A Visit to Captain A. H. Jones' Nursery Near Gonzales.

Editor San Antonio Expres Can we raise fruit in Texas, and what can we raise? is a question often asked by old settlers, and those who would be glad to raise fruit for themselves if not for market. PERSONAL-We were pleased this morning with a call from Mr. McKinney, one of the old and prominent citizens of Uvalde county, and one of the oldest and most faithful subscribers to the Express. He gives us a full account of the prospects of his county. It is an excellent stock county, for sheep, cattle and horses, and at the same time the land is excellent, and the settler can raise almost everything necessary for the support of his family, besides making provision for improved stock. The lands are now cheap, but immigrants are stendily coming, and the county will be well settled afterawhile.

Large fortunes have been made in the cattle business since the war, but the sheep and wool business is proving to be still more profitable. It is one of the best sheep countries in the world, and the time is not far off when immense flocks of sheep will cover all that county and the wool trade of Western Texas will be immense and vastly profitable, The completion of GENTRAL GARDEN. the railroad to San Antonio will greatly increase and stimulase that business, and so will the erection of the Western Peni-

The scalp, by its use, becomes white and clean. It removes all eruptions and dandruff, and, by its tonic properties, prevents the hair from falling out, as it stimulates and nourishes the hair-glands. By its use, the hair grows thicker and stronger. In baldness, it restores the capillary glands to their normal vigor, and will create a new growth, except in extreme old age. It is the most economical HAIR DRESSING ever used, as it requires fewer applications, and gives the hair a splendid, glossy appearance. A. A. A Word of Advice to Travelers.

The Missouri, Kansas & Texas Railway has become so well known to the people of Texas, as one of the finest and most comfortable Roads on the continent to travel on, that it seems almost unnecessary, that we should say aught in its praise. Yet we cannot ever get back from a trip over this line without saying something in praise of the management, who always seem to be striving to make their patrons comfortable, while traveling over their road. The track is always in the best possible condition and rains are at all times run at uniform spead.
Pullman's finest Drawing Room Sleeping
Cars accompany all through passenger
trains, and if you are going north or east,
by making your wasts known, you can go
either via Hannibal or St. Louis. And for Kansas City, Denver, California, or any of the Northwestern States or Territories, it is much the best route we have from Texas Their Dining Stations and Hours for Meals are all that a troveler could wish for, and in fact there seems to be nothing left nudone to render a trip over this line pleas-
