansas & Texas Railway has become so well known to the people of Texas, as one of the finest and most comfortable Roads on the continent to travel on that it seems almost unnecessary that we should say aught in its praise. Yet we cannot ever get back from a trip over this line without saying something in praise of the management, who always seem to be striving to make their patrons comfortable, the management, who always seem to be striving to make their patrons comfortable, while traveling over their road. The track is always in the best possible conditionand trains are at all times run at uniform speed. Pullman's finest Drawing Room Sleeping Cara accompany all through passenger trains, and if you are going north or east, by making your wants known, you can go either via Hunnibal or St. Louis. And for Kansas City, Denver, California, or any of the Northwestern States or Territories, it is much the best route we have from Texas. Their Dining Stations and Hours for Meals are all that a treveler could wish for, and in fact there seems to be nothing left undone to render a trip over this line pleasant.
