Yesterday morning we published th killing of a man name ed Yancey by one Harris, who fied and was pursued by eighbors. A gentleman from Georgetown enterday reports that Harris was captured, and that he is now in the Georgetown jail. There is a different version of the circumstances of the killing from what we gave Tuesday.. It is now said that Harris, who is a young man, killed Yancey's dog about midway between his own house and that of Yancey, when the latter came running to the place in a threater ing manuer. Harris commenced to walk backwards with his gun drawn, telling To the Shaveholders San Antonio Heat Estate, Building and Lean Association Yancey to keep away; but Yancey pressed ahead and finally got hold of the gui occasion to assure the public of the barrel, and in the scuille that enemed the netautly killed, the whole load entering his body.—Stateman.

THE ORIGINAL HOWE!

The World-Renowned Elias Howe Sowing Machines are the oldest established of any in the world, they being the FIRST SEWING MACHINES ever made, and having been manufactured by the original inventor and under his own supervision, Elias Howe jr., since 1845.

The Howe Sewing Machine.

For some years I have been actively engaged in increasing the facilities for manufacturing my Sewing Machines, and have succeeded in organizing a most complete system, combining perfection of workmanship with the largest production at the smallest cost.

at the smallest cost.

In order to obtain these results, time, labor, money, and the EXPERIENCE OF MY LIFE, as a practical mechanic, have been freely contributed, and I believe, with success. Further to facilitate the manufacture and sale of my Machines, The Hows Machines Co. has been organized, and the business will be carried on in the name of that Company, under my supervision. The envisible reputation of my Machines has induced persons to use my name in connection with Machines of an inferior description—and I have, therefore, to protect myself and the public, adopted, as an especial Trade Mark, a Medallion, having in the centre the profile of the Inventor surrounded by the legend, "Elias Howe, Ja, Inventor and Maker, New York, U. S. A." This medallion is embedded in each Machine, andmone are h production of the Howe Machine Company unless they bear this distinguishic, Trade Mark.

The Missouri, Kanasa & Texas Railway has become ac well known to the people of Texas, as one of the Anest and most conferrable Roads on the continent to travel on, that it seems almost nunccessary that we should say amphilit to poster. For we manner over her back from a trip over this line without paying acqueithing in praise of the management, who always seem to be striving to make their partons comfertable, while traveling over their road. The track is always in the hest possible condition and trains are as all times can at uniform speed. Pullman's fuest Drawing Boom Sleeping Cars accompany all through passenger trains, and if you are going north or east, by making your wants known, you can go either via Hannibal of St. Louis. And for Kanasa City, Denver, California, or any of the Northwestern States of Territorice, it is much the heat roule we have from Texas. Their Dining Stations and Hours for Meals are all that a treveler could wish for, and in fact there seems to be nothing left indicate to render a trip over this line pleasant.
