This village, though situated on the ger with surprise when approaching it for ation. the first time, embowered as it is, among the surrounding mountains, and looming up, when seen from any direction, like an casis in the Sahara. The country everywhere, above, below, East or Woot, is a rugged, romantic wildernoss. Then, when the newcourer, weary and exhausted from a ride beneath the barning rays of a summer's ann, wends his wears may along where, above, below, East or West, is a mer's sun, wends his weary way along near the close of day and of a sudden beholds a bright and cheertel looking village which honest folks rejoice. And well they ring up, as it were, before him, the surprise is refreshing, and for the nonce, he magines bimself entering some next, in land town, far removed from Indian excursious and the wild, mad freaks of balf autored, half civilized, cow-boys who go periodically on the "war path."

Manou was formerly "Old Fort Mason whose site is suid to have been selected by the late lamented, and now renowned Gon; Robt. E. Lee, at that time, I believe, Colonel of 2nd dragoous U.S. Army, who established Fort Mason as a froutler post for the protection of the country, below. As I am told, the Post was abandoned in 1869, advancing civilization magnifing. 4 remove of the military to the more semoie border at McKavett and Concho. The town is commanded by the site of the old remeniscourse of anti-hollum days, will water, a pictureaque and romestic, view of the country may be had for fifteen or tweaty. miles around from its pummit.

Professional men are scarce, there being only three lawyers and two doctors. The population is compassed of Turaricous and Germans in nearly equal proportions. Our or meal, the gri people are peaceable and enterly, but the al ter fown is a great rendeavous for numerous cow-boys who generally raise essential doris whon, filled with bad whiskey, they ant forth on the proverbiat grand round of the "war path."

The voting population is not over three or four bondred.

INDIAN RATES. Occasionally Indians come down and gotble up all the horses they possibly can and then "skin out" for uncle Sam's Reservations. The Indians may be expected to infest the Texas frontier most grievansly. the whole of this year antib they obtain a supply in lies of their own photes eapter ed or destroyed by the military last year. About a month since they made a successful raid on Camp San Saba, in this county, and made off with many horses. Last week, on the 21st instructor miles west of town p camp of stock-men was attacked at night and one man fitally shot while another was severely wounded. Several horses were taken and carried off which had been habbled, near the samp, while others staked with ropes were not molested. Few believed that Indiana committed this last not; though moccasis tracks were seen around the place next morning. In neither of these cases were the maranders overtaken, but becaped with their booty A great deal of laylouning consequent upon sour border situation de developed here and Abreaghon to this mention, but novertheless the country is gradually settting up with a good class of people, who, in course of time, and with the aid of the strong arm of the law will gradually wood out the turbulent and the most clear and drive them further out on the border.

Our crops are ruised hopelessly by the drouth, though some flue showers dell fow days since, resuscitating the purched grass, but corn is beyond redemption.

MINERO EXCETEMENT.

The country hereshouts is enjoying somewhat of a sensation by the so-called discovery or gold and after mines a few miles from this town. Specimens of ore are daily brought in but it is, not known that there is any competent assayfat here to determine its intrensic epocies, quality or value. People at a distance had better not be too procipitate in coming on the strength of floating rumors concerning these mines. It is, or would be to our temporary advantage to see an influx of strangers here, scattering their gold coin among us, but it would not be honest to permit them to come unwarms until wait; maching ay turn thing week or a month that would warrant thousand in coming, but not yet. The World-Renowned Elias Hawe Sewing Machines are the oldest established of any in the world, they being the FIRST SEWING MACHINES ever made, and having been manufactured by the original inventor and under his own supervision, Elias Howe ir., since 1845.

### The Howe Sewing Machine.

For some years I have been actively engaged in increasing the facilities for manufacturing my Sewing Machines, and bave succeeded in organizing a most complete system, combining perfection of workmanship with the largest productions

at the smallest cost.

In order to obtain these results, time, labor, money, and the experience of MY LIFE, as a practical mechanic, have been freely contributed, and I believe, with success. Further to facilitate the manufacture and sale of my Machines, The Howe Machines Co. has been organized, and the business will be carried on in the name of that Company, under my supervision. The enviable reputation of my Machines has induced persons to use my name in connection with Machines of an inferior description—and I have, therefore, to protect myself and the public, adopted, as an especial Trade Mark, a Medallion, having in the centre the profile of the Inventor surrounded by the legend, "Elias Howe, Jr., Inventor and Maker, New York, U. S. A." This medallion is embedded in each Machine, andmone are a by production of the Howe Machine, Company unless they bear this distinguishes.

Every year increases the popularity of this valuable Hair Preparation; which is due to merit alone. can assure our old patrons that it is kept fully up to its high standard; and it is the only reliable and perfected preparation for restoring GRAY OR FADED HAIR to its youthful color, making it soft, lustrous, and silken. The scalp, by its use, becomes white and clean. It removes all eruptions and dandruff, and, by its tonic properties, prevents the hair from falling out, as it stimulates and nourishes the hair-glands. By its use, the hair grows thicker and stronger. In baldness, it restores the capillary glands to their normal vigor, and will create a new growth, except in extreme old age. It is the most economical HAIR DRESSING ever used, as it requires fewer applications, and gives the hair a splendid, glossy appearance. A. A. A Word of Advice to Travelers. The Missouri, Kanage & Texas Railway has become so well known to the people of Texas, as one of the finest and most com-Texas, as one of the inset and most confortable Roads on the continent to travelou, that it seems almost unnecessary that we should say night in its praise. Yet we cannot ever get back from a trip over this line without saying something in grains of the management, who always needs to be atriving to make their pateons comfortable, while traveling over their road. The track is always in the best possible condition and trains are at all times run at uniform sneed. rains are at all times run at uniform special Pullman's finest Drawing Mann. Steeping Cars accompany all through passenger trains, and if you are going north or east, by making your wants known, you can go either via Hannibal or St. Louis. And for the control of the passenger trains. Kansas City, Denver, California, or any ef, the Northwestern States or Territories, it is much the best route we have from Texas. Their Dining Stations and Worrs for Meals are all that a treveler could wish for and in fact there seems to be nothing left undone to render a trip over this line pleasant.
