No one remedy is louder called for by the necessities of the American people than a sure sand safe cure for Fever and Ague. Such we are now enabled to offer, with a perfect certainty that it will eradicate the disease, and with assurting that the history of the terminate of the theory of the terminate of the te order must be of immense service in the communities where it prevails. Precention is better than cure, for the patient exchaes the risk which he must run in violent attacks of this baleful distemper. This "CUR" expels the mineralic policy of the risk and the result of the disease, if taken on the first approach of its premonitory symptoms. It is not only the best remedy everyet discovered for this class of complaints, but also the cheapest. The large quantity we supply for a dollar brings it within the reach of everybody; and in billous districts, where Fever and use the process of the for care and protection. It is hoped this price will place it within the reach of sil — the poor as well as the rick. A great superiority of this remedy over any other ever discovered for the speedy and certain cure of Intermittents is, that it contains no Quinting or mineral; consequently it produces no quintism or other injurious effects whatever upon the constitution. These cured by it are left as healthy as if they alie such as the discovery of the remediation. These or the minematic poison. A great variety of disorders arise from its irritation, among which are Neurals? Hormatism, Gout, Headache, Bliadness, Toothache, Earache, Catarrh, Ashma, Palpintion, Pain in the Bowels, Colle, Paralysis, and docungement of the Stougach, all of which, when originating in this cause, put on the laternited type, or become periodical. Mr. and Mrs. West (formorly Mrs Grafton,) occupied a new house Baytown. Mrs. McKee and li-Clara Grafton, Mrs. West's shild were with them. When the water rose over Hog Island, Mr. McKee Charles Post, the light keeper, and Mrs. Pierce with four children Mrs. Pierce with four children, abandoned that place and come in a skiff to West's Thursday morning before daylight. During Thursday the water rose gradually in the house, and by afterneous seached the ceiling. They hung on by the windows until 4 P. M., when finding that the water was gaining, they got into a skiff, with the hope of reaching the high land. In half as hour the skiff swamped, and getting hold of the windows again, two children were lost, the sidest and youtgest girl. Mr. West then made a hole in the roof, and all wese got

hole in the roof, and all were got on it. Small hand holes were made to cling to. In a short time the roof was ewest away from the building; the tide carrying them up the Bay several miles. They drifted about Thursday night and Friday at the mercy of the waves, during which time Mr. McKee and Mr. Post got in a tree. When the Norther came out Priday and drove them back down the Eay. Of the occupants of the roof none remained but Mr. and Mrs. West, Mrs. Pierce, and one child and Mr. Post. The wind drove them across the Rey, and the current into the mouth of the canal. Just as the roof entered the canal it turned over and Mrs. Pierce and the child were lest. Mr. West rose, clinging to his wife, and seized the roof again, the current swept the roof over on the east side, and when it struck the bank the two were thrown up on the side of the damp. POSTMASTER GESTRIAL JEWELL has sent telegrams to Col Tom Scott and to Wm. II. Vanderbilt, complimenting them highly on the success of the fast mail trains resently established on their roads. He says that no other country, except Rus sia, can run postal cars 2,000 or 3,000 miles, or half those distances, et a stretch, without running off the edge, Considering the magnitude of our territory, he believes our dispatch of mails is now un

THE ORBITCAL IDEA of free, republican, democratic government, is, that it tunates, is a government of the people, by the people, and for the people. Now the question is, who are the people !.. The true answer is, that every citizen of the United States; by birth or naturalization is one of that collective whole which is called "the people of the United States." We, the people of the United States, or-Declaration of Independence says that endowed by their Creator with certain inulienable rights." Equality in civil, political, and municipal rights can only be maintained by equal suffrage.

Mey. Dr. Alexander Lost.

The Galveston and Houston papers are filled with the details of the loss of life. destruction of property, and other disagters of the storm. Among those rem ported missing and almost certainly lost, are Rev. Robert Alexander, D. D., and family. Adam's Island in Galveston Bay, near the month of Buffalo Bayou, is reported as ewept clean of houses farme, and gardens, as are all the other islands on that coast. This was Dr. Alexander's home, and nothing has been heard of him or his Jamily since the

storm. That they are lost seems certain. Rev. Dr. Alexander was the oldest clergyman of the Methodist Episcopal Church, in active service in Texas. Hewas sent to the Republic in 1837 as a carry this into effect. The Legislature, aries were sent at the same time by the of Correction, in which all juvenile offen-Methodist Episcopal authorities in the ders, under eighteen years of ago, shall be United States; Rev. Dr. Martin Ruter, confined, Hev. Littleton Fowler, and Rev. Robert Alexander. The first two, who were eminent men, died after a few years ser- Referred.

vies. Dr. Ruter is buried in Fayette county, and a memorial church was erected to his memory at Washington on the Brathere in the winter of 1854. Mr. Fowler was buried within a few miles of Milam, Sabine county, at McMahon's Chapel, We saw his tablet and luscription there in the winter of 1855.

Dr. Alexander was thus left at the in Texas. We found him here in 1854. He has been a man abundant in labors, of strong character, of great force of will,

Help for the Sufferers.

The heart of the whole State and the whole nation has been stirred by the dismal history of wreck, rule, destruction News From all Parts of the and death, along the Texas coast, caused by the late terrible cyclone. Victoria and Galveston were the first to move; Galveston, damaged as she was, and mourning the loss of her sons and daughters, did not forget that hundreds of human beings at other points along the coast were naked and starving, and that they would them from any other place. Had it not been for Victoria and Galveston, the first with her few hundred people, and the last with her forty thousand, many of the sufferers would have perished before help could have possibly reached them from the interior, cut off as the coast was by the destruction wrought by

the storm. Our telegraphic dispatches will show what is being done by various places for the relief of the sufferers. Sail vessels and steamers are going down the coast with clothing and provisions. Austin and other towns in the interior are mov-

ing in the matter. And now comes the news that the Mayor of Boston, Hon. Samuel C. Cobb, has sent \$5,000 fat once, for immediate reflef, and that clothing will be forwarded as received. Noble, generous, grand, magnanimous Boston! She sent \$30,-000 as a first installment last year for the relief of the sufferers by the overflow of the Mississippi River in Louisiana, Mississippi, and Arkansas; and then kept on

sending relief as long as it was needed. And now she comes to the help of the sufferers on our coast with her usual promptitude and munificence. It seems that Providence has ordained that Boston, the centre of New England

philosophy and culture, should thus be continually brought but the communion of suffering and sympathy with the people of the far South, so that the bitterness of long years of political strife may be assuaged and sweetened by those "touches of nature" which "makes the whole world kin," and by the still higher and diviner influences of christian charity. Let us hear no more about the differences in blood, character, and civilization, between the North and Southno more about two Nations, two distinct peoples. It is all a miserable lie, invented by the devil, and promulgated by his dupes and emmissaries, to plague, divide, and destroy a grand Nation and

a glorious Republic. And now comes the turn of San Anto rio to help in this noble cause. Maj. G. W. Brackenridge, President of the First National Bank, whose heart is always in the right place, leads off with in our telegrams to-day. Let other wealthy men and firms follow his generons example.

To-night all the people of San Autonio will have their turn. Prof. Beardslee, and the amateurs of San Antonio who make up his "Old Folks" Concert class, give a benefit to the Indianola sufferers to-night at the Presbyterian Church. The concert last night was a grand success. To-night the large church will be crowded, as everybody wishes to give a dollar to help the unfor-

SAN ANTONIO has within the last couple of years assumed quite an important position as a horse market. The extensive stockraisers of Mexico make frequent visits to our city, bringing large droves of well-conditioned and salable horses. Don Camilo Sacus, from Mier, is new here, and has already disposed of a greater part of his large caballade. Let us scourage every movement tending to increase our importance as a general commercial city, and great trading centre.
