New York, Aug. 2,-The Herald's cable from London says the O'Connell contenary demonstration is assuming neexpect ed political and deplomatio, againeance which is embarrancing to the borel home rulers and the government. The lord mayor of Dublin, supposed to be at the instigation of the wily Cardinal Cullen, a pure churchman, easing nothing for the memory of O'Connell, has given the affair an ultramontane character, offensive alike to Irish and English liberty, the Abotastant noblemen, the home rabers and the Fenians. The invitations were mainly extended to Catholic laymon and bishops of England, France and Gormany, which has drawn an indignant protest from one of the Irish poors, who claims that the ford mayor is unanthorized to use his office for a purely Catholic purpose The home rulers and Fenians will probably have an independent aglabration in honor of the Hberator. They cannot co-operate in an ultramoutane movement without undangering a liberal affiance and discusting the Protestants, who as inpathize with homerule principles.

Sir Henry Lames, Sir Wm. Harcourt and other advanted libershappeard the demonstration. Although they are admirers of O'Connell, they do not want identification with an anti-Bismarck demonstration; boonies if the first mayer expressed sympathy with the history it will give Bismarck a chance to complain that the Engdish are openly a mpathizing with govern ment's hostility to Germany.

A special to a Nashville paper, from Greenville, dated at 7 o'clock to night, says Mr. Tobisson died of paralysis and heart disease. He had been complaining of ill health the last month, but felt no serious apprehension. Help was instantly summoned, and almost as spon as he arese he expressed, indistinutly, hawever, that his right side was paralysed. After, being taken to bad, the family spoke of sending for a physician, and he forbade it, saying he would soon recover. On this account the summoning of medical aid was deferred four hours, when Dr. Jobe was called from Elizabethtown, Awe, miles, ille in stantly began treatment, aided by Dr. Cameron, and seemed at one time to be succepting, The patient conversed, imperfectly in regard-to domestid matters and did not seem to be conscious of his approaching dissolution; but his case was beyond the physicians' control, and at 2 o'clock P. M. he became unconscious. Mrs. Patterson and Andrew Johnson, jr., arrived an hour later with two physicians from Greenville, Drs. Broy and Taylor, but he did non-recognize them, and after seven and one half hours of unconsciousness he peacefully departed, purrounded by his wife children and grandchildren. The hody will be brought here to morrow and be buried with Raschie fioners, " Enogville" has requested the honor of burying the il-lustrious dead, but his family are anwilling for his remains to be removed from his home to any place, unless possibly the capital of the State he so long and faithfully served. The World-Renowned Elias Howe Sewing Machines are the oldest established of any in the world, they being the EIRST SEWING MACHINES ever made, and having been manufactured by the original inventor and under his own supervision, Elias Howe it., since 1845. The Howe Sewing Machine.

For some years I have been actively engaged in increasing the facilities for manufacturing my Sewing Machines, and have succeeded in organizing a most complete system, combining perfection ofworkmanship with the largest productions at the smallest cost.

In order to obtain these results, time, labor, money, and the EXPERIENCE OF MY LIFE, as a practical mechanic, have been freely contributed, and I believe, with success. Further to facilitate the manufacture and sale of my Machines, The Howe Machines Co. has been organized, and the business will be carried on in the mame of that Company, under my supervision. The enviable reputation of my Machines has induced persons to use my name in connection with Machines of an inferior description—and I have, therefore, to protect myself and the public, adopted, as an especial Trade Mark, a Medallion, having in the centre the profile of the Inventor surrounded by the legend, "Ellas Howe, Jr., Inventor and Maken, New York, U. S. A." This medallion is embedded in each Machine, androne stell production of the Howe Machine Gompany unless they bear this distinguishing.

Every year increases the populari-ty of this valuable Hair Preparation; which is due to merit alone. We can assure our old patrons that it is kept fully up to its high standard; and it is the only reliable and perfected preparation for restoring GRAY OR FADED HARR to its youthful color, making it soft, lustrous, and silken. The scalp, by its use, becomes white and cleans it removes all cruntions and dandruff, and, by its tonic prop-erties, prevents the hair from falling out, as it stimulates and nourishes the hair-glands. By its use, the hair grows thicker and stronger. In baldness, it restores the capillary glands to their normal vigor, and will create a new growth, except in extreme old age. It is the most eco-nomical HAIR DRESSING ever used, as it requires fewer applications, and gives the hair a splendid, glossy appearance. A. A.
