AGAINST THE CONVENTION.

FOR DELEGATES.
E. DEGENER, of Bexar.
WESLEY GODDEN, of Bexar.
A. O. COOLEY, of Gillespie.

THE BAR of New York deeply deprecate the letter of Charles O'Connor criticizing the action of the High Court of Appeals in the Tweed case.

QUEEN VICTORIA has placed at the disposal of Mrs. Kingsley, the widow of the late Canon Kingsley, the first suite of rooms that may become vacant in Hampton Court palace.

LORD WALTER CAMPBELL, son of the Duke of Argyll, has been admitted as a junior partner into the firm of Helbert, Wagg & Co., of the London Stock Exchange, which will now be known as Helbert, Wagg & Co.

A STRANGE discovery has been made at Buckingham Palace. While some workmen were engaged in pulling down a wall a large quantity of valuable gold and silver plate of about the time of George III, and worth several thousand pounds, was found.

SANTA ANNA is seventy-seven years old, but he is still erect and slender, and his black hair and black eyes yet preserve their original brilliancy. He is as fond of cock fighting as ever, but hasn't money to indulge in it as much as he would like.

HAVING given thirteen reasons why the Republicans will carry Ohio this fall, the Cincinnati Commercial adds two more, as follows: 1. There are more Republicans than Democrats—or rather, more citizens who prefer the Republican to the Democratic party—in Ohio at this time. 2. The Republicans of Ohio propose to vote next fall.

M. D. PAPP, Esq., who recently died at Tallahassee, Florida, was born at St. Augustine, and was of Minorean parentage. The descendants of that peculiar people still remain in this, the oldest city of the country. Mr. Papp attained great distinction as a lawyer by the force of his natural endowments, his advantages having been very limited.

MAJ. WAELDER says he is opposed to "sectarian" public schools. We believe there is not a man in the State who is in favor of such schools. But there are many who favor the old system of dividing out the public school money between the schools and teachers of the State, including the church schools of the various denominations. Many men in the churches, Protestant and Catholic, are in favor of this mode of sustaining their "sectarian" schools by the State. This course is destructive of anything like a public school system. This is the only sort of "sectarian" schools that we are in danger of. Is Maj. Waelder opposed to this plan, and in favor of devoting all the school money to the State public schools? That is the question for him to answer, and we should like to hear from him in regard to it.

For a man who weighs 225, like General Harlan, to stomp Kentucky in such weather as this, is making no slight sacrifice for the good cause. He is telling on the Democratic masses, however. A correspondent, following the stamping canvass, writes: "An old Democratic acquaintance at this place told me he liked John Harlan better every time he saw him." "Why?" I asked. "O, you see he sticks to his arraignment of our rulers, and don't flinch. Little Mac, (as he called the Democratic standard-bearer,) hasn't answered him on any of his points yet. It's getting too late for him to prove our rulers ain't the kind of men Harlan shows them up to be. I like Harlan because he puts himself in an awful sight of trouble, and sweats this hot weather to tell me and my neighbors how we've been mistreated. He has no particular hopes of being elected, but his friends are going to show him how mistaken he is."

The Herald and the Castroville Nominees.

The Herald of this city is putting itself to a great deal of unnecessary trouble to defend itself against the complaints of the friends of Judge Howard of El Paso, one of the so-called delegates to, and nominees of, the so-called Democratic convention of the 30th District recently held at Castroville. The Herald defends itself for not supporting the nominees of that so-called convention on the ground that Judge Howard descended from the duties of the bench, and made himself a violent partizan in manipulating primary meetings to stock the Castroville convention.

Now, let us tell the Herald—and we are well advised of the truth of what we say—that although Judge Howard was allowed to cast eleven votes of the forty eight in that convention, he was not entitled to vote at all. He was never elected a delegate himself by either the Democrats or the Republicans of El Paso county, nor were the delegates he represented from other counties so elected. Not twenty men in El Paso county ever voted for Judge Howard as a delegate, while over five hundred made oath before the proper officers that Hon. Louis Cardis was their choice to represent them in the convention. And so it was in the other counties on the upper Rio Grande. Yet Cardis was rejected by the manipulators at Castroville, and Howard accepted. Howard had no more right to a seat and a vote in that convention than a citizen of Chihuahua in Mexico, and the wire-workers at Castroville knew it well.

The whole thing was a conspiracy between Howard and "Bill" Russell, the latter the veriest scoundrel that ever cursed any country or any party. How gentlemen living in this end of the District could have allowed themselves to be made a party to this infamous transaction has astonished and grieved us more than anything we have lately been made cognizant of. Col. Benavides, we believe, had nothing to do with this dirty, darkly affair. We intend to expose the whole thing if it is defended. The Herald is doing itself honor in repudiating the bogus nominations, and in supporting the independent ticket, and so is every gentleman who does likewise.

Partizan Judicial Officers.

The Herald is justly severe on Judge Howard, of El Paso, for descending from the duties and dignity of the bench to scramble in the dirty arena of local partizan politics, and the trickery and rascality of stocking primary meetings and sending bogus delegates to nominating conventions. The Herald, however, does not allude to judicial officers, and other officers of the courts of justice, nearer home, who have been guilty of the same of tense against good taste and the ethics of their important positions. Recent conventions have done damage to certain official reputations in this region of the State that cannot be retrieved by years of good conduct. The most clamorous and indignant charges made against some of the Judges appointed by Gov. Davis were, that they took an interest in politics, and attended the conventions of their party. Some of them were removed by address of the Legislature for this cause alone, and now their successors are behaving, in this respect, far worse than they did.

Judge Howard leaves his courts and travels seven hundred miles, to act as a bogus, fraudulent delegate in a district convention; Judge Dougherty and Judge Ware support him and act with him; Judge White of Seguin lends the influence of his position to assist John Ireland in the persecution of the Republican sheriff of Guadalupe county, after the Supreme Court of the State has decided in his favor; and District Attorney Green is the head of the controlling Democratic faction in this city who manipulated the Fredericksburg convention. Verily, we have fallen on evil times.

ERNEST OWEN, a son of Robert Dale Owen, says the symptoms of his father's insanity were brought on by intense labor upon a book on the unity of God, which his father was very anxious to complete as soon as possible, since he had a premonition that he would not live long. The work was to take middle ground between skepticism and orthodoxy, and was to have nothing whatever to do with Spiritualism. In regard to the Katie King exposure, the son said that had very little to do with the fall of his father's reason.

Death of Lady Franklin.

Lady Jane Franklin, whose death was announced recently was born about 1805, and was married in 1826 to Sir John Franklin. Her husband went in 1836 to Van Dieman's Land as Governor, and thither she accompanied him. In 1845 he set off on his famous Arctic expedition in the Erebus and Terror. Two years passed and no tidings of him had been received. Then it was that Lady Franklin's name came first prominently before the public. In the spring of 1848 she offered large rewards to any persons discovering or affording relief to the missing party. Her exertions were continued for year after year until 1857, when Capt. McClintock brought home proof that Franklin must have died as far back as June 11, 1847. Lady Franklin's interest in northern explorations did not cease with this discovery. Even the expedition that has just left England found in her a warm and generous supporter.

DEMOCRATIC HARMONY.—As the EXPRESS recently predicted, Senator Thurman by opposing the inflation dogma of his own party in his own State, will kill himself at home, and thus destroy his chances for the Presidential nomination. This is what the Cincinnati Enquirer has to say of Senator Thurman and his financial views, as given in the interview published on Monday:

Mr. Thurman is precisely where we expected to find him—down on his knees to the Money Power. His Eastern friends will be delighted. Mr. Thurman's science last year was highly creditable to him. He proposed opposition to the party which has given him all his honors is simply disgraceful. We can say to him now that his services are not desired in the Ohio canvass. He is not of us. The Democratic party of Ohio is in a death struggle with the Money Power. Mr. Thurman proposes to assist the men who are praying and working for our overthrow. His expressed desire for a Democratic victory will weigh as nothing. Let him sneak off to Maryland, as he did last summer, for his declaration of war will meet as it should be.

In New York, John Morrissey, high Democratic authority, makes fun of the Presidential aspirations of the Ohio Democrats, and stakes his judgment and his money that Governor Tilden, of that State, will be the Democratic nominee for President. And here is what the Sunday Herald, of Washington, we believe, says of Morrissey:

"George Alfred Townsend has found an ex-prize-fighter and gambler at Saratoga, and this ex-prize-fighter, gambler, thief and scoundrel generally, is opposed to the financial policy of the Ohio Democracy. He thinks that Tilden will be the next Democratic candidate for President, and talks largely about the East. The name of this ex-prize-fighter, gambler and thief is John Morrissey. He is a bright ornament in the crown of the New York Democracy."

THE Ohio Republicans will open their campaign at Marion, in Lawrence county, on July 31, with speeches by ex-Governor Hayes and Senator Sherman.

For our custom trade we have here just received a good assortment of cloths, cassimers and linens. PANCOAST & SON.

NEW ADVERTISEMENTS.

German Eng. School.
THE EXAMINATION of the pupils of the German English School will take place Thursday, Friday and Saturday, July 29th, 30th and 31st, at the regular school hours, when teachers will review the studies of last term. THE ORIGINAL HOWE!

The World Renowned Elias Howe Sewing Machines are the oldest established of any in the world, they being the FIRST SEWING MACHINES ever made, and having been manufactured by the original inventor and under his own supervision, Elias Howe Jr., since 1845.

The Howe Sewing Machine.
For some years I have been actively engaged in increasing the facilities for manufacturing my Sewing Machines, and have succeeded in organizing a most complete system, combining perfection of workmanship with the largest productions at the smallest cost.

In order to obtain these results, time, labor, money, and the EXPERIENCE OF MY LIFE, as a practical mechanic, have been freely contributed, and I believe, with success. Further to facilitate the manufacture and sale of my Machines, THE HOWE MACHINE CO. has been organized, and the business will be carried on in the name of that Company, under my supervision. The available reputation of my Machines has induced persons to use my name in connection with Machines of an inferior description—and I have, therefore, to protect myself and the public, adopted, as an especial TRADE MARK, a MEDALLION, having in the centre the profile of the inventor, surrounded by the legend, "ELIAS HOWE, JR., INVENTOR AND MAKER, NEW YORK, U. S. A." This medallion is embedded in each Machine, and none are produced of the HOWE MACHINE COMPANY unless they bear this distinguishing Trade-Mark.
ELIAS HOWE, JR.,
President of the Howe Machine Co.

Base Ball Game at Seguin.

The game of base ball played at Seguin on last Saturday, between the San Antonio and Seguin base ballists, was hotly contested, although the Seguin club were not able to score many runs. The blue and white suits of the San Antonians formed a very pleasant contrast with the new and tasteful red and white suits of the Magnolias.

Captain Burrell, of the blues, gained the toss and sent the reds to the bat.

First inning: T. Wallace tipped out to Augur. Fitzgerald knocked to Jennings and retired. Wright got home just as Ewing's fair foul was sent to first base by Augur. Three out and one run.

Blues to bat, scoring nine runs before first was out. Burrell fouled out. Dunbar and Jennings failed to reach first base. Bat two runs were made in the meantime. Score 11 to 1 for first inning.

Second inning: Williams and Wamak and Quinlan made runs. Wright closed in by falling victim to Augur and Spain. Blues struck heavily, making fourteen runs before three men fouled; they being Dunbar and Jennings at first, and Earl by fly to McLeilan.

Third inning: McLeilan, Fitzgerald and Ewing retired in regular order, all at first, the latter two by Augur's assistance. Jennings then commenced on the San Antonians and scored ten more runs, inning closed by Bartholomew being touched off his base, Augur caught by McLeilan and Burrell by Quinlan. Score 35 to 3.

Fourth inning: Williams fouled to Augur. Wamak run down between bases by Augur, Quinlan and N. Wallace made runs, and Wright went out at first by Augur and Burrell. Fisher pitched and Spain playing second.

Dunbar was run out by Wright, Fisher and Bartholomew getting home, as Earl knocked one to Ewing and tipped out.

Fifth inning: Magnolia retired with second white-wash.

Fitzgerald allowing Augur to get hold of the ball, which of course beat him to first. Ewing knocked long hit, which Bartholomew got. Williams fouled, as before before Augur. Of the blues only Spain reached home, Fisher victimized by Quinlan, Burrell put out by same ball at first, being first double play. Bartholomew's high ball fell into the hands of Williams.

Sixth inning: Augur and Fisher threw Wamak and Quinlan out at first. N. and J. Wallace made runs, and Wright allowed Augur and Burrell to finish him.

McLeilan threw Mitchell out at first and caught Earl. Jennings was beaten to first by ball through Fitzgerald. First and only blank for San Antonio.

Seventh inning: McLeilan made first by long hit. Fitzgerald went out at first by Augur. Ewings caught by Jennings, and Williams by Augur. Blues made ten runs this inning by hard batting. Burrell caught by Fitzgerald, Jennings by Wright, and Fisher trying to make three bases on a long hit was cut off at the third. Score standing 48 to 9.

Eighth inning: Wamak went to bat, a swift ball from Fisher, striking an injured finger of Augur, disabled it so that he was obliged to change, Jennings taking his place. Magnolia scored five runs through carelessness of blues, only one run fairly earned. Wright and Ewing striking, and McLeilan, after a tremendous hit to extreme limit of the field, was put out at home by a splendid field of the ball, it passing with great rapidity from Spain to Devine to Fisher and to Jennings.

Devine played second base in this and following inning in place of Earl.

Jennings stopped at second, Spain touched near third and Dunbar fouled to Quinlan. Bat six runs scored in meantime.

Ninth inning: Augur resumed as catcher with wounded finger, and caught and assisted in putting out Wamak on foul, Williams at first, double play, and Quinlan in striking out. Making third white-wash for Magnolia.

San Antonians scored six runs again, and retired as follows: Devine, by bat to Wallace, Jennings, by foul to Quinlan, and Dunbar at second. Burrell in this inning knocking the longest ball of the game, reaching home before the ball could. Game standing at the close, blue 60 and red stockings 14.

The Magnolia club need a stronger pitcher and more practice. Their catching and throwing was very good, Wallace on first base being excellent. The fielding of the San Antonians was poor, but brilliant catching by Augur, and effective and swift pitching by both Burrell and Fisher, made it a game struggle.

The Secession Movement.

Tonching the secession resolutions of 1861, published in the Chronicle of yesterday for the first time, Judge Paschal formerly of Texas, sends us the following:

Editors Washington Chronicle: I find in the Chronicle of this morning the letter of David L. Yale, of January 1st, 1861, in which he enclosed to Joseph Finnegan, of Florida, the resolutions of the Senate caucus, of about December 31, preceding. It is true that the resolutions have never been published, but the substance of them, very soon after their date, was given to the public by Judge Lemuel Dale Evans, an ex-member of Congress from Texas, and at present United States Marshal for the Eastern District of that State, in a card over the signature of Eaton. The passage of those precise resolutions was given, and the fact that these Senators remained in their seats, while plotting the destruction of the government, was strongly denounced. The card was prepared for Judge Evans by the writer, but, although it was extensively circulated, it made very little impression at the time. The positions of the Southern Senators were well explained by the remark of President Lincoln in reference to John C. Breckenridge: "His intentions were as well known before he joined the Confederate army, as after."

The resolutions are valuable in showing with whom the plan of a Confederate Government originated. Those opposed to the secession movement seemed at that time to be stunted; those in favor of it were badly elated. Few looked beyond the bloody civil war which followed. Probably no preventive could have been employed. The only way to have avoided the sectional character of the controversy was that proclaimed by General Jackson, in 1832. Had President Buchanan raised the standard for the Union in the Southern States, he would have found enough followers to have prevented the appropriate unit which followed. But the present generation can only write the history. It cannot judge of it. G. W. P. Washington, July 19, 1875.

THE CASINO on next Saturday night will doubtless be filled to overflowing to witness the dramatic and musical performances in aid of the sufferers by the late calamitous floods in France. As will be seen by the advertisement, the best amateurs of the city, the Dramatic Club, and the Casino Theatre Association, will all take part in the entertainment, and it will doubtless be superior to anything of the kind we have ever had in the city. Those who wish to attend would do well to get their tickets at once, and to come early on the night of the performance, as the place will be crowded.

REMAINING in the Postoffice at San Antonio, July 27th, 1875, received prior to July 20th, 1875:

Schmidt, who will continue business at the old stand, Main Plaza, under the firm of CHAS. SCHMIDT & CO., 24-6-11m WRIGHT & CO.

STEINWAY Grand, Square and Upright Pianos.

Have obtained the Highest Honors ever awarded to any Piano Manufacturer in the World. First of the Grand Gold Medal of Honor WORLD'S FAIR, PARIS, 1867.

The world's greatest pianists and composers, including the renowned Dr. Franz Liszt; Anton Rubinstein; Berlioz; Kullak; Henselt; Jaell; Max-Weber; Gounod; the Amalians of Berlin; of Paris, Berlin and Stockholm; Professor Heilmoldt of Berlin, the highest authority in the science of Acoustics; as well as the piano-pitching public of Europe and America, all unite in the unanimous verdict of the

Superiority of the Steinway Piano over all others, and declare it to be the STANDARD PIANO OF THE WORLD.

All American Piano manufacturers, without exception, and a large number of the most celebrated European makers have been forced to copy the Steinway scales, peculiarities of construction and various improvements, and to adopt the Steinway Overstring System.

Of their immense number of testimonials STEINWAY & SONS beg to submit the following: ANTON RUBINSTEIN. New York, May 24, 1873.

Messrs. STEINWAY & SONS, Gentlemen:—On the eve of returning to Europe, I desire to express my warmest thanks for all the kindness and courtesy you have shown me during my stay in the United States; but also, and above all, for your unrivalled Pianofortes, which once more have done full justice to their world-wide reputation, both for excellence and capacity of enduring the most arduous and varied trials of my long and difficult journey all over America, in a very inclement season. I used and have been enabled to use your pianos exclusively in my 215 concerts, and also in private, with the most eminent satisfaction and effect.

Yours very truly, ANTON RUBINSTEIN.

WELMAR, September 3d 1873. Messrs. Steinway & Sons: GENTLEMEN:—The magnificent Steinway Grand Piano now stands in my music room and presents a harmonious and admirable quality, a detailed enumeration of which is the more superfluous as this instrument fully justifies the world-wide reputation that for years you have everywhere enjoyed.

"After so much well-deserved praise, permit me to also add my homage and the expression of my undiminished admiration, with which I remain, "Very sincerely yours, "FRANZ LISZT."

In a letter addressed to Mendelssohn, the celebrated composer, dated from Weimar on the 27th of the same month, Franz Liszt says: "I pray tell Mr. Steinway that his splendid Organ Piano shone to brilliant advantage at the Festival performances at the Wartburg, where, last Tuesday, it served under my fingers as 'The Orchestra,' exciting general admiration."

Yours very truly, "FRANZ LISZT."

Will act as a corollary on the above "The New Leipzig Music Zeitsung" adds: "A new Grand Piano from Steinway & Sons, New York, which we saw and heard in Dr. Franz Liszt's music room, we most acknowledge as the greatest creation that modern science in piano building has produced."

Every Piano warranted for Five Years. Prices as low as the exclusive use of the best materials and most thorough workmanship will permit. On Pianos taken in exchange.

Illustrated Catalogues, with Price List, mailed on application. STEINWAY & SONS' Warehouses. 109 & 111 E. COM. ST. N. Y.
