### Local Agents Wanted

An Agent wanted for each town and county in the United States. Parties desiring to act as agents muse accompany their application by a letter of recommendation as to character and re-sponsibility from and signed by the editor of a newspaper published in the town or county for which agent proposes to act. The agency is to sell the bonds of the Industrial Exhibition Company.

### BondS \$20 each.

The Industrial Exhibition Company will urnish agents with Circulars, etc. Each newspaper published in the town where agent is located will, as soon as agency is established, be given an advertisement, advertising such agency and the Company, and fully explaining the plans purposes and objects of the Company, Such advertisement will continue in such papers as long as agency is successfully

The Industrial Exhibition Company The industrial Exhibition Company is the first to adopt the plan so long in use by the European governments of issuing bonds when the principal is made secure and not risked, but where there is a chance for a large premium, an investment of \$20 is sure to return to the investor \$21—one sion to do just what has been done of the West, and Texas should avail dollar more than cost and the holder of a herself of it. With high prices for \$20 Bond may obtain a premium either of \$50, \$100, \$200, \$500, \$1,000, \$1,000, \$5,000 corn, wheat, and hay; Texas ought \$10,000, \$25,000, or \$100,000. The interest, which is ordinarily distributed to all the bond-holders pro rata, is in this loan distributed by chance. The purchaser of a bond knows he will receive back his in-vestment, with a small rate of interest added, and in consideration of taking this small rate of interest, he has a chance in the above named premiums, which are simply the distribution of interest on the hole loan.

Each bond participates in four drawings ach year, until it has drawn a premium when it is surrendered, the promi-and the bond cancelled.

The Industrial Exhibition Company, nder a special charter, granted by State of New York, is given authority to Issue these bonds. The Legislature of the State, recognizing the great benefits which will arise from the success of this enter prise, have exempted all the real estate and property of the Company from taxa-tion and assessments for five years, and has also conferred other great privileges, Every American who understands the purposes of this Company will, of a neces-sity, feel a pride in aiding it to success-ful termination.

Each individual who buys a bond beomes an owner and an interested party and when he views the structure erected and when he views the structure erected with his money can say, "I aided to erect in our country the most magnificent, building the world has ever seen, a palace which, in truth, represents the industry, energy and mechanical genius of the American people."

at the smallest cost.

In order to obtain these results, time, labor, money, and the experience of my life, as a practical mechanic, have been freely contributed, and I believe, with success. Further to facilitate the manufacture and sale of my Machines, The Howe Machines Co. has been organized, and the business will be carried on in the name of that Company, under my supervision. The enviable reputation of my Machines has induced persons to use my name in connection with Machines of an inferior description—and I have, therefore, to protect myself and the public, adopted, as an especial Trade Mark, a Medallion, having in the centre the profile of the Inventor surrounded by the legend, "Elias Howe, Js., Inventors and Maker, New York, U. A Word of Advice to Travelers. The Missouri, Kansas & Texas Railway has become at well known to the people of Texas, as one of the finest and most comfortable Roads on the continent to travel on, that it seems almost unnecessary that we should say anglit, in its maise. Yet we cannot ever get back from a trip over this line without saying something in praise of the management, who always seem to be striving to make their patrons comfortable, while traveling over their road. The track is always in the best possible condition and trains are at all times run at millorm speed. Pullman's finest Drawing Room Sleeping Cars accompany all through passenger trains, and if you are going north or east, by making your wants known, you can go either via Hannibal or St. Louis. And for Kansas City, Denver, California, or any of the Northwestern States or Territories, it is much the best route we have from Texas. Their Dining Stations and Hours for Meals The Missouri, Kansas & Texas Railway Their Dining Stations and Hours for Meale are all that a treveler could wish for, and in fact there seems to be nothing left undone to render a trip over this line pleasant. 28 1-75-wly L121

"Waters' Concerte Parter Organs' pomesses a beautiful and pecu-iaely saft tone. The Concerte Stop is withiary satt tone. The Conserts Stop is with-out doubt, the best ever placed in, any or-gan. It is produced by an extra set of reads, peculiarly voiced, from which the effect is most charming, and its invitation of the human voice is supperb.
