THE HUGREY STATE.—As we go to press the returns coming in from Ohio indicate the complete and overwhelming defeat of inflation.

Cincinnati gives the Republican candidate for Governor, a majority of four thousand votes. A result unlooked for even by the most sanguine hard-money leaders.

We shall have more to say on this subject as the returns come in.

The Typographical Union.

In our issue of yesterday we published an account of what took place the evening before among our workmen, as illustrating the happy results emanating from the Printers' Union.

It is proposed in this to give our readers some idea of the nature and objects of this Union. In the first place it may be stated that the Printers' Union is only one of the many combinations formed of late in the interests of the poor and weak against the encroachments of the rich and powerful.

Capital acts with a concentrated force which labor, as heretofore unorganized, was entirely unequal to contend against, and the result was the complete subjection of labor to the most tyrannical rule of capital.

It is well known that capital is grasping and unscrupulous to an extent bounded only by its opportunities.

While classes of individuals and races, too, have been made to serve this despotic power even without compensation until liberated by the resistless force of correct public sentiment, or by the strong arm of physical power.

In this despotism of capital is found the cause which gives life and vigor to the numerous Trades Unions now existing throughout the country, and whose grand objects are the vindication of right, and justice, and the elevation and dignity of labor.

Of this character is the Printers' Union. And who will contend that it is not correct in principle, however wise its practical operations may have been at times.

This, in common with all other human institutions, is liable to err. It is objected that these Unions are often controlled by a few noisy, restless members, and that strikes are not always the voluntary action of the disinclined hands, but that they are movements forced upon the laboring community by a system of terrorism and violence.

Now, while this may sometimes be true, it must be conceded that such a state of things is not common to, or is the natural tendency of the Union, and, whenever properly directed, strikes have accomplished much good to society.

Let us remember that the only safe criterion by which to judge of the merits or demerits of any combination is in its proper and legitimate use, and is not in its abuse, as is too often the case. It is objected, too, that when they do not wish to work themselves, they interfere to prevent others from working, but that is the natural outgrowth of such an organization, and if it is admitted as conceded that the objects sought to be attained by Unions are legitimate, it must be acknowledged that they would stultify themselves if they made an effort to prevent others who follow their calling at the tail end of trade—from stopping to do the piece reaped by themselves, for this would place employes in a condition to disregard the organized demands of labor.

The true and true maxim "who is not with you is against you" applies here, and it is the object of the Union to induce all their fellow-tradesmen to join with them, that all may stand together to that high degree of efficiency and social standing which the Union strives to attain for its members—creating in their minds a zeal and pride to make themselves and their organization respected by those who are outside. The primary objects of the Union are to elevate their calling in general and to secure fair pay for their labor, objects which are not inconsistent with the interests of the community.

It is not the design of these trade societies to dictate arbitrary terms to employers regarding their right, but they seek to better study and learn the respective rights of each and the proper relations which the workman bears to his employer, and in case of necessity to enforce these relations. For this purpose the only means at hand is the strike, after requests have been refused and the strike has been declared, the result is that the employer is gradually brought to a better understanding of the rights of his employes.

Taxation Without Representation.

"Taxation without representation is tyranny." Every American acquainted with the history of his country knows that the Patriot Fathers of American Institutions asserted that grand political proposition in justification of revolutions, and struggled heroically, through years of sacrifice and suffering, until they carried, against the most desperate odds, the fortunes of their country into the full fruition of National Independence. They asserted a self-evident truth, and it is equally true that the world has acknowledged the fact, but the converse of the proposition, namely, that "representation without taxation is tyranny," has never been looked upon as a republican axiom, and is undeniably subversive of free institutions, even though uttered by some members of the Constitutional Convention.

This association was followed in the Convention by unrelenting efforts, worthy of a better cause, to disfranchise poor men, under the pretense that as they failed to pay taxes, they should have no voice in their expenditure or application, just as if they were brute beasts of the field; so subordinating manhood to money-bags, to pave the way for the introduction of debasing and despotic monarchical ideas, to pave the ground for aristocratic privileges, for military rule, for the old oligarchies.

The road to destruction is easily traveled, when once started upon by any people. Privilege is the entering wedge that can split the Charter Oak of our National Liberties. Concede to a part of the Nation the right of the whole, and the work of decadence and destruction naturally follows, in due and inevitable succession.

We regret, exceedingly, to find that a member of the Convention, from our own county of Bexar, where we have many poor and struggling but honest, honorable and hard-working citizens, openly advocates a clean receipt of ten years' payment of taxes as a sine qua non for voting!

But where is representation without taxation? Can the upholders of restricted suffrage—of money-bags vs. manhood—point out a single man, white or black, outside of charitable or criminal establishments, who is not a taxpayer, in many respects?

Is not the poor man taxed for the food he eats and drinks, and the clothes he wears? Government Internal Revenue, State, County and Municipal Corporation licenses—are not these taxes? And pray, who pays the most of these indirect taxes? Principally the poor, from the fact of their being ten poor men to the one rich man, and, therefore, the poor man actually contributes more to the support of the country as his consumption of necessary articles, indirectly taxed, is much greater. But, forsooth, business or poor men can not show a ten year clean tax receipt they were to be disfranchised!

Speak of tyranny! In the name of the founders of American institutions, would not this be tyranny?

We admire the clear-sighted wisdom, pluck and principle of the defenders of equal rights in the Convention, in successfully opposing the persistent efforts of able but mistaken men, who possessed of the sole idea in this matter of controverting existing majorities in different sections of Texas, would, to destroy those majorities, rashly and inconsiderately ride over the inestimable birth-right of every free-born American citizen—the right of suffrage—free, unqualified and unrestricted.

Hon. Alex. H. Stephens.

The telegraph reports, that this gentleman is very ill at Augusta, Ga. He has, all his life, seemed "at the point of die," from mere lack of physical vigor. He is now getting to be an old man, and the great suffering he is now enduring from stone in the bladder, is likely to carry him off.

He has long been noted as one of the great intellects of the South. He has been in public position nearly all his life, and has filled every station with honor and ability, though his career has often been subject to severe criticism. But no man of any notabilities, either from intellect or character, could escape criticism in such times as we have had, in consequence of our sectional politics and our sectional war.

Mr. Stephens has been very happy in having commended himself to nearly all parties since the close of the war. The strongest writer in the South in behalf of what was held to be the constitutional right of secession before the war, he has, nevertheless, been a Union and Reconstruction man, practically, ever since the war, and has been generally approved by the Northern people. The Republicans of his own District voted for him, to a great extent.

We attribute much of his conservatism of temper and practice to his having been trained as a Whig in early life, although he afterwards became a State Rights Democrat. It is a remarkable fact, however, that he opposed the secession of Georgia, and never wrote or published his work favoring secession until after the war.

Several New York papers have lively comments on the discovery of a subterranean tunnel on Long Island. The Herald, in allusion to this subject, says:

"The tunnel, however, perhaps, why the tunnel should be so long, is a mystery."

DRS. DRUMMOND & FISHER, Homoeopaths, Houston street, opposite the Vance House. A full supply of Homoeopathic Medicines always on hand. [dtf

We received a pleasant call this morning from our young friend, J. H. Skiving, traveling agent for the business house of L. Heyniger & Co., New York, dealers in willow ware, wooden ware, etc. Call again.

PANCOAST & SON are now prepared to do the very best of custom work. Having secured the services of Mr. M. H. Redwood, as their cutter, and having a stock of imported cloths and casimere that can not be surpassed, they feel assured they can give perfect satisfaction to all.

Some gulfed, lightfingered person entered the room of a couple of young gentlemen, not very far from the Presbyterian church, a day or so since, and stole a six-shooter. If the thief will return it to this office, he will receive \$5, and the possible insurance of a five years' residence at Huntville.

"Raising the Wind," which gave so much merriment a week or two since, and "Who Speaks First" will be presented to-morrow night. "Toodles" and "Regular Fix," Friday, and "The Old Guard" and "Diamond out Diamond" Saturday. All at the Hall of, and for the benefit of the Alamo Literary Society.

DR. PANOLSON'S attempt at dancing is so extremely ludicrous that it excites a laugh from all who see the play—who can laugh. True there are some people who cannot laugh, but even they come nearer to it when they see the learned L. D. than under any other circumstances—go and see him to-night.

FROST & BNO have an extensive advertisement in this issue. The business of this enterprising firm has grown amazingly within the last few years, and has won for them the most important of any nation house this side of Galveston. Let the reader not overlook their advertisement, but read it, and patronize the advertisers.

THE ALAMO RIDERS, through the thoughtful management of Capt. Adams, were so successful as to secure a band for their own private use, in escorting Judge Hancock to the grounds this morning: Maj. Sellers, who granted permission, and the musicians who performed their part so handsomely, merit, and will receive the fullest thanks of the company.

THE DRAMATIC CLUB are rehearsing every morning at 6 o'clock the comedy of "Diamond out Diamond," and the light tragedy of the "Old Guard," to be presented Saturday evening. One of the actors—a blonde youth—who has not risen at 6 a. m. for eight years before, appeared this morning only ten minutes late. Pretty well done, Bub, for the first time!

THE CITY should inquire into the reason why the hose of the new Engine No. 1, is not strong enough to bear half the pressure of steam the engine is calculated to admit of. If it has been poorly attended to by the man who has it in charge, let the owners rest upon him, but if the company which furnished it gave us a worthless article, let the city refuse to pay for it.

BARBERS' UNION.—The theatrical artists of San Antonio held a meeting last evening, and organized a Barbers' Union. Mr. Sulmon was called to the chair, and Mr. Walker elected Secretary. Among other business transacted, was the adoption of a scale of prices, which will soon be published. All arts, trades and professions find that in union alone is strength, and protection of personal interest guaranteed.

THE BARBERS.—In our twenty-five cent column to-day will be found a new scale of prices adopted by the barbers of the city at a meeting held by them, and to take effect after to-day. Their reasons for advancing their prices are that they are unable to earn a living at the present rates. The following names are signed to the agreement: S. Sulmon, P. J. Walker, F. Evans, Wm. Smith, J. C. Clark, Louis Battiste, J. Shad, Joe Casamento, W. H. Walker, H. Selmy, J. Thompson, W. L. Winston, R. Catenas, C. J. Kuechler, E. U. Lee.

STRANGERS AND VISITORS.—There will undoubtedly be a great many strangers and visitors in the city during the week, and they should be well received. Very many persons will take advantage of the holding of the Fair, in the city, to visit San Antonio, and it is to the interest of her people to encourage all they meet to take up their abode with us, extend the hand of friendship to those who chance to come among us and make them feel at home, and as though their presence is a pleasure to us. A great many strangers are in the city already and many are coming every day, with the intention of remaining permanently. Others are only prospecting, and their location among us may depend very largely upon the manner and style of their reception. We cannot greet the worthy Northern or Eastern man too cordially, and the pursuance of the proper course will undoubtedly prove of incalculable benefit to San Antonio and her citizens.

ENGINE TRIAL.—There was a departmental engine trial yesterday, in the old cotton yard, in which our four fire companies and the hook and ladder company took part. The Department was fully represented, and, as it was the first trial since the recent election of the present efficient and popular Chief, Mr. Henry Newton, the members displayed an unusual skill and energy in their movements. No. 1 is an excellent engine. She throws water with a force sufficient to knock a man down, and sends two regular fifty foot streams, with a pressure of only 95. But her hose is very poor. It burst in five different places yesterday, thus affecting her work in case a fire be any way distant from a watering place. No. 2 has always been our favorite. Although not of equal capacity with No. 1, she is generally more reliable. The streams she threw yesterday were regular and strong, though by no means as handsome as a machine as her younger friend, she is nevertheless well kept, and is never behind in any fair contest. Companies 3 and 4 are composed entirely of colored men—almost every worthy colored man in the city being a member of one or the other of them. The will to work is always well displayed by these colored men on occasions of fires, and when we take into consideration the difficulties under which they labor with their old-fashioned hand-engines, we cannot but express gratitude for the efficient aid they have never failed to render. It will be remembered that on the occasion of the last great Chicago fire, it was a colored fire company which was the last to fly before the spreading flames. Fortifying themselves against the fire, they contested every inch of ground, until one great flash of flames swept over them, consuming their engine and seriously burning several of the fire men. Give the boys a chance—there is nothing like encouragement.

Mr. Louis Huth of the Hook and Ladder Company, without the knowledge of the company, had heaped together great piles of dry weeds. These were set fire to in a moment when the attention of the members of the company was mostly directed to other parts of the field, but in an instant, a perfect line was formed, and the buckets passed rapidly from one to another, until reaching the man next to the engine, who put it out.

Another thing this was the most satisfactory engine trial we have yet seen in our city. These trials are good for practice, and should be of a frequent occurrence as convenient with the business of the members of the companies. We have so few fires, that when the companies are called out, want of practice renders them little else than mere toys.

GENTS furnishing goods—a full line of the very best at Pancoast & Son's.

We long for the return of the epoch of peace, when the dog-cart runs its daily rounds. Noisy, mopping cars hang about every corner after dark, all night long, and the ugly brutes to frighten the innocent pedestrians, and the "Peanutmen" in the realms of Morpheus, disturbed by the hideous of the canine tribe. The old man who drives that cart, that long since won for himself the enviable reputation of a great public benefactor and philanthropist, and the citizens of San Antonio, ever ready to vote railroad subsidies, assist the poor and destitute, and bestow commendation where praise is deserved, should not be backward in encouraging the man who maneuvers and studies so hard to exterminate these pests of our city.

WE RECEIVE the information from a reliable source, that some mischief-making urethras, (to us well known) have, for several nights passed stoned the house which Prof. Walker now occupies as a school-house. Such conduct is not to be tolerated; and, if these disturbers of the public peace do not abate their rascality, we will have to place their names before the public.

BASK BALL.—There will be a match game on the Fair Grounds on Friday, between the Bon Milam and Bexar Clubs, for the silver Cup offered by the Association. No other clubs have sported as yet, although the Sutherland Springs Club are expected to put in an appearance some time during the week. The game between the Bexars and Bon Milams will be an interesting and exciting one.

DRILL AND SERENADE.—The Alamo Rifles underwent a long and thorough drill last evening, on the Alamo Plaza. After the drill was over, the men met the military band, and, marching up in front of the Menger Hotel, gave Hon. John Hancock a delightful serenade. Quite a number of persons congregated to listen to the dulcet strains of the accomplished musicians.

OUR streets presented a crowded appearance this morning, and there at a great many visitors and strangers in the city. Our merchants are all busy and are having a lively trade. The country people are among us and are happy at the premises of the success of the Fair, and at the bargains they are making in buying goods from our merchants.

WE RECEIVED a call this morning from C. J. L. Cook, late Brig. General Cuban Liberal Army, who is now stopping up at Boerne. Gen. Cook is in the city for a day or two, attending the Fair, and will from it glean information for Eastern papers of which he is a correspondent.

THE hearts of all the attaches of the EXPRESS office were gladdened yesterday evening by Mr. F. Buell & Co., who, with their accustomed liberality, sent us a box of their celebrated San Antonio Beer. Such favors are always appreciated by us.

THE ALAMO RIDERS met for drill last evening, and will not drill on Thursday evening in consequence. They escorted the Hon. John Hancock and suite to the Fair grounds, this morning, and present an excellent appearance in full uniform.

At 10 o'clock this morning the Alamo Rifles met at their armory, marched to the Menger Hotel under command of First Lieutenant Alex. Schmeiz, to escort the Hon. John Hancock to the Fair grounds. The company was preceded by the 10th Infantry band, which discoursed the sweetest of music as the men marched on their way.

Arrived at the Menger, the customary military salute was tendered Mr. Hancock, who soon made his appearance, escorted by Capt. Adams, Mayor and City Council, and the men again took up the march, which was interrupted on lower Flores street by some eight hackmen, who insisted on the boys in grey riding the balance of the way. Soldiers, as a general thing, are not a selfish set, and without improper hesitation complied with the request of the drivers.

The Fair Grounds were reached in safety. At 12 o'clock the drum beat a call to arms, when the Rifles again fell in, and under inspiring music were drawn up in front of the large amphitheatre, to hear what was to be said by way of inauguration of the Fair.

Judge Hancock had been invited, and was present, to deliver the opening address, but the number present was so small that it was thought best to have his remarks deferred.

Gen. W. H. Young, then, in behalf of the Association, took the stand, and, after giving excuses for the slim attendance of spectators, announced that, in consequence thereof, the Hon. John Hancock would deliver his address to-morrow afternoon, at 4 o'clock. The General concluded his remarks by thanking the Alamo Rifles for the admirable manner in which they had departed themselves in escorting the distinguished speaker to the grounds, also complimenting them on their fine, soldierlike appearance.

The different departments are not yet filled, but things of all kinds and classes continued to come in during the day, and we expect, to-morrow, and for the balance of the week, to see one of the best general displays ever had in this section.

A great many fine blooded horses have already arrived, and in this line the Fair will surely be an unequalled success. Among the fine animals on exhibition is the very handsome two-year-old stallion, Slow Robinson, owned by Mr. J. D. East, of Blanco. He is a perfect model of form and beauty, and we have not the least doubt but he will receive the prize.

There is a drawing in the Fine Art Department of a prospective Concourse for San Antonio. It is the work of Mr. Alfred Giles, executed in this city, and is a beautiful and tasteful plan. But it is ahead of our times, and we doubt whether it would be expedient to construct such a building at present. Hair work, wigged work, and other evidences of the skill of San Antonio's ladies ornament this attractive department.

REV. MR. HORTON has, through the kindness and hospitality of our citizens, secured stepping places for all the ministers and visitors who are expected to visit the city during Conference, next week.

Mr. Moody is likely to receive far more severe criticism from his countrymen than he experienced in England. He only been back a few weeks and has delivered half a dozen discourses in Massachusetts; but opposition has already been aroused, both on the part of "orthodox" ministers, who believe that nobody but a regularly ordained preacher has a right to try and give the souls of men, and from the Unitarian Church, which is considered by the Evangelical denominations, as the embodiment of heterodoxy. The first open attack upon Moody was made last Sunday by the Unitarian preacher in his native town, Northfield, Mass., who delivered a sermon aimed directly at the doctrines enunciated by Moody and Sankley. Moody's own brother is a member of the Unitarian Church, but he has hitherto remained impervious to the pleading of his brother to come into the orthodox fold. The Rev. Mr. Sunderland, the Northfield Unitarian preacher took the ground that Moody's doctrine of an atonement for sin by a sacrifice of the blood of the Son of God was a monstrous and heathen heresy. The doctrine of an eternal hell as a punishment for the non-acceptance of the sacrifice of Christ he also denounced as a blighting memento of a barbarous condition of society. In other minor points, Mr. Sunderland took direct issue with Moody, and it is said the Evangelists intend to reply to the attack at an early date. It will be unfortunate if Moody has returned to this country only to engage in bitter controversies over points of doctrine which are rarely conducted without a descent into gross personalities. If he has good news to tell to weary and suffering souls, he had better stick to the simple story which was the procuring cause of his success in England. Mere polemics will injure his influence and disappoint those who have expected spiritual blessings from his advent.

**OUR FAMILY BREAD.**  
Truly the most important adulterations  
to avoid are those which are calculated to  
injure the "stomach of life," our family  
bread. We know that merchants who  
supply their customers with pure articles  
like Dr. Price's Cream Baking Powder and  
his Pure Flavoring Extracts, retain bet-  
ter patrons, have a larger trade, and  
make more money, than those who buy  
and recommend articles that are poor  
and cheap. Besides its pleasure to have  
articles that never fail to give satisfaction,  
and that can be used with safety. Aside  
from its excellence, Dr. Price's Cream  
Baking Powder is one-third stronger, two  
cans equal to three of other kinds.

Not disagreeable; hardly more bitter  
than larger bread, and much more satisfac-  
tory and pleasant. Simmons' Liver Reg-  
ulator can be taken at any time, without  
interfering with business or pleasure. It  
is so gentle, safe, and such a good digester  
that it is often used after a hearty meal  
to settle the food and relieve any appre-  
hension that the meal may disagree with  
you.

**VINEGAR BITTERS**  
GRATEFUL THOUSANDS PROCLAIM  
VINEGAR BITTERS the most wonder-  
ful invigorant that ever sustained the  
sinking system.  
No Person can take these Bitter-  
s according to directions, and re-  
main long unwell, provided their  
bones are not destroyed by mineral  
poison or other means, and vital or-  
gans wasted beyond repair.  
**Bilious, Remittent, and In-  
termittent Fevers,** which are so  
prevalent in the valleys of our great  
rivers throughout the United States,  
especially those of the Mississippi,  
Ohio, Missouri, Illinois, Tennessee,  
Cumberland, Arkansas, Red, Colo-  
rado, Brazos, Rio Grande, Pearl,  
Alabama, Mobile, Savannah, Ro-  
anoke, James, and many others,  
with their vast tributaries, through-  
out our entire country during the  
Summer and Autumn, and remark-  
ably as during seasons of unusual  
heat and dryness, are invariably ac-  
companied by extensive derange-  
ments of the stomach and liver, and  
other abdominal viscera. In their  
treatment, a purgative, exerting a  
powerful influence upon these vari-  
ous organs, is essentially necessary.  
There is no cathartic for the purpose  
equal to Dr. J. WALKER'S VINEGAR  
BITTERS, as they will speedily remove  
the dark-colored viscid matter with  
which the bowels are loaded, at the same  
time stimulating the secretions of the  
liver, and generally restoring the healthy  
functions of the digestive organs.  
Fortify the body against disease  
by purifying all its fluids with  
VINEGAR BITTERS. No epidemic can  
take hold of a system thus fortified.  
**Dyspepsia or Indigestion,** Head-  
ache, Pain in the Shoulders, Coughs,  
Tightness of the Chest, Dizziness, Sour  
Eruptions of the Stomach, Bad Taste  
in the Mouth, Bilious Attacks, Palpi-  
tation of the Heart, Inflammation of the  
Lungs, Pain in the region of the Kidneys,  
and a hundred other painful symptoms,  
are the offspring of Dyspepsia. One bot-  
tle will prove a better guarantee of its  
merits than a lengthy advertisement.  
**Scrofula, or King's Evil,** White  
Swellings, Ulcers, Erysipelas, Swelled  
Neck, Goitre, Scrofulous Inflammations,  
Indolent Inflammations, Mercurial affec-  
tions, Old Sores, Eruptions of the Skin,  
Sore Eyes, etc. In these, as in all other  
constitutional Diseases, WALKER'S VINE-  
GAR BITTERS have shown their great cur-  
ative powers in the most obstinate and  
incurable cases.  
**For Inflammatory and Chronic  
Rheumatism,** Gout, Bilious, Remit-  
tent and Intermittent Fevers, Diseases  
of the Blood, Liver, Kidneys and Bladder,  
these Bitters have no equal. Such Dis-  
eases are caused by Vitiated Blood.
