DR. C. M'LANE'S, Celebrated American WORM SPECIFIC, OR VERMI-FUGE.

SYMPOTMS OF WORMS.

THE countenance is pale and leaden-colored, with occasional flushes, or a circumscripted spot on one or both cheeks; the eyes become dull, the pupils dilate; an acute semicircle runs along the lower eyelid; the nose is irritated, swells, and sometimes bleeds; a swelling of the upper lips; occasional headache, with bounding or throbbing of the ears; an unusual secretion of saliva; slimy or furred tongue; breath very foul, particularly in the morning; appetite variable, sometimes voracious, with a gnawing sensation of the stomach, at others, entirely gone; drawing pains in the stomach; occasional nausea and vomiting; violent pain throughout the abdomen; bowels irregular, at times constipated; stools always, but infrequently tinged with bloody belly sapoon and hard; urine turbid; respiration occasionally difficult, and accompanied by hiccup; cough sometimes dry and convulsive; unduly fatigued, sleepless, with grinding of the teeth; temper variable, but generally irritable, etc.

Whatever the above symptoms are found to exist,

DR. C. M'LANE'S VERMIFUGE.

Will certainly effect a cure.

The universal success which has attended the administration of this preparation has been such as to warrant us in pledging ourselves to the public to

RETURN THE MONEY.

In every instance where it should prove ineffectual; "providing the symptoms attending the sickness of any child or adult should warrant the suspicion of worms being the cause," in all cases the Medicine will be given in STRICT ACCORDANCE WITH THE DIRECTIONS.

We pledge ourselves to the public, that

THURSDAY, SEPT. 22, 1875.

CORPUS CHRISTI seems not to have suffered from the recent storm at all. One advice from that point as late as the 20th, and no mention is made of any damage.

BRAZOS RIVER, at the mouth of the Big Grande, has not yet been heard from. If the storm struck it hard, the whole coast must be ruined.

REV. DR. ALEXANDER, the oldest Methodist preacher in active service in Texas, with his family, who was supposed to be lost in the storm on the Galveston Bay coast, where he lived, is reported to be saved.

The Herald of this city, in its issue of yesterday, pronounces Rev. Edward H. Begley, "the leader of the Radical party" in Western Texas, and thus prone to stimulate half the organ of that gentleman on the restricted suffrage question. We congratulate our worthy friends and neighbors upon the harmony that, at length, has grown up between them. The millennium, though long delayed, will come at last.

Rev. Mr. Jour, the Episcopal Rector of Indianapolis, with his accomplished and excellent wife, and their children, was all lost at Indianapolis. Four gentlemen! One of the most talented preachers in the State, he was; nevertheless, unfortunate. He lived a strenuous life, and died a strenuous death. May he rest in peace!

ADVERTISERS, both in this city and abroad, are beginning to find out the value of the columns of the Express, and are letting people know what they have to sell. Advertisements in our columns are now worth five times more than they were when the present proprietors took charge. The circulation alone is five or six times larger than it then was, and, in addition, everybody reads the Express here, and people are reading it all over the State, and all over the Union.

AUSTRIAN GRANDSON.—The St. Louis Globe-Democrat of the 16th says that Prince Starhemberg, Austria, accompanied by Baron Starhemberg and Baron Tiedemann, Secretary of the Austrian legation at Washington, arrived in that city from Chicago. The length of their stay in the city is not yet settled. The Prince is en route for the Far West on a buffalo hunt, the sport of which is not unknown to those of royal blood.

THE FRENCH RAILROAD.—The wires bring down along this line, it has been impossible, so far, to learn what damage it has suffered. All we know is that neither mail, passengers, or freight have come through since the storm. The inquiry is regard to what may be expected to occur in this city. If it is much damaged, so as prevent trains from running for a considerable length of time, it will be a great inconvenience and injury to this city and nation.

SOME GALLANTY!—Notwithstanding the loss Galveston herself has sustained, she has nobly subscribed money, in liberal amounts, and sent provisions and clothing to the sufferers at Indianapolis, Indiana, and along the coast. She deserves well of the country, thus remembering, in the midst of her own suffering, the suffering of the other unfortunate. Let her example be followed by the towns and cities of Texas that have not suffered.

Mr. BREWER decline the creation tendered him at the Brooklyn Academy of Music, for the 20th of this month. His eyes only a scorpion would be able to keep alive feelings that ought to subside, so much disease of painful public transactions, which never should have had an existence, and which it was well, both for public and for private good, to have removed, if not for forgetfulness, at least for shyness. Too many hours yet sleep; too much sorrow and anxiety; too much pain has fallen upon him; sympathizing heart, to make it wise to renew a painful demonstration, which might be misinterpreted, and which might excite animosity, which any good citizen should wish to least.

THE NEXT WHEAT CROP.

The Dallas Commercial says that Northern Texas is turning its attention more and more to the cultivation of wheat, with a strong purpose to develop its grain surplus to the greatest production of this crop. Every year the breadth of wheat is steadily enlarging. This year, from what we can guess, there will be double the amount of ground devoted to the growth over the year just passed, and unless there should be a failure, in two years from now Northern Texas will contain the largest wheat producing area in the whole South.

We are undoubtedly sure that Northern Texas is the best part of the State for the growth of wheat, and that she has a very decided advantage to its growth. Texas is now a fine wheat growing state, and her larger production, we believe, will be still greater, to make what is now

Monroe and Madison.

THURSDAY, SEPT. 23, 1875.

JUDGE NOONAN is expected to return by the first of October, and to present at the fall term of the District Court, which commences on the fourth of that month.

The foundation of the safety vault for the old records now in the Clerk's office is nearly finished digging. The building will cost \$14,000, and will be constructed of iron and stone exclusively.

BETH-EL.—The regular Friday evening service will be held to-morrow at 7 o'clock P.M., when Rev. Alex. Rosenthal will preach a sermon in English. Subject: "Religion & Theology." All are invited to attend.

One Clavin's Wild Cherry and Squill, for all diseases of the throat and lungs. For sale by J. Clavin and A. Dreiss.

All who relish fun and laughter should be present at the "Old Folk's Concert" this evening. It will be the occasion of a perfect feast of mirth to all.

THEATRE.—The San Antonio Turn-Vers will give a theatrical entertainment at Karber's Garden on next Sunday. The beautiful comedy of "Mehurd's Wanderings" is seven acts, will be the piece rendered.

We learn upon good authority that the San Antonio Ice Company has purchased an ice machine of greater capacity than the one now in operation, which will go into operation about the 1st of October. The two machines of the Company together will cut out from ten to twelve thousand pounds of ice per day, and the price will not exceed 2½ cents per pound.

No stage came through from Kingsbury yesterday. The reason of this was the failure of the trains, which have been stopped by the destruction of the track and bridge at several points by the storm.

Stop that cough by using Clavin's Wild Cherry and Squill. For sale by J. Clavin and A. Dreiss.

We are informed by the gentlemanly Superintendent of the Flores street public school, that said school now numbers one hundred and fifty scholars. This speaks well for the success in which its present corps of teachers are held.

TO LAW.—The Post House, Alameda St. Inquires of Dr. Graves, or A. Dittmar, over Bennett & Thornton's Bank.

We understand that the public school teachers have been instructed to keep open their respective schools until 5 P.M., during the coming winter months. City Fathers, how about gas?

OUR MARTIAL.—Robert C. Campbell, 15th Infantry, W. Ledger, 8th Cavalry, Wm. Wynne, colored, 9th Cavalry and P. Parson, colored, 10th Cavalry, were all tried yesterday by the General Court Martial, now sitting at Headquarters for desertion.

The result of the trials will not be known for some weeks.

PACIFIC & SON have just received a large stock of fine ready made clothing. Sept. 12-14.

C. R. ADAMS has one hundred fine spring chickens for sale.

A LADY'S bakery is in process of construction on the corner of Flores and Houston streets, opposite south side of Presbyterian Church.

PACIFIC & SON have a full line of ready made clothing and furnishing goods just received. For sale at a bargain.

THE COSTUMES at the "Old Folks' Concert" to-night at the Presbyterian Church will be ludicrous and amusing in the extreme. And the old-fashioned nasal singing will be fully as funny.

INSURANCE.
T. F. BRADY, General Insurance Agent, Life Fire and Marine. Office on Soledad street, opposite Postoffice.

CAPT. TELETON.—We were very much pleased to meet this gentleman yesterday evening. He belongs to the U. S. Army, and an accomplished gentleman. Having a few days to spend in the city, and being a fine tenor singer, he has consented to assist in the "Old Folks' Concert" to-night at the Presbyterian Church.

Fox coughs and colds, use Clavin's Wild Cherry and Squill. For sale by J. Clavin and A. Dreiss.

Water Committee.

It has been suggested to us by an intelligent and enterprising citizen that local committees should be appointed by our Fair Directors in all the counties contiguous to San Antonio, to represent their people, and to increase the interest in the Fair which is as much theirs as ours. The following gentlemen's names have been suggested as to suitable for the committee in the adjacent named:

Frio Town.—Hon. John B. McMahon, W. C. Dougherty.

Uvalde.—E. Archer, John H. Kennedy, Capt. Howins.

Bandera.—Polycarp Rodriguez, Charles Montague.

Kerrville.—Capt. Tivey.

Brown.—Hon. Mr. Henderson, Capt. O. Grady, Rev. Mr. Potter.

Seguin.—Hon. John Ireland, Gen. H. E. McCulloch, Gen. J. R. Jefferson.

San Marcos.—J. A. Julian, Maj. Ed. Burleson, Rev. R. H. Belvin.

Fredericksburg.—Mr. Galloway.

New Braunfels.—Mr. Kneller, Mr. Landis, Mr. Elkins.

Salina.—W. A. Wallace.

from last page.)

The Perkins family say that everything was swept off from Adams Island, which is about five miles below Lynchburg. In addition to themselves was the family of Dr. Alexander, a grand-son and a negro man. These are supposed to be lost.

A number of persons are known to have been drowned in the vicinity of Lynchburg and San Jacinto.

At Lynchburg the storehouse and stocks of merchandise of Capt. Towpkins, Capt. J. B. Sydnor and Mr. Sanders, the Tompkins Hotel and Warehouse, Masonic Hall and smaller buildings were swept away.

The buildings at Gibb's Shipways were destroyed. The steamer *Tam* was on the ways. Holes were bored in her and she settled on them and is supposed to be all right, saving both herself and the ways.

At San Jacinto Mr. Thompson's home and the Hendley store were swept off. Mason's mill is standing but greatly damaged.

When the north wind came out Friday the Lizzie and barges were driven to the San Jacinto side and thrown on the bank. Two barges were landed against the trees and the Lizzie and two barges were stern on the bank. The Matamoros, which had got steam up and cut her cables, after the weather was over Saturday morning, commenced work on the Lizzie. About 4 p.m. the Fowler came along and the two steamers united their efforts and by 6 p.m. the Lizzie and two barges were got off the bank unimpaired, relieving \$50,000 of property from jeopardy.

The Starr and the two barges lie below the Lizzie, and efforts were being made Saturday morning to relieve them. Four of the Navigation Company's barges are on the flats up Old river, two on the bank fifteen feet above ordinary tide, on the San Jacinto side. The tug Superior is up Old river; Gibb's new tug is up Old river, and it is thought will be saved. Capt. Cadwallader thinks two of the barges, and probably the others, will be secured all right. The two on the San Jacinto side will be got off with but little difficulty. Passmore's schooner is to be seen on the flats about one and a half miles from San Jacinto. One of Dugay's schooners lies on the flats near Old river.

Capt. Bell estimates the rise of the tide at Lynchburg at fourteen feet above ordinary tide.

Capt. Cadwallader, of the H. D. N. Co., was at work with the Bizzell all day Saturday. He reports the bell of the Superior a total loss.

The report is that all the houses along the shore from Lynchburg to the Bay are swept off. The tug Ontario, Capt. Caston, was at Morgan's Point till Thursday night, when it took refuge in Goose Creek, and survived the gale. The current ran so strong Saturday that no tug boat could be induced to go below. It is impossible to get fuel for steam; all the wood along the bayou is swept off or rendered useless for the time.

The scene from Harrisburg to Lynchburg is deplorable. The water is up to the top of the cars on the San Antonio Railroad track at Harrisburg. At Norsworth's it was up to the front yard gate. At Massie's, the drift marked the height of the tide far up the bank at his landing. Dr. Massie stated to the passengers on the Fowler that the tide water from the Gulf was thirty four inches above the highest rain flood within his knowledge on the bayou. Thousands of cords of wood, piling and mill timber, the results of the whole year's toil, have been carried away by the waters. Many flat boats and other craft, upon which the people of the bayous relied for a support, have been destroyed. At Dr. Massie's considerable stock was drowned, and it is supposed the same has occurred at more exposed points. Between Lynchburg and Morgan's point, not a house is standing on the immediate shore of San Jacinto Bay, or on the islands, except the warehouse of the Ship Channel Company on the Point. Of the residents, the Perkins family, Rev. Mr. Alexander and wife, August, a fisherman, Jos. Martin and wife, Mr. and Mrs. West, Mr. McKee and Charles Post are known to be saved. Mrs. Pierce and four children, little Clara Grafton, Mrs. McKee and Mrs. August, are known to have been lost. Mr. and Mrs. Alexander and Mr. McKee are said to have been saved by young Mr. Miltin.

TECHNICAL Gleanings.

THE PROW AND TOMAHAWK.

Muskogee, I. T., September 17.—The International Indian Fair closed to-day. Everything planned in the most perfect order. The wild Indians lost to day for their distant homes, well pleased with all and determined to take the premium on farm products next year. The meeting of representatives of over thirty tribes in friendly intercourse at an agricultural fair marks a new epoch in the Indian policy that will result in good. The play will take the place of the tomahawk.

Schroeder, Pa., Sept. 17.—The Welsh National "Bistituted" continues with great success. Gov. Hartman presided yesterday. At the afternoon session full 8,000 people were present, listening to the several choirs, numbering from 200 to 300 persons each. In their contest for the prize in choral singing the piece selected for the contest was "Ring Up, Ring" from Mendelssohn's St. Paul.

A Health-Yielding Stimulant.

It is essential for a man to drink ordinary liquor, when he feels weak, to enable him to perform work satisfactorily. The fatigue and sickness produced is increased and aided by the debilitating reaction of the stimulants of commerce, so that this temporary invigoration is purchased at a fearful cost to health. A stimulant, in order to impart healthful energy, should be medicinal. The reason thus Horsetail's Stomach Bitters are so wonderfully efficacious as a restorative and preventive is that their alcohol basis of pure Old Rye is mingled with vegetable tonics and alteratives which are the most potent known to medical botanists. Their immediate or stimulative effect is to rouse the dormant energies, and their subsequent operation is to permanently invigorate, through the medium of restored digestion and secretion, the various organs of the body.
